RE: Petition approval request from Mike Louis regarding a proposed referendum petition for Senate Substitute 2 for Senate Bill 19 (2018-R002)

Dear Auditor Galloway:

Enclosed please find a referendum petition sample sheet for Senate Substitute 2 for Senate Bill 19 filed by Mike Louis on February 21, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any referendum petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

PETITION FOR REFERENDUM

To the Honorable John P. (Jay) Ashcroft, Secretary of State for the state of Missouri:

We, the undersigned, registered voters of the state of Missouri and _____ County (or city of St. Louis), respectfully order that Senate Substitute Number 2 for Senate Bill No. 19, entitled "An Act To amend chapter 290, RSMo, by adding thereto one new section relating to labor organizations, with penalty provisions," passed by the 99th general assembly of the state of Missouri, at the first regular session of the 99th general assembly, shall be referred to the voters of the State of Missouri, for their approval or rejection, at the general election to be held on the 6th day of November, 2018, unless the general assembly shall designate another date, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or city of St. Louis); my registered voting address and name of the city, town or village in which I live are correctly written after my name.

SENATE SUBSTITUTE NO. 2 FOR

SENATE BILL NO. 19

99TH GENERAL ASSEMBLY

2017

0269S.05T

AN ACT

To amend chapter 290, RSMo, by adding thereto one new section relating to labor organizations, with penalty provisions.

Be it enacted by the General Assembly of the State of Missouri, as follows:

Section A. Chapter 290, RSMo, is amended by adding thereto one new section, to be known as section 290.590, to read as follows:

290.590. 1. As used in this section, the following terms shall mean:

(1) "Employer", any individual, organization, partnership, state agency, political subdivision, corporation, or other legal entity which employs or has employed one or more individuals performing services for the entity within this state; and

(2) "Labor organization", any organization of any kind or agency, or employee representation committee or union which exists for the purpose in whole or in part of dealing with employers concerning wages, rates of pay, hours of work, other conditions of employment, or other forms of compensation.

2. No person shall be required as a condition or continuation of employment to:

(1) Become, remain, or refrain from becoming a member of a labor organization;

(2) Pay any dues, fees, assessments, or other similar charges however denominated of any kind or amount to a labor organization; or

(3) In lieu of the payments listed under subdivision (2) of this subsection, pay to any charity or other third party any amount equivalent to, or on a pro rata basis, any dues, fees, assessments, or other charges required of members of a labor organization.

3. Any agreement, understanding, or practice, written or oral, implied or expressed, between any labor organization and employer

that violates the rights of employees as guaranteed under this section is unlawful, null and void, and of no legal effect.

4. Any person who violates or directs another to violate any provision of this section shall be guilty of a class C misdemeanor.

5. (1) Any person injured as a result of any violation or threatened violation of this section shall be entitled to injunctive relief against any and all violators or persons threatening violations.

(2) Any person injured as a result of any violation or threatened violation of this section may recover any and all damages of any character resulting from such violation or threatened violation including costs and reasonable attorney fees. Such remedies shall be independent of and in addition to the other penalties and remedies prescribed under this section.

6. The prosecuting attorney or circuit attorney with jurisdiction over the location where a violation or threatened violation of this section occurs or the attorney general of this state shall investigate complaints of violation or threatened violation of this section, prosecute any person violating this section, and use all means at their command to ensure the effective enforcement of this section.

7. This section shall not apply:

(1) To employers and employees covered by the federal Railway Labor Act;

(2) To federal employers and employees;

(3) To employers and employees on exclusive federal enclaves;

(4) Where this section conflicts with or is preempted by federal law; or

(5) To any agreement between an employer and a labor organization entered into before the effective date of this section but shall apply to any such agreement upon its renewal, extension, amendment, or modification in any respect after the effective date of this section.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-R002)

Subject

Referendum petition from Mike Louis regarding Senate Substitute 2 for Senate Bill 19 (Received February 22, 2017)

Date

March 14, 2017

Description

Voters will approve or reject this statutory change.

The referendum is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated the proposed referendum could result in increased litigation. They assume it could absorb costs associated with the increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they are deferring to the Office of Administration for this request.

This petition refers to legislation that was passed this session, SB 19. Their response to Oversight on the fiscal note for SB 19, 0269-05, was that they were deferring to OA. See Oversight's wording in the actual fiscal note for SB 19. They believe their response for this referendum petition 18-R002 would be the same…defer to OA.

Officials from the **Department of Higher Education** indicated this referendum petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated they defer to the Office of Administration, Division of Personnel to calculate the fiscal impact of the proposed legislation.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this referendum petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated they defer to the Office of Administration Personnel.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. They defer to OA for response to this fiscal note request.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

The referendum petition would put the provisions of SB 19 to a vote of the people in the November 2018 general election.

This proposal should have no impact on their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this petition will not have any substantial impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no impact on their office.

Officials from **Greene County** indicated there is no quantifiable information to submit regarding estimated costs or savings to report from their county for the referendum petition. They also attached the fiscal note that was prepared for Senate Substitute #2 for SB 19 that was completed by the Committee on Legislative Research Oversight Division and notes the same. Costs of $0 for fiscal year 2018, fiscal year 2019, and fiscal year 2020.

Officials from the **City of Kansas City** indicated this referendum petition will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that they are not able to estimate any significant financial impact on their university.

Officials from **University of Central Missouri** indicated they estimate no fiscal impact from this petition.

Officials from **Missouri State University** indicated in response to this petition, no fiscal impact to their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Fiscal Note Summary

State and local government entities expect no costs or savings.

SENATE BILL NO. 19

99TH GENERAL ASSEMBLY

2017

0269S.05T

AN ACT

To amend chapter 290, RSMo, by adding thereto one new section relating to labor organizations, with penalty provisions.

Be it enacted by the General Assembly of the State of Missouri, as follows:

Section A. Chapter 290, RSMo, is amended by adding thereto one new section, to be known as section 290.590, to read as follows:

290.590. 1. As used in this section, the following terms shall mean:

(1) "Employer", any individual, organization, partnership, state agency, political subdivision, corporation, or other legal entity which employs or has employed one or more individuals performing services for the entity within this state; and

(2) "Labor organization", any organization of any kind or agency, or employee representation committee or union which exists for the purpose in whole or in part of dealing with employers concerning wages, rates of pay, hours of work, other conditions of employment, or other forms of compensation.

2. No person shall be required as a condition or continuation of employment to:

(1) Become, remain, or refrain from becoming a member of a labor organization;

(2) Pay any dues, fees, assessments, or other similar charges however denominated of any kind or amount to a labor organization; or

(3) In lieu of the payments listed under subdivision (2) of this subsection, pay to any charity or other third party any amount equivalent to, or on a pro rata basis, any dues, fees, assessments, or other charges required of members of a labor organization.

3. Any agreement, understanding, or practice, written or oral, implied or expressed, between any labor organization and employer

that violates the rights of employees as guaranteed under this section is unlawful, null and void, and of no legal effect.

4. Any person who violates or directs another to violate any provision of this section shall be guilty of a class C misdemeanor.

5. (1) Any person injured as a result of any violation or threatened violation of this section shall be entitled to injunctive relief against any and all violators or persons threatening violations.

(2) Any person injured as a result of any violation or threatened violation of this section may recover any and all damages of any character resulting from such violation or threatened violation including costs and reasonable attorney fees. Such remedies shall be independent of and in addition to the other penalties and remedies prescribed under this section.

6. The prosecuting attorney or circuit attorney with jurisdiction over the location where a violation or threatened violation of this section occurs or the attorney general of this state shall investigate complaints of violation or threatened violation of this section, prosecute any person violating this section, and use all means at their command to ensure the effective enforcement of this section.

7. This section shall not apply:

(1) To employers and employees covered by the federal Railway Labor Act;

(2) To federal employers and employees;

(3) To employers and employees on exclusive federal enclaves;

(4) Where this section conflicts with or is preempted by federal law; or

(5) To any agreement between an employer and a labor organization entered into before the effective date of this section but shall apply to any such agreement upon its renewal, extension, amendment, or modification in any respect after the effective date of this section.

RE: Fiscal Note and Fiscal Note Summary Request for House Joint Resolution No. 59

Dear Ms. Galloway:

Enclosed please find a copy of House Joint Resolution No. 59 that was received by our office.

We are referring the enclosed joint resolution to you for the purposes of preparing a fiscal note and fiscal note summary in accordance with Sections 116.160.1, 116.170 and 116.175, RSMo. As you are aware, the fiscal note and fiscal note summary are required to be forwarded by you to our office within thirty days of receipt of the joint resolution, pursuant to Section 116.170, RSMo.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

SECOND REGULAR SESSION

[TRULY AGREED TO AND FINALLY PASSED]

HOUSE JOINT RESOLUTION NO. 59

99TH GENERAL ASSEMBLY

5115H.01T 2018

JOINT RESOLUTION

Submitting to the qualified voters of Missouri an amendment repealing section 39(a) of article III of the Constitution of Missouri, and adopting one new section in lieu thereof relating to bingo.

Be it resolved by the House of Representatives, the Senate concurring therein:

That at the next general election to be held in the state of Missouri, on Tuesday next following the first Monday in November, 2018, or at a special election to be called by the governor for that purpose, there is hereby submitted to the qualified voters of this state, for adoption or rejection, the following amendment to article III of the Constitution of the state of Missouri:

Section A. Section 39(a), article III, Constitution of Missouri, is repealed and one new section adopted in lieu thereof, to be known as section 39(a), to read as follows:

Section 39(a). The game commonly known as bingo when conducted by religious, charitable, fraternal, veteran or service organizations is not a lottery or gift enterprise within the meaning of subdivision (9) of section 39 of this article if the general assembly authorizes by law that religious, charitable, fraternal, service, or veteran organizations may conduct the game commonly known as bingo, upon the payment of the license fee and the issuance of the license as provided for by law. Any such law shall include the following requirements:

(1) All net receipts over and above the actual cost of conducting the game as set by law shall be used only for charitable, religious or philanthropic purposes, and no receipts shall be used to compensate in any manner any person who works for or is in any way affiliated with the licensed organization;

EXPLANATION — Matter enclosed in bold-faced brackets **[thus]** in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.

(2) No license shall be granted to any organization unless it has been in continuous existence for at least five years immediately prior to the application for the license. An organization must have twenty bona fide members to be considered to be in existence;

(3) No person shall participate in the management, conduct or operation of any game unless that person:

(a) Has been a bona fide member of the licensed organization for the [~~two years~~] **six months** immediately preceding such participation, and volunteers the time and service necessary to conduct the game;

(b) Is not a paid staff person for the licensed organization;

(c) Is not and has never been a professional gambler or gambling promoter;

(d) Has never purchased a tax stamp for wagering or gambling activity;

(e) Has never been convicted of any felony;

(f) Has never been convicted of or pleaded nolo contendere to any illegal gambling activity;

(g) Is of good moral character;

(4) Any person, any officer or director of any firm or corporation, and any partner of any partnership renting or leasing to a licensed organization any equipment or premises for use in a game shall meet all of the qualifications of paragraph (3) except subparagraph (a);

(5) No lease, rental arrangement or purchase arrangement for any equipment or premise for use in a game shall provide for payment in excess of the reasonable market rental rate for such premises and in no case shall any payment based on a percentage of the gross receipts or proceeds be permitted;

(6) No person, firm, partnership or corporation shall receive any remuneration or profit for participating in the management, conduct or operation of the game;

(7) [~~No advertising of any game shall be permitted except on the premises of the licensed organization or through ordinary communications between the organization and its members;~~

~~(8)~~] Any other requirement the general assembly finds necessary to insure that any games are conducted solely for the benefit of the eligible organizations and the general community.

Speaker of the House

President Pro Tem of the Senate

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-HJR 59)

Subject

Truly Agreed To and Finally Passed House Joint Resolution No. 59. (Received June 1, 2018)

Date

June 21, 2018

Description

This proposal would amend Article III of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** and the **Missouri Gaming Commission.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they anticipate no impact.

Officials from the **Department of Higher Education** indicated no cost or impact for their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this legislation.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact on MoDOT/MHTC.

Officials from the **Office of Administration** indicated:

House Joint Resolution 59 proposes a constitutional amendment to reduce the amount of time a person is required to be a member of a licensed organization in order to participate in the management, conduct, or operation of a bingo game. It also removes the current prohibition against bingo advertising except on the premises of the organization or through ordinary communications between the organization and its members. There could be an unknown positive impact to the Bingo Proceeds for Education Fund as a result of the removal of the prohibition on bingo advertising. House Joint Resolution 59 will not impact Total State Revenues or the calculation under Article X, Section 18(e). This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated:

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017, their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, their office reserves the right to request funding to meet the cost of their publishing

requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated House Joint Resolution No. 59 regarding bingo will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this resolution would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for House Joint Resolution No. 59 proposing to amend Article III.

Officials from the **City of Columbia** indicated they expect no fiscal impact to their city.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **Missouri Lottery** indicated no fiscal impact to their office.

Officials from the **Missouri Gaming Commission** indicated this legislation has no fiscal impact on the operations of their office.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings from this proposal.

RE: Petition approval request from Charnita Walker regarding a proposed statutory amendment to Chapter 558 (2018-371)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Charnita Walker on March 27, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

PROPOSED MEASURE

Be it enacted by the *people of the state of Missouri:*

Section 558.019, RSMo, subsection 3 would be repealed. In lieu of it a new subsection relating to prison commitment terms for first-time dangerous felony offenders and offenders with multiple convictions of dangerous felonies. The current law reads as follows (with the matter to be deleted in [brackets], and the new matter shown underlined):

§ 558.019 R.S.Mo. (2017)

§ 558.019. Prior felony convictions, minimum prison terms -- prison commitment defined -- dangerous felony, minimum term prison term, how calculated -- sentencing commission created, members, duties -- expenses -- cooperation with commission -- restorative justice methods -- restitution fund

1. This section shall not be construed to affect the powers of the governor under article IV, section 7, of the Missouri Constitution. This statute shall not affect those provisions of section 565.020, section 566.125, or section 571.015, which set minimum terms of sentences, or the provisions of section 559.115, relating to probation.

2. The provisions of subsections 2 to 5 of this section shall be applicable to all classes of felonies except those set forth in chapter 579, or in chapter 195 prior to January 1, 2017, and those otherwise excluded in subsection 1 of this section. For the purposes of this section, "prison commitment" means and is the receipt by the department of corrections of an offender after sentencing. For purposes of this section, prior prison commitments to the department of corrections shall not include an offenders first incarceration prior to release on probation under section 217.362 or an offenders incarceration prior to release on probation under section 559.115. Other provisions of the law to the contrary notwithstanding, any offender who has been found guilty of a felony other than a dangerous felony as defined in section 556.061 and is committed to the department of corrections shall be required to serve the following minimum prison terms:

(1) If the offender has one previous prison commitment to the department of corrections for a felony offense, the minimum prison term which the offender must serve shall be forty percent of his or her sentence or until the offender attains seventy years of age, and has served at least thirty percent of the sentence imposed, whichever occurs first;

(2) If the offender has two previous prison commitments to the department of corrections for felonies unrelated to the present offense, the minimum prison term which the offender must serve shall be fifty percent of his or her sentence or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first;

(3) If the offender has three or more previous prison commitments to the department of corrections for felonies unrelated to the present offense, the minimum prison term which the offender must serve shall be eighty percent of his or her sentence or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first.

[3. Other provisions of the law to the contrary notwithstanding, any offender who has been found guilty of a dangerous felony as defined in section 556.061 and is committed to the department of corrections shall be required to serve a minimum prison term of eighty-five percent of the sentence imposed by the court or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first.]

3. Other provisions of the law to the contrary notwithstanding, any offender who has more than once been found guilty of a dangerous felony as defined in section 556.061 and is committed to the department of corrections shall be required to serve a minimum prison term of eighty-five percent of the sentence imposed by the court or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first.:

(1) If the offender has one previous prison commitment to the department of corrections for a dangerous felony offense, the minimum prison term which the offender must serve shall be fifty percent of their sentence or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first. If the offender has maintained the best possible institutional score for the year prior to their scheduled parole hearing date, then parole shall be granted. If parole is denied, a hearing shall be scheduled every two years until the offender is paroled. The first-time conviction exception of this subsection shall be applicable to all dangerous felonies occurring on or after August 28, 1994.

4. For the purpose of determining the minimum prison term to be served, the following calculations shall apply:

(1) A sentence of life shall be calculated to be thirty years;

(2) Any sentence either alone or in the aggregate with other consecutive sentences for offenses committed at or near the same time which is over seventy-five years shall be calculated to be seventy-five years.

5. For purposes of this section, the term "minimum prison term" shall mean time required to be served by the offender before he or she is eligible for parole, conditional release or other early release by the department of corrections.

6. (1) A sentencing advisory commission is hereby created to consist of eleven members. One member shall be appointed by the speaker of the house. One member shall be appointed by the president pro tem of the senate. One member shall be the director of the department of corrections. Six members shall be appointed by and serve at the pleasure of the governor from among the following: the public defender commission; private citizens; a private member of *the* Missouri Bar; the board of probation and parole; and a prosecutor. Two members shall be appointed by the supreme court, one from a metropolitan area and one from a rural area. All members shall be appointed to a four-year term. All members of the sentencing commission appointed prior to August 28, 1994, shall continue to serve on the sentencing advisory commission at the pleasure of the governor.

(2) The commission shall study sentencing practices in the circuit courts throughout the state for the purpose of determining whether and to what extent disparities exist among the various circuit courts with respect to the length of sentences imposed and the use of probation for offenders convicted of the same or similar offenses and with similar criminal histories. The commission shall also study and examine whether and to what extent sentencing disparity among economic and social classes exists in relation to the sentence of death and if so, *the* reasons therefor, if sentences are comparable to other states, if the length of the sentence is appropriate, and the rate of rehabilitation based on sentence. It shall compile statistics, examine cases, draw conclusions, and perform other duties relevant to the research and investigation of disparities in death penalty sentencing among economic and social classes.

(3) The commission shall study alternative sentences, prison work programs, work release, home-based incarceration, probation and parole options, and any other programs and report the feasibility of these options in Missouri.

(4) The governor shall select a chairperson who shall call meetings of the commission as required or permitted pursuant to the purpose of the sentencing commission.

(5) The members of the commission shall not receive compensation for their duties on the commission, but shall be reimbursed for actual and necessary expenses incurred in the performance of these duties and for which they are not reimbursed by reason of their other paid positions.

(6) The circuit and associate circuit courts of this state, the office of the state courts administrator, the department of public safety, and the department of corrections shall cooperate with the commission by providing information or access to information needed by the commission. The office of the state court administrator will provide needed staffing resources.

7. Courts shall retain discretion to lower or exceed the sentence recommended by the commission as otherwise allowable by law, and to order restorative justice methods, when applicable.

8. If the imposition or execution of a sentence is suspended, the court may order any or all of the following restorative justice methods, or any other method that the court finds just or appropriate:

(1) Restitution to any victim or a statutorily created fund for costs incurred as a result of the offender's actions;

(2) Offender treatment programs;

(3) Mandatory community service;

(4) Work release programs in local facilities; and

(5) Community-based residential and nonresidential programs.

9. The provisions of this section shall apply only to offenses occurring on or after August 28, 2003.

10. Pursuant to subdivision (1) of subsection 8 of this section, the court may order the assessment and payment of a designated amount of restitution to a county law enforcement restitution fund established by the county commission pursuant to section 50.565. Such contribution shall not exceed three hundred dollars for any charged offense. Any restitution moneys deposited into the county law enforcement restitution fund pursuant to this section shall only be expended pursuant to the provisions of section 50.565.

11. A judge may order payment to a restitution fund only if such fund had been created by ordinance or resolution of a county of the state of Missouri prior to sentencing. A judge shall not have any direct supervisory authority or administrative control over any fund to which the judge is ordering a person to make payment.

12. A person who fails to make a payment to a county law enforcement restitution fund may not have his or her probation revoked solely for failing to make such payment unless the judge, after evidentiary hearing, makes a finding supported by a preponderance of the evidence that the person either willfully refused to make the payment or that the person willfully, intentionally, and purposefully failed to make sufficient bona fide efforts to acquire the resources to pay.

13. Nothing in this section shall be construed to allow the sentencing advisory commission to issue recommended sentences in specific cases pending in the courts of this state.

Title XI EDUCATION AND LIBRARIES

Chapter 173

173.1550. Citation of law – expressive activities protected – outdoor areas deemed traditional public forums, reasonable restrictions – court action authorized, when. – 1. The provisions of this section shall be known and cited as the "Campus Free Expression Act". Expressive activities protected under the provisions of this section include, but are not limited to, all forms of peaceful assembly, protests, speeches, distribution of literature, carrying signs, and circulating petitions.

2. The outdoor areas of campuses of public institutions of higher education in this state shall be deemed traditional public forums. Public institutions of higher education may maintain and enforce reasonable time, place, and manner restrictions in service of a significant institutional interest only when such restrictions employ clear, published, content, and viewpoint-neutral criteria, and provide for ample alternative means of expression. Any such restrictions shall allow for members of the university community to spontaneously and contemporaneously assemble.

3. Any person who wishes to engage in noncommercial expressive activity on campus shall be permitted to do so freely, as long as the person's conduct is not unlawful and does not materially and substantially disrupt the functioning of the institution subject to the requirements of subsection 2 of this section.

4. Nothing in this section shall be interpreted as limiting the right of student expression elsewhere on campus.

5. The following persons may bring an action in a court of competent jurisdiction to enjoin any violation of this section or to recover compensatory damages, reasonable court costs, and attorney fees:

(1) The attorney general;

(2) Persons whose expressive rights were violated through the violation of this section.

6. In an action brought under subsection 5 of this section, if the court finds a violation, the court shall award the aggrieved persons no less than five hundred dollars for the initial violation, plus fifty dollars for each day the violation remains ongoing.

7. A person shall be required to bring suit for violation of this section not later than one year after the day the cause of action accrues. For purposes of calculating the one-year limitation period, each day that the violation persists, and each day that a policy in violation of this section remains in effect, shall constitute a new violation of this section and, therefore, a new day that the cause of action has accrued.

(L. 2015 S.B. 93)

Missouri Statute 173.1550. Citation of law — expressive activities protected — outdoor areas deemed traditional public forums, reasonable restrictions — court action authorized, when. — 1. The provisions of this section shall be known and cited as the "Campus Free Expression Act". Expressive activities protected under the provisions of this section include, but are not limited to, all forms of peaceful assembly, protests, speeches, distribution of literature, carrying signs, and circulating petitions.

[2. The outdoor areas of campuses of public institutions of higher education in this state shall be deemed traditional public forums. Public institutions of higher education may maintain and enforce reasonable time, place, and manner restrictions in service of a significant institutional interest only when such restrictions employ clear, published, content, and viewpoint-neutral criteria, and provide for ample alternative means of expression. Any such restrictions shall allow for members of the university community to spontaneously and contemporaneously assemble.

3. Any person who wishes to engage in noncommercial expressive activity on campus shall be permitted to do so freely, as long as the person's conduct is not unlawful and does not materially and substantially disrupt the functioning of the institution subject to the requirements of subsection 2 of this section.]

4. Nothing in this section shall be interpreted as limiting the right of student expression elsewhere on campus.

5. The following persons may bring an action in a court of competent jurisdiction to enjoin any violation of this section or to recover compensatory damages, reasonable court costs, and attorney fees:

(1) The attorney general;

(2) Persons whose expressive rights were violated through the violation of this section.

Missouri Statute 173.1550 Paragraphs 2 and 3 unconstitutional Missouri Constitution and of the U.S. Constitution First and Fourteenth Amendments, also violate U.S. Supreme Court Marsh v. Alabama (1946) 326 U.S. 501, Schneider v. State (Town of Irvington), 308 U. S. 147 (1939), Watchtower Bible & Tract Soc. of N. Y., Inc. v. Village of Stratton,
536 U.S. 150 (2002)

U.S. Supreme Court Marsh v. Alabama, 326 U.S. 501 (1946)
Marsh v. Alabama No. 114 Argued December 6, 1945 Decided January 7, 1946 326 U.S. 501

APPEAL FROM THE COURT OF APPEALS OF ALABAMA

Syllabus

1. A state can not, consistently with the freedom of religion and the press guaranteed by the First and Fourteenth Amendments, impose criminal punishment on a person for distributing religious literature on the sidewalk of a company-owned town contrary to regulations of the town's management, where the town and its shopping district are freely accessible to and freely used by the public in general, even though the punishment is attempted under a state statute making it a crime for anyone to enter or remain on the premises of another after having been warned not to do so. Pp.326 U. S. 502, 326 U. S. 505.

Page 326 U. S. 502

2. Whether a corporation or a municipality owns or possesses a town, the public in either case has an identical interest in the functioning of the community in such manner that the channels of communication remain free. P. 326 U. S. 507.

3. People living in company-owned towns are free citizens of their State and country, just as residents of municipalities, and there is no more reason for depriving them of the liberties guaranteed by the First and Fourteenth Amendments than there is for curtailing these freedoms with respect to any other citizen. P. 326 U. S. 508.

21 So.2d 558, reversed.

APPEAL from the affirmance of a conviction for violation of a state statute challenged as invalid under the Federal Constitution. The State Supreme Court denied certiorari, 246 Ala. 539, 21 So.2d 564.

MR. JUSTICE BLACK delivered the opinion of the Court.

Amendments than there is for curtailing these freedoms with respect to any other citizen. [Footnote 6]

When we balance the Constitutional rights of owners of property against those of the people to enjoy freedom of press and religion, as we must here, we remain mindful of the fact that the latter occupy a preferred position. [Footnote 7] As we have stated before, the right to exercise the liberties safeguarded by the First Amendment "lies at the foundation of free government by free men," and we must in all cases "weigh the circumstances and . . . appraise the . . . reasons . . . in support of the regulation . . . of the rights." Schneider v. State, 308 U. S. 147, 308 U. S. 161. In our view, the circumstance that the property rights to the premises where the deprivation of liberty, here involved, took place were held by others than the public is not sufficient to justify the State's permitting a corporation to govern a community of citizens so as to restrict their fundamental liberties and the enforcement of such restraint by the application of a state statute. Insofar as the State has attempted to impose criminal punishment on appellant for undertaking to distribute religious literature in a company town, its action cannot stand. The case is reversed,

SCHNEIDER v. STATE OF NEW JERSEY (TOWN OF IRVINGTON). YOUNG v. PEOPLE OF STATE OF CALIFORNIA. SNYDER v. CITY OF MILWAUKEE. NICHOLS et al. v. COMMONWEALTH OF MASSACHUSETTS.

308 U.S. 147 (60 S.Ct. 146, 84 L.Ed. 155)

SCHNEIDER v. STATE OF NEW JERSEY (TOWN OF IRVINGTON). YOUNG v. PEOPLE OF STATE OF CALIFORNIA. SNYDER v. CITY OF MILWAUKEE. NICHOLS et al. v. COMMONWEALTH OF MASSACHUSETTS.

The freedom of speech and of the press secured by the First Amendment, U.S.C.A.Const., against abridgment by the United States is similarly secured to all persons by the Fourteenth against abridgment by a state.

Although a municipality may enact regulations in the interest of the public safety, health, welfare or convenience, these may not abridge the individual liberties secured by the Constitution to those who wish to speak, write, print or circulate information or opinion.

Conceding that fraudulent appeals may be made in the name of charity and religion, we hold a municipality cannot, for this reason, require all who wish to disseminate ideas to present them first to police authorities for their consideration and approval, with a discretion in the police to say some ideas may, while others may not, be carried to the homes of citizens; some persons may, while others may not, disseminate information from house to house. Frauds may be denounced as offenses and punished by law. Trespasses may similarly be forbidden. If it is said that these means are less efficient and convenient than bestowal of power on police authorities to decide what information may be disseminated from house to house, and who may impart the information, the answer is that considerations of this sort do not empower a municipality to abridge freedom of speech and press.
Page 308 U. S. 165
We are not to be taken as holding that commercial soliciting and canvassing may not be subjected to such regulation as the ordinance requires. Nor do we hold that the town may not fix reasonable hours when canvassing may be done by persons having such objects as the petitioner. Doubtless there are other features of such activities which may be regulated in the public interest without prior licensing or other invasion of constitutional liberty. We do hold, however, that the ordinance in question, as applied to the petitioner's conduct, is void, and she cannot be punished for acting without a permit.

Watchtower Bible & Tract Soc. of N. Y., Inc. v. Village of Stratton,
536 U.S. 150 (2002)
II...
"As a matter of principle a requirement of registration in order to make a public speech would seem generally incompatible with an exercise of the rights of free speech and free assembly... .

. . . . .

"If the exercise of the rights of free speech and free assembly cannot be made a crime, we do not think this can be accomplished by the device of requiring previous registration as a condition for exercising them and making such a condition the foundation for restraining in advance their exercise and for imposing a penalty for violating such a restraining order. So long as no more is involved than exercise of the rights of free speech and free assembly, it is immune to such a restriction. If one who solicits support for the cause of labor may be required to register as a condition to the exercise of his right to make a public speech, so may he who seeks to rally support for any social, business, religious or political cause. We think a requirement that one must register before he undertakes to make a public speech to

enlist support for a lawful movement is quite incompatible with the requirements of theFirst Amendment." *Id.*, at 539–540.

Although these World War II-era cases provide guidance for our consideration of the question presented, they do not answer one preliminary issue that the parties adamantly dispute. That is, what standard of review ought we use in assessing the constitutionality of this ordinance. We find it unnecessary, however, to resolve that dispute because the breadth of speech affected by the ordinance and the nature of the regulation make it clear that the Court of Appeals erred in upholding it.

First, as our cases involving distribution of unsigned handbills demonstrate, 13 there are a significant number of persons who support causes anonymously. 14 "The decision to favor anonymity may be motivated by fear of economic or official retaliation, by concern about social ostracism, or merely by a desire to preserve as much of one's privacy as possible." McIntyre v. Ohio Elections Comm'n, 514 U. S., at 341–342. The requirement that a canvasser must be identified in a permit application filed in the mayor's office and available for public inspection necessarily results in a surrender of that anonymity. Although it is true, as the Court of Appeals suggested, see 240 F. 3d, at 563, that persons who are known to the resident reveal their allegiance to a group or cause when they present themselves at the front door to advocate an issue or to deliver a handbill, the Court of Appeals erred in concluding that the ordinance does not implicate anonymity interests. The Sixth Circuit's reasoning is undermined by our decision in Buckley v. American Constitutional Law Foundation, Inc. , 525 U. S. 182 (1999) . The badge requirement that we invalidated in Buckley applied to petition circulators seeking signatures in face-to-face interactions. The fact that circulators revealed their physical identities did not foreclose our consideration of the circulators' interest in maintaining their anonymity. In the Village, strangers to the resident certainly maintain their anonymity, and the ordinance may preclude such persons from canvassing for unpopular causes. Such preclusion may well be justified in some situations—for example, by the special state interest in protecting the integrity of a ballot-initiative process, see ibid. , or by the interest in preventing fraudulent commercial transactions. The Village ordinance, however, sweeps more broadly, covering unpopular causes unrelated to commercial transactions or to any special interest in protecting the electoral process.

Second, requiring a permit as a prior condition on the exercise of the right to speak imposes an objective burden on some speech of citizens holding religious or patriotic views. As our World War II-era cases dramatically demonstrate, there are a significant number of persons whose religious scruples will prevent them from applying for such a license. There are no doubt other patriotic citizens, who have such firm convictions about their constitutional right to engage in uninhibited

debate in the context of door-to-door advocacy, that they would prefer silence to speech licensed by a petty official.

Third, there is a significant amount of spontaneous speech that is effectively banned by the ordinance. A person who made a decision on a holiday or a weekend to take an active part in a political campaign could not begin to pass out handbills until after he or she obtained the required permit. Even a spontaneous decision to go across the street and urge a neighbor to vote against the mayor could not lawfully be implemented without first obtaining the mayor's permission. In this respect, the regulation is analogous to the circulation licensing tax the Court invalidated in Grosjean v. American Press Co. , 297 U. S. 233 (1936) . In Grosjean , while discussing the history of the Free Press Clause of the First Amendment, the Court stated that " '[t]he evils to be prevented were not the censorship of the press merely, but any action of the government by means of which it might prevent such free and general discussion of public matters as seems absolutely essential to prepare the people for an intelligent exercise of their rights as citizens.' " Id., at 249–250 (quoting 2 T. Cooley, Constitutional Limitations 886 (8th ed. 1927)); see also Lovell v. City of Griffin , 303 U. S. 444 (1938) .

The breadth and unprecedented nature of this regulation does not alone render the ordinance invalid. Also central to our conclusion that the ordinance does not pass First Amendment scrutiny is that it is not tailored to the Village's stated interests. Even if the interest in preventing fraud could adequately support the ordinance insofar as it applies to commercial transactions and the solicitation of funds, that interest provides no support for its application to petitioners, to political campaigns, or to enlisting support for unpopular causes. The Village, however, argues that the ordinance is nonetheless valid because it serves the two additional interests of protecting the privacy of the resident and the prevention of crime.

With respect to the former, it seems clear that §107 of the ordinance, which provides for the posting of "No Solicitation" signs and which is not challenged in this case, coupled with the resident's unquestioned right to refuse to engage in conversation with unwelcome visitors, provides ample protection for the unwilling listener. Schaumburg , 444 U. S., at 639 ("[T]he provision permitting homeowners to bar solicitors from their property by posting [no solicitation] signs … suggest[s] the availability of less intrusive and more effective measures to protect privacy"). The annoyance caused by an uninvited knock on the front door is the same whether or not the visitor is armed with a permit.

With respect to the latter, it seems unlikely that the absence of a permit would preclude criminals from knocking on doors and engaging in conversations not covered by the ordinance. They might, for example, ask for directions or permission to use the telephone, or pose as surveyers or census takers. See n. 1,

supra . Or they might register under a false name with impunity because the ordinance contains no provision for verifying an applicant's identity or organizational credentials. Moreover, the Village did not assert an interest in crime prevention below, and there is an absence of any evidence of a special crime problem related to door-to-door solicitation in the record before us.

The rhetoric used in the World War II-era opinions that repeatedly saved petitioners' coreligionists from petty prosecutions reflected the Court's evaluation of the First Amendment freedoms that are implicated in this case. The value judgment that then motivated a united democratic people fighting to defend those very freedoms from totalitarian attack is unchanged. It motivates our decision today.

The judgment of the Court of Appeals is reversed, and the case is remanded for further proceedings consistent with this opinion.

It is so ordered.

Jefferson City, MO 65101

RE: Petition approval request from Brian Hagg regarding a proposed statutory amendment to Chapter 116 (2018-369)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Brian Hagg on March 22, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

If this form is followed substantially and the requirements of section 116.050 and section 116.080 are met, it shall be sufficient, disregarding clerical and merely technical errors.

(L. 1980 S.B. 658, A.L. 1986 H.B. 1471, et al., A.L. 1997 S.B. 132, A.L. 1999 H.B. 676, A.L. 2013 H.B. 117) Effective 11-04-1 *Revisor's Note: Section 560.021, as referenced in the form contained in this section, was repealed by S.B. 491, 2014, effective 1-01-17

Is the old Missouri statute that 116.030 and 116.040 got 560.021 from which is for corporations.

Chapter 560

FINES

Sec.
560.011. Fines for felonies.
560.016. Fines for misdemeanors and infractions.
560.021. Fines for corporations.
560.026. Imposition of fines.
560.031. Response to nonpayment.
560.036. Revocation of a fine.

Cross Reference
Infractions, limitations on amount of fines, RSMo 560.016

560.011. Fines for felonies. — 1. A person who has been convicted of a class C or D felony may be sentenced

(1) To pay a fine which does not exceed five thousand dollars; or

(2) If the offender has gained money or property through the commission of the crime, to pay an amount, fixed by the court, not exceeding double the amount of the offender's gain from the commission of the crime. An individual offender may be fined not more than twenty thousand dollars under this provision.

2. As used in this section the term **"gain"** means the amount of money or the value of property derived from the commission of the crime. The amount of money or value of property returned to the victim of the crime or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

3. The provisions of this section shall not apply to corporations.

(L. 1977 S.B. 60)

Effective 1-1-79

560.016. Fines for misdemeanors and infractions. — 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of a misdemeanor or infraction may be sentenced to pay a fine which does not exceed:

(1) For a class A misdemeanor, one thousand dollars;

(2) For a class B misdemeanor, five hundred dollars;

(3) For a class C misdemeanor, three hundred dollars;

(4) For an infraction, two hundred dollars.

2. In lieu of a fine imposed under subsection 1, a person who has been convicted of a misdemeanor or infraction through which he derived "gain" as defined in section 560.011 may be sentenced to a fine which does not exceed double the amount of gain from the commission of the offense. An individual offender may be fined not more than twenty thousand dollars under this provision.

(L. 1977 S.B. 60)

Effective 1-1-79

560.021. Fines for corporations. — 1. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for an offense defined outside this code for which a special corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, not exceeding:

(1) Ten thousand dollars, when the conviction is of a felony;

(2) Five thousand dollars, when the conviction is of a class A misdemeanor;

(3) Two thousand dollars, when the conviction is of a class B misdemeanor;

(4) One thousand dollars, when the conviction is of a class C misdemeanor;

(5) Five hundred dollars, when the conviction is of an infraction;

(6) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

2. In the case of an offense defined outside this code, if a special fine for a corporation is expressly specified in the statute that defines the offense, the fine fixed by the court shall be

(1) An amount within the limits specified in the statute that defines the offense; or

(2) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

(L. 1977 S.B. 60)

Effective 1-1-79

560.026. Imposition of fines. — ...ining the amount and the method o... a fine, the court shall, insofar as practic... tion the fine to the burden that paymen... in view of the financial resources of a... The court shall not sentence an offen... fine in any amount which will preve... making restitution or reparation to the... offense.

2. When any other disposition is a... statute, the court shall not sentence a... to pay a fine only unless, having r... nature and circumstances of the offe... history and character of the offende... opinion that the fine alone will su... protection of the public.

3. The court shall not sentence a... to pay a fine in addition to any otl... authorized by section 557.011, RSM...

(1) He has derived a pecuniary g... offense; or

(2) The court is of the opinion ... uniquely adapted to deterrence of ... offense involved or to the correc... defendant.

4. When an offender is sentenc... fine, the court may provide for the pa... made within a specified period of ... specified installments. If no such ... made a part of the sentence, the f... payable forthwith.

5. When an offender is sentenc... fine, the court shall not impose at th... an alternative sentence to be served ... that the fine is not paid. The resp... court to nonpayment shall be deter... after the fine has not been paid, as ... section 560.031.

(L. 1977 S.B. 60)

Effective 1-1-79

560.031. Response to nonpayr... When an offender sentenced to pay a ... in the payment of the fine or in any ins... court upon motion of the prosecuting ... upon its own motion may require h... cause why he should not be imprisonec... ment. The court may issue a warrant ... summons for his appearance.

RE: Petition approval request from Steven Reed regarding a proposed statutory amendment to Chapter 441 (2018-368)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Steven Reed on March 15, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri:

Title XII of the Missouri Revised Statutes: Chapter 196 sections 196.010, 196.050, 196.155, to be amended as follows.

Be it resolved by the people of the state of Missouri that the Title XII Public Health and Welfare, Chapter 196 be amended as follows:

A Bill amending prescribing protocols on dangerous drugs of abuse causing overdose death and addiction; sections amended include 196.050 196.175, 196.010,

Section 1. Section 196.050. To be amended as follows

1. Given the Opioid epidemic in the United States, the department of health and senior services shall prescribe or promulgate new regulations for drugs of abuse. These regulations may be more stringent than those listed under the authority of the Controlled Substances act of 1970 amendment due to the clear and present danger of overdose death.

2. All other products or commodities covered in sections 196.010 to 196.196.120 shall comply with the definitions and standards prescribed by the federal act.

Section 2. Section 195.195 to be amended as follows

3. Regulations, authority to promulgate, where vested. - The authority to promulgate regulations for the efficient enforcement of this chapter and chapter 579 is hereby vested in the director of the department of health and senior services subject to provisions of subsection 1 of section 195.030 and chapter 536. Given the Missouri preamble-
We the people of Missouri, with profound reverence for the Supreme Ruler of the Universe, and grateful for His goodness, do establish this constitution for the better government of the state. The Missouri constitution will promulgate its own definitions and regulations deliberating effective placement required for checking for the DSM5 disorders known as "Opioid Use Disorder" and "Substance Abuse Disorder," with a checklist to be enforced prior to prescribing a drug(s) listed in section 4 of this article.

Definitions
Emergency use for opioids- Opioids used under the care of a paramedic or doctor in an Emergency Room.

Section 3. Application requirements for common drugs of abuse and overdose potential

P.O.D.A.[3]
Preventing overdose death and abuse application

1. Applications screen for the DSM 5 disorder(s), *Substance Abuse Disorder, Opioid use disorder* before prescribing; opioid pain relievers, opium remedies, depressants, stimulants and partial opioid agonists. An increase in safety standard and responsibility level of prescriber, insurance provider and patient receiving care. Application are to be sent electronically to the state department of health and senior services every 7 days.

ii. Depressants

a. Alprazolam
b. Clonazepam
c. Diazepam
d. Lorazepam
e. Temazepam
f. Sodium oxybate

iii. Stimulants-

Short-acting:

a. Lisdexamfetamine
b. amphetamine salt
c. dextroamphetamine
d. dexmethylphenidate
e. methylphenidate
f. dextroamphetamine
g. methylphenidate
h. atomoxetine

Intermediate-acting:

i. amphetamine sulfate
j. methylphenidate
k. methylphenidate
l. methylphenidate
m. methylphenidate
n. methylphenidate

Long-acting:

o. dextroamphetamine
p. amphetamine
q. methylphenidate
r. methylphenidate
s. methylphenidate
t. methylphenidate

iv. Partial opioid agnostic or antagonist

g. Morphine naltrexone
h. Oxycodone naloxone
i. Buprenorphine
j. _____
k. _____
l. pentazocine hydrochloride
m. naloxone hydrochloride
n. buprenorphine buccal
o. buprenorphine transdermal
p. Sublocade
q. pentazocine/acetaminophen
r. Pentazocine/naloxone
s. Probuphine
t. Levo-alphacetylmethadol
u. Substances acting on opioid receptor function in the human or animal brain.

Section 5. Mental health check application screening for DSM5- *"Substance abuse disorder" and "Opioid Use disorder"*

a. The following applications are to be used by physicians, nurse practitioners and dentist conducting business in Missouri that are prescribing substances listed in section 3 of this document, *the substances of common overdose death and abuse list.*

Application for Prescribing Full Opioid agnostic drugs and remedies

For Doctors use only

1.) Has patient been to rehabilitation for any substance abuse?

_____
_____

2.) Is the patient nursing or pregnant?

_____
_____
—

3.) Is patient running out of medication before appointment?

_____
_____

4.) Is patient responsible for any children under the age of 21?

_____
_____

5.) Has the patient used heroine in the past or is presently intravenously injecting, snorting, smoking or ingesting any prescription medication, heroine, methamphetamine, bath salts, cocaine, buprenorphine or taking any illicit street drugs?

_____

8.) Is the patient injecting any drugs intravenously or through nasal passages?

9.) Is patient suicidal or had a suicide of a loved one in the past?

10.) Has patient been obtaining and ingesting any other full, partial or synthetic opioid medication from illegal or legal means?

11.) Opioids often taken in larger amounts or over a longer period of time than intended?

12.) There is a persistent desire or unsuccessful effort to cut down or control opioid use?

13.) Is a great deal of time spent in activities necessary to obtain the opioid, use the opioid or recover from its effect's?

14.) Craving or strong desire to use opioids?

15.) Recurrent opioid use resulting in failure to fulfill major role obligations at work, school or home.

16.) Continued use despite knowledge of having a persistent or recurrent physical or psychological problem that is likely to have been caused or exacerbated by opioids?

I certify that all the answers to the following questions are correct and I sign and certify with my signature under penalty of law that I have answered the evaluation correctly and that the person being prescribed Opioid drug therapy is not involved in illegal activities concerning drugs, sex trafficking, fraud, embezzlement, disturbing the peace, transfer of medication or be aiding in the manipulation of fetal embryo development and I do herby swear on my medical license that the application does not contain any false information and that I may be sued in a court of law under perjury of this acknowledgement that no harm from my prescribing will rest on the future of my patients health.

Application for Prescribing depressant drugs and remedies

For Doctors use only

1.) Has patient been to rehabilitation for any substance abuse?

2.) Is the patient nursing or pregnant?

3.) Is patient running out of medication before appointment?

4.) Is patient responsible for any children under the age of 21?

5.) Has the patient used heroine in the past or is presently intravenously injecting, snorting, smoking or ingesting any prescription medication, heroine, methamphetamine, bath salts, cocaine, buprenorphine or taking any illicit street drugs?

6.) Has the patient been prescribed or taking a partial opioid agonist, full opioid agonist, anti-anxiety, anti-depressant, stimulant or bipolar medication?

7.) Patient is not selling or abusing medication?

8.) Is the patient injecting any drugs intravenously or through nasal passages?

9.) Is patient suicidal or had a suicide of a loved one in the past?

10.) Has patient been obtaining and ingesting any other full, partial or synthetic opioid medication from illegal or legal means?

11.) Opioids often taken in larger amounts or over a longer period of time than intended?

14.) Craving or strong desire to use opioids?

15.) Recurrent opioid use resulting in failure to fulfill major role obligations at work, school or home.

16.) Continued use despite knowledge of having a persistent or recurrent physical or psychological problem that is likely to have been caused or exacerbated by opioids?

I certify that all the answers to the following questions are correct and I sign and certify with my signature under penalty of law that I have answered the evaluation correctly and that the person being prescribed Anti-anxiety medication is not involved in illegal activities concerning drugs, sex trafficking, fraud, embezzlement, disturbing the peace, transfer of medication or be aiding in the manipulation of fetal embryo development and I do herby swear on my medical license that the application does not contain any false information and that I may be sued in a court of law under perjury of this acknowledgement that no harm from my prescribing will rest on the future of my patients health.

RE: Petition approval request from Theodis Brown regarding a proposed statutory amendment to Chapter 178 (2018-362)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Theodis Brown on March 12, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jay Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are amended to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;] "Division", the division of energy within the department of economic development;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirement shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] fifteen percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty percent for calendar years [2014] 2023 through [2017] 2027;

(3) No less than [ten] twenty-five percent for calendar years [2018] 2028 through [2020] 2034; and

(4) No less than [fifteen] thirty percent [in each] for calendar year [beginning in 2021] 2035 and each year thereafter.

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2018, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the

difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center] division solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection [2] 3 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection [2] 3 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after [August 28, 2013] November 6, 2018, shall be invalid and void.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-361)

Subject

Initiative petition from James Owen regarding a proposed amendment to Chapter 393 of the Revised Statutes of Missouri. (Received March 7, 2018)

Date

March 27, 2018

Description

This proposal would amend Chapter 393 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Public Service Commission,** and the **Missouri Joint Municipal Electric Utility Commission**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development - Division of Energy** indicated the following:

This proposal amends existing statute sections 393.1025 and 393.1030, RSMo.

This proposal will affect Public Service Commission, Office of the Public Counsel.

To the extent utilities offer additional energy efficiency customer programs for RES compliance that reduce electricity costs of small businesses, and lower cost renewable energy is acquired by utilities, small businesses could benefit economically from this proposal. The maximum average retail utility rate increase of one percent in current law is not changed by this proposal so small businesses should not be adversely impacted by this proposal.

Passed in 2008 by initiative petition, the current Renewable Energy Standard (RES) requires Missouri's regulated electric utilities to meet defined percentages of total retail electricity sales by renewable resources, increasing to 15% by 2021 and annually thereafter. The Public Service Commission (PSC) determines compliance and has promulgated rule 4 CSR 240-20.100 to implement the RES provisions.

The Division of Energy's (DE) statutory authority under the RES law includes:
1. Certifying new eligible renewable resources (Section 393.1025(5) RSMo.); and
2. Certifying no undue adverse impacts of renewable electric generation facilities on air, water or land use, including impacts associated with the gathering of generation feedstocks (Section 393.1030.4 RSMo.).

DE has promulgated a rule to implement these provisions 4 CSR 340-8.010.

393.1025 – This section adds the Division of Energy to the definitions to reflect performance of RES statutory duties that transferred in 2013 with DE from the Department of Natural Resources to the Department of Economic Development. This section also modifies the description of hydropower, which would require a revision to DE's RES rule. This can be completed using existing resources.

393.1030 -- This section incrementally increases the RES percentages from 15% in 2020 to 30% in 2035 and annually thereafter and allows electricity savings from energy

efficiency programs to count towards compliance. DE assumes the PSC would account for the energy efficiency inclusion. The division receives applications for certification that renewable energy generation facilities cause no undue adverse environmental impacts. The number of annual applications to DE to certify renewable energy facilities is not expected to increase due to the incrementally higher RES requirements. A renewable generation facility is certified once and continues to generate over the life of the facility, and therefore continues to count toward RES compliance. The number of applications could also be offset by the electric energy savings from efficiency, which is not included in the estimates below.

Current RES statute requires 15% by January 1, 2021. Based on the historical number of applications for certification, DE assumes 30 applications for every 5% increase and an even distribution over the number of years from the start of one RES level to the next RES level. At the proposed RES levels, we estimate the following applications:

- By January 1, 2020: 15%. No additional applications are assumed due to the current RES requirement of 15% by January 1, 2021.
- By January 1, 2023: 20% (incremental increase of 5% from 2020 RES requirement) = 10 applications/year over 3 years.
- By January 1, 2028: 25% (incremental increase of 5%) = 6 applications/year over 5 years.
- By January 1, 2035 and ongoing: 30% (incremental increase of 5%) = 4 applications/year over 7 years.

DE assumes the increased application reviews and certifications can be completed using existing resources.

The Division of Energy assumes it can implement the provisions of this proposal with existing resources.

Officials from the **Department of Higher Education** indicated this initiative petition would not have an impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated they are unable to estimate the impact of this legislation on their utility costs. However, based on research, including that completed by the Heritage Foundation, the proposed regulatory changes would be difficult to implement and could significantly increase costs to their department.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this proposal would change the renewable energy statutes enacted pursuant to the Missouri Clean Energy Act (Proposition C) in November 2008. This should have no impact on Total State Revenue or the calculation under Article X, Section 18(e) of the Missouri Constitution.

OA-FMDC assumes that Missouri electric providers would be required to install new renewable energy sources to meet the requirements of this petition. According to the U.S. Energy Information Administration, renewable energy resources accounted for only 3.4% of Missouri's net electricity generation in 2016. https://www.eia.gov/state/?sid=MO. OA-FMDC assumes that capital costs for installing renewable energy equipment would make it more costly for electric providers to meet the requirements of this petition and that some of those costs would be passed along to consumers.

For the Office of Administration, OA-FMDC assumes that this petition would result in higher electricity costs for state facilities; however, OA-FMDC has no way of calculating how much that increase would be.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this initiative would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated requiring utility companies to generate a much larger portion of their electricity from renewable energy sources will likely increase the cost of such electricity, but the fiscal impact of this initiative petition is UNKNOWN.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **Public Service Commission - Office of The Public Counsel (OPC)** indicated increased operating costs of $148,141 for fiscal year 2019, $173,208 for fiscal year 2020, and $174,867 for fiscal year 2021.

This proposal will affect the Division of Energy; Public Service Commission.

This initiative seeks to impose dramatically higher renewable energy standards for regulated investor-owned utilities at an undoubtedly substantial cost to Missourians.

393.1025
This initiative seeks to impose dramatically higher renewable energy standards for regulated investor-owned utilities. The nearly doubling of these standards will come at an extraordinary cost to Missourians.

This proposal will create additional proceedings before the Public Service Commission.

Given the experience of OPC on time spent litigating existing renewable energy standards, such a bill would likely require an additional auditor and one additional attorney.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community**

College, University of Missouri, St. Louis Community College, and the **Missouri Joint Municipal Electric Utility Commission.**

Fiscal Note Summary

State governmental entities estimate additional known costs of approximately $170,000 annually. State and local governmental entities anticipate possible increased costs of electricity, but the amount is unknown.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from James Owen regarding a proposed statutory amendment to Chapter 393, version 3 (2018-360)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by James Owen on March 5, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

INITIATIVE PETITION

To the Honorable John R. (Jay) Ashcroft, Secretary of State for the State of Missouri:

We, the undersigned, registered voters of the state of Missouri and _____ County (or city of St. Louis), respectfully order that the following proposed law shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 6th day of November, 2018, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or city of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are amended to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;] "Division", the division of energy within the department of economic development;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirement shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-seven percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty-five percent for calendar years [2018] 2026 through [2020] 2029; [and]

(4) No less than forty percent for calendar years 2030 through 2034; and

[(4)] (5) No less than [fifteen] fifty percent [in each] for calendar year [beginning in 2021] 2035 and each year thereafter.

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2018, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates

shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center] division solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection [2] 3 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection [2] 3 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after [August 28, 2013] November 6, 2018, shall be invalid and void.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-360)

Subject

Initiative petition from James Owen regarding a proposed amendment to Chapter 393 of the Revised Statutes of Missouri. (Received March 6, 2018)

Date

March 26, 2018

Description

This proposal would amend Chapter 393 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Public Service Commission,** and the **Missouri Joint Municipal Electric Utility Commission**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development - Division of Energy** indicated the following:

This proposal amends existing statute sections 393.1025 and 393.1030, RSMo.

This proposal will affect Public Service Commission, Office of the Public Counsel.

To the extent utilities offer additional energy efficiency customer programs for RES compliance that reduce electricity costs of small businesses, and lower cost renewable energy is acquired by utilities, small businesses could benefit economically from this proposal. The maximum average retail utility rate increase of one percent in current law is not changed by this proposal so small businesses should not be adversely impacted by this proposal.

Passed in 2008 by initiative petition, the current Renewable Energy Standard (RES) requires Missouri's regulated electric utilities to meet defined percentages of total retail electricity sales by renewable resources, increasing to 15% by 2021 and annually thereafter. The Public Service Commission (PSC) determines compliance and has promulgated rule 4 CSR 240-20.100 to implement the RES provisions.

The Division of Energy's (DE) statutory authority under the RES law includes:
1. Certifying new eligible renewable resources (Section 393.1025(5) RSMo.); and
2. Certifying no undue adverse impacts of renewable electric generation facilities on air, water or land use, including impacts associated with the gathering of generation feedstocks (Section 393.1030.4 RSMo.).

DE has promulgated a rule to implement these provisions 4 CSR 340-8.010.

393.1025 – This section adds the Division of Energy to the definitions to reflect performance of RES statutory duties that transferred in 2013 with DE from the Department of Natural Resources to the Department of Economic Development. This section also modifies the description of hydropower, which would require a revision to DE's RES rule. This can be completed using existing resources.

393.1030 -- This section incrementally increases the RES percentages from 20% in 2020 to 50% in 2035 and annually thereafter and allows electricity savings from energy

efficiency programs to count towards compliance. DE assumes the PSC would account for the energy efficiency inclusion. The division receives applications for certification that renewable energy generation facilities cause no undue adverse environmental impacts. The number of annual applications to DE to certify renewable energy facilities is not expected to increase due to the incrementally higher RES requirements. A renewable generation facility is certified once and continues to generate over the life of the facility, and therefore continues to count toward RES compliance. The number of applications could also be offset by the electric energy savings from efficiency, which is not included in the estimates below.

Current RES statute requires 15% by January 1, 2021. Based on the historical number of applications for certification, DE assumes 30 applications for every 5% increase and an even distribution over the number of years from the start of one RES level to the next RES level. At the proposed RES levels, we estimate the following applications:

- By January 1, 2020: 20%. (incremental increase of 10% from current 2018 RES requirement) = 30 applications/year over 2 years
- By January 1, 2023: 27% (incremental increase of 7% from 2020 RES requirement) = 14 applications/year over 3 years.
- By January 1, 2026: 35% (incremental increase of 8%) = 16 applications/year over 3 years.
- By January 1, 2030 and ongoing: 40% (incremental increase of 5%) = 7.5 applications/year over 4 years.
- By January 1, 2035 and ongoing: 50% (incremental increase of 10%) = 12 applications/year over 5 years.

DE assumes the increased application reviews and certifications can be completed using existing resources.

The Division of Energy assumes it can implement the provisions of this proposal with existing resources.

Officials from the **Department of Higher Education** indicated this initiative petition would not have an impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated they are unable to estimate the impact of this legislation on their utility costs. However, based on research, including that completed by the Heritage Foundation, the proposed regulatory changes would be difficult to implement and could significantly increase costs to their department.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this proposal would change the renewable energy statutes enacted pursuant to the Missouri Clean Energy Act (Proposition C) in November 2008. This should have no impact on Total State Revenue or the calculation under Article X, Section 18(e) of the Missouri Constitution.

OA-FMDC assumes that Missouri electric providers would be required to install new renewable energy sources to meet the requirements of this petition. According to the U.S. Energy Information Administration, renewable energy resources accounted for only 3.4% of Missouri's net electricity generation in 2016. https://www.eia.gov/state/?sid=MO. OA-FMDC assumes that capital costs for installing renewable energy equipment would make it more costly for electric providers to meet the requirements of this petition and that some of those costs would be passed along to consumers.

For the Office of Administration, OA-FMDC assumes that this petition would result in higher electricity costs for state facilities; however, OA-FMDC has no way of calculating how much that increase would be.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and

the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this initiative would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated requiring utility companies to generate a much larger portion of their electricity from renewable energy sources will likely increase the cost of such electricity, but the fiscal impact of this initiative petition is UNKNOWN.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **Public Service Commission - Office of The Public Counsel (OPC)** indicated increased operating costs of $148,141 for fiscal year 2019, $173,208 for fiscal year 2020, and $174,867 for fiscal year 2021.

This proposal will affect the Division of Energy; Public Service Commission.

This initiative seeks to impose dramatically higher renewable energy standards for regulated investor-owned utilities at an undoubtedly substantial cost to Missourians.

393.1025
This initiative seeks to impose dramatically higher renewable energy standards for regulated investor-owned utilities. The nearly tripling of these standards will come at an extraordinary cost to Missourians.

This proposal will create additional proceedings before the Public Service Commission.

Given the experience of OPC on time spent litigating existing renewable energy standards, such a bill would likely require an additional auditor and one additional attorney.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of**

Wentzville, the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission.**

Fiscal Note Summary

State governmental entities estimate additional known costs of approximately $170,000 annually. State and local governmental entities anticipate possible increased costs of electricity, but the amount is unknown.

JOHN R. ASHCROFT

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from James Owen regarding a proposed statutory amendment to Chapter 393, version 2 (2018-359)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by James Owen on March 5, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are amended to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;] "Division", the division of energy within the department of economic development;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirement shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-five percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty percent for calendar years [2018] 2026 through [2020] 2029; [and]

(4) No less than thirty-five percent for calendar years 2030 through 2034; and

[(4)] (5) No less than [fifteen] forty percent [in each] for calendar year [beginning in 2021] 2035 and each year thereafter.

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2018, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates

shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center] division solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection [2] 3 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection [2] 3 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after [August 28, 2013] November 6, 2018, shall be invalid and void.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-359)

Subject

Initiative petition from James Owen regarding a proposed amendment to Chapter 393 of the Revised Statutes of Missouri. (Received March 6, 2018)

Date

March 26, 2018

Description

This proposal would amend Chapter 393 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Public Service Commission,** and the **Missouri Joint Municipal Electric Utility Commission**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development - Division of Energy** indicated the following:

This proposal amends existing statute sections 393.1025 and 393.1030, RSMo.

This proposal will affect Public Service Commission, Office of the Public Counsel.

To the extent utilities offer additional energy efficiency customer programs for RES compliance that reduce electricity costs of small businesses, and lower cost renewable energy is acquired by utilities, small businesses could benefit economically from this proposal. The maximum average retail utility rate increase of one percent in current law is not changed by this proposal so small businesses should not be adversely impacted by this proposal.

Passed in 2008 by initiative petition, the current Renewable Energy Standard (RES) requires Missouri's regulated electric utilities to meet defined percentages of total retail electricity sales by renewable resources, increasing to 15% by 2021 and annually thereafter. The Public Service Commission (PSC) determines compliance and has promulgated rule 4 CSR 240-20.100 to implement the RES provisions.

The Division of Energy's (DE) statutory authority under the RES law includes:
1. Certifying new eligible renewable resources (Section 393.1025(5) RSMo.); and
2. Certifying no undue adverse impacts of renewable electric generation facilities on air, water or land use, including impacts associated with the gathering of generation feedstocks (Section 393.1030.4 RSMo.).

DE has promulgated a rule to implement these provisions 4 CSR 340-8.010.

393.1025 – This section adds the Division of Energy to the definitions to reflect performance of RES statutory duties that transferred in 2013 with DE from the Department of Natural Resources to the Department of Economic Development. This section also modifies the description of hydropower, which would require a revision to DE's RES rule. This can be completed using existing resources.

393.1030 -- This section incrementally increases the RES percentages from 20% in 2020 to 40% in 2035 and annually thereafter and allows electricity savings from energy

efficiency programs to count towards compliance. DE assumes the PSC would account for the energy efficiency inclusion. The division receives applications for certification that renewable energy generation facilities cause no undue adverse environmental impacts. The number of annual applications to DE to certify renewable energy facilities is not expected to increase due to the incrementally higher RES requirements. A renewable generation facility is certified once and continues to generate over the life of the facility, and therefore continues to count toward RES compliance. The number of applications could also be offset by the electric energy savings from efficiency, which is not included in the estimates below.

Current RES statute requires 15% by January 1, 2021. Based on the historical number of applications for certification, DE assumes 30 applications for every 5% increase and an even distribution over the number of years from the start of one RES level to the next RES level. At the proposed RES levels, we estimate the following applications:

- By January 1, 2020: 20%. (incremental increase of 10% from current 2018 RES requirement) = 30 applications/year over 2 years
- By January 1, 2023: 25% (incremental increase of 5% from 2020 RES requirement) = 10 applications/year over 3 years.
- By January 1, 2026: 30% (incremental increase of 5%) = 10 applications/year over 3 years.
- By January 1, 2030 and ongoing: 35% (incremental increase of 5%) = 7.5 applications/year over 4 years.
- By January 1, 2035 and ongoing: 40% (incremental increase of 5%) = 6 applications/year over 5 years.

DE assumes the increased application reviews and certifications can be completed using existing resources.

The Division of Energy assumes it can implement the provisions of this proposal with existing resources.

Officials from the **Department of Higher Education** indicated this initiative petition would not have an impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated they are unable to estimate the impact of this legislation on their utility costs. However, based on research, including that completed by the Heritage Foundation, the proposed regulatory changes would be difficult to implement and could significantly increase costs to their department.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this proposal would change the renewable energy statutes enacted pursuant to the Missouri Clean Energy Act (Proposition C) in November 2008. This should have no impact on Total State Revenue or the calculation under Article X, Section 18(e) of the Missouri Constitution.

OA-FMDC assumes that Missouri electric providers would be required to install new renewable energy sources to meet the requirements of this petition. According to the U.S. Energy Information Administration, renewable energy resources accounted for only 3.4% of Missouri's net electricity generation in 2016. https://www.eia.gov/state/?sid=MO. OA-FMDC assumes that capital costs for installing renewable energy equipment would make it more costly for electric providers to meet the requirements of this petition and that some of those costs would be passed along to consumers.

For the Office of Administration, OA-FMDC assumes that this petition would result in higher electricity costs for state facilities; however, OA-FMDC has no way of calculating how much that increase would be.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and

the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this initiative would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated requiring utility companies to generate a much larger portion of their electricity from renewable energy sources will likely increase the cost of such electricity, but the impact of this initiative petition is UNKNOWN.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **Public Service Commission - Office of The Public Counsel (OPC)** indicated increased operating costs of $148,141 for fiscal year 2019, $173,208 for fiscal year 2020, and $174,867 for fiscal year 2021.

This proposal will affect the Division of Energy; Public Service Commission.

This initiative seeks to impose dramatically higher renewable energy standards for regulated investor-owned utilities at an undoubtedly substantial cost to Missourians.

393.1025
This initiative seeks to impose dramatically higher renewable energy standards for regulated investor-owned utilities. The nearly tripling of these standards will come at an extraordinary cost to Missourians.

This proposal will create additional proceedings before the Public Service Commission.

Given the experience of OPC on time spent litigating existing renewable energy standards, such a bill would likely require an additional auditor and one additional attorney.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of**

Wentzville, the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission.**

Fiscal Note Summary

State governmental entities estimate additional known costs of approximately $170,000 annually. State and local governmental entities anticipate possible increased costs of electricity, but the amount is unknown.

RE: Petition approval request from Steven Reed regarding a proposed constitutional amendment to Article IV (2018-358)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Steven Reed on March 1, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the State of Missouri that the Constitution be amended:

Section 30 of article IV of the Constitution of Missouri is amended by adding Section 30(E). The new section includes the following underlined language:

Monies collected from a one tenth of one percent sales tax will be used for the purpose of developing a third lane for trucks in both directions from St. Louis to Joplin on Interstate I -44. Said tax will sunset after three years.

My commission expires _____

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are amended to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;] "Division", the division of energy within the department of economic development;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-seven percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty-five percent for calendar years [2018] 2026 through [2020] 2029; [and]

(4) No less than forty percent for calendar years 2030 through 2034; and

[(4)] (5) No less than [fifteen] fifty percent [in each] for calendar year [beginning in 2021] 2035 and each year thereafter.

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2018, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates

shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center] division solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection [2] 3 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection [2] 3 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after [August 28, 2013] November 6, 2018, shall be invalid and void.

RE: Petition approval request from Matthew Patterson regarding a proposed statutory amendment to Chapter 393, version 2 (2018-355)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Matthew Patterson on February 15, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are amended to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;] "Division", the division of energy within the department of economic development;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-five percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty percent for calendar years [2018] 2026 through [2020] 2029; [and]

(4) No less than thirty-five percent for calendar years 2030 through 2034; and

[(4)] (5) No less than [fifteen] forty percent [in each] for calendar year [beginning in 2021] 2035 and each year thereafter.

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2018, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates

shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center] division solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection [2] 3 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection [2] 3 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after [August 28, 2013] November 6, 2018, shall be invalid and void.

RE: Petition approval request from Matthew Patterson regarding a proposed statutory amendment to Chapter 393, version 1 (2018-354)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Matthew Patterson on February 15, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are amended to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;] "Division", the division of energy within the department of economic development;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirement shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] fifteen percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty percent for calendar years [2014] 2023 through [2017] 2027;

(3) No less than [ten] twenty-five percent for calendar years [2018] 2028 through [2020] 2034; and

(4) No less than [fifteen] thirty percent [in each] for calendar year [beginning in 2021] 2035 and each year thereafter.

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2018, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the

difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center] division solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection [2] 3 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection [2] 3 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after [August 28, 2013] November 6, 2018, shall be invalid and void.

RE: Petition approval request from James Owens regarding a proposed statutory amendment to Chapter 393, version 3 (2018-353)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by James Owens on February 9, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

INITIATIVE PETITION

To the Honorable John R. (Jay) Ashcroft, Secretary of State for the State of Missouri:

We, the undersigned, registered voters of the state of Missouri and _____ County (or city of St. Louis), respectfully order that the following proposed law shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 6th day of November, 2018, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or city of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

My commission expires _____

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;] "Division", the division of energy within the department of economic development;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-seven percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty-five percent for calendar years [2018] 2026 through [2020] 2029; [and]

(4) No less than forty percent for calendar years 2030 through 2034; and

[(4)] (5) No less than [fifteen] fifty percent [in each] for calendar year [beginning in 2021] 2035 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2018, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated,

owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center] division solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after [August 28, 2013]November 6, 2018, shall be invalid and void.

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;] "Division", the division of energy within the department of economic development;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-five percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty percent for calendar years [2018] 2026 through [2020] 2029; [and]

(4) No less than thirty-five percent for calendar years 2030 through 2034; and

[(4)] (5) No less than [fifteen] forty percent [in each] for calendar year [beginning in 2021] 2035 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2.] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2018, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated,

owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center] division solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after [August 28, 2013]November 6, 2018, shall be invalid and void.

RE: Petition approval request from James Owens regarding a proposed statutory amendment to Chapter 393, version 1 (2018-351)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by James Owens on February 9, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires _____

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;] "Division", the division of energy within the department of economic development;

(3) "Electric utility", any electrical corporation as defined by section 386.020;

(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] fifteen percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty percent for calendar years [2014] 2023 through [2017] 2027;

(3) No less than [ten] twenty-five percent for calendar years [2018] 2028 through [2020] 2034; and

(4) No less than [fifteen] thirty percent [in each] for calendar year [beginning in 2021] 2035 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2018, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates

shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center] division solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after [August 28, 2013]November 6, 2018, shall be invalid and void.

RE: Petition approval request from Andrew Linhares regarding a proposed statutory amendment to Chapter 393, version 3 (2018-350)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Andrew Linhares on January 31, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;]

(3) "Division", the division of energy within the department of economic development;

[(3)] (4) "Electric utility", any electrical corporation as defined by section 386.020;

[(4)] (5) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

[(5)] (6) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-seven percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty-five percent for calendar years [2018] 2026 through [2020] 2029; [and]

(4) No less than forty percent for calendar years 2030 through 2034; and

[(4)] (5) No less than [fifteen] fifty percent [in each] for calendar year [beginning in] 2035 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2019, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail

rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's] division's energy center solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 201[3]8, shall be invalid and void.

RE: Petition approval request from Andrew Linhares regarding a proposed statutory amendment to Chapter 393, version 2 (2018-349)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Andrew Linhares on January 31, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires _____

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;]

(3) "Division", the division of energy within the department of economic development;

[(3)] (4) "Electric utility", any electrical corporation as defined by section 386.020;

[(4)] (5) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

[(5)] (6) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-five percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty percent for calendar years [2018] 2026 through [2020] 2029; [and]

(4) No less than thirty-five percent for calendar years 2030 through 2034; and

[(4)] (5) No less than [fifteen] forty percent [in each] for calendar year [beginning in] 2035 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2019, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail

rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's] division's energy center solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 201[3]8, shall be invalid and void.

Be it enacted by the people of the state of Missouri:

Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) "Department", the department of natural resources;

(3) "Division", the division of energy within the department of economic development;

[(3)] (4) "Electric utility", any electrical corporation as defined by section 386.020;

[(4)] (5) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

[(5)] (6) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] fifteen percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty percent for calendar years [2014] 2023 through [2017] 2027;

(3) No less than [ten] twenty-five percent for calendar years [2018] 2028 through [2020] 2034; and

(4) No less than [fifteen] thirty percent [in each] for calendar year [beginning in] 2035 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding any other provisions of this section, an electric utility may comply with this section using energy savings captured due to energy efficiency or demand-side measures. As part of its rulemaking authority pursuant to subsection 7 of this section, the commission shall prescribe a rule allowing an electric utility to comply with the portfolio requirements of subsection 1 of this section using verified megawatt-hour savings captured due to commission-approved demand-side programs under section 393.1075 during each compliance year, whether such annual energy savings is due to measures installed in that compliance year or in previous compliance years beginning with 2020.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2019, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the

difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's] division's energy center solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 201[3]8, shall be invalid and void.

RE: Petition approval request from Theodis Brown regarding a proposed statutory amendment to Chapter 506 (2018-347)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Theodis Brown on January 22, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

RE: Petition approval request from Steven Reed regarding a proposed statutory amendment (2018-346)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Steven Reed on January 19, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Section 36(a) of Article IV of the Constitution of Missouri is amended by modifying Section 36(a). The existing Section 36(a) is set forth hereinafter with the new matter underlined.

Section 36(a). **Economic development, department of - duties of department - director, how appointed.** - The department of economic development shall be in charge of a director appointed by the governor, by and with the advice and consent of the senate. The department shall administer all programs provided by law relating to the promotion of the economy of the state, the economic development of the state, trade and business, technology development and other activities and programs impacting on the economy of the state.

A state sales tax of one tenth of one percent will provide additional money for the State Economic Development Department to be used solely for the promotion and development of "Technology Parks in Missouri. Technology Parks serve as incubators helping create new companies, jobs, and research and development. Cities will be able to apply with the State of Missouri to have certified technology park status. Local counties or cities operating in the state may place voting yes or no on their ballot to seek approval or disapproval of the People.

The one year sales/use tax of one tenth of one percent (referred to above) is hereby levied and imposed upon all sellers for the privilege of selling tangible personal property or rendering taxable services at retail in this state upon the sales and services which now are or hereafter are listed and set forth in, and, except as to the amount of tax, subject to the provisions of and to be collected as provide in the "Sales Tax Law" and subject to the rules and regulations promulgated in connection therewith; the one year sales/use tax of one tenth of one percent is levied and imposed for the privilege of storing, using or consuming within this state any article of tangible personal property as set forth and provided in the "Compensating Use Tax Law" and, except as to the amount of the tax, subject to the provisions of and to be collected as provided in the "Compensating Tax Law" and subject to the rules and regulations promulgated in connection therewith. A Technology Park foundation will be established in name and accept any offered funding for a period of forever.

Schedule

Section 36(a) amendment. All of the provisions of 36(a) amendment shall be self-enforcing except that the general assembly shall adjust brackets for the collection of the sales and use taxes. The above one tenth of one percent sales/use tax will sunset one year after imposition.

Be it enacted by the people of the state of Missouri, as follows:

Section A. Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. Definitions. — As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) "Department", the department of natural resources;

(3) "Division", the division of energy within the department of economic development;

(4) "Governing Body", the body with jurisdiction over any municipal electric utility or rural electric cooperative as provided in chapter 394;

[(3)] (5) "Electric utility", any electrical corporation as defined by section 386.020;

[(4)] (6) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

[(5)] (7) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

(8) "Retail electric supplier", any municipal utility, electrical corporation regulated under chapter 386, or rural electric cooperative under chapter 394 that provides retail electric service in this state.

393.1030. 1. The commission or governing body shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all [electric utilities] retail electric suppliers to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each [electric utility's] retail electric supplier's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] thirty percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] forty percent for calendar years [2018] 2026 through [2020] 2029; and

(4) No less than [fifteen] fifty percent [in each] for calendar year [beginning in 2021] 2030 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding subsection 4, each retail electric supplier may comply with the portfolio requirements using electricity savings based on energy efficiency measures installed pursuant to a commission-approved demand-side program under section 393.1075 in the case of electrical corporations organized under this chapter, or pursuant to a demand-side program approved by the governing body in the case of municipal utilities and rural electric cooperatives under chapter 394. All savings from energy efficiency measures used to comply with the portfolio requirements of this section shall be verified by an evaluation, measurement, and verification process as specified by the commission or governing body.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2019, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. A retail electric supplier may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the retail electric supplier and sold to Missouri customers. A[n electric utility] retail electric supplier may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission or governing body, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the [electric utility's] retail electric supplier's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of

greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. A[n electric utility] retail electric supplier will be excused if it proves to the commission or governing body that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's] division's energy center solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each [electric utility] retail electric supplier in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those [electrical corporations] electric utilities that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 20[17]30; [fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020;] and zero cents per watt for systems becoming operational after June 30, 20[20]30. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 20[20]30, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission or governing body, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission or governing body and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission or governing body shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 201[3]8, shall be invalid and void.

RE: Petition approval request from Andrew Linhares regarding a proposed statutory amendment to Chapter 393, version 5 (2018-341)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Andrew Linhares on January 16, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jay Ashcroft

My commission expires _____

Be it enacted by the people of the state of Missouri, as follows:

Section A. Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. Definitions. — As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) "Department", the department of natural resources;

(3) "Division", the division of energy within the department of economic development;

(4) "Governing Body", the body with jurisdiction over any municipal electric utility or rural electric cooperative as provided in chapter 394;

[(3)] (5) "Electric utility", any electrical corporation as defined by section 386.020;

[(4)] (6) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

[(5)] (7) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

(8) "Retail electric supplier", any municipal utility, electrical corporation regulated under chapter 386, or rural electric cooperative under chapter 394 that provides retail electric service in this state.

393.1030. 1. The commission or governing body shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all [electric utilities] retail electric suppliers to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each [electric utility's] retail electric supplier's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-seven percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty-five percent for calendar years [2018] 2026 through [2020] 2029; and

(4) No less than [fifteen] forty percent [in each] for calendar year [beginning in 2021] 2030 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding subsection 4, each retail electric supplier may comply with the portfolio requirements using electricity savings based on energy efficiency measures installed pursuant to a commission-approved demand-side program under section 393.1075 in the case of electrical corporations organized under this chapter, or pursuant to a demand-side program approved by the governing body in the case of municipal utilities and rural electric cooperatives under chapter 394. All savings from energy efficiency measures used to comply with the portfolio requirements of this section shall be verified by an evaluation, measurement, and verification process as specified by the commission or governing body.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2019, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. A retail electric supplier may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the retail electric supplier and sold to Missouri customers. A[n electric utility] retail electric supplier may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission or governing body, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the [electric utility's] retail electric supplier's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of

greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. A[n electric utility] retail electric supplier will be excused if it proves to the commission or governing body that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's] division's energy center solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each [electric utility] retail electric supplier in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission or governing body, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission or governing body and the department shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission or governing body shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 201[3]8, shall be invalid and void.

Be it enacted by the people of the state of Missouri, as follows:

Section A. Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. Definitions. — As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) "Department", the department of natural resources;

(3) "Division", the division of energy within the department of economic development;

(4) "Governing Body", the body with jurisdiction over any municipal electric utility or rural electric cooperative as provided in chapter 394;

[(3)] (5) "Electric utility", any electrical corporation as defined by section 386.020;

[(4)] (6) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

[(5)] (7) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

(8) "Retail electric supplier", any municipal utility, electrical corporation regulated under chapter 386, or rural electric cooperative under chapter 394 that provides retail electric service in this state.

393.1030. 1. The commission or governing body shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all [electric utilities] retail electric suppliers to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each [electric utility's] retail electric supplier's sales:

(1) No less than [two] fifteen percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] twenty-five percent for calendar years [2018] 2026 through [2020] 2029; and

(4) No less than [fifteen] thirty percent [in each] for calendar year [beginning in] [2021] 2030 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding subsection 4, each retail electric supplier may comply with the portfolio requirements using electricity savings based on energy efficiency measures installed pursuant to a commission-approved demand-side program under section 393.1075 in the case of electrical corporations organized under this chapter, or pursuant to a demand-side program approved by the governing body in the case of municipal utilities and rural electric cooperatives under chapter 394. All savings from energy efficiency measures used to comply with the portfolio requirements of this section shall be verified by an evaluation, measurement, and verification process as specified by the commission or governing body.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2019, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. A retail electric supplier may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the retail electric supplier and sold to Missouri customers. A[n electric utility] retail electric supplier may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission or governing body, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the [electric utility's] retail electric supplier's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. A[n electric utility] retail electric supplier will be excused if it proves to the commission or governing body that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's] division's energy center solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each [electric utility] retail electric supplier in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission or governing body, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission or governing body and the department shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission or governing body shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 201[3]8, shall be invalid and void.

RE: Petition approval request from Andrew Linhares regarding a proposed statutory amendment to Chapter 393, version 3 (2018-339)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Andrew Linhares on January 16, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires _____

Be it enacted by the people of the state of Missouri, as follows:

Section A. Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. Definitions. — As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;]

(3) "Division", the division of energy within the department of economic development;

[(3)] (4) "Electric utility", any electrical corporation as defined by section 386.020;

[(4)] (5) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and]

[(5)] (6) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] thirty percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] forty percent for calendar years [2018] 2026 through [2020] 2029; and

(4) No less than [fifteen] fifty percent [in each] for calendar year [beginning in] 2030 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding subsection 4, each electric utility may comply with the portfolio requirements using electricity savings based on energy efficiency measures installed pursuant to a commission-approved demand-side management program under section 393.1075.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2019, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average

retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's] division's energy center solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those [electrical corporations] electric utilities that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 20[19]30; [twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020;] and zero cents per watt for systems becoming operational after June 30, 20[20]30. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 20[20]30, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 201[3]8, shall be invalid and void.

Be it enacted by the people of the state of Missouri, as follows:

Section A. Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. Definitions. — As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) ["Department", the department of natural resources;]

(3) "Division", the division of energy within the department of economic development;

[(3)] (4) "Electric utility", any electrical corporation as defined by section 386.020;

[(4)] (5) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

[(5)] (6) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] twenty percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty-seven percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] thirty-five percent for calendar years [2018] 2026 through [2020] 2029; and

(4) No less than [fifteen] forty percent [in each] for calendar year [beginning in] 2030 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding subsection 4, each electric utility may comply with the portfolio requirements using electricity savings based on energy efficiency measures installed pursuant to a commission-approved demand-side management program under section 393.1075.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2019, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average

retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's] division's energy center solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 201[3]8, shall be invalid and void.

RE: Petition approval request from Andrew Linhares regarding a proposed statutory amendment to Chapter 393, version 1 (2018-337)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Andrew Linhares on January 16, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires _____

Be it enacted by the people of the state of Missouri, as follows:

Section A. Sections 393.1025 through 393.1030, RSMo. are repealed and two new sections are enacted in lieu thereof, to be known as Sections 393.1025 and 393.1030, to read as follows:

393.1025. Definitions. — As used in sections 393.1020 to 393.1030, the following terms mean:

(1) "Commission", the public service commission;

(2) "Department", the department of natural resources;

(3) "Division", the division of energy within the department of economic development;

[(3)] (4) "Electric utility", any electrical corporation as defined by section 386.020;

[(4)] (5) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-hour of electricity has been generated from renewable energy sources; and

[(5)] (6) "Renewable energy resources", electric energy produced from wind, solar thermal sources, photovoltaic cells and panels, dedicated crops grown for energy production, cellulosic agricultural residues, plant residues, methane from landfills, from agricultural operations, or from wastewater treatment, thermal depolymerization or pyrolysis for converting waste material to energy, clean and untreated wood such as pallets, hydropower (not including pumped storage) that does not require a new diversion or impoundment of water and that has a total facility nameplate [rating] capacity of ten megawatts or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources, and other sources of energy not including nuclear that become available after November 4, 2008, and are certified as renewable by rule by the [department] division.

393.1030. 1. The commission shall, in consultation with the [department] division, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirements shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

(1) No less than [two] fifteen percent for calendar years [2011] 2020 through [2013] 2022;

(2) No less than [five] twenty percent for calendar years [2014] 2023 through [2017] 2025;

(3) No less than [ten] twenty-five percent for calendar years [2018] 2026 through [2020] 2029; and

(4) No less than [fifteen] thirty percent [in each] for calendar year [beginning in] 2030 and each year thereafter;

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. [A utility may comply with the standard in whole or in part by purchasing RECs.] Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. Notwithstanding subsection 4, each electric utility may comply with the portfolio requirements using electricity savings based on energy efficiency measures installed pursuant to a commission-approved demand-side program under section 393.1075.

[2] 3. The commission, in consultation with the [department] division and within one year of November [4] 6, [2008] 2019, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may comply with the standard in whole or in part by purchasing RECs, provided that such RECs are associated with electricity produced or procured by the electric utility and sold to Missouri customers. An electric utility may not use a credit derived from a green pricing program towards compliance with the standard. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the [department] division is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average

retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the [department] division to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's] division's energy center solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4] 5. The [department] division shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5] 6. In carrying out the provisions of this section, the commission and the [department] division shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 201[3]8, shall be invalid and void.

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Article V entitled Judicial Department, is amended by adding one new section to be known as Section 32, to read as follows:

The Supreme Court allows certified paralegals or legal assistants certified by a credited college or university, without attending law school, to shadow and work alongside of an attorney at law for a period of three years. Thereafter, the person would be allowed to take a bar exam and if passed, demonstrating good moral character and financial responsibility per State Supreme Court rules, will be able to practice law in Missouri and will be accepted by the Supreme Court and the Appeals Courts and all Courts and Tribunals in the state and have the same basic rights to practice law and give legal advice to the People of the state.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-336)

Subject

Initiative petition from Steven Reed regarding a proposed constitutional amendment to Article V. (Received January 16, 2018)

Date

February 5, 2018

Description

This proposal would amend Article V of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Bar Association.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will not have a fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact for this legislation.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact to their department or the MHTC (Missouri Highways and Transportation Commission).

Officials from the **Office of Administration** indicated this proposal would allow certified paralegals and legal assistants that have shadowed and worked alongside of an attorney for three years to take the bar exam and, if passed, practice law in Missouri. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated since the number of people who would qualify to practice law under this amendment is unknown the impact cannot be quantified at this time. Any significant changes will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish

the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition may provide additional "attorneys" to be hired by the Public Defender, but it will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this initiative would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated there would be no fiscal impact if this initiative petition were approved.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Bar Association.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings from this proposal.

State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Steven Reed regarding a proposed constitutional amendment to Article IV (2018-335)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Steven Reed on January 11, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Article IV, Section 48 is amended by adding one new section known as 48(a), to read as follows:

No person operating a moving motor vehicle upon the highways of this state shall, by means of a hand-held electronic wireless communications device, make or take part in a phone call, or send, read, or write a text message or electronic message, unless the device is equipped with technology allowing for hands-free operation or equipped for voice-re cognition hands-free texting and is being used in such manner. 2. Except as otherwise provided in this section, no person shall operate a commercial motor vehicle while using a hand-held mobile telephone. 3. Except as otherwise provided in this section, no person shall operate a commercial motor vehicle while using a wireless communications device to send, read, or write a text message or electronic message. 4. The provisions of subsection 1 through subsection 3 of this section shall not apply to a person operating: (1) An authorized emergency vehicle.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-334)

Subject

Initiative petition from Steven Reed regarding a proposed constitutional amendment to Article IV. (Received January 10, 2018)

Date

January 30, 2018

Description

This proposal would amend Article IV of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners,** and the **Metropolitan Police Department - City of St. Louis.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated currently, they have guidelines for staff when they are operating a state vehicle and using a cell phone. If this legislation passes, their department would either have to install hands free kits in all state vehicles or prohibit staff from using a cell phone while driving. Should they determine installing hands free kits in all state vehicles to be the best route, they believe the costs to be absorbable within their current budget constraints.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this legislation will not have a fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this legislation.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this proposal adds a Section 48(a) to Article IV Section 48 of the Missouri Constitution. It would prohibit the use of electronic devises while operating a moving vehicle, prohibit the use of a hand-held mobile telephone in a commercial motor vehicle and prohibit texting while operating a commercial motor vehicle. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there may be some impact but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements.

Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated the impact of this initiative petition on their office is not clear, as the punishment for operating a motor vehicle while using a hand held electronic device is not enumerated. If the offense is an infraction, there would be no impact. If the offense is a misdemeanor, punishable, with jail time - the impact would be large.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they report no fiscal impact for this initiative petition. Their county already has a policy in place banning the use of portable electronic devices while operating a county-owned vehicle.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **University of Missouri** indicated they do not believe that this initiative will have a significant fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College,** the

Kansas City Board of Police Commissioners, and the **Metropolitan Police Department - City of St. Louis.**

Fiscal Note Summary

State governmental entities could incur additional costs, but the amount is unknown. Local governmental entities estimate no costs or savings.

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Article I entitled Bill of Rights, is amended by adding one new section to be known as Section 36, to read as follows:

Section 36. All state funded operations that are open to the public will allow the People of Missouri to petition at their public entrances as allowed in the State and Federal Constitutions as a basic and fundamental right.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-332)

Subject

Initiative petition from Steven Reed regarding a proposed constitutional amendment to Article I. (Received January 10, 2018)

Date

January 30, 2018

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will not have a fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this legislation.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this proposal would expressly allow people to petition at the public entrances as allowed in the state and federal Constitutions. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on their office.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs

to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they report no fiscal impact if petitioners are allowed at the entrances of state-funded operations.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings from this proposal.

RE: Petition approval request from Steven Reed regarding a proposed constitutional amendment to Article IV (2018-331)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Steven Reed on January 8, 2018.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Title VI COUNTY, TOWNSHIP AND POLITICAL SUBDIVISION GOVERNMENT

47.310. Proceedings for dividing counties. — 1. The question of dividing any county or of striking from any county any portion thereof, whether for the purpose of forming a new county or of adding to any other county, or of adding thereto any portion of any other county, may, by the order of the county commission of any county to be affected, made on the petition therefor of not less than one hundred voters of such county, duly entered of record, and setting out fully the proposed change, the reason and object thereof, and the boundaries of such county if the change were made, be submitted to a vote of the people of the county, being the voters thereof, at the next general election after the making of such order.

2. The question shall be submitted in substantially the following form:

Shall the proposed change in the _____ county boundary be made?

3. If the result shows a majority of the voters of the county voting on the question to have voted for the proposed change, the county clerk shall, at the time of certifying such returns to the secretary of state, also certify to that officer two copies of said order of the county commission, and of said publication, and of the affidavit of the publisher, one copy to be retained on file in said secretary's office, and one copy, with a certified statement of the vote on such question, to be by him transmitted to the senate or house of representatives during the first ten days of the first session of the general assembly after the receipt thereof, and thereupon the general assembly may take such action in the premises, subject to the provisions of the constitution, as may seem best. No submission of the question authorized under the provisions of this section shall be held upon substantially the same question more often than once in five years.

BE IT RESOLVED by the people of the state of Missouri that the Constitution be amended:

Article IV of the Constitution is revised by amending Section 30(b) to read as follows:

Section 30(b). 1. For the sole and exclusive purpose of constructing and maintaining an adequate system of connected state highways all state revenue derived from highway users as an incident to their use or right to use the highways of the state, including all state license fees and taxes upon motor vehicles, trailers and motor vehicle fuels, and upon, with respect to, or on the privilege of the manufacture, receipt, storage, distribution, sale or use thereof (excepting those portions of the sales tax on motor vehicles and trailers which are not distributed to the state road fund pursuant to subsection 2 of this section 30(b) and further excepting all property taxes), less the [(1) actual cost of collection of the department of revenue (but not to exceed three percent of the particular tax or fee collected), (2)] actual cost of refunds for overpayments and erroneous payments of such taxes and fees and maintaining retirement programs as permitted by law[and (3) actual cost of the state highway patrol in administering and enforcing any state motor vehicle laws and traffic regulations,] shall be deposited in the state road fund which is hereby created within the state treasury and stand appropriated without legislative action to be used and expended by the highways and transportation commission for the following purposes, and no other:

First, to the payment of the principal and interest on any outstanding state road bonds. The term state road bonds in this section 30(b) means any bonds or refunding bonds issued by the highways and transportation commission to finance or refinance the construction or reconstruction of the state highway system.

Second, to maintain a balance in the state road fund in the amount deemed necessary to meet the payment of the principal and interest of any state road bonds for the next succeeding twelve months.

The remaining balance in the state road fund shall be used and expended in the sole discretion of and under the supervision and direction of the highways and transportation commission for the following state highway system uses and purposes and no other:

(1) To complete and widen or otherwise improve and maintain the state highway system heretofore designated and laid out under existing laws;

(2) To reimburse the various counties and other political subdivisions of the state, except incorporated cities and towns, for money expended by them in the construction or acquisition of roads and bridges now or hereafter taken over by the highways and transportation commission as permanent parts of the state highway system, to the extent of the value to the state of such roads and bridges at the time taken over, not exceeding in any case the amount expended by such counties and subdivisions in the construction or acquisition of such roads and bridges, except that the highways and transportation commission may, in its discretion, repay, or agree to repay, any cash advanced by a county or subdivision to expedite state road construction or improvement;

(3) In the discretion of the commission to plan, locate, relocate, establish, acquire, construct and maintain the following:

(a) interstate and primary highways within the state;

(b) supplementary state highways and bridges in each county of the state;

(c) state highways and bridges in, to and through state parks, public areas and reservations, and state institutions now or hereafter established to connect the same with the state highways, and also national, state or local parkways, travelways, tourways, with coordinated facilities;

(d) any tunnel or interstate bridge or part thereof, where necessary to connect the state highways of this state with those of other states;

(e) any highway within the state when necessary to comply with any federal law or requirement which is or shall become a condition to the receipt of federal funds;

(f) any highway in any city or town which is found necessary as a continuation of any state or federal highway, or any connection therewith, into and through such city or town; and

(g) additional state highways, bridges and tunnels, either in congested traffic areas of the state or where needed to facilitate and expedite the movement of through traffic.

(4) To acquire materials, equipment and buildings and to employ such personnel as necessary for the purposes described in this subsection 1; and

(5) For such other purposes and contingencies relating and appertaining to the construction and maintenance of such state highway system as the highways and transportation commission may deem necessary and proper.

(6) No revenues or fund balances authorized by this subsection 30(b) shall in any way be diverted for purposes other than those specifically authorized by this subsection.

2. (1) The state sales tax upon the sale of motor vehicles, trailers, motorcycles, mopeds and motortricycles at the rate provided by law on November 2, 2004, is levied and imposed by this section until the rate is changed by law or constitutional amendment.

(2) One-half of the proceeds from the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles shall be dedicated for highway and transportation use and shall be apportioned and distributed as follows: ten percent to the counties, fifteen percent to the cities, two percent to be deposited in the state transportation fund, which is hereby created within the state treasury to be used in a manner provided by law and seventy-three percent to be deposited in the state road fund. The amounts apportioned and distributed to the counties and cities shall be further allocated and used as provided in section 30(a) of this article. The amounts allocated and distributed to the highways and transportation commission for the state road fund shall be used as provided in subsection 1 of this section 30(b). The sales taxes which are apportioned and distributed pursuant to this subdivision (2) shall not include those taxes levied and imposed pursuant to sections 43(a) or 47(a) of this article. The term "proceeds from the state sales tax" as used in this subdivision (2) shall mean and include all revenues received by the department of revenue from the said sales tax, reduced only by refunds for overpayments and erroneous payments of such tax as permitted

by law and actual costs of collection by the department of revenue (but not to exceed three percent of the amount collected).

(3) (i) From and after July 1, 2005, through June 30, 2006, twenty-five percent of the remaining one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund which is hereby created within the state treasury; (ii) from and after July 1, 2006, through June 30, 2007, fifty percent of the aforesaid one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund; (iii) from and after July 1, 2007, through June 30, 2008, seventy-five percent of the aforesaid one- half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund; and (iv) from and after July 1, 2008, one hundred percent of the aforesaid one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund. Moneys deposited in the state road bond fund are hereby dedicated to and shall only be used to fund the repayment of bonds issued by the highways and transportation commission to fund the construction and reconstruction of the state highway system or to fund refunding bonds, except that after January 1, 2009, that portion of the moneys in the state road bond fund which the commissioner of administration and the highways and transportation commission each certify is not needed to make payments upon said bonds or to maintain an adequate reserve for making future payments upon said bonds may be appropriated to the state road fund. The highways and transportation commission shall have authority to issue state road bonds for the uses set forth in this subdivision (3). The net proceeds received from the issuance of such bonds shall be paid into the state road fund and shall only be used to fund construction or reconstruction of specific projects for parts of the state highway system as determined by the highways and transportation commission. The moneys deposited in the state road bond fund shall only be withdrawn by appropriation pursuant to this constitution. No obligation for the payment of moneys so appropriated shall be paid unless the commissioner of administration certifies it for payment and further certifies that the expenditure is for a use which is specifically authorized by the provisions of this subdivision (3). The proceeds of the sales tax which are subject to allocation and deposit into the state road bond fund pursuant to this subdivision (3) shall not include the proceeds of the sales tax levied and imposed pursuant to sections 43(a) or 47(a) of this article nor shall they include the proceeds of that portion of the sales tax apportioned, distributed and dedicated to the school district trust fund on November 2, 2004. The term "proceeds from the state sales tax" as used in this subdivision (3) shall mean and include all revenues received by the department of revenue from the said sales tax, reduced only by refunds for overpayments and erroneous payments of such tax as permitted by law and actual costs of collection by the department of revenue (but not to exceed three percent of the amount collected).

3. After January 1, 1980, any increase in state license fees and taxes on motor vehicles, trailers, motorcycles, mopeds and motortricycles other than those taxes distributed pursuant to subsection 2 of this section 30(b) shall be distributed as follows: ten percent to the counties, fifteen percent to the cities and seventy-five percent to be deposited in the state road fund. The amounts distributed shall be apportioned and distributed to the counties and cities as provided in section 30(a) of this article, to be used for highway purposes.

4. The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of "total state revenues" as that term is used in section 17 of Article X of this constitution nor be considered as an "expense of state government" as that term is used in section 20 of article X of this constitution.

5. In order to provide adequate law enforcement on state roads and throughout the state, an additional sales tax of three-eighths of one cent is hereby adopted and imposed upon all sellers for the privilege of selling tangible personal property or rendering taxable services at retail in this state upon the sales and services which now are listed and set forth in, and, except as to the amount of tax, subject to the provisions of and to be collected as provided in the "Sales Tax Law" and subject to the rules and regulations promulgated in connection therewith.

6. The "Missouri Law Enforcement Trust Fund" is hereby established. All revenues generated by the tax in subsection 5 shall be deposited into the Trust Fund. To the extent any amounts in the Trust Fund are not appropriated by the General Assembly in any year, funds shall remain in the Trust Fund for future appropriations consistent with this section and no balances shall be diverted or otherwise appropriated except as authorized by this section. No funds shall be expended from the Trust Fund prior to July 1, 2019. The General Assembly shall appropriate funds in the Trust Fund solely as follows:

(1) to provide for the actual cost of an annual audit of all funds raised or expended under this section;

(2) to provide for the actual cost of the state highway patrol in administering and enforcing any state motor vehicle laws or traffic regulations or for such other state highway patrol functions as the legislature shall deem appropriate;

(3) to provide funds for grants to municipal and county law enforcement agencies for equipment and training and to provide for the families of law enforcement officers killed in the line of duty as authorized by law. In any given year, such funding shall not exceed 10% of the revenue generated by subsection 5 in that year.

7. The state auditor shall annually conduct an audit of the funds raised and expenditures authorized under this section and release the report publicly to the taxpayers.

8. The amendments to subsection 1 above shall not take effect until July 1, 2019.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-328) - revised

Subject

Initiative petition from Terry Briggs regarding a proposed constitutional amendment to Article IV. (Received December 19, 2017)

Date

February 21, 2018

Description

This proposal would amend Article IV of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, the Metropolitan Police Department - City of St. Louis,** and **the State Auditor's Office.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from **Department of Higher Education** indicated this petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** estimated one-time operating costs of $78,850 in fiscal year 2019 and estimate increased titling revenue of $36,095,268 in fiscal year 2019, $43,314,321 in fiscal year 2020, and $43,314,321 in fiscal year 2021.

The proposed legislation increases the sales tax on tangible personal property or tangible services at retail.

ITSD cost estimate equals 940.69 hrs. @ $75 per hr. = $70,551

The proposed legislation will increase sales tax by three-eighths of one percent on retail sales of tangible personal property creating a positive impact on total state revenue.

The proposed legislation would increase revenue from the additional sales tax collected.

Section 30(b)

- Provides strict regulations for distribution of current state sales tax and license fees collected and eliminates the deduction for the Departments cost of collection.
- Provides for an additional sales tax of three-eighths of one cent to be imposed on the sale of tangible personal property and taxable services at retail as provided in the "Sales Tax Law".
- Creates the "Missouri Law Enforcement Trust Fund". Provides regulations for such fund and that all revenues generated from the increased sales tax to be deposited into the fund.
- The State Auditor shall conduct an audit annually of the funds raised and expenditures under this section and release the report publicly.

Administrative Impact

To implement the proposed language, the Department will be required to:

- Update procedures, correspondence letters, and the Department website;
- Update the titling manual;
- Modify title rejection verbiage; and
- Complete programming and user acceptance testing.

12. Assumptions and methodology used in arriving at state fiscal impact.

Development staff estimated the hours required to update existing software to accommodate changes required by the bill.
MTAS would have to be programmed to account for the new rate and fund.
MTAS would have to be programmed for distribution.

Revenue Impact

The proposed legislation establishes an additional three-eighths of one-cent sales tax to transactions subject to Missouri's sales tax law.

Motor Vehicle State Sales Tax

The Department collects state sales tax on the titling of motor vehicles, trailers, ATV's, motorcycles, motortricycles, boats, and outboard motors. The state sales tax total shown below is the combined total amount of state sales tax collected in FY 2017.

$ 488,088,015	Total tax collected in FY 2017
/ 0.04225	Current state sales tax rate
$11,550,485,562	Total purchase price in FY 2017
x 0.00375	Proposed tax increase
$ 43,314,321	Additional tax collected from the tax increase that would go to the "Missouri Law Enforcement Trust Fund"

Amount Deposited into the "Missouri Law Enforcement Trust Fund"

FY 2019 (10 months)	$36,095,268
FY 2020	$43,314,321
FY 2021	$43,314,321

The Department provided the following comments:

The current tax collected under Section 30(b) is deposited into the state road fund. It is unclear if the proposed language, "For the sole and exclusive purpose of constructing and maintaining an adequate system…", can also impose a new three-eighths of one cent sales tax that is to be deposited into the "Missouri Law Enforcement Trust Fund". The proposed increase would need to be a new tax and not an increase to the existing tax so the funds can be distributed properly to the correct funds.

The proposed language requires the Department to impose and collect an additional sales tax on tangible personal property and taxable services. It appears that the amendment reduces the amount received by the Department for collection expenses. The

Department's collection expenses, up to 3% of the particular fee or tax collected is no longer subtracted from the amount of tax collected under this constitutional amendment.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated their department defers to the Department of Revenue for a fiscal impact.

Officials from the **Office of Administration** indicated this proposal impose a three-eighths of 1% state sales tax to provide additional money for law enforcement on state roads. If this proposal passes during the 2018 General Election, the new sales tax would begin July 1, 2019. Based on gross general revenue tax collection in FY 17 of $2,147.1 million, Budget and Planning (B&P) estimate that the 0.375% sales tax would generate $268.4M in FY 20 and annually thereafter. Money from this additional sales tax is to be deposited into the "Missouri Law Enforcement Trust Fund". This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated no fiscal impact on their office.

Officials from the **Missouri Senate** indicated their office anticipates no fiscal impact.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to Secretary of State's office for Administrative Rules is less than $2,500. The Secretary of State's office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request

funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

The Secretary of State's office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 the Secretary of State's Office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). The Secretary of State's office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any direct impact on their office. Additional monies for law enforcement, will result in additional cases for the State Public Defender System.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to their county for this petition.

Officials from **St. Louis County** indicated no fiscal impact for this constitutional amendment. The 3/8-cent and 4/10-cent sales taxes for the proposed Law Enforcement Trust Fund in 2018-322, 2018-323, 2018-327 and 2018-328 could provide an opportunity for the St. Louis County Police to receive a grant for law enforcement equipment and training from the 10% set-aside, but it is not possible to project a dollar figure. No savings or losses are anticipated.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri System** indicated they do not believe that this proposal will have a significant impact on their university.

Officials from the **State Auditor's office** indicated this proposal should have no fiscal impact on their office. Any impact can be absorbed through current appropriations.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education**, **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph**, the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, and the Metropolitan Police Department - City of St. Louis.**

Fiscal Note Summary

State government entities estimate increased revenue of $312 million annually and one-time costs of $79,000. Local governments estimate no costs or savings.

RE: Petition approval request from Terry Briggs regarding a proposed constitutional amendment to Article IV, version 1 (2018-327)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Terry Briggs on December 18, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

BE IT RESOLVED by the people of the state of Missouri that the Constitution be amended:

Article IV of the Constitution is revised by amending Section 30(b) to read as follows:

Section 30(b). 1. For the sole and exclusive purpose of constructing and maintaining an adequate system of connected state highways all state revenue derived from highway users as an incident to their use or right to use the highways of the state, including all state license fees and taxes upon motor vehicles, trailers and motor vehicle fuels, and upon, with respect to, or on the privilege of the manufacture, receipt, storage, distribution, sale or use thereof (excepting those portions of the sales tax on motor vehicles and trailers which are not distributed to the state road fund pursuant to subsection 2 of this section 30(b) and further excepting all property taxes), less the [(1) actual cost of collection of the department of revenue (but not to exceed three percent of the particular tax or fee collected), (2)] actual cost of refunds for overpayments and erroneous payments of such taxes and fees and maintaining retirement programs as permitted by law[and (3) actual cost of the state highway patrol in administering and enforcing any state motor vehicle laws and traffic regulations,] shall be deposited in the state road fund which is hereby created within the state treasury and stand appropriated without legislative action to be used and expended by the highways and transportation commission for the following purposes, and no other:

First, to the payment of the principal and interest on any outstanding state road bonds. The term state road bonds in this section 30(b) means any bonds or refunding bonds issued by the highways and transportation commission to finance or refinance the construction or reconstruction of the state highway system.

Second, to maintain a balance in the state road fund in the amount deemed necessary to meet the payment of the principal and interest of any state road bonds for the next succeeding twelve months.

The remaining balance in the state road fund shall be used and expended in the sole discretion of and under the supervision and direction of the highways and transportation commission for the following state highway system uses and purposes and no other:

(1) To complete and widen or otherwise improve and maintain the state highway system heretofore designated and laid out under existing laws;

(2) To reimburse the various counties and other political subdivisions of the state, except incorporated cities and towns, for money expended by them in the construction or acquisition of roads and bridges now or hereafter taken over by the highways and transportation commission as permanent parts of the state highway system, to the extent of the value to the state of such roads and bridges at the time taken over, not exceeding in any case the amount expended by such counties and subdivisions in the construction or acquisition of such roads and bridges, except that the highways and transportation commission may, in its discretion, repay, or agree to repay, any cash advanced by a county or subdivision to expedite state road construction or improvement;

(3) In the discretion of the commission to plan, locate, relocate, establish, acquire, construct and maintain the following:

(a) interstate and primary highways within the state;

(b) supplementary state highways and bridges in each county of the state;

(c) state highways and bridges in, to and through state parks, public areas and reservations, and state institutions now or hereafter established to connect the same with the state highways, and also national, state or local parkways, travelways, tourways, with coordinated facilities;

(d) any tunnel or interstate bridge or part thereof, where necessary to connect the state highways of this state with those of other states;

(e) any highway within the state when necessary to comply with any federal law or requirement which is or shall become a condition to the receipt of federal funds;

(f) any highway in any city or town which is found necessary as a continuation of any state or federal highway, or any connection therewith, into and through such city or town; and

(g) additional state highways, bridges and tunnels, either in congested traffic areas of the state or where needed to facilitate and expedite the movement of through traffic.

(4) To acquire materials, equipment and buildings and to employ such personnel as necessary for the purposes described in this subsection 1; and

(5) For such other purposes and contingencies relating and appertaining to the construction and maintenance of such state highway system as the highways and transportation commission may deem necessary and proper.

(6) No revenues or fund balances authorized by this subsection 30(b) shall in any way be diverted for purposes other than those specifically authorized by this subsection.

2. (1) The state sales tax upon the sale of motor vehicles, trailers, motorcycles, mopeds and motortricycles at the rate provided by law on November 2, 2004, is levied and imposed by this section until the rate is changed by law or constitutional amendment.

(2) One-half of the proceeds from the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles shall be dedicated for highway and transportation use and shall be apportioned and distributed as follows: ten percent to the counties, fifteen percent to the cities, two percent to be deposited in the state transportation fund, which is hereby created within the state treasury to be used in a manner provided by law and seventy-three percent to be deposited in the state road fund. The amounts apportioned and distributed to the counties and cities shall be further allocated and used as provided in section 30(a) of this article. The amounts allocated and distributed to the highways and transportation commission for the state road fund shall be used as provided in subsection 1 of this section 30(b). The sales taxes which are apportioned and distributed pursuant to this subdivision (2) shall not include those taxes levied and imposed pursuant to sections 43(a) or 47(a) of this article. The term "proceeds from the state sales tax" as used in this subdivision (2) shall mean and include all revenues received by the department of revenue from the said sales tax, reduced only by refunds for overpayments and erroneous payments of such tax as permitted

by law and actual costs of collection by the department of revenue (but not to exceed three percent of the amount collected).

(3) (i) From and after July 1, 2005, through June 30, 2006, twenty-five percent of the remaining one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund which is hereby created within the state treasury; (ii) from and after July 1, 2006, through June 30, 2007, fifty percent of the aforesaid one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund; (iii) from and after July 1, 2007, through June 30, 2008, seventy-five percent of the aforesaid one- half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund; and (iv) from and after July 1, 2008, one hundred percent of the aforesaid one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund. Moneys deposited in the state road bond fund are hereby dedicated to and shall only be used to fund the repayment of bonds issued by the highways and transportation commission to fund the construction and reconstruction of the state highway system or to fund refunding bonds, except that after January 1, 2009, that portion of the moneys in the state road bond fund which the commissioner of administration and the highways and transportation commission each certify is not needed to make payments upon said bonds or to maintain an adequate reserve for making future payments upon said bonds may be appropriated to the state road fund. The highways and transportation commission shall have authority to issue state road bonds for the uses set forth in this subdivision (3). The net proceeds received from the issuance of such bonds shall be paid into the state road fund and shall only be used to fund construction or reconstruction of specific projects for parts of the state highway system as determined by the highways and transportation commission. The moneys deposited in the state road bond fund shall only be withdrawn by appropriation pursuant to this constitution. No obligation for the payment of moneys so appropriated shall be paid unless the commissioner of administration certifies it for payment and further certifies that the expenditure is for a use which is specifically authorized by the provisions of this subdivision (3). The proceeds of the sales tax which are subject to allocation and deposit into the state road bond fund pursuant to this subdivision (3) shall not include the proceeds of the sales tax levied and imposed pursuant to sections 43(a) or 47(a) of this article nor shall they include the proceeds of that portion of the sales tax apportioned, distributed and dedicated to the school district trust fund on November 2, 2004. The term "proceeds from the state sales tax" as used in this subdivision (3) shall mean and include all revenues received by the department of revenue from the said sales tax, reduced only by refunds for overpayments and erroneous payments of such tax as permitted by law and actual costs of collection by the department of revenue (but not to exceed three percent of the amount collected).

3. After January 1, 1980, any increase in state license fees and taxes on motor vehicles, trailers, motorcycles, mopeds and motortricycles other than those taxes distributed pursuant to subsection 2 of this section 30(b) shall be distributed as follows: ten percent to the counties, fifteen percent to the cities and seventy-five percent to be deposited in the state road fund. The amounts distributed shall be apportioned and distributed to the counties and cities as provided in section 30(a) of this article, to be used for highway purposes.

4. The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of "total state revenues" as that term is used in section 17 of Article X of this constitution nor be considered as an "expense of state government" as that term is used in section 20 of article X of this constitution.

5. In order to provide adequate law enforcement on state roads and throughout the state, an additional sales tax of four-tenths of one cent is hereby adopted and imposed upon all sellers for the privilege of selling tangible personal property or rendering taxable services at retail in this state upon the sales and services which now are listed and set forth in, and, except as to the amount of tax, subject to the provisions of and to be collected as provided in the "Sales Tax Law" and subject to the rules and regulations promulgated in connection therewith.

6. The "Missouri Law Enforcement Trust Fund" is hereby established. All revenues generated by the tax in subsection 5 shall be deposited into the Trust Fund. To the extent any amounts in the Trust Fund are not appropriated by the General Assembly in any year, funds shall remain in the Trust Fund for future appropriations consistent with this section and no balances shall be diverted or otherwise appropriated except as authorized by this section. No funds shall be expended from the Trust Fund prior to July 1, 2019. The General Assembly shall appropriate funds in the Trust Fund solely as follows:

(1) to provide for the actual cost of an annual audit of all funds raised or expended under this section;

(2) to provide for the actual cost of the state highway patrol in administering and enforcing any state motor vehicle laws or traffic regulations or for such other state highway patrol functions as the legislature shall deem appropriate;

(3) to provide funds for grants to municipal and county law enforcement agencies for equipment and training and to provide for the families of law enforcement officers killed in the line of duty as authorized by law. In any given year, such funding shall not exceed 10% of the revenue generated by subsection 5 in that year.7. The state auditor shall annually conduct an audit of the funds raised and expenditures authorized under this section and release the report publicly to the taxpayers.

8. The amendments to subsection 1 above shall not take effect until July 1, 2019.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-327) - revised

Subject

Initiative petition from Terry Briggs regarding a proposed constitutional amendment to Article IV. (Received December 19, 2017)

Date

February 21, 2018

Description

This proposal would amend Article IV of the Missouri Constitution .

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, the Metropolitan Police Department - City of St. Louis,** and **the State Auditor's Office.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from **Department of Higher Education** indicated this petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** estimated one-time operating costs of $78,850 in fiscal year 2019 and estimate increased titling revenue of $38,501,618 in fiscal year 2019, $46,201,942 in fiscal year 2020, and $46,201,942 in fiscal year 2021.

The proposed legislation increases the sales tax on tangible personal property or tangible services at retail.

ITSD cost estimate equals 940.69 hrs. @ $75 per hr. = $70,551

The proposed legislation will increase sales tax by four-tenths of one percent on retail sales of tangible personal property creating a positive impact on total state revenue.

The proposed legislation would increase revenue from the additional sales tax collected.

Section 30(b)

- Provides strict regulations for distribution of current state sales tax and license fees collected and eliminates the deduction for the Departments cost of collection.
- Provides for an additional sales tax of four-tenths of one cent to be imposed on the sale of tangible personal property and taxable services at retail as provided in the "Sales Tax Law".
- Creates the "Missouri Law Enforcement Trust Fund". Provides regulations for such fund and that all revenues generated from the increased sales tax to be deposited into the fund.
- The State Auditor shall conduct an audit annually of the funds raised and expenditures under this section and release the report publicly.

Administrative Impact

To implement the proposed language, the Department will be required to:

- Update procedures, correspondence letters, and the Department website;
- Update the titling manual;
- Modify title rejection verbiage; and
- Complete programming and user acceptance testing.

12. Assumptions and methodology used in arriving at state fiscal impact.

Development staff estimated the hours required to update existing software to accommodate changes required by the bill.
MTAS would have to be programmed to account for the new rate and fund.
MTAS would have to be programmed for distribution.

Revenue Impact

The proposed legislation establishes an additional four-tenths of one-cent sales tax to transactions subject to Missouri's sales tax law.

Motor Vehicle State Sales Tax

The Department collects state sales tax on the titling of motor vehicles, trailers, ATV's, motorcycles, motortricycles, boats, and outboard motors. The state sales tax total shown below is the combined total amount of state sales tax collected in FY 2017.

$ 488,088,015	Total tax collected in FY 2017
/ 0.04225	Current state sales tax rate
$11,550,485,562	Total purchase price in FY 2017
x 0.004	Proposed tax increase
$ 46,201,942	Additional tax collected from the tax increase that would go to the "Missouri Law Enforcement Trust Fund"

Amount Deposited into the "Missouri Law Enforcement Trust Fund"

FY 2019 (10 months)	$38,501,618
FY 2020	$46,201,942
FY 2021	$46,201,942

The Department provided the following comments:

> The current tax collected under Section 30(b) is deposited into the state road fund. It is unclear if the proposed language, "For the sole and exclusive purpose of constructing and maintaining an adequate system…", can also impose a new four-tenths of one cent sales tax that is to be deposited into the "Missouri Law Enforcement Trust Fund". The proposed increase would need to be a new tax and not an increase to the existing tax so the funds can be distributed properly to the correct funds.

The proposed language requires the Department to impose and collect an additional sales tax on tangible personal property and taxable services. It appears that the amendment reduces the amount received by the Department for collection expenses. The Department's collection expenses, up to 3% of the particular fee or tax collected is no longer subtracted from the amount of tax collected under this constitutional amendment.

Section 30(b) – Subsection 7 has been combined with subsection 6(3).

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated their department defers to the Department of Revenue for a fiscal impact.

Officials from the **Office of Administration** indicated this proposal impose a 4/10th of 1% state sales tax to provide additional money for law enforcement on state roads. If this proposal passes during the 2018 General Election, the new sales tax would begin July 1, 2019. Based on gross general revenue tax collection in FY 17 of $2,147.1 million, Budget and Planning (B&P) estimate that the 0.4% sales tax would generate $286.3M in FY 20 and annually thereafter. Money from this additional sales tax is to be deposited into the "Missouri Law Enforcement Trust Fund". This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated no fiscal impact on their office.

Officials from the **Missouri Senate** indicated their office anticipates no fiscal impact.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The Secretary of State’s office is provided with core funding to handle a certain amount of normal activity resulting from each year’s legislative session. The fiscal impact for this fiscal note to Secretary of State’s office for Administrative Rules is less than $2,500. The Secretary of State’s office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

The Secretary of State's office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 the Secretary of State's Office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). The Secretary of State's office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any direct impact on their office. Additional monies for law enforcement, will result in additional cases for the State Public Defender System.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to their county for this petition.

Officials from **St. Louis County** indicated no fiscal impact for this constitutional amendment. The 3/8-cent and 4/10-cent sales taxes for the proposed Law Enforcement Trust Fund in 2018-322, 2018-323, 2018-327 and 2018-328 could provide an opportunity for the St. Louis County Police to receive a grant for law enforcement equipment and

training from the 10% set-aside, but it is not possible to project a dollar figure. No savings or losses are anticipated.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri System** indicated they do not believe that this proposal will have a significant impact on their university.

Officials from the **State Auditor's office** indicated this proposal should have no fiscal impact on their office. Any impact can be absorbed through current appropriations.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education**, **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph**, the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, and the Metropolitan Police Department - City of St. Louis.**

Fiscal Note Summary

State government entities estimate increased revenue of $333 million annually and one-time costs of $79,000. Local governments estimate no costs or savings.

RE: Petition approval request from Terry Briggs regarding a proposed statutory amendment to Chapter 142, version 3 (2018-326)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Terry Briggs on December 15, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the State of Missouri:

Section 142.803 of the Revised Statutes of Missouri is amended to read as follows:

142.803. 1. A tax is levied and imposed on all motor fuel used or consumed in this state as follows:

(1) Motor fuel, seventeen cents per gallon and an additional tax of two cents per year beginning January 1 of 2019 for five years (for a total increase of ten cents) on any liquid that is commonly or commercially known or sold as a fuel that is suitable for use in a diesel-powered highway vehicle. Provided that such increased tax shall not be imposed on jet fuel sold to a buyer who is registered with the Internal Revenue Service to purchase jet fuel and remit taxes on its sale or use to the Internal Revenue Service nor upon biodiesel commonly referred to as B100 and defined in ASTM D6751, B99, or B99.9 until such biodiesel is blended with other diesel fuel or sold for highway use;

(2) Alternative fuels, not subject to the decal fees as provided in section 142.869, with a power potential equivalent of motor fuel. In the event alternative fuel, which is not commonly sold or measured by the gallon, is used in motor vehicles on the highways of this state, the director is authorized to assess and collect a tax upon such alternative fuel measured by the nearest power potential equivalent to that of one gallon of regular grade gasoline. The determination by the director of the power potential equivalent of such alternative fuel shall be prima facie correct;

(3) Aviation fuel used in propelling aircraft with reciprocating engines, nine cents per gallon as levied and imposed by section 155.080 to be collected as required under this chapter;

(4) Compressed natural gas fuel, five cents per gasoline gallon equivalent until December 31, 2019, eleven cents per gasoline gallon equivalent from January 1, 2020, until December 31, 2024, and then seventeen cents per gasoline gallon equivalent thereafter. The gasoline gallon equivalent and method of sale for compressed natural gas shall be as published by the National Institute of Standards and Technology in Handbooks 44 and 130, and supplements thereto or revisions thereof. In the absence of such standard or agreement, the gasoline gallon equivalent and method of sale for compressed natural gas shall be equal to five and sixty-six-hundredths pounds of compressed natural gas. All applicable provisions contained in this chapter governing administration, collections, and enforcement of the state motor fuel tax shall apply to the tax imposed on compressed natural gas, including but not limited to licensing, reporting, penalties, and interest;

(5) Liquefied natural gas fuel, five cents per diesel gallon equivalent until December 31, 2019, eleven cents per diesel gallon equivalent from January 1, 2020, until December 31, 2024, and then seventeen cents per diesel gallon equivalent thereafter. The diesel gallon equivalent and method of sale for liquefied natural gas shall be as published by the National Institute of Standards and Technology in Handbooks 44 and 130, and supplements thereto or revisions thereof. In the absence of such standard or agreement, the diesel gallon equivalent and method of sale for liquefied natural gas shall be equal to six and six-hundredths pounds of liquefied natural gas. All applicable provisions contained in this chapter governing administration, collections, and enforcement of the state motor fuel tax shall apply to the tax imposed on liquefied natural gas, including but not limited to licensing, reporting, penalties, and interest;

(6) Propane gas fuel, five cents per gallon until December 31, 2019, eleven cents per gallon from January 1, 2020, until December 31, 2024, and then seventeen cents per gallon thereafter. All applicable provisions contained in this chapter governing administration, collection, and enforcement of the state motor fuel tax shall apply to the tax imposed on propane gas including, but not limited to, licensing, reporting, penalties, and interest;

(7) If a natural gas, compressed natural gas, liquefied natural gas, electric, or propane connection is used for fueling motor vehicles and for another use, such as heating, the tax imposed by this section shall apply to the entire amount of natural gas, compressed natural gas, liquefied natural gas, electricity, or propane used unless an approved separate metering and accounting system is in place.

2. All taxes, surcharges and fees are imposed upon the ultimate consumer, but are to be precollected as described in this chapter, for the facility and convenience of the consumer. The levy and assessment on other persons as specified in this chapter shall be as agents of this state for the precollection of the tax.

3. All motor vehicle fuel taxes authorized by this section shall be deposited in the State Road Fund and used only for constructing and maintaining an adequate system of connected state highways. The state auditor shall annually conduct an audit of the taxes authorized by this section to ensure they are being placed to the proper uses and shall release the results of such audit to the public.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-326)

Subject

Initiative petition from Terry Briggs regarding a proposed statutory amendment to Chapter 142, RSMo. (Received December 18, 2017)

Date

January 8, 2018

Description

This proposal would amend Chapter 142, RSMo.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and **the State Auditor's Office.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from **Department of Higher Education** indicated this petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** estimated one-time and initial setup costs of $82,947 in fiscal year 2019, and increased operating costs of $38,283 in fiscal year 2019, $46,305 in fiscal year 2020, and $46,676 is fiscal year 2021. The department estimates increased revenue of $10,060,000 in fiscal year 2019, $40,240,000 in fiscal year 2020, and $60,360,000 in fiscal year 2021.

The proposed legislation increases the motor fuel tax by two cents each year for five years beginning January 1, 2019.

ITSD cost estimate equals 1002.24 hrs. @ $75 per hr. = $75,168

OA-ITSD Response

Other	-	-	-
Federal Funds	-	-	-
Total	75,168	-	-

It is assumed that every new IT project/system will be bid out because all ITSD resources are at full capacity.

Bill Section(s) 142.803

			FY 2019	FY 2020	FY 2021
Motor Fuel Tax	Rate	Hours	$	$	$
IT Consultants	75	1,002.24	75,168	-	-
Section Total Expenditures:			75,168	-	-
Section Funding:	General Revenue		75,168	-	-
	Federal		-	-	-
	Other		-	-	-
	Total		75,168	-	-

The proposed legislation increases the motor fuel tax creating a positive impact on total state revenue.

This legislation will increase state revenues.

§142.803 – Increases the motor fuel tax by ten cents per gallon over a five-year period beginning January 1, 2019 for diesel-powered highway vehicles. The proposed tax increase shall not be imposed on jet fuel sold to a buyer who is registered with the Internal Revenue Service to purchase jet fuel. The proposed language requires all proceeds be deposited into the State Road Fund and only be used for constructing and maintaining state highways.

Administrative Impact

The Department will require form changes and programming support to implement the provisions of this legislation.

Excise Tax:
The proposed legislation increases the processing time of motor fuel refunds due to claims being filed using different tax rates. Excise Tax requires one Revenue Processing Technician I for increased review of motor fuel refund claims.

The Department sends rate change information annually for 5 years to approximately 450 licensees notifying them of the rate change.

Revenue Impact

The proposed fuel tax increase for diesel fuel of ten cents per gallon over a five-year period starting January 1, 2019 will result in the following estimated revenue increase* for the three years this fiscal note response covers.

FY 2019-Two cent increase (six months)	$10,060,000
FY 2020-Four cent increase	$40,240,000
FY 2021-Six cent increase	$60,360,000

An additional revenue* increase will occur for the proceeding two years that are not covered in this fiscal note response (FY2022 & FY 2023).

FY 2022-Eight cent increase	$80,480,000
FY 2023-Ten cent increase	$100,600,000

The proposed language requires all proceeds be deposited into the State Road Fund and only be used for constructing and maintaining state highways.

12. Assumptions and methodology used in arriving at state fiscal impact.							
Standard assumptions.							

The Department provided the following comments:

The Department assumes the ten cent fuel tax increase that spans over five years is exclusively for diesel fuel only, and our fiscal response was based on that assumption. If the sponsor's intent differs than the Departments assumption, clarification and possible revisions may be required.

Without a provision for a floor stock tax retailers could potentially profit two cents per gallon on inventories of fuel maintained on December 31 each year subject to a tax increase. This could result in loss of revenue to the state.

Many consumers apply for non-highway use refunds of the motor fuel tax, there will be many instances of claims being made at different tax rates, which will:

- This increases processing time of motor fuel refunds as each fuel ticket will not only need to be examined to see if it meets the one year time limit but also to identify the date of the ticket to determine the tax rate.

- Generally, fuel receipts do not indicate the tax rate on them. DOR assumes that if they review a fuel tax invoice that is dated on or after the effective date of the tax increase, they could actually be refunding fuel tax at the current rate when in fact the fuel was purchased at the previous tax rate. Unless all retailers and wholesalers are required to print the tax rate on the fuel receipts it is possible DOR will be refunding revenue it did not receive. This may put a burden on retailers to comply. Additionally there is potential for a loss of revenue.

The petition includes no provision to increase Compressed Natural Gas and Liquefied Natural Gas tax rates. Therefore, the rates will different between regular motor fuel types and these products as the motor fuel tax increases.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated their department defers to the Department of Revenue for a fiscal impact.

Officials from the **Office of Administration** indicated this proposal increases the diesel motor fuel tax by $0.02 per year for five years starting in tax year 2019. Based on FY17 diesel motor fuel tax collections of $189.1M, Budget and Planning (B&P) estimates that 1,112.3M gallons of diesel motor fuel were taxed. This proposal further requires that all motor vehicle fuel taxes authorized by Section 142.803 be deposited into the State Road Fund. However, B&P notes that Article IV, Section 30(a) specifies how motor fuel taxes are to be distributed.

Tables 1 and 2 shows the estimated revenue impacts by tax and calendar years.

Table 1: Diesel Motor Fuel Tax by Tax Year

Fiscal Year	Diesel Fuel Tax	State Road Fund	County Aid Road Fund	Other Local Funds
2019	$0.19	15.5	3.4	3.3
2020	$0.21	31.0	6.8	6.7
2021	$0.23	46.5	10.3	20.3
2022	$0.25	62.0	13.7	13.3
2023	$0.27	77.4	17.1	16.7

Figures in $M

Table 2: Diesel Motor Fuel Tax by Fiscal Year

Fiscal Year	Diesel Fuel Tax	State Road Fund	County Aid Road Fund	Other Local Funds
2019	$0.19	7.7	1.7	1.7
2020	$0.21	23.2	5.1	5.0
2021	$0.23	38.7	8.6	8.3
2022	$0.25	54.2	12.0	11.7
2023	$0.27	69.7	15.4	15.0
2024	$0.27	77.4	17.1	16.7

Figures in $M

B&P estimates the increased diesel motor fuel tax will generate $77.4M for the State Road Fund annually, once fully implemented in FY24. The increased tax will also raise local funds of $33.8M annually, once fully implemented in FY24.

Officials from the **Office of State Courts Administrator** indicated no fiscal impact on their office.

Officials from the **Missouri Senate** indicated there is no fiscal impact to their office.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes

the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to their county for this petition.

Officials from **St. Louis County** indicated an increase in the motor vehicle fuel tax of 10 or 12.5 cents phased in over five years as proposed in statutory amendments 2018-324, 2018-325 and 2018-326 would cause an increase in costs for their county's fleet vehicle operations (as they pay the current 17-cent rate).

St. Louis County fleet and police vehicles drove 15,256,413 miles last year. Assuming that the average vehicle can travel 25 miles per gallon of gasoline, that results in an estimated usage of 610,257 gallons of fuel total**.** A ten-cent gas tax increase (2018-324 and 2018-326) would equal a cost increase of $61,026, and a twelve-and-a-half cent increase (2018-325) would result in a $76,282 annual cost increase after the five-year phase in is complete.

Additional comments related to 18-326:

18% of St. Louis County's fleet is diesel, and an estimated 109,846 gallons of diesel fuel is consumed annually. A 10-cent increase in diesel fuel tax would increase St. Louis County's expenses by approximately $10,984.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **University of Missouri System** indicated they do not believe that this proposal will have a significant impact on their university.

Officials from the **State Auditor's office** indicated this proposal should have no fiscal impact on their office. Any impact can be absorbed through current appropriations.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education**, **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph**, the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College,** and **St. Louis Community College.**

Fiscal Note Summary

When fully implemented, the proposal is estimated to annually increase state revenue by $77 million and local government revenue by $34 million. State government entities expect initial setup costs of $83,000 and increased annual costs of $46,000. Local governments expect increased annual costs of at least $11,000.

RE: Petition approval request from Terry Briggs regarding a proposed statutory amendment to Chapter 142, version 2 (2018-325)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Terry Briggs on December 15, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires _____. Address of Notary (Street, City, State & Zip Code)

Be it enacted by the people of the State of Missouri:

Section 142.803 of the Revised Statutes of Missouri is amended to read as follows:

142.803. 1. A tax is levied and imposed on all motor fuel used or consumed in this state as follows:

(1) Motor fuel, seventeen cents per gallon, to increase two and one half cents per year beginning January 1 of 2019 for five years;

(2) Alternative fuels, not subject to the decal fees as provided in section 142.869, with a power potential equivalent of motor fuel. In the event alternative fuel, which is not commonly sold or measured by the gallon, is used in motor vehicles on the highways of this state, the director is authorized to assess and collect a tax upon such alternative fuel measured by the nearest power potential equivalent to that of one gallon of regular grade gasoline. The determination by the director of the power potential equivalent of such alternative fuel shall be prima facie correct;

(3) Aviation fuel used in propelling aircraft with reciprocating engines, nine cents per gallon as levied and imposed by section 155.080 to be collected as required under this chapter;

(4) Compressed natural gas fuel, five cents per gasoline gallon equivalent until December 31, 2019, eleven cents per gasoline gallon equivalent from January 1, 2020, until December 31, 2024, and then seventeen cents per gasoline gallon equivalent thereafter. The gasoline gallon equivalent and method of sale for compressed natural gas shall be as published by the National Institute of Standards and Technology in Handbooks 44 and 130, and supplements thereto or revisions thereof. In the absence of such standard or agreement, the gasoline gallon equivalent and method of sale for compressed natural gas shall be equal to five and sixty-six-hundredths pounds of compressed natural gas. All applicable provisions contained in this chapter governing administration, collections, and enforcement of the state motor fuel tax shall apply to the tax imposed on compressed natural gas, including but not limited to licensing, reporting, penalties, and interest;

(5) Liquefied natural gas fuel, five cents per diesel gallon equivalent until December 31, 2019, eleven cents per diesel gallon equivalent from January 1, 2020, until December 31, 2024, and then seventeen cents per diesel gallon equivalent thereafter. The diesel gallon equivalent and method of sale for liquefied natural gas shall be as published by the National Institute of Standards and Technology in Handbooks 44 and 130, and supplements thereto or revisions thereof. In the absence of such standard or agreement, the diesel gallon equivalent and method of sale for liquefied natural gas shall be equal to six and six-hundredths pounds of liquefied natural gas. All applicable provisions contained in this chapter governing administration, collections, and enforcement of the state motor fuel tax shall apply to the tax imposed on liquefied natural gas, including but not limited to licensing, reporting, penalties, and interest;

(6) Propane gas fuel, five cents per gallon until December 31, 2019, eleven cents per gallon from January 1, 2020, until December 31, 2024, and then seventeen cents per gallon thereafter. All applicable provisions contained in this chapter governing administration, collection, and enforcement of the state motor fuel tax shall apply to the tax imposed on propane gas including, but not limited to, licensing, reporting, penalties, and interest;

(7) If a natural gas, compressed natural gas, liquefied natural gas, electric, or propane connection is used for fueling motor vehicles and for another use, such as heating, the tax imposed by this section shall apply to the entire amount of natural gas, compressed natural gas, liquefied natural gas, electricity, or propane used unless an approved separate metering and accounting system is in place.

2. All taxes, surcharges and fees are imposed upon the ultimate consumer, but are to be precollected as described in this chapter, for the facility and convenience of the consumer. The levy and assessment on other persons as specified in this chapter shall be as agents of this state for the precollection of the tax.

3. All motor vehicle fuel taxes authorized by this section shall be deposited in the State Road Fund and used only for constructing and maintaining an adequate system of connected state highways. The state auditor shall annually conduct an audit of the taxes authorized by this section to ensure they are being placed to the proper uses and shall release the results of such audit to the public.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-325)

Subject

Initiative petition from Terry Briggs regarding a proposed statutory amendment to Chapter 142, RSMo. (Received December 18, 2017)

Date

January 8, 2018

Description

This proposal would amend Chapter 142, RSMo.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and **the State Auditor's Office.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from **Department of Higher Education** indicated this petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** estimate one-time and initial setup costs of $82,947 in fiscal year 2019, and increased operating costs of $38,283 in fiscal year 2019, $46,305 in fiscal year 2020, and $46,676 is fiscal year 2021. They estimate increased revenue of $38,762,500 in fiscal year 2019, $155,050,000 in fiscal year 2020, and $232,575,000 in fiscal year 2021.

The proposed legislation increases the motor fuel tax by two and one half cents each year for five years beginning January 1, 2019.

OA-ITSD cost estimate equals 1002.24 hrs. @ $75 per hr. = $75,168

OA-ITSD Response

	Other			-	-
	Total		75,168	-	-

The proposed legislation increases the motor fuel tax creating a positive impact on total state revenue.

This legislation will increase state revenues.

§142.803 – Increases the motor fuel tax by twelve and one half cents per gallon over a five-year period beginning January 1, 2019. The proposed language requires all proceeds be deposited into the State Road Fund and only be used for constructing and maintaining state highways.

Administrative Impact

The Department will require form changes and programming support to implement the provisions of this legislation.

Excise Tax:
The proposed legislation increases the processing time of motor fuel refunds due to claims being filed using different tax rates. Excise Tax requires one Revenue Processing Technician I for increased review of motor fuel refund claims.

The Department sends rate change information annually for 5 years to approximately 450 licensees notifying them of the rate change.

Revenue Impact

The proposed fuel tax increase twelve and one half cents per gallon over a five-year period starting January 1, 2019 will result in the following revenue increase for the three years this fiscal note response covers.

FY 2019-Two cent increase (six months)	$38,762,500
FY 2020-Four cent increase	$155,050,000
FY 2021-Six cent increase	$232,575,000

An additional revenue increase will occur for the proceeding two years that are not covered in this fiscal note response (FY2022 & FY 2023).

FY 2022-Eight cent increase	$310,100,000
FY 2023-Ten cent increase	$387,625,000

The proposed language requires all proceeds be deposited into the State Road Fund and only be used for constructing and maintaining state highways.

*Revenue increase based on FY2016 Fuel Tax Numbers

12. Assumptions and methodology used in arriving at state fiscal impact.							
Standard assumptions.							

The Department provided the following comments:

Without a provision for a floor stock tax retailers could potentially profit two and one half cents per gallon on inventories of fuel maintained on December 31 each year subject to a tax increase. This could result in loss of revenue to the state.

Many consumers apply for non-highway use refunds of the motor fuel tax, there will be many instances of claims being made at different tax rates, which will:

- This increases processing time of motor fuel refunds as each fuel ticket will not only need to be examined to see if it meets the one year time limit but also to identify the date of the ticket to determine the tax rate.

- Generally, fuel receipts do not indicate the tax rate on them. DOR assumes that if they review a fuel tax invoice that is dated on or after the effective date of the tax increase, they could actually be refunding fuel tax at the current rate when in fact the fuel was purchased at the previous tax rate. Unless all retailers and wholesalers are required to print the tax rate on the fuel receipts it is possible DOR will be refunding revenue it did not receive. This may put a burden on retailers to comply. Additionally there is potential for a loss of revenue.

The petition includes no provision to increase Compressed Natural Gas and Liquefied Natural Gas tax rates. Therefore, the rates will different between regular motor fuel types and these products as the motor fuel tax increases.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated their department defers to the Department of Revenue for a fiscal impact.

Officials from the **Office of Administration** indicated this proposal increases the motor (diesel and gasoline) fuel tax by $0.025 per year for five years starting in tax year 2019. Based on fiscal year (FY17) motor fuel tax collections of $715.0M, Budget and Planning (B&P) estimates that 4,205.9M gallons of motor fuel were taxed. This proposal further requires that all motor vehicle fuel taxes authorized by Section 142.803 be deposited into the State Road Fund. However, B&P notes that Article IV, Section 30(a) specifies how motor fuel taxes are to be distributed.

Tables 1 and 2 shows the estimated revenue impacts by tax and calendar years.

Table 1: Motor Fuel Tax by Tax Year

Fiscal Year	Motor Fuel Tax	State Road Fund	County Aid Road Fund	Other Local Funds
2019	$0.19	73.2	16.2	15.8
2020	$0.21	146.4	32.3	31.5
2021	$0.23	219.6	48.5	95.8
2022	$0.25	292.8	64.7	63.1
2023	$0.27	366.0	80.9	78.9

Figures in $M

Table 2: Motor Fuel Tax by Fiscal Year

Fiscal Year	Motor Fuel Tax	State Road Fund	County Aid Road Fund	Other Local Funds
2019	$0.19	36.6	8.1	7.9
2020	$0.21	109.8	24.3	23.7
2021	$0.23	183.0	40.4	39.4
2022	$0.25	256.2	56.6	55.2
2023	$0.27	329.4	72.8	71.0
2024	$0.27	366.0	80.9	78.9

Figures in $M

B&P estimates the increased motor fuel tax will generate $366.0M for the State Road Fund annually, once fully implemented in FY24. The increased tax will also raise local funds of $159.8M annually, once fully implemented in FY24.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on their office.

Officials from the **Missouri Senate** indicated there is no fiscal impact to their office.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this petition.

Officials from **St. Louis County** indicated an increase in the motor vehicle fuel tax of 10 or 12.5 cents phased in over five years as proposed in statutory amendments 2018-324, 2018-325 and 2018-326 would cause an increase in costs for their county's fleet vehicle operations (as they pay the current 17-cent rate).

St. Louis County fleet and police vehicles drove 15,256,413 miles last year. Assuming that the average vehicle can travel 25 miles per gallon of gasoline, that results in an estimated usage of 610,257 gallons of fuel total**.** A ten-cent gas tax increase (2018-324 and 2018-326) would equal a cost increase of $61,026, and a twelve-and-a-half cent increase (2018-

325) would result in a $76,282 annual cost increase after the five-year phase in is complete.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **University of Missouri System** indicated they do not believe that this proposal will have a significant impact on their university.

Officials from the **State Auditor's office** indicated this proposal should have no fiscal impact on their office. Any impact can be absorbed through current appropriations.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education**, **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph**, the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College,** and **St. Louis Community College.**

Fiscal Note Summary

When fully implemented, the proposal is estimated to annually increase state revenue by $366 million and local government revenue by $160 million. State government entities expect initial setup costs of $83,000 and increased annual costs of $46,000. Local governments expect increased annual costs of at least $76,000.

RE: Petition approval request from Terry Briggs regarding a proposed statutory amendment to Chapter 142, version 1 (2018-324)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Terry Briggs on December 15, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the State of Missouri:

Section 142.803 of the Revised Statutes of Missouri is amended to read as follows:

142.803. 1. A tax is levied and imposed on all motor fuel used or consumed in this state as follows:

(1) Motor fuel, seventeen cents per gallon, to increase 2 cents per year beginning January 1 of 2019 for five years;

(2) Alternative fuels, not subject to the decal fees as provided in section 142.869, with a power potential equivalent of motor fuel. In the event alternative fuel, which is not commonly sold or measured by the gallon, is used in motor vehicles on the highways of this state, the director is authorized to assess and collect a tax upon such alternative fuel measured by the nearest power potential equivalent to that of one gallon of regular grade gasoline. The determination by the director of the power potential equivalent of such alternative fuel shall be prima facie correct;

(3) Aviation fuel used in propelling aircraft with reciprocating engines, nine cents per gallon as levied and imposed by section 155.080 to be collected as required under this chapter;

(4) Compressed natural gas fuel, five cents per gasoline gallon equivalent until December 31, 2019, eleven cents per gasoline gallon equivalent from January 1, 2020, until December 31, 2024, and then seventeen cents per gasoline gallon equivalent thereafter. The gasoline gallon equivalent and method of sale for compressed natural gas shall be as published by the National Institute of Standards and Technology in Handbooks 44 and 130, and supplements thereto or revisions thereof. In the absence of such standard or agreement, the gasoline gallon equivalent and method of sale for compressed natural gas shall be equal to five and sixty-six-hundredths pounds of compressed natural gas. All applicable provisions contained in this chapter governing administration, collections, and enforcement of the state motor fuel tax shall apply to the tax imposed on compressed natural gas, including but not limited to licensing, reporting, penalties, and interest;

(5) Liquefied natural gas fuel, five cents per diesel gallon equivalent until December 31, 2019, eleven cents per diesel gallon equivalent from January 1, 2020, until December 31, 2024, and then seventeen cents per diesel gallon equivalent thereafter. The diesel gallon equivalent and method of sale for liquefied natural gas shall be as published by the National Institute of Standards and Technology in Handbooks 44 and 130, and supplements thereto or revisions thereof. In the absence of such standard or agreement, the diesel gallon equivalent and method of sale for liquefied natural gas shall be equal to six and six-hundredths pounds of liquefied natural gas. All applicable provisions contained in this chapter governing administration, collections, and enforcement of the state motor fuel tax shall apply to the tax imposed on liquefied natural gas, including but not limited to licensing, reporting, penalties, and interest;

(6) Propane gas fuel, five cents per gallon until December 31, 2019, eleven cents per gallon from January 1, 2020, until December 31, 2024, and then seventeen cents per gallon thereafter. All applicable provisions contained in this chapter governing administration, collection, and enforcement of the state motor fuel tax shall apply to the tax imposed on propane gas including, but not limited to, licensing, reporting, penalties, and interest;

(7) If a natural gas, compressed natural gas, liquefied natural gas, electric, or propane connection is used for fueling motor vehicles and for another use, such as heating, the tax imposed by this section shall apply to the entire amount of natural gas, compressed natural gas, liquefied natural gas, electricity, or propane used unless an approved separate metering and accounting system is in place.

2. All taxes, surcharges and fees are imposed upon the ultimate consumer, but are to be precollected as described in this chapter, for the facility and convenience of the consumer. The levy and assessment on other persons as specified in this chapter shall be as agents of this state for the precollection of the tax.

3. All motor vehicle fuel taxes authorized by this section shall be deposited in the State Road Fund and used only for constructing and maintaining an adequate system of connected state highways. The state auditor shall annually conduct an audit of the taxes authorized by this section to ensure they are being placed to the proper uses and shall release the results of such audit to the public.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-324)

Subject

Initiative petition from Terry Briggs regarding a proposed statutory amendment to Chapter 142, RSMo. (Received December 18, 2017)

Date

January 8, 2018

Description

This proposal would amend Chapter 142, RSMo.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and **the State Auditor's Office.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from **Department of Higher Education** indicated this petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** estimate one-time and initial setup costs of $82,947 in fiscal year 2019, and increased operating costs of $38,283 in fiscal year 2019, $46,305 in fiscal year 2020, and $46,676 is fiscal year 2021. They estimate increased revenue of $31,010,000 in fiscal year 2019, $124,040,000 in fiscal year 2020, and $186,060,000 in fiscal year 2021.

The proposed legislation increases the motor fuel tax by two cents each year for five years beginning January 1, 2019.

ITSD cost estimate equals 1002.24 hrs. @ $75 per hr. = $75,168

The proposed legislation increases the motor fuel tax creating a positive impact on total state revenue.

This legislation will increase state revenues.

§142.803 – Increases the motor fuel tax by ten cents per gallon over a five-year period beginning January 1, 2019. The proposed language requires all proceeds be deposited into the State Road Fund and only be used for constructing and maintaining state highways.

Administrative Impact

The Department will require form changes and programming support to implement the provisions of this legislation.

Excise Tax:

The proposed legislation increases the processing time of motor fuel refunds due to claims being filed using different tax rates. Excise Tax requires one Revenue Processing Technician I for increased review of motor fuel refund claims.

The Department sends rate change information annually for 5 years to approximately 450 licensees notifying them of the rate change.

Revenue Impact

The proposed fuel tax increase of ten cents per gallon over a five-year period starting January 1, 2019 will result in the following estimated revenue increase* for the three years this fiscal note response covers.

FY 2019-Two cent increase (six months)	$31,010,000
FY 2020-Four cent increase	$124,040,000
FY 2021-Six cent increase	$186,060,000

Below is the additional estimated revenue increase* that will occur for the proceeding two years that are not covered in this fiscal note response (FY2022 & FY 2023).

FY 2022-Eight cent increase	$248,080,000
FY 2023-Ten cent increase	$310,100,000

The proposed language requires all proceeds be deposited into the State Road Fund and only be used for constructing and maintaining state highways.

*Revenue increase based on FY2016 Fuel Tax Numbers

12. Assumptions and methodology used in arriving at state fiscal impact.							
Standard assumptions.							

The Department provided the following comments:

Without a provision for a floor stock tax retailers could potentially profit two cents per gallon on inventories of fuel maintained on December 31 each year subject to a tax increase. This could result in loss of revenue to the state.

Many consumers apply for non-highway use refunds of the motor fuel tax, there will be many instances of claims being made at different tax rates, which will:

- This increases processing time of motor fuel refunds as each fuel ticket will not only need to be examined to see if it meets the one year time limit but also to identify the date of the ticket to determine the tax rate.

- Generally, fuel receipts do not indicate the tax rate on them. DOR assumes that if they review a fuel tax invoice that is dated on or after the effective date of the tax increase, they could actually be refunding fuel tax at the current rate when in fact the fuel was purchased at the previous tax rate. Unless all retailers and wholesalers are required to print the tax rate on the fuel receipts it is possible DOR will be refunding revenue it did not receive. This may put a burden on retailers to comply. Additionally there is potential for a loss of revenue.

The petition includes no provision to increase Compressed Natural Gas and Liquefied Natural Gas tax rates. Therefore, the rates will be different between regular motor fuel types and these products as the motor fuel tax increases.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated their department defers to the Department of Revenue for a fiscal impact.

Officials from the **Office of Administration** indicated this proposal increases the motor (diesel and gasoline) fuel tax by $0.02 per year for five years starting in tax year 2019. Based on fiscal year (FY) 17 motor fuel tax collections of $715.0M, Budget and Planning (B&P) estimates that 4,205.9M gallons of motor fuel were taxed. This proposal further requires that all motor vehicle fuel taxes authorized by Section 142.803 be deposited into the State Road Fund. However, B&P notes that Article IV, Section 30(a) specifies how motor fuel taxes are to be distributed.

Tables 1 and 2 shows the estimated revenue impacts by tax and calendar years.

Table 1: Motor Fuel Tax by Tax Year

Fiscal Year	Motor Fuel Tax	State Road Fund	County Aid Road Fund	Other Local Funds
2019	$0.19	58.6	12.9	12.6
2020	$0.21	117.1	25.9	25.2
2021	$0.23	175.7	38.8	76.7
2022	$0.25	234.3	51.7	50.5
2023	$0.27	292.8	64.7	63.1

Figures in $M

Table 2: Motor Fuel Tax by Fiscal Year

Fiscal Year	Motor Fuel Tax	State Road Fund	County Aid Road Fund	Other Local Funds
2019	$0.19	29.3	6.5	6.3
2020	$0.21	87.8	19.4	18.9
2021	$0.23	146.4	32.3	31.5
2022	$0.25	205.0	45.3	44.2
2023	$0.27	263.5	58.2	56.8
2024	$0.27	292.8	64.7	63.1

Figures in $M

B&P estimates the increased motor fuel tax will generate $292.8M for the State Road Fund annually, once fully implemented in FY24. The increased tax will also raise local funds of $127.8M annually, once fully implemented in FY24.

Officials from the **Office of State Courts Administrator** indicated no fiscal impact on their office.

Officials from the **Missouri Senate** indicated there is no fiscal impact to their office.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to their county for this petition.

Officials from **St. Louis County** indicated an increase in the motor vehicle fuel tax of 10 or 12.5 cents phased in over five years as proposed in statutory amendments 2018-324, 2018-325 and 2018-326 would cause an increase in costs for their county's fleet vehicle operations (as they pay the current 17-cent rate).

St. Louis County fleet and police vehicles drove 15,256,413 miles last year. Assuming that the average vehicle can travel 25 miles per gallon of gasoline, that results in an estimated usage of 610,257 gallons of fuel total**.** A ten-cent gas tax increase (2018-324 and 2018-326) would equal a cost increase of $61,026, and a twelve-and-a-half cent increase (2018-325) would result in a $76,282 annual cost increase after the five-year phase in is complete.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **University of Missouri System** indicated they do not believe that this proposal will have a significant impact on their university.

Officials from the **State Auditor's office** indicated this proposal should have no fiscal impact on their office. Any impact can be absorbed through current appropriations.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education**, **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph**, the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College,** and **St. Louis Community College.**

Fiscal Note Summary

When fully implemented, the proposal is estimated to annually increase state revenue by $293 million and local government revenue by $128 million. State government entities expect initial setup costs of $83,000 and increased annual costs of $46,000. Local governments expect increased annual costs of at least $61,000.

JOHN R. ASHCROFT

RECEIVED
DEC 18 2017
STATE AUDITORS OFFICE

RE: Petition approval request from Terry Briggs regarding a proposed constitutional amendment to Article IV, version 2 (2018-323)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Terry Briggs on December 15, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

BE IT RESOLVED by the people of the state of Missouri that the Constitution be amended:

Article IV of the Constitution is revised by amending Section 30(b) to read as follows:

Section 30(b). 1. For the sole and exclusive purpose of constructing and maintaining an adequate system of connected state highways all state revenue derived from highway users as an incident to their use or right to use the highways of the state, including all state license fees and taxes upon motor vehicles, trailers and motor vehicle fuels, and upon, with respect to, or on the privilege of the manufacture, receipt, storage, distribution, sale or use thereof (excepting those portions of the sales tax on motor vehicles and trailers which are not distributed to the state road fund pursuant to subsection 2 of this section 30(b) and further excepting all property taxes), less the [(1) actual cost of collection of the department of revenue (but not to exceed three percent of the particular tax or fee collected), (2)] actual cost of refunds for overpayments and erroneous payments of such taxes and fees and maintaining retirement programs as permitted by law[and (3) actual cost of the state highway patrol in administering and enforcing any state motor vehicle laws and traffic regulations,] shall be deposited in the state road fund which is hereby created within the state treasury and stand appropriated without legislative action to be used and expended by the highways and transportation commission for the following purposes, and no other:

First, to the payment of the principal and interest on any outstanding state road bonds. The term state road bonds in this section 30(b) means any bonds or refunding bonds issued by the highways and transportation commission to finance or refinance the construction or reconstruction of the state highway system.

Second, to maintain a balance in the state road fund in the amount deemed necessary to meet the payment of the principal and interest of any state road bonds for the next succeeding twelve months.

The remaining balance in the state road fund shall be used and expended in the sole discretion of and under the supervision and direction of the highways and transportation commission for the following state highway system uses and purposes and no other:

(1) To complete and widen or otherwise improve and maintain the state highway system heretofore designated and laid out under existing laws;

(2) To reimburse the various counties and other political subdivisions of the state, except incorporated cities and towns, for money expended by them in the construction or acquisition of roads and bridges now or hereafter taken over by the highways and transportation commission as permanent parts of the state highway system, to the extent of the value to the state of such roads and bridges at the time taken over, not exceeding in any case the amount expended by such counties and subdivisions in the construction or acquisition of such roads and bridges, except that the highways and transportation commission may, in its discretion, repay, or agree to repay, any cash advanced by a county or subdivision to expedite state road construction or improvement;

(3) In the discretion of the commission to plan, locate, relocate, establish, acquire, construct and maintain the following:

(a) interstate and primary highways within the state;

(b) supplementary state highways and bridges in each county of the state;

(c) state highways and bridges in, to and through state parks, public areas and reservations, and state institutions now or hereafter established to connect the same with the state highways, and also national, state or local parkways, travelways, tourways, with coordinated facilities;

(d) any tunnel or interstate bridge or part thereof, where necessary to connect the state highways of this state with those of other states;

(e) any highway within the state when necessary to comply with any federal law or requirement which is or shall become a condition to the receipt of federal funds;

(f) any highway in any city or town which is found necessary as a continuation of any state or federal highway, or any connection therewith, into and through such city or town; and

(g) additional state highways, bridges and tunnels, either in congested traffic areas of the state or where needed to facilitate and expedite the movement of through traffic.

(4) To acquire materials, equipment and buildings and to employ such personnel as necessary for the purposes described in this subsection 1; and

(5) For such other purposes and contingencies relating and appertaining to the construction and maintenance of such state highway system as the highways and transportation commission may deem necessary and proper.

(6) No revenues or fund balances authorized by this subsection 30(b) shall in any way be diverted for purposes other than those specifically authorized by this subsection.

2. (1) The state sales tax upon the sale of motor vehicles, trailers, motorcycles, mopeds and motortricycles at the rate provided by law on November 2, 2004, is levied and imposed by this section until the rate is changed by law or constitutional amendment.

(2) One-half of the proceeds from the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles shall be dedicated for highway and transportation use and shall be apportioned and distributed as follows: ten percent to the counties, fifteen percent to the cities, two percent to be deposited in the state transportation fund, which is hereby created within the state treasury to be used in a manner provided by law and seventy-three percent to be deposited in the state road fund. The amounts apportioned and distributed to the counties and cities shall be further allocated and used as provided in section 30(a) of this article. The amounts allocated and distributed to the highways and transportation commission for the state road fund shall be used as provided in subsection 1 of this section 30(b). The sales taxes which are apportioned and distributed pursuant to this subdivision (2) shall not include those taxes levied and imposed pursuant to sections 43(a) or 47(a) of this article. The term "proceeds from the state sales tax" as used in this subdivision (2) shall mean and include all revenues received by the department of revenue from the said sales tax, reduced only by refunds for overpayments and erroneous payments of such tax as permitted

by law and actual costs of collection by the department of revenue (but not to exceed three percent of the amount collected).

(3) (i) From and after July 1, 2005, through June 30, 2006, twenty-five percent of the remaining one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund which is hereby created within the state treasury; (ii) from and after July 1, 2006, through June 30, 2007, fifty percent of the aforesaid one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund; (iii) from and after July 1, 2007, through June 30, 2008, seventy-five percent of the aforesaid one- half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund; and (iv) from and after July 1, 2008, one hundred percent of the aforesaid one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund. Moneys deposited in the state road bond fund are hereby dedicated to and shall only be used to fund the repayment of bonds issued by the highways and transportation commission to fund the construction and reconstruction of the state highway system or to fund refunding bonds, except that after January 1, 2009, that portion of the moneys in the state road bond fund which the commissioner of administration and the highways and transportation commission each certify is not needed to make payments upon said bonds or to maintain an adequate reserve for making future payments upon said bonds may be appropriated to the state road fund. The highways and transportation commission shall have authority to issue state road bonds for the uses set forth in this subdivision (3). The net proceeds received from the issuance of such bonds shall be paid into the state road fund and shall only be used to fund construction or reconstruction of specific projects for parts of the state highway system as determined by the highways and transportation commission. The moneys deposited in the state road bond fund shall only be withdrawn by appropriation pursuant to this constitution. No obligation for the payment of moneys so appropriated shall be paid unless the commissioner of administration certifies it for payment and further certifies that the expenditure is for a use which is specifically authorized by the provisions of this subdivision (3). The proceeds of the sales tax which are subject to allocation and deposit into the state road bond fund pursuant to this subdivision (3) shall not include the proceeds of the sales tax levied and imposed pursuant to sections 43(a) or 47(a) of this article nor shall they include the proceeds of that portion of the sales tax apportioned, distributed and dedicated to the school district trust fund on November 2, 2004. The term "proceeds from the state sales tax" as used in this subdivision (3) shall mean and include all revenues received by the department of revenue from the said sales tax, reduced only by refunds for overpayments and erroneous payments of such tax as permitted by law and actual costs of collection by the department of revenue (but not to exceed three percent of the amount collected).

3. After January 1, 1980, any increase in state license fees and taxes on motor vehicles, trailers, motorcycles, mopeds and motortricycles other than those taxes distributed pursuant to subsection 2 of this section 30(b) shall be distributed as follows: ten percent to the counties, fifteen percent to the cities and seventy-five percent to be deposited in the state road fund. The amounts distributed shall be apportioned and distributed to the counties and cities as provided in section 30(a) of this article, to be used for highway purposes.

4. The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of "total state revenues" as that term is used in section 17 of Article X of this constitution nor be considered as an "expense of state government" as that term is used in section 20 of article X of this constitution.

5. In order to provide adequate law enforcement on state roads and throughout the state, an additional sales tax of three-eighths of one cent is hereby adopted and imposed upon all sellers for the privilege of selling tangible personal property or rendering taxable services at retail in this state upon the sales and services which now are listed and set forth in, and, except as to the amount of tax, subject to the provisions of and to be collected as provided in the "Sales Tax Law" and subject to the rules and regulations promulgated in connection therewith.

6. The "Missouri Law Enforcement Trust Fund" is hereby established. All revenues generated by the tax in subsection 5 shall be deposited into the Trust Fund. To the extent any amounts in the Trust Fund are not appropriated by the General Assembly in any year, funds shall remain in the Trust Fund for future appropriations consistent with this section and no balances shall be diverted or otherwise appropriated except as authorized by this section. The General Assembly shall appropriate funds in the Trust Fund solely as follows:

(1) to provide for the actual cost of an annual audit of all funds raised or expended under this section;

(2) to provide for the actual cost of the state highway patrol in administering and enforcing any state motor vehicle laws or traffic regulations or for such other state highway patrol functions as the legislature shall deem appropriate;

(3) to provide for the families of law enforcement officers killed or disabled in the line of duty as authorized by law;

(4) to provide grants to local law enforcement for equipment and training as may be provided by law. In any given year, such funding shall not exceed 10% of the revenue generated by subsection 5 in that year.

7. The state auditor shall annually conduct an audit of the funds raised and expenditures authorized under this section and release the report publicly to the taxpayers.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-323)

Subject

Initiative petition from Terry Briggs regarding a proposed constitutional amendment to Article IV. (Received December 18, 2017)

Date

January 8, 2018

Description

This proposal would amend Article IV of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, the Metropolitan Police Department - City of St. Louis,** and **the State Auditor's Office.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from **Department of Higher Education** indicated this petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** estimated one-time operating costs of $78,850 in fiscal year 2019 and estimate increased titling revenue of $36,095,268 in fiscal year 2019, $43,314,321 in fiscal year 2020, and $43,314,321 in fiscal year 2021.

The proposed legislation increases the sales tax on tangible personal property (TPP) or tangible services at retail.

ITSD cost estimate equals 940.69 hrs. @ $75 per hr. = $70,551

The proposed legislation will increase sales tax by three-eighths of one percent on retail sales of tangible personal property creating a positive impact on total state revenue.

The proposed legislation would increase revenue from the additional sales tax collected.

Section 30(b)

- Provides strict regulations for distribution of current state sales tax and license fees collected and eliminates the deduction for the Departments cost of collection.
- Provides for an additional sales tax of three-eighths of one cent to be imposed on the sale of tangible personal property and taxable services at retail as provided in the "Sales Tax Law".
- Creates the "Missouri Law Enforcement Trust Fund". Provides regulations for such fund and that all revenues generated from the increased sales tax to be deposited into the fund.
- The State Auditor shall conduct an audit annually of the funds raised and expenditures under this section and release the report publicly.

Administrative Impact

To implement the proposed language, the Department will be required to:

- Update procedures, correspondence letters, and the Department website;
- Update the titling manual;
- Modify title rejection verbiage; and
- Complete programming and user acceptance testing.

12. Assumptions and methodology used in arriving at state fiscal impact.

Development staff estimated the hours required to update existing software to accommodate changes required by the bill.
MTAS would have to be programmed to account for the new rate and fund.
MTAS would have to be programmed for distribution.

Revenue Impact

The proposed legislation establishes an additional three-eighths of one-cent sales tax to transactions subject to Missouri's sales tax law.

Motor Vehicle State Sales Tax

The Department collects state sales tax on the titling of motor vehicles, trailers, ATV's, motorcycles, motortricycles, boats, and outboard motors. The state sales tax total shown below is the combined total amount of state sales tax collected in FY 2017.

$ 488,088,015	Total tax collected in FY 2017
/ 0.04225	Current state sales tax rate
$11,550,485,562	Total purchase price in FY 2017
x 0.00375	Proposed tax increase
$ 43,314,321	Additional tax collected from the tax increase that would go to the "Missouri Law Enforcement Trust Fund"

Amount Deposited into the "Missouri Law Enforcement Trust Fund"

FY 2019 (10 months)	$36,095,268
FY 2020	$43,314,321
FY 2021	$43,314,321

The Department provided the following comments:

The current tax collected under Section 30(b) is deposited into the state road fund. It is unclear if the proposed language, "For the sole and exclusive purpose of constructing and maintaining an adequate system…", can also impose a new three-eighths of one cent sales tax that is to be deposited into the "Missouri Law Enforcement Trust Fund". The proposed increase would need to be a new tax and not an increase to the existing tax so the funds can be distributed properly to the correct funds.

The proposed language requires the Department to impose and collect an additional sales tax on tangible personal property and taxable services. It appears that the amendment

reduces the amount received by the Department for collection expenses. The Department's collection expenses, up to 3% of the particular fee or tax collected is no longer subtracted from the amount of tax collected under this constitutional amendment.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated their department defers to the Department of Revenue for a fiscal impact.

Officials from the **Office of Administration** indicated this proposal impose a three-eighths of 1% state sales tax to provide additional money for law enforcement on state roads. If this proposal passes during the 2018 General Election, the new sales tax would begin January 1, 2019. Based on gross general revenue tax collection in fiscal year (FY 17) of $2,147.1 million, they estimate that the 0.375% sales tax would generate $134.2M in FY 19 and $268.4M in FY 20 and annually thereafter. Money from this additional sales tax is to be deposited into the "Missouri Law Enforcement Trust Fund". This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated no fiscal impact on their office.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2

RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any direct impact on their office. Additional monies for law enforcement, will result in additional cases for the State Public Defender System.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to their county for this petition.

Officials from **St. Louis County** indicated no fiscal impact for this constitutional amendment. The 3/8-cent and 4/10-cent sales taxes for the proposed Law Enforcement Trust Fund in 2018-322, 2018-323, 2018-327 and 2018-328 could provide an opportunity for the St. Louis County Police to receive a grant for law enforcement equipment and training from the 10% set-aside, but it is not possible to project a dollar figure. No savings or losses are anticipated.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **University of Missouri System** indicated they do not believe that this proposal will have a significant impact on their university.

Officials from the **State Auditor's office** indicated this proposal should have no fiscal impact on their office. Any impact can be absorbed through current appropriations.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education**, **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph**, the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, and the Metropolitan Police Department - City of St. Louis.**

Fiscal Note Summary

State government entities estimate increased revenue of $268 million annually and one-time costs of $79,000. Local governments estimate no costs or savings.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Terry Briggs regarding a proposed constitutional amendment to Article IV, version 1 (2018-322)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Terry Briggs on December 15, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

BE IT RESOLVED by the people of the state of Missouri that the Constitution be amended:

Article IV of the Constitution is revised by amending Section 30(b) to read as follows:

Section 30(b). 1. For the sole and exclusive purpose of constructing and maintaining an adequate system of connected state highways all state revenue derived from highway users as an incident to their use or right to use the highways of the state, including all state license fees and taxes upon motor vehicles, trailers and motor vehicle fuels, and upon, with respect to, or on the privilege of the manufacture, receipt, storage, distribution, sale or use thereof (excepting those portions of the sales tax on motor vehicles and trailers which are not distributed to the state road fund pursuant to subsection 2 of this section 30(b) and further excepting all property taxes), less the [(1) actual cost of collection of the department of revenue (but not to exceed three percent of the particular tax or fee collected), (2)] actual cost of refunds for overpayments and erroneous payments of such taxes and fees and maintaining retirement programs as permitted by law[and (3) actual cost of the state highway patrol in administering and enforcing any state motor vehicle laws and traffic regulations,] shall be deposited in the state road fund which is hereby created within the state treasury and stand appropriated without legislative action to be used and expended by the highways and transportation commission for the following purposes, and no other:

First, to the payment of the principal and interest on any outstanding state road bonds. The term state road bonds in this section 30(b) means any bonds or refunding bonds issued by the highways and transportation commission to finance or refinance the construction or reconstruction of the state highway system.

Second, to maintain a balance in the state road fund in the amount deemed necessary to meet the payment of the principal and interest of any state road bonds for the next succeeding twelve months.

The remaining balance in the state road fund shall be used and expended in the sole discretion of and under the supervision and direction of the highways and transportation commission for the following state highway system uses and purposes and no other:

(1) To complete and widen or otherwise improve and maintain the state highway system heretofore designated and laid out under existing laws;

(2) To reimburse the various counties and other political subdivisions of the state, except incorporated cities and towns, for money expended by them in the construction or acquisition of roads and bridges now or hereafter taken over by the highways and transportation commission as permanent parts of the state highway system, to the extent of the value to the state of such roads and bridges at the time taken over, not exceeding in any case the amount expended by such counties and subdivisions in the construction or acquisition of such roads and bridges, except that the highways and transportation commission may, in its discretion, repay, or agree to repay, any cash advanced by a county or subdivision to expedite state road construction or improvement;

(3) In the discretion of the commission to plan, locate, relocate, establish, acquire, construct and maintain the following:

(a) interstate and primary highways within the state;

(b) supplementary state highways and bridges in each county of the state;

(c) state highways and bridges in, to and through state parks, public areas and reservations, and state institutions now or hereafter established to connect the same with the state highways, and also national, state or local parkways, travelways, tourways, with coordinated facilities;

(d) any tunnel or interstate bridge or part thereof, where necessary to connect the state highways of this state with those of other states;

(e) any highway within the state when necessary to comply with any federal law or requirement which is or shall become a condition to the receipt of federal funds;

(f) any highway in any city or town which is found necessary as a continuation of any state or federal highway, or any connection therewith, into and through such city or town; and

(g) additional state highways, bridges and tunnels, either in congested traffic areas of the state or where needed to facilitate and expedite the movement of through traffic.

(4) To acquire materials, equipment and buildings and to employ such personnel as necessary for the purposes described in this subsection 1; and

(5) For such other purposes and contingencies relating and appertaining to the construction and maintenance of such state highway system as the highways and transportation commission may deem necessary and proper.

(6) No revenues or fund balances authorized by this subsection 30(b) shall in any way be diverted for purposes other than those specifically authorized by this subsection.

2. (1) The state sales tax upon the sale of motor vehicles, trailers, motorcycles, mopeds and motortricycles at the rate provided by law on November 2, 2004, is levied and imposed by this section until the rate is changed by law or constitutional amendment.

(2) One-half of the proceeds from the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles shall be dedicated for highway and transportation use and shall be apportioned and distributed as follows: ten percent to the counties, fifteen percent to the cities, two percent to be deposited in the state transportation fund, which is hereby created within the state treasury to be used in a manner provided by law and seventy-three percent to be deposited in the state road fund. The amounts apportioned and distributed to the counties and cities shall be further allocated and used as provided in section 30(a) of this article. The amounts allocated and distributed to the highways and transportation commission for the state road fund shall be used as provided in subsection 1 of this section 30(b). The sales taxes which are apportioned and distributed pursuant to this subdivision (2) shall not include those taxes levied and imposed pursuant to sections 43(a) or 47(a) of this article. The term "proceeds from the state sales tax" as used in this subdivision (2) shall mean and include all revenues received by the department of revenue from the said sales tax, reduced only by refunds for overpayments and erroneous payments of such tax as permitted

by law and actual costs of collection by the department of revenue (but not to exceed three percent of the amount collected).

(3) (i) From and after July 1, 2005, through June 30, 2006, twenty-five percent of the remaining one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund which is hereby created within the state treasury; (ii) from and after July 1, 2006, through June 30, 2007, fifty percent of the aforesaid one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund; (iii) from and after July 1, 2007, through June 30, 2008, seventy-five percent of the aforesaid one- half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund; and (iv) from and after July 1, 2008, one hundred percent of the aforesaid one-half of the proceeds of the state sales tax on all motor vehicles, trailers, motorcycles, mopeds and motortricycles which is not distributed by subdivision (2) of subsection 2 of this section 30(b) shall be deposited in the state road bond fund. Moneys deposited in the state road bond fund are hereby dedicated to and shall only be used to fund the repayment of bonds issued by the highways and transportation commission to fund the construction and reconstruction of the state highway system or to fund refunding bonds, except that after January 1, 2009, that portion of the moneys in the state road bond fund which the commissioner of administration and the highways and transportation commission each certify is not needed to make payments upon said bonds or to maintain an adequate reserve for making future payments upon said bonds may be appropriated to the state road fund. The highways and transportation commission shall have authority to issue state road bonds for the uses set forth in this subdivision (3). The net proceeds received from the issuance of such bonds shall be paid into the state road fund and shall only be used to fund construction or reconstruction of specific projects for parts of the state highway system as determined by the highways and transportation commission. The moneys deposited in the state road bond fund shall only be withdrawn by appropriation pursuant to this constitution. No obligation for the payment of moneys so appropriated shall be paid unless the commissioner of administration certifies it for payment and further certifies that the expenditure is for a use which is specifically authorized by the provisions of this subdivision (3). The proceeds of the sales tax which are subject to allocation and deposit into the state road bond fund pursuant to this subdivision (3) shall not include the proceeds of the sales tax levied and imposed pursuant to sections 43(a) or 47(a) of this article nor shall they include the proceeds of that portion of the sales tax apportioned, distributed and dedicated to the school district trust fund on November 2, 2004. The term "proceeds from the state sales tax" as used in this subdivision (3) shall mean and include all revenues received by the department of revenue from the said sales tax, reduced only by refunds for overpayments and erroneous payments of such tax as permitted by law and actual costs of collection by the department of revenue (but not to exceed three percent of the amount collected).

3. After January 1, 1980, any increase in state license fees and taxes on motor vehicles, trailers, motorcycles, mopeds and motortricycles other than those taxes distributed pursuant to subsection 2 of this section 30(b) shall be distributed as follows: ten percent to the counties, fifteen percent to the cities and seventy-five percent to be deposited in the state road fund. The amounts distributed shall be apportioned and distributed to the counties and cities as provided in section 30(a) of this article, to be used for highway purposes.

4. The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of "total state revenues" as that term is used in section 17 of Article X of this constitution nor be considered as an "expense of state government" as that term is used in section 20 of article X of this constitution.

5. In order to provide adequate law enforcement on state roads and throughout the state, an additional sales tax of four-tenths of one cent is hereby adopted and imposed upon all sellers for the privilege of selling tangible personal property or rendering taxable services at retail in this state upon the sales and services which now are listed and set forth in, and, except as to the amount of tax, subject to the provisions of and to be collected as provided in the "Sales Tax Law" and subject to the rules and regulations promulgated in connection therewith.

6. The "Missouri Law Enforcement Trust Fund" is hereby established. All revenues generated by the tax in subsection 5 shall be deposited into the Trust Fund. To the extent any amounts in the Trust Fund are not appropriated by the General Assembly in any year, funds shall remain in the Trust Fund for future appropriations consistent with this section and no balances shall be diverted or otherwise appropriated except as authorized by this section. The General Assembly shall appropriate funds in the Trust Fund solely as follows:

(1) to provide for the actual cost of an annual audit of all funds raised or expended under this section;

(2) to provide for the actual cost of the state highway patrol in administering and enforcing any state motor vehicle laws or traffic regulations or for such other state highway patrol functions as the legislature shall deem appropriate;

(3) to provide for the families of law enforcement officers killed or disabled in the line of duty as authorized by law;

(4) to provide grants to local law enforcement for equipment and training as may be provided by law. In any given year, such funding shall not exceed 10% of the revenue generated by subsection 5 in that year.

7. The state auditor shall annually conduct an audit of the funds raised and expenditures authorized under this section and release the report publicly to the taxpayers.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-322)

Subject

Initiative petition from Terry Briggs regarding a proposed constitutional amendment to Article IV. (Received December 18, 2017)

Date

January 8, 2018

Description

This proposal would amend Article IV of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, the Metropolitan Police Department - City of St. Louis,** and **the State Auditor's Office.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from **Department of Higher Education** indicated this petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** estimated one-time operating costs of $78,850 in fiscal year 2019 and estimate increased titling revenue of $38,501,618 in fiscal year 2019, $46,201,942 in fiscal year 2020, and $46,201,942 in fiscal year 2021.

The proposed legislation increases the sales tax on tangible personal property or tangible services at retail.

ITSD cost estimate equals 940.69 hrs. @ $75 per hr. = $70,551

	Total		29,241	-	-

The proposed legislation will increase sales tax by four-tenths of one percent on retail sales of tangible personal property creating a positive impact on total state revenue.

The proposed legislation would increase revenue from the additional sales tax collected.

Section 30(b)

- Provides strict regulations for distribution of current state sales tax and license fees collected and eliminates the deduction for the Departments cost of collection.
- Provides for an additional sales tax of four-tenths of one cent to be imposed on the sale of tangible personal property and taxable services at retail as provided in the "Sales Tax Law".
- Creates the "Missouri Law Enforcement Trust Fund". Provides regulations for such fund and that all revenues generated from the increased sales tax to be deposited into the fund.
- The State Auditor shall conduct an audit annually of the funds raised and expenditures under this section and release the report publicly.

Administrative Impact

To implement the proposed language, the Department will be required to:

- Update procedures, correspondence letters, and the Department website;
- Update the titling manual;
- Modify title rejection verbiage; and
- Complete programming and user acceptance testing.

Development staff estimated the hours required to update existing software to accommodate changes required by the bill.
MTAS would have to be programmed to account for the new rate and fund.
MTAS would have to be programmed for distribution.

Revenue Impact

The proposed legislation establishes an additional four-tenths of one-cent sales tax to transactions subject to Missouri's sales tax law.

Motor Vehicle State Sales Tax

The Department collects state sales tax on the titling of motor vehicles, trailers, ATV's, motorcycles, motortricycles, boats, and outboard motors. The state sales tax total shown below is the combined total amount of state sales tax collected in FY 2017.

$ 488,088,015	Total tax collected in FY 2017
/ 0.04225	Current state sales tax rate
$11,550,485,562	Total purchase price in FY 2017
x 0.004	Proposed tax increase
$ 46,201,942	Additional tax collected from the tax increase that would go to the "Missouri Law Enforcement Trust Fund"

Amount Deposited into the "Missouri Law Enforcement Trust Fund"

FY 2019 (10 months)	$38,501,618
FY 2020	$46,201,942
FY 2021	$46,201,942

The Department provided the following comments:

The current tax collected under Section 30(b) is deposited into the state road fund. It is unclear if the proposed language, "For the sole and exclusive purpose of constructing and maintaining an adequate system…", can also impose a new four-tenths of one cent sales tax that is to be deposited into the "Missouri Law Enforcement Trust Fund". The proposed increase would need to be a new tax and not an increase to the existing tax so the funds can be distributed properly to the correct funds.

The proposed language requires the Department to impose and collect an additional sales tax on tangible personal property and taxable services. It appears that the amendment

reduces the amount received by the Department for collection expenses. The Department's collection expenses, up to 3% of the particular fee or tax collected is no longer subtracted from the amount of tax collected under this constitutional amendment.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated their department defers to the Department of Revenue for a fiscal impact.

Officials from the **Office of Administration** indicated this proposal impose a 4/10th of 1% state sales tax to provide additional money for law enforcement on state roads. If this proposal passes during the 2018 General Election, the new sales tax would begin January 1, 2019. Based on gross general revenue tax collection in fiscal year (FY) 17 of $2,147.1 million, Budget and Planning (B&P) estimate that the 0.4% sales tax would generate $143.1M in FY 19 and $286.3M in FY 20 and annually thereafter. Money from this additional sales tax is to be deposited into the "Missouri Law Enforcement Trust Fund". This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated no fiscal impact on their office.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2

RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any direct impact on their office. Additional monies for law enforcement, will result in additional cases for the State Public Defender System.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings as a result of this amendment.

Officials from **St. Louis County** indicated no fiscal impact for this constitutional amendment. The 3/8-cent and 4/10-cent sales taxes for the proposed Law Enforcement Trust Fund in 2018-322, 2018-323, 2018-327 and 2018-328 could provide an opportunity for the St. Louis County Police to receive a grant for law enforcement equipment and training from the 10% set-aside, but it is not possible to project a dollar figure. No savings or losses are anticipated.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **University of Missouri System** indicated they do not believe that this proposal will have a significant impact on their university.

Officials from the **State Auditor's office** indicated this proposal should have no fiscal impact on their office. Any impact can be absorbed through current appropriations.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education**, **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph**, the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, and St. Louis Community College, Kansas City Board of Police Commissioners, and the Metropolitan Police Department - City of St. Louis.**

Fiscal Note Summary

State government entities estimate increased revenue of $286 million annually and one-time costs of $79,000. Local governments estimate no costs or savings.

RE: Petition approval request from Theodis Brown regarding a proposed statutory amendment to Chapter 590 (2018-321)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Theodis Brown on December 12, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jay Ashcroft

John R. Ashcroft

SECTION 590.750RSMO REPEALED FOR ALL 115 COUNTIES &OF THE REVISED MISSOURI STATUTES ARE HEREBY AMENDED TO READ AS FOLLOWS;

*590.750. **Department to have sole authority to regulate and license advisors — commissioning of advisors — minimum liability insurance — acting without a license, penalty — rulemaking authority — application procedure.** — 1. The department of public safety shall have the sole authority to regulate and license all corporate security advisors. Licensed corporate security advisors who are not also commissioned by the department shall not have the power of arrest for violations of the criminal code, except as otherwise provided by law. 9 Mo Atty Gen Opin 65 of 1979 (Aug 20)

2. The director shall have the sole authority to commission corporate security advisors. No person shall hold a commission as a corporate security advisor without a valid peace officer license. The director shall commission corporate security advisors as he or she deems appropriate, taking into consideration the education, training, and experience of each individual in relation to the powers of peace officers and the limitations on the powers of peace officers in regard to the constitutional rights of citizens to be secure in their persons and property. Each individual commissioned by the department shall be issued a commission by the director of the department and before entering into the performance of his or her duties shall subscribe before the clerk of a circuit court of this state an oath, in the form prescribed by Article VII, Section 11 of the Constitution of Missouri, to support the Constitution and laws of the United States and this state; to faithfully demean himself or herself in the office; and to faithfully perform the duties of the office. The executed oath of office, along with a copy of the individual's commission, shall be filed with the director until the commission is terminated or revoked.

3. The authority and jurisdiction of a corporate security advisor shall be limited only by the geographical limits of the state, unless the corporate

RE: Petition approval request from Theodis Brown regarding a proposed statutory amendment to Chapter 57 (2018-320)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Theodis Brown on December 12, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

57.010. Election — qualifications — certificate of election — sheriff to hold valid peace officer license, when. — 1. At the general election to be held in 1948, and at each general election held every four years thereafter, the voters in every county in this state shall elect some suitable person sheriff. No person shall be eligible for the office of sheriff who has been convicted of a felony. Such person shall be a resident taxpayer and elector of said county, shall have resided in said county for more than one whole year next before filing for said office and shall be a person capable of efficient law enforcement. When any person shall be elected sheriff, such person shall enter upon the discharge of the duties of such person's office as chief law enforcement officer of that county on the first day of January next succeeding said election.

2. No person shall be eligible for the office of sheriff who does not hold a valid peace officer license pursuant to chapter 590. Any person filing for the office of sheriff shall have a valid peace officer license at the time of filing for office. This subsection shall not apply to the sheriff of any county of the first classification with a charter form of government with a population over nine hundred thousand or of any city not within a county.

NOTICE: You are advised that in addition to the express amendments, repeals, and modifications as set forth below, this proposal may repeal, change or modify by implication, or may be construed by some persons to repeal, change or modify by implication, Article IV, Section 4, Article V, Sections 8, 19, 25(a), 25(c)(1), 25(c)(2), 25(d), 25(e), 25(f), and 25(g), and Article VIII, Section 23 of the Constitution of Missouri.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To amend Sections 8, 19, 25(a), and 25(f), and enact Sections 1(a), 25(c)(3), 25(c)(4), 25(c)(5), and 25(c)(6) of Article V of the Constitution of Missouri to read as follows:

Section 1(a). 1. Judges of the supreme court and court of appeals shall be elected in elections conducted in the same manner as contested elections for governor.

2. The election of judges derives from the principle that all political power is vested in and derived from the people, and all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole, and further, that all courts of justice shall be open to every person without sale, denial, or delay. Judges shall therefore be accountable to the citizens of this state, this constitution, and the United States Constitution, and not beholden to any particular association or alliance of lawyers, judges, or interest groups. To accomplish this purpose, as set forth in sections 25(a) through (g), judges of the supreme court and court of appeals shall henceforth stand for election, and shall no longer be selected by the governor from nominations made by commissions of lawyers, judges, and the governor's chosen appointees. Voters in most circuits shall continue to have the ability to choose the method by which circuit and associate circuit judges are selected. Section 1(a) and sections 25(a) through (g) shall be known as the "Missouri Plan for Judicial Fairness and Accountability."

Section 8. [The judges of the supreme court shall elect from their number a] The chief justice [to] shall preside over the supreme court en banc, and the judges of the court of appeals in each district shall elect from their number a chief judge of the district. The terms of the [chief justice and] chief judges shall be fixed by the courts over which they preside. The chief justice of the supreme court shall be the chief administrative officer of the judicial system and, subject to the supervisory authority of the supreme court, shall supervise the administration of the courts of this state.

Section 19. Judges of the supreme court, including the chief justice, and judges and of the court of appeals shall be selected for terms of [twelve] six years, judges of the circuit courts for terms of six years, and associate circuit judges for terms of four years. No supreme court judge, supreme court chief justice, or court of appeals judge shall be elected to a particular judicial seat for more than two consecutive terms.

Section 25(a). Whenever a vacancy shall occur in the office of [judge of any of the following courts of this state, to wit: The supreme court, the court of appeals, or in the office of] circuit or associate circuit judge within the city of St. Louis and Jackson County, the governor shall fill such vacancy by appointing one of three persons possessing the qualifications for such office, who shall be nominated and whose names shall be submitted to the governor by a nonpartisan judicial commission established and organized as hereinafter provided. If the governor fails to appoint any of the nominees within sixty days after the list of nominees is submitted, the nonpartisan judicial commission making the nomination shall appoint one of the nominees to fill the vacancy. Whenever a vacancy shall occur in the office of judge of the supreme court, supreme court chief justice, or judge of the court of appeals, it shall be promptly filled under article 4, section 4 of this constitution and such appointee shall hold office for the remainder of the vacating judge's term.

Section 25(c)(1). Each judge appointed to the office of circuit or associate circuit judge pursuant to the provisions of sections 25(a)-(g) shall hold office for a term ending December thirty-first following the next general election after the expiration of twelve months in the office. Any circuit or associate circuit judge holding office, or elected thereto, at the time of the election by which the provisions of sections 25(a)-(g) become applicable to his office, shall, unless removed for cause, remain in office for the term to which he would have been entitled had the provisions of sections 25(a)-(g) not become applicable to his office. Not less than sixty days prior to the holding of the general election next preceding the expiration of his term of office, any circuit or associate circuit judge whose office is subject to the provisions of sections 25(a)-(g) may file in the office of the secretary of state a declaration of candidacy for election to succeed himself. If a declaration is not so filed [by any judge], the vacancy resulting from the expiration of his term of office shall be filled by appointment as herein provided. If such declaration is filed, his name shall be submitted at said next general election to the voters eligible to vote [within the state if his office is that of judge of the supreme court, or within the geographic jurisdiction limit of the district where he serves if his office is that of a judge of the court of appeals, or] within the circuit if his office is that of circuit judge, or within the county if his office is that of associate circuit judge on a separate judicial ballot, without party designation, reading:

"Shall Judge .....

(Here the name of the judge shall be inserted) of the .....

(Here the title of the court shall be inserted) be retained in office? Yes No

(Mark an "X" in the box you prefer.)" If a majority of those voting on the question vote against retaining him in office, upon the expiration of his term of office, a vacancy shall exist which shall be filled by appointment as provided in section 25(a); otherwise, said judge shall, unless removed for cause, remain in office for the number of years after December thirty-first following such election as is provided for the full term of such office, and at the expiration of each such term shall be eligible for retention in office by election in the manner here prescribed.

Section 25(c)(3). Judges of the court of appeals and supreme court shall be elected at the general election by the voters eligible to vote within the appellate district of the seat being elected as set forth in sections 25(c)(4) and 25(c)(5). Except as set forth in section 25(a), they shall hold office for a term expiring December thirty-first in the sixth year after their election. The provisions of sections 25(c)(1) and 25(c)(2) shall not apply to court of appeals or supreme court judges.

Section 25(c)(4). Supreme court judges shall be elected as follows. If the general assembly has provided by law for three appellate districts, a chief justice shall be elected at large and two supreme court judges shall be elected from each court of appeals district by the voters eligible to vote within that district, but if greater than three court of appeals districts are established or the geographical boundaries of the districts change such that the following divisions cannot be made, then elections for supreme court judges other than the chief justice shall be as established by law, or if no law timely establishes procedures for such elections, then elections for all supreme court seats shall be at large. Seats E1 and E2 shall be elected from the court of appeals district which includes the City of St. Louis. Seats S1 and S2 shall be elected from the court of appeals district which includes the City of

Springfield. Seats W1 and W2 shall be elected from the court of appeals district which includes the City of Kansas City. Seat CJ, the seat of the chief judge, shall be elected at large. Seats E1 and S1 shall be known as "Class 1" and elected in 2020 and every sixth successive year. Seats W1 and E2 shall be known as "Class 2" and elected in 2022 and every sixth successive year. Seats S2, W2, and the chief justice's at-large seat, CJ, shall be known as "Class 3" and elected in 2024 and every sixth successive year. A supreme court judge shall be a resident of the appellate district from which he or she is elected no later than the day of his or her election.

Section 25(c)(5). The following transition provisions shall apply: 1. Those supreme court judges holding office as of 5:00 p.m. on December 6, 2018, shall not be required to reside in any particular appellate district but on that date shall nonetheless be assigned the following seat designations for purposes of implementing elections and filling vacancies. The seat designations shall be assigned in the following order: CJ, W2, S2, E2, W1, S1, E1. First, beginning with Seat CJ, seats will be assigned to judges who have been retained by voters, starting with the judge most recently retained by voters. For judges retained at the same time, the judge having served the least time on the supreme court shall be assigned first. After all judges who have been retained have been assigned seats, judges who have been appointed shall be assigned, with judges most recently appointed to be assigned first. If all judges who have been retained or appointed have been assigned seats, and it appears that one or more supreme court seats was vacated on or before December 6, 2018, but remained unfilled by the end of that date, these vacancies will be immediately assigned a class and seat, using the order set forth in this section until all seats through Seat S1 are filled, and in assigning seat designations to vacancies, vacancies created by a judge whose last name is first in alphabetical order will have precedence. A seat held by any judge who lost a retention election in the 2018 general election shall be treated as vacant solely for purposes of assigning a class and seat under this transition provision, even though the judge shall hold office until December 31, 2018, and the seat shall be treated as vacant for purposes of section 25(a) on January 1, 2019, and thereafter filled under the provisions of that section.

2. Court of appeals judges who were last retained in the 2008 or 2010 general elections, or the successors to vacancies left by such judges, shall stand in the 2020 general election, court of appeals judges who were last retained in the 2012 or 2014 general elections, or the successors to vacancies left by such judges, shall stand in the 2022 general election, and court of appeals judges who were last retained in the 2016 or 2018 general elections, or the successors to vacancies left by such judges, shall stand in the 2024 general election. The candidate elected in each such election shall serve for the term prescribed by section 19, and every succeeding six years, a new election shall be held for that judicial office. Court of appeals judges first eligible for retention in the 2020 general election under the immediately prior version of section 25(c)(1), which was effective until the end of thirty days after the election adopting this section, shall stand for election in the 2020 general election. Any seat held by a court of appeals judge who loses a retention election in the 2018 general election shall be treated as vacant on January 1, 2019, and shall thereafter be filled under the provisions of section 25(a). Any law providing for additional court of appeals seats shall specify the first general election at which the seat shall be filled.

3. A supreme court or court of appeals vacancy that opened before the end of thirty days after the election adopting this section but was not yet filled as of that time and date shall be filled by the governor under the provisions of section 25(a).

4. The transition provisions of this section 25(c)(5) shall be severable from the remainder of section 25(a) through (g).

Section 25(c)(6). 1. Elections for the offices of judge of the supreme court and court of appeals shall be partisan elections.

2. All declarations for candidacy for the offices of judge of the supreme court and court of appeals shall be filed in the office of the secretary of state no later than 120 days before the primary election.

3. Political parties shall nominate party candidates for supreme court or court of appeals judge using the same procedures the laws provide for candidates for governor. Additionally, groups of voters may nominate independent candidates. The person so nominated by a group of voters may qualify as an independent candidate in the general election using the same procedures the laws provide for candidates for governor, except that the nominating petition must be signed by at least thirty thousand registered voters in the appellate district, or two percent of the voters who voted in the appellate district in the last election for governor, whichever is less. Notwithstanding the provisions of section 25(d), the governor shall have no power to appoint to any judicial office any person selected by the Appellate Judicial Commission.

4. Unless otherwise provided by law, primary and general elections for the offices of judge of the supreme court and court of appeals shall be held in the same manner as elections for governor. Contests to the results of an election under this section, whether on the basis of qualification, irregularity, or other cause, or for recount other than any automatic recount as may be provided by law, shall be heard and determined in the same manner as contested elections for governor, unless otherwise provided by law.

5. The provisions of this section 25(c)(6) shall be severable from the remainder of section 25(a) through (g).

Section 25(f). No judge of any court in this state, appointed or elected to or retained in office in the manner prescribed in sections 25(a)-(g), shall directly or indirectly make any contribution to or hold any office in a political party or organization, or take part in any political campaign[.] except as provided in sections 25(a)–(g). A judge or judicial candidate may announce his or her views on disputed legal or political issues provided that the judge or judicial candidate does not make pledges or promises to render specific rulings or decisions on pending litigation. Judicial candidates and judges who are judicial candidates shall be allowed to solicit, receive and make campaign contributions, and make and receive the benefit of campaign expenditures for their own campaigns as may be provided by law. Nothing herein shall preclude the application of laws or rules of the supreme court governing judicial participation in specific cases based on a judge's political activity with respect to the subject matter or parties. The provisions of this section 25(f) shall be severable from the remainder of section 25(a) through (g), except that nothing shall prohibit a candidate for the supreme court or court of appeals from making or accepting contributions to or taking part in his or her own political campaign.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-318)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article V. (Received December 12, 2017)

Date

January 2, 2018

Description

This proposal would amend Article V of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, St. Louis County Board of Elections, Board of Election Commissioners City of St. Louis, Kansas City Board of Election Commissioners, Platte County Board of Elections, Jackson County Election Board,** and **Clay County Board of Election Commissioners.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this initiative petition.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have no impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their agency.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact to their department/MHTC.

Officials from the **Office of Administration** indicated this proposal amends Article V of the Constitution of Missouri by requiring partisan elections for judges of the Supreme Court and Court of Appeals. Judges would be elected for six-year terms and would not be allowed to be elected to a particular judicial seat for more than two consecutive terms. Judges would be elected at a general election. The Chief Justice shall be elected at large and two Supreme Court justices will be elected from each court of appeals district. This proposal also includes specific protections to allow judges to announce their views on disputed legal or political issues, solicit, receive and make campaign contributions and receive the benefit of campaign expenditures for their own campaigns. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated:

The initiative petition proposing to amend Article V would require the election of all Supreme Court, Courts of Appeal, Circuit Court and Associate Circuit Court Judges, if approved by the voters.

The proposed legislation would eliminate the appellate judicial commission, which would save $7,741 annually.

Under the proposed legislation a Supreme Court judge, the Chief Justice or court of appeals judge may not serve more than two consecutive terms, which would result in a complete turnover every twelve years. As a result, the cost to training the new judges will increase. The cost for holding new judge orientation class can be from 20 participants to 50 participants and cost $29,168 to $54,568. There are 39 judicial positions in the state that this proposed legislation would affect so the cost of training is estimated to between $29,168 and $54,568 per year.

Judicial vacancies in the Supreme Court, Supreme Court Chief Justice and Court of Appeals, happen throughout the year. Under the proposed legislation, whenever a vacancy shall occur the Governor would appoint the judge to serve the remaining term. Some judicial positions could be vacant for an extended period. During this time, the courts would need to transfer sitting judges or bring in senior judges to handle the existing workload. Since there is no way to quantify the amount of transfers or senior judges that would be needed, the fiscal impact to the judiciary is unknown at this time. Any significant changes will be reflected in future budget request.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings as a result of this amendment.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **Kansas City Election Board** indicated it depends on when these elections are held. If the election is held during a primary or general election during an even-numbered year, then the cost would be picked up by the City of Kansas City, MO and Jackson County, MO. If the election is held at any other time, the state would pay it's pro-rata share of election costs. The average cost of a special election in the Kansas City portion of Jackson County is roughly $500,000. Their pro-rata portion would be based on who else participated in that election.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education**, the **Department of Higher Education**, **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph**, the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College,** and **University of Missouri, St. Louis Community College, St. Louis County Board of Elections, Board of Election Commissioners City of St. Louis, Platte County Board of Elections**, **Jackson County Election Board,** and **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State court officials estimate cost savings of approximately $8,000 annually, increased training costs ranging from approximately $29,000 to $55,000 annually, and unknown annual costs related to judicial vacancies. Local governments estimate no costs or savings.

Jefferson City, MO 65101

RE: Petition approval request from Patricia Thomas regarding a proposed constitutional amendment to Article V, version 1 (2018-317)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Patricia Thomas on December 12, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: You are advised that in addition to the express amendments, repeals, and modifications as set forth below, this proposal may repeal, change or modify by implication, or may be construed by some persons to repeal, change or modify by implication, Article IV, Section 4, Article V, Sections 8, 19, 25(a), 25(c)(1), 25(c)(2), 25(d), 25(e), 25(f), and 25(g), and Article VIII, Section 23 of the Constitution of Missouri.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To amend Sections 8, 19, 25(a), and 25(f), and enact Sections 1(a), 25(c)(3), 25(c)(4), 25(c)(5), and 25(c)(6) of Article V of the Constitution of Missouri to read as follows:

Section 1(a). 1. Judges of the supreme court and court of appeals shall be elected in nonpartisan elections.

2. The election of judges derives from the principle that all political power is vested in and derived from the people, and all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole, and further, that all courts of justice shall be open to every person without sale, denial, or delay. Judges shall therefore be accountable to the citizens of this state, this constitution, and the United States Constitution, and not beholden to any particular association or alliance of lawyers, judges, or interest groups. To accomplish this purpose, as set forth in sections 25(a) through (g), judges of the supreme court and court of appeals shall henceforth stand for election, and shall no longer be selected by the governor from nominations made by commissions of lawyers, judges, and the governor's chosen appointees. Voters in most circuits shall continue to have the ability to choose the method by which circuit and associate circuit judges are selected. Section 1(a) and sections 25(a) through (g) shall be known as the "Missouri Nonpartisan Court Plan."

Section 8. [The judges of the supreme court shall elect from their number a] The chief justice [to] shall preside over the supreme court en banc, and the judges of the court of appeals in each district shall elect from their number a chief judge of the district. The terms of the [chief justice and] chief judges shall be fixed by the courts over which they preside. The chief justice of the supreme court shall be the chief administrative officer of the judicial system and, subject to the supervisory authority of the supreme court, shall supervise the administration of the courts of this state.

Section 19. Judges of the supreme court, including the chief justice, and judges and of the court of appeals shall be selected for terms of [twelve] six years, judges of the circuit courts for terms of six years, and associate circuit judges for terms of four years. No supreme court judge, supreme court chief justice, or court of appeals judge shall be elected to a particular judicial seat for more than two consecutive terms.

Section 25(a). Whenever a vacancy shall occur in the office of [judge of any of the following courts of this state, to wit: The supreme court, the court of appeals, or in the office of] circuit or associate circuit judge within the city of St. Louis and Jackson County, the governor shall fill such vacancy by appointing one of three persons possessing the qualifications for such office, who shall be nominated and whose names shall be submitted to the governor by a nonpartisan judicial commission established and organized as hereinafter provided. If the governor fails to appoint any of the nominees within sixty days after the list of nominees is submitted, the nonpartisan judicial commission making the nomination shall appoint one of the nominees to fill the vacancy. Whenever a vacancy shall occur in the office of judge of the supreme court, supreme court chief justice, or judge of the court of appeals, it shall be promptly filled under article 4, section 4 of this constitution and such appointee shall hold office for the remainder of the vacating judge's term.

Section 25(c)(1). Each judge appointed to the office of circuit or associate circuit judge pursuant to the provisions of sections 25(a)-(g) shall hold office for a term ending December thirty-first following the next general election after the expiration of twelve months in the office. Any circuit or associate circuit judge holding office, or elected thereto, at the time of the election by which the provisions of sections 25(a)-(g) become applicable to his office, shall, unless removed for cause, remain in office for the term to which he would have been entitled had the provisions of sections 25(a)-(g) not become applicable to his office. Not less than sixty days prior to the holding of the general election next preceding the expiration of his term of office, any circuit or associate circuit judge whose office is subject to the provisions of sections 25(a)-(g) may file in the office of the secretary of state a declaration of candidacy for election to succeed himself. If a declaration is not so filed [by any judge], the vacancy resulting from the expiration of his term of office shall be filled by appointment as herein provided. If such declaration is filed, his name shall be submitted at said next general election to the voters eligible to vote [within the state if his office is that of judge of the supreme court, or within the geographic jurisdiction limit of the district where he serves if his office is that of a judge of the court of appeals, or] within the circuit if his office is that of circuit judge, or within the county if his office is that of associate circuit judge on a separate judicial ballot, without party designation, reading:

"Shall Judge .....

(Here the name of the judge shall be inserted) of the .....

(Here the title of the court shall be inserted) be retained in office? Yes No

(Mark an "X" in the box you prefer.)" If a majority of those voting on the question vote against retaining him in office, upon the expiration of his term of office, a vacancy shall exist which shall be filled by appointment as provided in section 25(a); otherwise, said judge shall, unless removed for cause, remain in office for the number of years after December thirty-first following such election as is provided for the full term of such office, and at the expiration of each such term shall be eligible for retention in office by election in the manner here prescribed.

Section 25(c)(3). Judges of the court of appeals and supreme court shall be elected at the general election by the voters eligible to vote within the appellate district of the seat being elected as set forth in sections 25(c)(4) and 25(c)(5). Except as set forth in section 25(a), they shall hold office for a term expiring December thirty-first in the sixth year after their election. The provisions of sections 25(c)(1) and 25(c)(2) shall not apply to court of appeals or supreme court judges.

Section 25(c)(4). Supreme court judges shall be elected as follows. If the general assembly has provided by law for three appellate districts, a chief justice shall be elected at large and two supreme court judges shall be elected from each court of appeals district by the voters eligible to vote within that district, but if greater than three court of appeals districts are established or the geographical boundaries of the districts change such that the following divisions cannot be made, then elections for supreme court judges other than the chief justice shall be as established by law, or if no law timely establishes procedures for such elections, then elections for all supreme court seats shall be at large. Seats E1 and E2 shall be elected from the court of appeals district which includes the City of St. Louis. Seats S1 and S2 shall be elected from the court of appeals district which includes the City of Springfield. Seats W1 and W2 shall be elected from the court of appeals district which includes the City of Kansas City. Seat CJ,

the seat of the chief judge, shall be elected at large. Seats E1 and S1 shall be known as "Class 1" and elected in 2020 and every sixth successive year. Seats W1 and E2 shall be known as "Class 2" and elected in 2022 and every sixth successive year. Seats S2, W2, and the chief justice's at-large seat, CJ, shall be known as "Class 3" and elected in 2024 and every sixth successive year. A supreme court judge shall be a resident of the appellate district from which he or she is elected no later than the day of his or her election.

Section 25(c)(5). The following transition provisions shall apply: 1. Those supreme court judges holding office as of 5:00 p.m. on December 6, 2018, shall not be required to reside in any particular appellate district but on that date shall nonetheless be assigned the following seat designations for purposes of implementing elections and filling vacancies. The seat designations shall be assigned in the following order: CJ, W2, S2, E2, W1, S1, E1. First, beginning with Seat CJ, seats will be assigned to judges who have been retained by voters, starting with the judge most recently retained by voters. For judges retained at the same time, the judge having served the least time on the supreme court shall be assigned first. After all judges who have been retained have been assigned seats, judges who have been appointed shall be assigned, with judges most recently appointed to be assigned first. If all judges who have been retained or appointed have been assigned seats, and it appears that one or more supreme court seats was vacated on or before December 6, 2018, but remained unfilled by the end of that date, these vacancies will be immediately assigned a class and seat, using the order set forth in this section until all seats through Seat S1 are filled, and in assigning seat designations to vacancies, vacancies created by a judge whose last name is first in alphabetical order will have precedence. A seat held by any judge who lost a retention election in the 2018 general election shall be treated as vacant solely for purposes of assigning a class and seat under this transition provision, even though the judge shall hold office until December 31, 2018, and the seat shall be treated as vacant for purposes of section 25(a) on January 1, 2019, and thereafter filled under the provisions of that section.
2. Court of appeals judges who were last retained in the 2008 or 2010 general elections, or the successors to vacancies left by such judges, shall stand in the 2020 general election, court of appeals judges who were last retained in the 2012 or 2014 general elections, or the successors to vacancies left by such judges, shall stand in the 2022 general election, and court of appeals judges who were last retained in the 2016 or 2018 general elections, or the successors to vacancies left by such judges, shall stand in the 2024 general election. The candidate elected in each such election shall serve for the term prescribed by section 19, and every succeeding six years, a new election shall be held for that judicial office. Court of appeals judges first eligible for retention in the 2020 general election under the immediately prior version of section 25(c)(1), which was effective until the end of thirty days after the election adopting this section, shall stand for election in the 2020 general election. Any seat held by a court of appeals judge who loses a retention election in the 2018 general election shall be treated as vacant on January 1, 2019, and shall thereafter be filled under the provisions of section 25(a). Any law providing for additional court of appeals seats shall specify the first general election at which the seat shall be filled.
3. A supreme court or court of appeals vacancy that opened before the end of thirty days after the election adopting this section but was not yet filled as of that time and date shall be filled by the governor under the provisions of section 25(a).
4. The transition provisions of this section 25(c)(5) shall be severable from the remainder of section 25(a) through (g).

Section 25(c)(6). 1. Elections for the offices of judge of the supreme court and court of appeals shall be non-partisan elections. No political party may or shall nominate any candidate for these judicial offices, and no primary or general election ballot shall include a party designation for any of these judicial offices. However, the general assembly shall make no law prohibiting a candidate from declaring himself or herself a supporter of a political party, or prohibiting a political party from declaring its support for a candidate.
2. All declarations for candidacy for the offices of judge of the supreme court and court of appeals shall be filed in the office of the secretary of state no later than 120 days before the primary election. A candidate, whether or not an incumbent, may file such declaration using a form provided by the secretary of state. All declarations shall be accompanied by either a nominating petition or a nomination form. A nominating petition shall have been signed no earlier than 180 days before the primary election by twenty voters eligible to vote in the applicable appellate district, or in the case of the chief justice, in the state. A nomination form shall be signed by all members of the Appellate Judicial Commission no earlier than 180 days before the primary. The Appellate Judicial Commission may issue nomination forms for up to three individuals per race, but this shall include individuals who do not file declarations and therefore do not become candidates.
3. The two candidates receiving the highest number of votes in the primary election shall stand in the general election. The candidate achieving the greatest number of votes in the general election shall be elected to the judicial office.
4. Primary and general elections for the offices of judge of the supreme court and court of appeals shall be held in the same manner as gubernatorial elections to the greatest extent possible for nonpartisan elections, or as may otherwise be provided by law. Contests to the results of an election under this section, whether on the basis of qualification, irregularity, or other cause, or for recount other than any automatic recount as may be provided by law, shall be heard and determined in the same manner as gubernatorial elections to the greatest extent possible for nonpartisan elections, or as otherwise provided by law.
5. The provisions of this section 25(c)(6) shall be severable from the remainder of section 25(a) through (g).

Section 25(f). No judge of any court in this state, appointed or elected to or retained in office in the manner prescribed in sections 25(a)-(g), shall directly or indirectly make any contribution to or hold any office in a political party or organization, or take part in any political campaign[.] except as provided in sections 25(a)–(g). A judge or judicial candidate may announce his or her views on disputed legal or political issues provided that the judge or judicial candidate does not make pledges or promises to render specific rulings or decisions on pending litigation. Judicial candidates and judges who are judicial candidates shall be allowed to solicit, receive and make campaign contributions, and make and receive the benefit of campaign expenditures for their own campaigns as may be provided by law. Nothing herein shall preclude the application of laws or rules of the supreme court governing judicial participation in specific cases based on a judge's political activity with respect to the subject matter or parties. The provisions of this section 25(f) shall be severable from the remainder of section 25(a) through (g), except that nothing shall prohibit a candidate for the supreme court or court of appeals from making or accepting contributions to or taking part in his or her own political campaign.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-317)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article V. (Received December 12, 2017)

Date

January 2, 2018

Description

This proposal would amend Article V of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, St. Louis County Board of Elections, Board of Election Commissioners City of St. Louis, Kansas City Board of Election Commissioners, Platte County Board of Elections, Jackson County Election Board,** and **Clay County Board of Election Commissioners.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this initiative petition.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have no impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their agency.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact to their department/MHTC.

Officials from the **Office of Administration** indicated this proposal amends Article V of the Constitution of Missouri by requiring nonpartisan elections for judges of the Supreme Court and Court of Appeals. Elected judges would serve six-year terms and could not hold a particular judicial seat for more than two consecutive terms. Judges would be elected at a general election. The Chief Justice shall be elected at large and two Supreme Court justices will be elected from each Court of Appeals district. This proposal also includes specific protections to allow judges to announce their views on disputed legal or political issues, solicit, receive and make campaign contributions and receive the benefit of campaign expenditures for their own campaigns. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated:

The initiative petition proposing to amend Article V would require the election of all Supreme Court, Courts of Appeal, Circuit Court and Associate Circuit Court Judges, if approved by the voters.

The proposed legislation would eliminate the appellate judicial commission, which would save $7,741 annually.

Under the proposed legislation a Supreme Court judge, the Chief Justice or court of appeals judge may not serve more than two consecutive terms, which would result in a complete turnover every twelve years. As a result, the cost to training the new judges will increase. The cost for holding new judge orientation class can be from 20 participants to 50 participants and cost $29,168 to $54,568. There are 39 judicial positions in the state that this proposed legislation would affect so the cost of training is estimated to between $29,168 and $54,568 per year.

Judicial vacancies in the Supreme Court, Supreme Court Chief Justice and Court of Appeals, happen throughout the year. Under the proposed legislation, whenever a vacancy shall occur the Governor would appoint the judge to serve the remaining term. Some judicial positions could be vacant for an extended period. During this time, the courts would need to transfer sitting judges or bring in senior judges to handle the existing workload. Since there is no way to quantify the amount of transfers or senior judges that would be needed, the fiscal impact to the judiciary is unknown at this time. Any significant changes will be reflected in future budget request.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills

that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings as a result of this amendment.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **Kansas City Election Board** indicated it depends on when these elections are held. If the election is held during a primary or general election during an even-numbered year, then the cost would be picked up by the City of Kansas City, MO and

Jackson County, MO. If the election is held at any other time, the state would pay it's pro-rata share of election costs. The average cost of a special election in the Kansas City portion of Jackson County is roughly $500,000. Their pro-rata portion would be based on who else participated in that election.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education**, the **Department of Higher Education**, **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore, the City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College, Metropolitan Community College, University of Missouri,** and **St. Louis Community College, St. Louis County Board of Elections, Board of Election Commissioners City of St. Louis, Platte County Board of Elections**, **Jackson County Election Board,** and **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State court officials estimate cost savings of approximately $8,000 annually, increased training costs ranging from approximately $29,000 to $55,000 annually, and unknown annual costs related to judicial vacancies. Local governments estimate no costs or savings.

NOTICE: The proposed amendment creates one new section of one new Article, to be known as Article XIV, Section 1. It changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article III, Sections 40 and 41.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XIV is created by adopting one new section to be known as Section 1.

ARTICLE XIV, SECTION 1. The provisions of this section shall be known as the Right to Remember Amendment. Missouri has a proud heritage of leadership and volunteerism by private citizens who have helped build this state and nation, and who have ensured that the enduring lessons of our history are remembered and handed down to future generations of Missourians. It shall therefore continue to be the public policy of this state to remember our nation's and state's historic conflicts, events, and figures by preserving the historical memorials and monuments in this state.

(a) No memorial that is, or is located on, public property may be removed, renamed, un-named, relocated, materially altered, rededicated, or de-dedicated, except in such manner and to such extent as the general assembly may provide by law.

(b) In making provisions by law under subsection (a), the general assembly may pass or repeal a local or special law or repeal in part a general law, notwithstanding that a general law could have been made applicable. However, in passing or repealing such special or local law, the general assembly shall comply with article III, section 42 of this constitution.

(c) Nothing herein shall prevent or prohibit the following acts, so long as the acting entity ensures that any memorial is preserved to the greatest extent possible: (1) a public entity having responsibility for maintaining a memorial, or a nonprofit entity acting with permission of the public entity, taking proper and appropriate measures, and exercising proper and appropriate means, for the upkeep, care, preservation, protection, repair, and restoration of the memorial;

(2) the state relocating, removing, or materially altering a memorial located on public property if it determines that the memorial interferes with the construction, maintenance, or operation of public property or improvements to public property, so long as any such action is also taken consistent with federal historical preservation law;

(3) the general assembly taking any action necessary to comply with federal law or passing general laws necessary to allow the state or persons residing in Missouri to compete for, or maintain eligibility for, federal grants, federal contracts, or other federal funding opportunities; the state from taking any act required by federal law to maintain a state historic preservation officer or state historic preservation program, as may be defined by federal law; or any local government from taking any act required by federal law to seek or maintain status as a certified local government, as may be defined by federal law.

(d) For purposes of this section: (1) "Historic conflict" means any war, battle, or military conflict in which citizens of the United States or any state or territory of the United States have participated;

(2) "Historic entity" means any entity recognized as having state, national, military, or historical significance;

(3) "Historic event" means any event recognized as having state, national, military, or historical significance;

(4) "Historic figure" means any individual who has been recognized as having served or participated in any historic conflict, historic event, historic entity, public office, or in public service;

(5) "Historic organization" means any entity that has as one (1) or more of its material missions the recognition of, or preservation of sites, structures, or artifacts relating to, any historic conflict, historic entity, historic event, or historic figure;

(6) "Memorial" means: (A) Any public real property or park, preserve, or reserve located on public property that has been named or dedicated in honor of any historic conflict, historic entity, historic event, historic figure, or historic organization; or (B) Any statue; monument; memorial; bust; nameplate; plaque; artwork; flag; the name of any school, street, bridge, or building; or historical display that has been erected for, named, or dedicated on public property in honor of any historic conflict, historic entity, historic event, historic figure, or historic organization; and

(7) "Public property" means all property owned, leased, rented, managed, or maintained by or under the authority of this state, any county, municipality, metropolitan government, special district, or any other public entity that is created by act of the general assembly to perform any public function.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-316)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article XIV. (Received December 8, 2017)

Date

December 28, 2017

Description

This proposal would amend Article XIV of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb

the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. They defer to OA (Office of Administration) for response to this fiscal note request.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this proposal adds Article XIV, Section 1 to the Missouri Constitution. It would prohibit the removal, renaming, un-naming, relocation, alteration, rededication or de-dedication of any historical memorials location on public property except as the General Assembly may provide by law. This would impact state agencies, including the Division of Facilities Management, Design and Construction (FMDC). The proposal provides an exception if any such action is also taken consistent with federal historical preservation law. Under federal law, the listing of a property in the National Register of Historic Places imposes no restrictions on what a non-federal owner may do with their property up to and including destruction, unless the property is involved in a project that receives federal assistance. Therefore, the meaning of "federal historical preservation law" is unclear.

To the extent that this amendment might prohibit FMDC from removing or relocating a memorial as needed for construction or repair of state property, this bill could result in increased costs to FMDC because FMDC would have to find a way work around the memorial in question or find an alternative location, if possible. Without more information, however, FMDC is unable to calculate the potential fiscal impact of this petition. The costs would depend upon the nature of the project, the location of the memorial, etc.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core

funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

NOTICE: You are advised that the proposed amendment to the constitution changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article VI of the Missouri Constitution and section 67.307, RSMo. The proposed amendment revises Article VI of the Constitution by adding one new section to be known as section 34.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article VI is amended by adopting one new section to be known as Section 34.

Section 34. Every municipality and municipal official shall cooperate and comply with requests from United States Immigration and Customs Enforcement (ICE) to detain any alien, maintain custody of any alien, or transfer any alien to ICE. For the purposes of this section, "municipal official" includes any elected official, appointed official, or law enforcement officer serving the municipality, as well as any contractor hired by the municipality. For purposes of this section, "municipality" includes, without limitation, every subdivision and special district.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-315)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article VI. (Received December 8, 2017)

Date

December 28, 2017

Description

This proposal would amend Article VI of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb

the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this proposal amends Article VI of the MO Constitution by adding Section 34. This new section requires every municipality and municipal official to cooperate and comply with requests from the US Immigration and Customs Enforcement (ICE) to detain, maintain custody or transfer any alien to ICE. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they

reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College,** and **St. Louis Community College**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

RE: Petition approval request from Patricia Thomas regarding a proposed constitutional amendment to Article XIV, version 2 (2018-314)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Patricia Thomas on December 7, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment creates five new sections of one new Article, to be known as Article XIV, Sections 1, 2, 3, 4, and 5. It changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication Article I, Sections 29 and Chapters 8, 34, 89, 105, 285, 286, 290, 292, 295, 393, 516, 610, and 630 of the Revised Statutes.

The proposed amendment creates five new sections of one new Article, to be known as Article XIV, Sections 1, 2, 3, 4, and 5.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XIV is created by adopting five new sections to be known as Sections 1, 2, 3, 4 and 5.

ARTICLE XIV, SECTION 1. The provisions of this section shall be known as the Union Abuse Prevention Amendment. It shall be the public policy of this state to promote better jobs and higher pay through labor reforms that help Missouri businesses succeed, allow the state to compete in the national and international market for job creation, and promote the efficient and effective functioning of state and local government.

SECTION 2. Employees shall have the freedom to get jobs and to keep their jobs without being forced to pay any fees to a union or join a union, such that, to obtain or keep a job, no person shall be forced to:
(1) become, remain or refrain from becoming a member of a union; or (2) pay any dues, fees assessments, or other similar charges however denominated of any kind or amount to a union or third party in lieu thereof.

SECTION 3. (A) No existing or future law or ordinance of the state or its political subdivisions shall require that workers employed by or on behalf of any public body engaged in the construction, alteration, repair, or maintenance of public works be paid: (1) a wage at or above the prevailing hourly rate of wages for work of a similar character in the locality in which the work is performed, including the prevailing hourly rate of wages for legal holiday and overtime work; or
(2) any wage calculated by reference to any rate of wages for work of a similar or dissimilar character in any location or locations, including the rates of wages for legal holiday and overtime work, except the state minimum wage provided in chapter 290 of the revised statutes, as amended from time to time.

(B) This section shall not apply to the wages paid any contractors or subcontractors for work performed on federally funded or assisted contracts.

(C) For purposes of this section the following terms mean: (1) "Public works", all fixed works constructed for public use or benefit or paid for wholly or in part out of public funds. It also includes any work done directly by any public utility company when performed by it pursuant to the order of the public service commission or other public authority whether or not it is done under public supervision or direction or paid for wholly or in part out of public funds when let to contract by the utility. It does not include any work done for or by any drainage or levee district.
(2) "Public body", the state of Missouri or any officer, official, authority, board or commission of the state, or other political subdivision or special district thereof, any institution supported in whole or in part by public funds, or any public utility performing work pursuant to the order of the public service commission or other public authority whether or not it is done under public supervision or direction or paid for wholly or in part out of public funds when let to contract by the utility;
(3) "Worker", laborers, workmen or workwomen, and mechanics.

SECTION 4. Any person who purposely violates the provisions of sections 1 through 3 of this Article is guilty of a class A misdemeanor. Notwithstanding any other provision of law which bars prosecutions for any offenses other than a felony unless commenced within one year after the commission of the offense, any offense under the provisions of this section may be prosecuted if the indictment be found or prosecution be instituted within three years after the commission of the alleged offense.

SECTION 5. The provisions of this Article are self-executing. All of the provisions of this Article are severable. If any provision of this Article is found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the remaining provisions of this Article shall be and remain valid.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-314)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article XIV. (Received December 8, 2017)

Date

December 28, 2017

Description

This proposal would amend Article XIV of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Public Service Commission,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. They defer to OA (Office of Administration) for response to this fiscal note request.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal. They would anticipate annual savings over $100,000.

Officials from the **Department of Transportation** indicated their department has maintained a zero to unknown fiscal impact on labor issues. No known direct effects would stem from this, but it may have indirect effects on their department.

Officials from the **Office of Administration** indicated this proposal adds Article XIV with five sections to the MO Constitution and would:

- Prohibit employers from requiring employees to become, remain or refrain from becoming a member of a labor organization or to pay any union dues, as a condition of employment.
- Allow any public body engaged in construction, alteration, repair, or maintenance of public works to opt out of prevailing wage requirements.

Section 3 of this petition would prohibit the Division of Facilities Management, Design and Construction (FMDC) from requiring that its contractors pay prevailing wage to their employees. This petition could potentially impact OA-FMDC's costs for construction projects. However, FMDC cannot calculate the impact for the reasons set forth below.

A review of scholarly articles shows that there is no generally accepted methodology for determining the cost savings, if any, that may result from legislation such as this. A number of factors would affect FMDC's cost savings, if any, from this petition, including, but not limited to, how much contractors choose to pay their employees in the absence of prevailing wage and whether contractors choose to pass on any labor costs savings to FMDC. Any Facilities Maintenance Reserve Fund (FMRF) savings will be used to decrease other deferred maintenance projects.

In addition to contract costs, this petition could potentially affect the rental rates for future leases and improvements at facilities leased by FMDC, as property owners are presently obligated to pay prevailing wage for alterations or improvements made to properties leased by the State. However, FMDC cannot calculate the impact of this legislation on rental rates for the reasons discussed above. Any savings from the elimination of prevailing wage will be used to offset increased costs for rental rates because of increases by the Lessor, or increases in janitorial and utilities.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there is no quantifiable information to submit regarding estimated costs or savings to report from their county for this initiative petition. It is ascertainable that for any building project commenced by the County of Greene that there would be savings in the overall cost of the project when there is no longer a prevailing wage requirement that limits how low a bidder can bid wages for the labor portion of the bid.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

Officials from **Missouri Public Service Commission** indicated no fiscal impact on their office.

Officials from **University of Central Missouri** indicated the petition removes the requirement of prevailing wage for workers employed by a public body engaged in the construction, repair, alteration or maintenance of public works. The financial impact would be indirect to their university through contractors and service contracts awarded through the procurement process. Estimated savings are indeterminable as pricing would be determined by the contractors at the time of procurement bid response.

Officials from **Missouri State University** indicated this will have a positive fiscal impact of an undetermined amount for their university. This would significantly decrease the costs associated with projects on their campus.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact to their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Fiscal Note Summary

State government entities estimate no additional revenues, but estimate annual cost savings of over $100,000. Local government entities estimate no additional revenues and estimate cost savings of an unknown amount.

RE: Petition approval request from Patricia Thomas regarding a proposed constitutional amendment to Article XIV, version 1 (2018-313)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Patricia Thomas on December 7, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jay Ashcroft

NOTICE: The proposed amendment creates seven new sections of one new Article, to be known as Article XIV, Sections 1, 2, 3, 4, 5, 6, and 7. It changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication Article I, Sections 29, and Article VIII, Section 23, and Chapters 8, 34, 89, 105, 285, 286, 290, 292, 295, 393, 516, 610, and 630 of the Revised Statutes.

The proposed amendment creates seven new sections of one new Article, to be known as Article XIV, Sections 1, 2, 3, 4, 5, 6, and 7.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XIV is created by adopting seven new sections to be known as Sections 1, 2, 3, 4, 5, 6, and 7.

ARTICLE XIV, SECTION 1. The provisions of this section shall be known as the Union Abuse Prevention Amendment. It shall be the public policy of this state to promote better jobs and higher pay through labor reforms that help Missouri businesses succeed, allow the state to compete in the national and international market for job creation, and promote the efficient and effective functioning of state and local government.

SECTION 2. Employees shall have the freedom to get jobs and to keep their jobs without being forced to pay any fees to a union or join a union, such that, to obtain or keep a job, no person shall be forced to: (1) become, remain or refrain from becoming a member of a union; or (2) pay any dues, fees assessments, or other similar charges however denominated of any kind or amount to a union or third party in lieu thereof.

SECTION 3. (A) No sum shall be withheld from the earnings of any public employee for the purpose of paying any portion of dues or any other fees paid by public employees to a public labor organization or a public labor organization's designee except upon the annual informed, written, notarized authorization of the public employee. A public employee may freely and without penalty withdraw such authorization at any time by written or electronic notification, and no sum shall be withheld from the earnings of any such public employee, effective as of the time such notification is sent.
(B) No public labor organization shall use or obtain any portion of dues or any other fees paid by public employees to make contributions or expenditures, as such terms is defined in Article VIII, except with the informed, written, notarized authorization of such public employee received and dated within the previous twelve months. A public employee may freely and without penalty withdraw such authorization at any time by written or electronic notification, and no sum shall be withheld from the earnings of any such public employee, effective as of the time such notification is sent.
(C) Public employees who do not authorize contributions or expenditures, or who revoke such authorization, shall not have their dues or any other fees increased in lieu of payments for contributions or expenditures.
(D) The requirements of this section shall not be waived by any member or nonmember of a public labor organization, and waiver of the requirements shall not be made a condition of employment or continued employment.
(E) Signing or refraining from signing any authorization described under this section shall not be made a condition of employment or continued employment.
(F) A public labor organization shall maintain financial records substantially similar to and no less comprehensive than the records that are required to be maintained in accordance with 29 U.S.C. Section 431(b), or any successor statute.
(G) Every public labor organization shall provide the records required under this section in a searchable electronic format to every public employee it represents. In addition to other remedies provided in this section, if any public labor organization fails to make such records available to the employees represented by such organization, any such employee shall have a cause of action against the public labor organization for enforcement of this section. The court in such action may, in its discretion, in addition to any judgment awarded to the plaintiff or plaintiffs, require reasonable attorney's fees and court costs to be paid by the public labor organization.
(H) Every public labor organization required to prepare any record under this section shall maintain such records and any additional data or summary by which the records may be verified, explained, or clarified for a period beginning on the date the record is received and ending five years immediately following the end of the year such record was prepared.
(I) For purposes of this section "Public labor organization" includes any organization that exists and is constituted for the purpose, in whole or in part, of collective bargaining or dealing with public employers concerning grievances, terms and conditions of employment, or other mutual aid or protection.

SECTION 4. (A) No existing or future law or ordinance of the state or its political subdivisions shall require that workers employed by or on behalf of any public body engaged in the construction, alteration, repair, or maintenance of public works be paid: (1) a wage at or above the prevailing hourly rate of wages for work of a similar character in the locality in which the work is performed, including the prevailing hourly rate of wages for legal holiday and overtime work; or
(2) any wage calculated by reference to any rate of wages for work of a similar or dissimilar character in any location or locations, including the rates of wages for legal holiday and overtime work, except the state minimum wage provided in chapter 290 of the revised statutes, as amended from time to time.
(B) This section shall not apply to the wages paid any contractors or subcontractors for work performed on federally funded or assisted contracts.
(C) For purposes of this section the following terms mean: (1) "Public works", all fixed works constructed for public use or benefit or paid for wholly or in part out of public funds. It also includes any work done directly by any public utility company when performed by it pursuant to the order of the public service commission or other public authority whether or not it is done under public supervision or direction or paid for wholly or in part out of public funds when let to contract by the utility. It does not include any work done for or by any drainage or levee district.
(2) "Public body", the state of Missouri or any officer, official, authority, board or commission of the state, or other political subdivision or special district thereof, any institution supported in whole or in part by public funds, or any public utility performing work pursuant to the order of the public service commission or other public authority whether or not it is done under public supervision or direction or paid for wholly or in part out of public funds when let to contract by the utility;
(3) "Worker", laborers, workmen or workwomen, and mechanics.

SECTION 5. (A) The provisions of this section shall apply to all public employees, labor organizations, and labor agreements between a labor organization and a public body, whether collective bargaining rights are granted to such entities in section 105.510, RSMo, as amended from time to time, or by judicial decision.
(B) 1. Every labor organization shall adopt a constitution and bylaws and shall file a copy thereof with the department, together with a report, signed by its president and secretary or corresponding principal officers, containing the following information:
(1) The name of the labor organization, its mailing address, and any other address at which it maintains its principal office or at which it keeps the records referred to in this section;
(2) The name and title of each of its officers;

(3) The initiation fee or fees required from a new or transferred member and fees for work permits required by the reporting labor organization;
(4) The regular dues or fees or other periodic payments required to remain a member of the labor organization, as well as agency fees or any other fees required for nonmembers, if any; and
(5) Detailed statements, or references to specific provisions of documents filed under this subsection which contain such statements, showing the provisions made and procedures followed with respect to each of the following: (a) Qualifications for or restrictions on membership;
(b) Levying of assessments;
(c) Participation in insurance or other benefit plans;
(d) Authorization for disbursement of funds of the labor organization;
(e) Audit of financial transactions of the labor organization;
(f) The calling of regular and special meetings;
(g) The selection of officers and stewards and of any representatives to other bodies composed of labor organizations' representatives, with a specific statement of the manner in which each officer was elected, appointed, or otherwise selected;
(h) Discipline or removal of officers or agents for breaches of their trust;
(i) Imposition of fines, suspensions, and expulsions of members, including the grounds for such action and any provision made for notice, hearing, judgment on the evidence, and appeal procedures;
(j) Authorization for bargaining demands;
(k) Ratification of contract terms; and
(l) Issuance of work permits.
Any change in the information required by this subsection shall be reported to the department at the time the reporting labor organization files with the department the annual financial report required by subdivision (2) of this subsection.
2. Every labor organization shall file annually with the department a financial report signed by its president and treasurer or corresponding principal officers containing the following information in such detail as may be necessary to accurately disclose its financial condition and operations for its preceding fiscal year:
(1) Assets and liabilities at the beginning and end of the fiscal year;
(2) Receipts of any kind and the sources thereof;
(3) Salary, allowances, and other direct or indirect disbursements, including reimbursed expenses, to each officer and employee who, during such fiscal year, received more than ten thousand dollars in the aggregate from such labor organization and any other labor organization affiliated with it or with which it is affiliated, or which is affiliated with the same national or international labor organization;
(4) Direct and indirect loans made to any officer, employee, or member, which aggregated more than two hundred fifty dollars during the fiscal year, together with a statement of the purpose, security, if any, and arrangements for repayment;
(5) Direct and indirect loans to any business enterprise, together with a statement of the purpose, security, if any, and arrangements for repayment;
(6) An itemization schedule that discloses the name and address, purpose, date, amount, and type or classification of the total amount spent by the labor organization for:
(a) Contract negotiation and administration;
(b) Organizing activities;
(c) Litigation, specifying the matters and cases involved;
(d) Public relations activities;
(e) Political activities;
(f) Activities attempting to influence the passage or defeat of federal, state, or local legislation or the content or enforcement of federal, state, or local regulations or policies;
(g) Voter education and issue advocacy activities;
(h) Training activities for each officer of the local bargaining representative or labor organization support staff;
(i) Conference, convention, and travel activities engaged in by the labor organization; and
(j) Labor organization administration;
(7) The percentage of the employee labor organization's total expenditures that were spent for each of the activities described in paragraphs (a) to (j) of subdivision (6) of this subsection;
(8) The names, addresses, and activities of any law firms, public relations firms, or lobbyists whose services are used by the labor organization for any activity described in paragraphs (a) to (j) of subdivision (6) of this subsection;
(9) A list of political candidates, political organizations, charitable organizations, non-profit organizations and community organizations to which the labor organization contributed financial or in-kind assistance and the dollar amount of such assistance;
(10) The name and address of any political action committees with which the labor organization is affiliated or to whom it provides contributions, the total amount of contributions to such committees, the candidates or causes to which such committees provided any financial assistance, and the amount provided to each such candidate or cause;
(11) Other disbursements made by it including the purposes thereof, all in such categories as the department may prescribe.
3. Every labor organization shall submit the report required by subdivision 2 of this subsection in an electronic, readily and easily accessible format and shall make available the information required to be contained in such report to all of its members. Every such labor organization and its officers shall be under a duty enforceable at the suit of any member of such organization in the county where the violation occurred to permit such member for just cause to examine any books, records, and accounts necessary to verify such report. The court in such action may, in its discretion, in addition to any judgment awarded to the plaintiff or plaintiffs, allow a reasonable attorney's fee to be paid by the defendant, and costs of the action.
4. The department shall make each report filed under this subsection publicly available, online, in an electronic format.
(C) 1. Every officer of a labor organization and every employee of a labor organization, other than an employee performing exclusively clerical or custodial services, shall file with the department a signed report listing and describing for his or her preceding fiscal year:
(1) Any stock, bond, security, or other interest, legal or equitable, which such person or his or her spouse or minor child directly or indirectly held in, and any income or any other benefit with monetary value, including reimbursed expenses, which such person or his or her spouse or minor child derived directly or indirectly from, any public body whose employees such labor organization represents or is actively seeking to represent, except payments and other benefits received as a bona fide employee of such public body;
(2) Any transaction in which such person or his or her spouse or minor child engaged, directly or indirectly, involving any stock, bond, security, or loan to or from, or other legal or equitable interest in the business of a public body whose employees such labor organization represents or is actively seeking to represent;
(3) Any stock, bond, security, or other interest, legal or equitable, which such person or his or her spouse or minor child directly or indirectly held in, and any income or any other benefit with monetary value, including reimbursed expenses, which such person or his or her spouse or minor child derived directly or indirectly from, any business a substantial part of which consists of buying from, selling or leasing to, or otherwise dealing with, the business of a public body whose employees such labor organization represents or is actively seeking to represent;

(4) Any stock, bond, security, or other interest, legal or equitable, which such person or his or her spouse or minor child directly or indirectly held in, and any income or any other benefit with monetary value, including reimbursed expenses, which such person or his or her spouse or minor child derived directly or indirectly from, a business any part of which consists of buying from, or selling or leasing directly or indirectly to, or otherwise dealing with such labor organization;
(5) Any direct or indirect business transaction or arrangement between such person or his or her spouse or minor child and any public body whose employees his organization represents or is actively seeking to represent, except work performed and payments and benefits received as a bona fide employee of such public body and except purchases and sales of goods or services in the regular course of business at prices generally available to any employee of such public body; and
(6) Any payment of money or other thing of value, including reimbursed expenses, which such person or his or her spouse or minor child received directly or indirectly from any public body or any person who acts as a labor relations consultant to any public body.
2. The provisions of subdivisions (1), (2), (3), (4), and (5) of subdivision 1 of this subsection shall not be construed to require any such officer or employee to report his bona fide investments in securities traded on a securities exchange registered as a national securities exchange under the Securities Exchange Act of 1934, as amended from time to time, in shares in an investment company registered under the Investment Company Act, as amended from time to time, or in securities of a public utility holding company registered under the Public Utility Holding Company Act of 1935, as amended from time to time, or to report any income derived therefrom.
3. Nothing contained in this subsection shall be construed to require any officer or employee of a labor organization to file a report under subdivision (1) of subdivision 1 of this subsection unless such person or his or her spouse or minor child holds or has held an interest, has received income or any other benefit with monetary value or a loan, or has engaged in a transaction described therein.
(D) 1. The contents of the reports and documents filed with the department under the provisions of subsections (B) or (C) shall be considered a "public record" as that term is defined in the Sunshine Law, as amended from time to time, and shall not be closed pursuant to section 610.021, as amended from time to time. The department may publish any information and data obtained under subsections (B) and (C). The department may use the information and data for statistical and research purposes, and compile and publish such studies, analyses, reports, and surveys based thereon as it may deem appropriate.
2. The department shall by regulation make reasonable provision for the inspection and examination, on the request of any person, of the information and data contained in any report or other document filed with him pursuant to subsections (B) or (C).
3. (1) The department shall by regulation provide for the furnishing of reports or other documents filed with the department under the provisions of this section, upon payment of a charge based upon the cost of the service.
(2) The department shall make available without payment of a charge, or require any person to furnish, to such state agency as is designated by law or by the governor of the state in which such person has his principal place of business or headquarters, upon request of the governor of such state, copies of any reports and documents filed by such person with the department under the provisions of subsections (B) or (C), or of information and data contained therein.
(3) All moneys received in payment of such charges fixed by the department pursuant to this subsection shall be deposited in the general revenue fund of the state.
(E) Every person required to file any report under this section shall maintain records on the matters required to be reported which will provide in sufficient detail the necessary basic information and data from which the documents filed with the department may be verified, explained or clarified, and checked for accuracy and completeness, and shall include vouchers, worksheets, receipts, and applicable resolutions. Such records shall be kept available for examination for a period of not less than five years after the filing of the documents based on the information which they contain.
(F) 1. Each labor organization shall file the initial report required under subdivision 1 of subsection (B) within ninety days after the date on which it first becomes subject to the provisions of this section.
2. Each person required to file a report under the provisions of this section shall file such report within ninety days after the end of each of its fiscal years, except that where such person is subject for only a portion of such a fiscal year, whether because the date of enactment of the provisions of this section occurs during such person's fiscal year or such person becomes subject to the provisions of this section during its fiscal year, such person may consider that portion as the entire fiscal year in making such report.
(G) Whenever it shall appear that any labor organization or person has violated or is about to violate any of the provisions of this section, the department, a public body, or any person may bring a civil action for such relief, including injunctive relief, as may be appropriate. Any such action may be brought in the county where the violation occurred and damages and attorney's fees shall be awarded for the enforcement of this section.
(H) 1. Supervisory employees shall not be included within the same bargaining unit as employees they supervise.
2. The same labor organization shall not represent both non-supervisory and supervisory employees.
3. For the purposes of this section, the term "supervisory employee" means anyone with supervisory status, managerial status, confidential status or any other status that would be a conflict of interest with the purpose of this section.
(I) 1. Any labor organization wishing to represent employees shall present to the board cards containing the signatures of at least thirty percent of the employees in the bargaining unit, indicating that they wish to select the labor organization in question as their exclusive bargaining representative for the purpose of collective bargaining. Voluntary recognition by any public body shall be prohibited. Recognition may only be obtained by a labor organization through an election before the board.
2. Upon receiving such cards, the board shall validate the signatures on the cards, and confirm that at least thirty percent of the employees in the bargaining unit have signed the cards. If the board determines that at least thirty percent of the employees in the bargaining unit have signed valid cards, the board shall consult with the public body and the representative of the labor organization that has presented the cards, and together they shall select a mutually agreeable date for a secret ballot election to take place. The election shall be held at the public body's place of business, and shall be set for a date falling no less than four and no more than eight weeks after the day upon which the board determines the bargaining unit for election and has resolved any other bargaining unit issues.
3. Once an election date has been set, the public body shall issue a notice informing all eligible voters of the date, time, and place of the election. Such notice shall be distributed to all employees and shall be posted within the public body's place of business.
4. All employees shall have the right to freely express their opinions about whether or not the labor organization should be selected as the exclusive bargaining representative of the employees in the bargaining unit. However, no employee and no representative of the labor organization shall attempt to threaten, intimidate, coerce, or otherwise restrain any eligible voter in the free exercise of his or her individual choice to support or oppose the selection of the labor organization in question as the exclusive bargaining representative of the employees in the bargaining unit.
5. Elections shall be conducted by secret ballot, using such procedures as the board shall determine are appropriate for ensuring the privacy and security of each employee's vote. Once the poll is closed, the board shall oversee the counting of the ballots. One representative of the public body's management team and one representative of the labor organization shall have the right to be present during the counting of the ballots.

6. The ballots shall read "Do you wish to select (labor organization) as the exclusive bargaining representative for (description of bargaining unit) employed within (description of public body)?" The ballot shall include check boxes for marking "yes" or "no" in response to this question.
7. In the event that more than one labor organization seeks to represent employees in the unit, and in the event both labor organizations have obtained signatures from at least thirty percent of the employees in the unit stating that they wish to designate the labor organization as their exclusive bargaining representative, then the ballot shall read "Do you wish to select (labor organization A), (labor organization B), or no labor organization as the exclusive bargaining representative for (description of bargaining unit) employed within the (description of public body)?" The ballot shall then include check boxes for marking "I wish to select (labor organization A) as my exclusive bargaining representative," "I wish to select (labor organization B) as my exclusive bargaining representative," and "I do not wish to select any labor organization as my exclusive bargaining representative."
8. Any labor organization receiving the votes of more than fifty percent of all employees in the bargaining unit shall be designated and recognized by the public body as the exclusive bargaining representative for all employees in the bargaining unit.
9. Employees within the bargaining unit shall have the right to seek to decertify the labor organization as their exclusive bargaining representative at any time. If any employee within the bargaining unit presents to the board cards bearing the signatures of at least thirty percent of the employees within the bargaining unit stating that those employees no longer wish to be represented by the labor organization in question, the board shall first validate the signatures on the cards.
10. If the board confirms that at least thirty percent of the employees in the bargaining unit have signed decertification cards, the board shall consult with the public body and the designated representative of the labor organization to select a date for a decertification election. Such election shall take place at least four weeks, but no later than six weeks, after the board receives the decertification cards. Notice of such election shall be distributed to all employees within the bargaining unit and posted within the public body's place of business.
11. If more than fifty percent of the employees in the bargaining unit cast votes to terminate the labor organization's representation of the employees in the bargaining unit, the labor organization shall immediately cease to represent the employees in the bargaining unit.
12. Labor organizations shall be recertified every two years. To meet the biennial recertification requirement, continuation of the labor organization's status as the exclusive representative shall be favored in a secret ballot election conducted by the board by more than fifty percent of the employees in the bargaining unit. Employees shall vote by telephone or online every two years during a two-week period beginning on the anniversary of initial certification.
13. In the event of the decertification of the exclusive bargaining representative of the employees in any bargaining unit or failure to recertify a labor organization, all terms and conditions of employment existing at the time of decertification or failure to recertify shall remain in place until such time as those terms or conditions of employment are altered by the public body.
14. No more than one election shall take place in any bargaining unit within the same twelve-month period. Once an election takes place, the board shall not accept cards from labor organizations or employees within the bargaining unit seeking another election for one full calendar year after the date of the election.
15. The board shall assess and collect a fee from each labor organization participating in an election conducted under this subsection for the purpose of paying for such election as follows:
(1) For a bargaining unit of one to one hundred members, a fee of two hundred dollars;
(2) For a bargaining unit of one hundred one to two hundred fifty members, a fee of three hundred fifty dollars;
(3) For a bargaining unit of two hundred fifty-one to five hundred members, a fee of five hundred dollars;
(4) For a bargaining unit of five hundred one to one thousand members, a fee of seven hundred fifty dollars;
(5) For a bargaining unit of one thousand one to three thousand members, a fee of one thousand five hundred dollars;
(6) For a bargaining unit of more than three thousand members, a fee of two thousand dollars.
(J) 1. Within eight weeks after a labor organization is certified as the exclusive bargaining representative for the employees in a bargaining unit as set out in subsection (I), representatives of the public body, designated by the public body, and representatives of the labor organization, selected by the labor organization, shall meet and begin bargaining for an agreement covering the wages, benefits, and other terms and conditions of employment for the employees within the bargaining unit.
2. No labor organization may refuse to meet with designated representatives of any public body or engage in conduct intended to cause the removal or replacement of any designated representative by the public body.
3. The labor organization and the public body shall engage in bargaining with each other's designated representatives, but neither side shall be required to offer any particular concession or withdraw any particular proposal.
4. The public body shall not pay any labor organization representative or employee for time spent participating in collective bargaining or preparing for collective bargaining on behalf of a labor organization, except to the extent the person in question is an employee of the public body and elects to use accrued paid time off to cover the time so spent.
5. Before any proposed agreement or memorandum of understanding is presented to a public body, the labor organization, as a condition of its presentation, shall establish that it has been ratified by a majority of its members. The public body may approve the entire agreement or any part thereof. If the public body rejects any portion of the agreement, the public body may return any rejected portion of the agreement to the parties for further bargaining, or the public body may adopt a replacement provision of its own design, or the public body may state that no provision covering the topic in question shall be adopted. Any tentative agreement reached between the parties' representatives shall not be binding on the public body or labor organization.
6. A public body and a labor organization shall not be subject to binding mediation, binding interest arbitration, or interest arbitration in the event the parties are unable to reach an agreement.
7. After the first agreement between the public body and the labor organization is adopted, bargaining for renewal agreements shall take place annually. Such bargaining shall be completed by July thirty- first of each calendar year. The parties may elect to bargain non- economic terms for longer periods but all economic provisions of the agreement shall be adopted on an annual basis only.
8. The term of any labor agreement, provision of a labor agreement, or extension of a labor agreement entered into after the effective date of this section shall not exceed a period of two years. Any modification, extension, renewal, or any change whatsoever to a labor agreement in effect as of the effective date of this section shall only be continued as a new labor agreement for purposes of this section.
(K) 1. A meeting concerning a labor agreement between a public body or its agent and an exclusive bargaining representative or its agent shall be considered a "public meeting" as that term is defined under the Sunshine Law and shall not be closed pursuant to section 610.021, RSMo, as amended from time to time. The provisions of this subsection apply whether or not such meeting is conducted under any provision of this section.
2. Any document presented by a public body during a meeting concerning a labor agreement, or that the public body receives from an exclusive bargaining representative, shall be considered a "public record" as that term is defined under the Sunshine Law and shall not be closed pursuant to section 610.021, RSMo, as amended from time to time.
3. This section shall not apply to any part of a meeting during which a public body or its agent is planning or adopting the strategy or position to be taken during the course of a collective bargaining session.

(L) Labor agreements negotiated between a public body and labor organization may cover wages, benefits, and all other terms and conditions of employment for employees within the bargaining unit, and shall be subject to the following limitations:
(1) Every labor agreement shall include a provision reserving to the public body the right to hire, promote, assign, direct, transfer, schedule, discipline, and discharge employees. Every labor agreement shall also include a provision reserving to management the right to make, amend, and rescind reasonable work rules and standard operating procedures;
(2) Every labor agreement shall expressly prohibit all strikes and picketing of any kind. A strike shall include any refusal to perform services, walkout, sick-out, sit-in, or any other form of interference with the operations of any public body. Every labor agreement shall include a provision acknowledging that any employee who engages in any strike or concerted refusal to work, or who pickets over any personnel matter, shall be subject to immediate termination of employment;
(3) Every labor agreement shall include a provision extending the duty of fair representation by the labor organization to employees in any bargaining unit;
(4) Every labor agreement shall expressly prohibit labor organization representatives and employees from accepting paid time by a public body for the purposes of conducting labor organization- related business, including, but not limited to, grievance handling, negotiations, meetings, meet and confer sessions, time off to attend labor organization meetings, or any other labor organization-related activity;
(5) Every labor agreement shall inform employees their right to refrain from engaging in and supporting labor organization activity as well as their right to oppose labor organization activity;
(6) Every labor agreement shall include a provision stating that in the event of a budget shortfall, the public body shall have the right to require the modification of the economic terms of any labor agreement. Every labor agreement shall also state that if the public body deems it necessary to modify the economic terms of any labor agreement, the public body shall so notify the relevant labor organization, and shall provide a period of thirty days during which the public body and the labor organization shall bargain over any necessary adjustments to the economic terms of the agreement, and if, at the end of the thirty-day period, the parties have been unable to agree upon modifications that meet the public body's requirements, the public body shall have the right to make necessary adjustments on its own authority.
(M) The secretary or corresponding principal officer of each labor organization shall forward a complete copy of each agreement made by such labor organization with any public body to any employee who requests such a copy and whose rights as such employee are directly affected by such agreement.
(N) Whenever it shall appear that any labor organization or representative of any labor organization has violated or is about to violate any of the provisions of this section, the department, a public body, or any citizen of the state of Missouri may bring a civil action for such relief, including injunctive relief, as may be appropriate. Any such action may be brought in the county where the violation occurred or in the county where the plaintiff resides and damages and attorneys' fees shall be awarded for the enforcement of the provisions of this section.
(O) For purposes of this section, unless the context otherwise requires, the following words and phrases mean:
(1) "Bargaining unit", a unit of employees at any plant or installation or in a craft or in a function of a public body which establishes a clear and identifiable community of interest among the employees concerned;
(2) "Board", the state board of mediation established under section 295.030, RSMo, as amended from time to time;
(3) "Department", the department of labor and industrial relations established under section 286.010, RSMo, as amended from time to time;
(4) "Exclusive bargaining representative", an organization which has been designated or selected by a majority of the employees in a bargaining unit as the representative of such employees in such unit for purposes of collective bargaining;
(5) "Labor organization", any organization, agency, or employee representation committee or plan, in which employees participate and which exists for the purpose, in whole or in part, of dealing with a public body or public bodies concerning collective bargaining, grievances, labor disputes, wages, rates of pay, hour of employment, or conditions of work;
(6) "Public body", the state of Missouri, or any officer, agency, department, bureau, division, board or commission of the state, or any other political subdivision of or within the state.

SECTION 6. Any person who purposely violates the provisions of sections 1 through 5 of this Article is guilty of a class A misdemeanor. Notwithstanding any other provision of law which bars prosecutions for any offenses other than a felony unless commenced within one year after the commission of the offense, any offense under the provisions of this section may be prosecuted if the indictment be found or prosecution be instituted within three years after the commission of the alleged offense.

SECTION 7. The provisions of this Article are self-executing. All of the provisions of this Article are severable. If any provision of this Article is found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the remaining provisions of this Article shall be and remain valid.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-313)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article XIV. (Received December 8, 2017)

Date

December 28, 2017

Description

This proposal would amend Article XIV of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Public Service Commission,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated increased operating costs to the General Revenue Fund of $972,614 in fiscal year 2019, $677,889 in fiscal year 2020, and $686,618 in fiscal year 2021. Of these costs, $471,591 are initial and one-time costs in fiscal year 2020 for equipment and computer system development. These costs will be offset by additional biennial revenues to the General Revenue Fund of $192,250 in fiscal year 2019, $0 in fiscal year 2020, and $192,250 in fiscal year 2021.

This proposal would affect any state agency or political subdivision that employs workers in a bargaining unit with exclusive bargaining representatives.

Additional space will been required for nine FTE (9 X 100 sq. ft. X $14.00 = $12,600) and 20 large file cabinets (20 X 18 X $14.00 = $5,040) at an estimated $17,640.

Section 5. (D) 3. (1) of Article XIV indicates that the department shall, by regulation, provide copies of reports and documents filed upon payment of a charge based upon the cost of the service. The fees would be credited to General Revenue.

Section 5 of Article XIV also directs the department to assess and collect a fee from each labor organization participating in an election, based on the size of the bargaining unit, for the purpose of paying for elections. There is no specification as to these fees would be deposited, therefore it is assumed they would be credited to General Revenue.

Section 5. (B)-(D) require the following:

- all labor organizations to adopt constitutions and bylaws containing mandated information and file those documents with the department;
- all labor organizations to file annually, electronic financial reports containing mandated information with the department;
- the department to make the documents submitted under Section 5., publicly available online, in an electronic format;
- certain officers of labor organizations to file with the department personal financial reports containing mandated information annually;
- all of the information collected be designated as public record and the department maintain all documents and reports filed under this legislation and make all filed documents and reports available for examination/inspection;
- the department to provide copies of reports and documents filed upon payment of a charge based upon the cost of the service; and
- funds collected are to be set by regulation and deposited to General Revenue.

Section 5. specifies that the provisions of this legislation apply to all entities engaged in public sector collective bargaining. Currently, voluntarily recognized and statutorily excluded bargaining units are outside the department's jurisdiction. The department estimates there are currently approximately 250 voluntary recognitions, which would require in-person elections at the employer's location. It is physically impossible for the State Board of Mediation (SBM) Chairman to conduct that many elections in a year (normally do 20-30 per year) so additional authorized designees would be hired to oversee elections on a per diem basis, estimated at $20,000. These staff would also require travel expenses, estimated at $10,600.

Section 5. (I) 12. requires that all public sector bargaining units be recertified by the State Board of Mediation biennially through telephone or on-line elections. Currently, elections are conducted only in-person or by mailed ballot.

Section 5. (I) 15. directs the SBM to assess and collect fees from each labor organization participating in an election to defray election costs. They cannot provide a definitive amount, but estimate initially that there will be approximately 850 elections in the first two years after implementation, which would generate approximately $192,250 over the two-year period. Since there is no mention of a separate fund for these fees, they assume any revenue will be deposited to General Revenue.

A new system will be developed by ITSD to implement these provisions.
Section 6 specifies that violation of provisions 1-5 are Class A misdemeanors. The department assumes that it will be charged with investigation of non-compliance of these sections and referral for prosecution if necessary. This will require two investigators and two processing technicians to assure compliance and assist Missouri citizens.

All of the additional duties will require nine additional FTE and associated expenses, as well as additional per diem payments for State Board of Mediation Members and expenses associated with additional elections, and development of a new computer system.

Ongoing expenses will be the same as those estimated for the fiscal note period.

REVENUE ESTIMATE

Section 5. directs the department set fees by regulation to provide copies of reports and documents filed upon payment of a charge based upon the cost of the service. Since these costs will be defined by regulation, they cannot provide an estimate of revenue for these activities.

Section 5. (I) 15. directs the SBM to collect fees from each labor organization to defray election costs. The fees are based on the number of members in each bargaining unit. Currently, the SBM is not notified of changes to the number of members in a bargaining unit once the election has concluded, nor does it have information on members voluntarily recognized or otherwise excluded bargaining units.

Section 5. (I) 15. directs the State Board of Mediation to assess and collect fees from each labor organization participating in an election to defray election costs. For the purposes of this response, they estimate 850 bargaining unit elections biennially. The majority of certified bargaining units at the time of election are made up of less than 100 members. Based on historical averages from FY 2010 through 2015, they estimate a total of $192,250 from fees collected from labor organizations.

Estimated Revenue from Labor Organization Fees							
Total Voters	1-100	101-250	251-500	501-1000	1001-3000	3001+	TOTAL
Bargaining Units	748	84	12	3	2	1	850
Fee	$200	$350	$500	$750	$1,500	$2,000	
Total	**$149,600**	**$29,400**	**$6,000**	**$2,250**	**$3,000**	**$2,000**	**$192,250**

They assume all revenue collected will be deposited into General Revenue. The SBM will be required to adopt procedures for assessing and collecting the fees, as well compliance with accepted accounting practices.

COST ESTIMATE

State Board of Mediation

They estimate that there are currently over 600 bargaining units that have been certified. This amendment requires that bargaining units made up of otherwise excluded employees (e.g., teachers and peace officers) and voluntarily recognized units be recertified. Because excluded and voluntarily recognized units are not required to notify the department of their existence, the department does not have the number of such units. For the purposes of this estimate, they assume there are 250 excluded and voluntarily recognized units, for a total of 850. The number of actual bargaining units and elections could be more or less depending upon the precision of the estimate used.

The proposed language requires all of the estimated 850 labor organizations to submit constitutions & bylaws to the department. It also requires all of the estimated labor organizations, as well as certain officers of those organizations, to submit annual financial reports to the

department. The submissions will be in electronic or paper document form. The subsections mandate information to be contained in those submissions. The department shall make each document filed under this section publicly available, online, in an electronic format. The SBM estimates it will require 4.00 Senior Office Support Assistants (Range 12, Step F) to verify that all labor organizations comply with the required submissions. They must process (review for compliance regarding mandated information), perform necessary electronic formatting and data entry to make the information available online, and properly file the documents and electronically submitted reports. These FTE would also field Chapter 610 requests and prepare the requested documents and reports for dissemination upon authorization as required.

All public sector bargaining units shall be recertified biennially through telephone or on-line elections conducted by the SBM. Currently, elections are conducted only in-person or by mailed ballot. The SBM's current staff will not be able to fulfill the new responsibilities required by the amendment. To facilitate the estimated 850 biennial recertification elections, the SBM would require 1.00 Executive II (Range 22, Step G). The SBM may opt to contract with a third party to conduct the recertification elections.

The occurrence of the elections will also result in an incentive for existing bargaining representatives or the public body employers to petition to clarify the makeup of their units or to amend their certifications to reflect changing circumstances. It is likely that some portion of these petitions will result in disagreements between public bodies and bargaining representatives, which will, in turn, result in a need for the SBM to conduct additional hearings. Each additional hearing will also result in briefing and the need for a written decision.

The SBM members are not compensated for their service; however, they do receive a per diem of up to $50 for days they perform services for the board and reimbursement for any expenses incurred while performing those duties. The services include preparation for hearings and hearing and deciding cases. It is expected that board members will incur additional expenses for preparation and travel related to the additional hearings.

In addition to the standard expense and equipment for each FTE, additional expenses including a printer, file cabinets, and travel expenses will also be required because bargaining units are located throughout the state.

Division of Labor Standards

The Division of Labor Standards (DLS) assumes it will perform investigative duties regarding non-compliance with sections 1-5 of this amendment and referral for prosecution as set forth in Section 6. The division estimates it would receive 200 incidents of non-compliance annually. To review allegations and complete investigations, the division would require two Processing Technicians (Range 13, Step F) and two Wage and Hour Investigator IIs (Range 23, Step G). Standard per FTE expense and equipment, along with travel expense for investigators is also included in this estimate.

12. Assumptions and methodology used in arriving at state fiscal impact.

DOLIR must retrieve the union bylaws and annual financial reports and make it available through a website for public access. The assumption is a RFP will be created and awarded. PMO oversight cost, cost to write an RFP, web server, PM Spectrum server, Report Server and database server cost included. To complete the fiscal note, security developed for the application and new web pages created to enter, update, and delete information reported defining the labor association were estimated. Additional web pages created for this bill version to obtain the required by laws and financial reports of the unions which contains a sizable amount of data used to display the information online for public access. The union elections will require history to be kept for prior elections. Reports created to share information and count election results. Setup a SAM II object code or grant code added for financial data tracking piece. The system will require a new database and services from the State Data Center.

Information Technology Services Division

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. They defer to OA (Office of Administration) for response to this fiscal note request.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal. They would anticipate annual savings over $100,000.

Officials from the **Department of Transportation** indicated their department has maintained a zero to unknown fiscal impact on labor issues. No known direct effects would stem from this, but it may have indirect effects on their department.

Officials from the **Office of Administration** indicated this proposal adds Article XIV to the MO Constitution and would:

- Prohibit employers from requiring employees to become, remain or refrain from becoming a member of a labor organization or to pay any union dues, as a condition of employment.
- Require annual informed, written, notarized authorization from public employees to withhold any earnings for the purpose of paying dues to a public labor organization or a designee thereof.
- Allow any public body engaged in construction, alteration, repair, or maintenance of public works to opt out of prevailing wage requirements.
- Require public labor organizations to adopt a constitution and bylaws and file a copy with the Missouri Department of Labor and Industrial Relations.
- Require public labor organizations to file an annual financial report with the Missouri Department of Labor and Industrial Relations in an electronic, readily and easily accessible format.
- Require the Missouri Department of Labor and Industrial Relations to make each report publicly available online and in an electronic format.
- Require biennial recertification for labor organizations through an election process.

The Office of Administration, Division of Personnel estimates this will have an unknown negative fiscal impact on the division. There is no way to estimate the amount of additional staff time that will be needed to fulfill the provisions of this proposal as the time needed for each negotiation varies. They would anticipate possibly needing to hire additional employees. The Department of Labor and Industrial Relations (DOLIR) will also be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

The Division or Personnel (DOP) notes the following issues with the proposed language:

Section 3(A): "…except upon the annual informed, written, notarized authorization of the public employee". Currently, there are no provisions in the state's labor contracts that reference this requirement. Provisions in the labor agreements will need to be revised to reflect this requirement.

Section 3(A)(B): "..withdraw at any time written or electronic notification, and no sum shall be withheld from the earnings of any such public employee, effective as of the time such notification is sent." This language is in both subsection B and C. Depending on the amount of time it takes to get the notification from the employee to the employee's HR or Payroll office for revocation from the employee's payroll deductions, due to restrictions in the statewide Payroll system, there may not be enough time to withdraw this deduction from the employee's next paycheck. Reimbursement of the deduction may need to be made manually either by the Union or the Employer.

Section 5(I)1. "...Voluntary recognition by any public body shall be prohibited." The language is unclear as if this prohibition is to be implemented going forward and the state could "grandfather" in those previously recognized voluntarily, or if would the DOP need to research bargaining units to ensure no classes of employees were voluntarily recognized, and if there were voluntarily recognized classes, who would be responsible for filing unit clarification petitions or recertification elections with the Department of Labor's State Board of Mediation.

Section 5(I)12. "Employees shall vote by telephone or online every two years during a two-week period beginning on the anniversary of the initial certification." It is unclear whether this would allow employees to use state resources and work time to vote for recertification. There could be costs associated with this language as there were, as of June 30, 2017, 4,286 state members who would be eligible to vote in these recertification elections.

Section 5(J)1. "Within eight weeks after a labor organization is certified as the exclusive bargaining representative…shall meet and begin bargaining for an agreement…" DOP would need to ensure that labor negotiations for any new bargaining units begin negotiations as required by this language. DOP would also need to be ensure that agencies are meeting this obligation. Also, depending on the number of new bargaining units established, it may cause some manpower issues if the division was negotiating multiple new labor agreements close in proximity (time wise). DOP may

have to pull additional staff from their normal duties to assist with the additional workload, possibly even hiring temporary staff to cover manpower shortages.

Section 5(J)5. "…The Public body may approve…" Many of the State's bargaining units are horizontal bargaining units covering multiple agencies. This language is problematic to horizontal units as it would be much more difficult to reach agreement on articles in the labor agreement that may affect one agency and not so much another agency. It may create prolonged negotiation sessions that would possibly make it difficult for DOP to reach a new agreement between the union(s) with the time constraints listed in this proposal.

Section 5(J)7. Entire section. It is understood labor negotiations for new agreements should take place annually; however, the completion date is ambiguous, as it does not take into consideration the date the bargaining unit was adopted or when the first labor agreement was adopted. If a labor agreement was adopted May 1st for a new bargaining unit, it would only have 30 days but with the requirement that the bargaining was to be completed by July 31st of each year, there would be a difference in the number of days a new labor agreement is to be negotiated. For instance, if a first labor agreement was completed on May 1, 2017, the state would be required to begin negotiations on May 1, 2018 and be completed with the negotiations by May 31st of 2018, allowing for only one month of negotiation sessions. This short timeframe would place extraordinary time restraints on agency staff who participate in negotiations as many negotiations normally take several months to complete. It also provides concessions to negotiate economic conditions separately but does not provide a deadline for these conditions. These conditions typically take the largest percentage of time to negotiate.

Section 5(J) 7 and 8. These two sections are incongruent to each other. The state is required to negotiate annually but the labor contract is in effect for 2 years.

Section 5(K) 1-3. Entire sections. These sections do not explicitly provide that actual negotiation sessions are considered public records or whether they are to be closed, which has historically been decided in past labor negotiations. If they are considered public meetings, there are additional time parameters that the state would need to be cognizant of in regard to public notice, which may cause negotiations to be more time consuming.

Section 5(O) 1 and 6. As it relates to definition of public body. The definition of public body does not include a grouping of agencies, which occurs under a horizontal bargaining unit. DOP is unsure whether this definition would prohibit the state from having horizontal bargaining units. If horizontal bargaining units were prohibited, then the state would possibly need to renegotiate current horizontal bargaining units to make them singular units. In that case, each agency would have their own unit, which would mean a drastic increase in negotiations, with the possibility that employees in separate agencies, but identical job classifications, would have differing labor contracts.

Section 4 of this petition would prohibit the Division of Facilities Management, Design and Construction (FMDC) from requiring that its contractors pay prevailing wage to their

employees. This petition could potentially impact OA-FMDC's costs for construction projects. However, FMDC cannot calculate the impact for the reasons set forth below.

A review of scholarly articles shows that there is no generally accepted methodology for determining the cost savings, if any, that may result from legislation such as this. A number of factors would affect FMDC's cost savings, if any, from this petition, including, but not limited to, how much contractors choose to pay their employees in the absence of prevailing wage and whether contractors choose to pass on any labor costs savings to FMDC. Any Facilities Maintenance Reserve Fund (FMRF) savings will be used to decrease other deferred maintenance projects.

In addition to contract costs, this petition could potentially affect the rental rates for future leases and improvements at facilities leased by FMDC, as property owners are presently obligated to pay prevailing wage for alterations or improvements made to properties leased by the State. However, FMDC cannot calculate the impact of this legislation on rental rates for the reasons discussed above. Any savings from the elimination of prevailing wage will be used to offset increased costs for rental rates because of increases by the Lessor, or increases in janitorial and utilities.

The other sections of this petition would not result in any fiscal impact to FMDC.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements.

Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there is no quantifiable information to submit regarding estimated costs or savings to report from their county for this initiative petition. It is ascertainable that regarding Section 4 of this initiative petition, that for any building project commenced by the County of Greene that there would be savings in the overall cost of the project when there is no longer a prevailing wage requirement that limits how low a bidder can bid wages for the labor portion of the bid.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

Officials from **Missouri Public Service Commission** indicated no fiscal impact on their office.

Officials from **University of Central Missouri** indicated there would not be a fiscal impact for their university.

Officials from **Missouri State University** indicated this will have a positive fiscal impact of an undetermined amount for their university. This would significantly decrease the costs associated with projects on their campus.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact to their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Fiscal Note Summary

State government entities estimate initial and one-time costs of $470,000 and annual costs of at least $600,000, but total potential costs are unknown. State government entities estimate additional biennial revenues of $193,000. Local government entities estimate no additional revenues and estimate cost savings of an unknown amount.

RE: Petition approval request from Theodis Brown regarding a proposed statutory amendment to Chapter 320 (2018-312)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Theodis Brown on December 6, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

PROPOSED MEASURE

Be it enacted by the *people of the state of Missouri:*

Section 558.019, RSMO, Subsection 3 would be repealed. In lieu of it a new subsection relating to prison commitment terms for first-time dangerous felony offenders and offenders with multiple convictions of dangerous felonies. The existing statute reads as follows (with the matter to be deleted in [brackets]):

1. This section shall not be construed to affect the powers of the governor under article IV, section 7, of the Missouri Constitution. This statute shall not affect those provisions of section 565.020, section 566.125, or section 571.015, which set minimum terms of sentences, or the provisions of section 559.115, relating to probation.

2. The provisions of subsections 2 to 5 of this section shall be applicable to all classes of felonies except those set forth in chapter 579, or In chapter 195 prior to January 1, 2017, and those otherwise excluded in subsection 1 of this section. For the purposes of this section, "prison commitment" means and is the receipt by the department of corrections of an offender after sentencing. For purposes of this section, prior prison commitments to the department of corrections shall not include an offenders first Incarceration prior to release on probation under section 217.362 or an offenders Incarceration prior to release on probation under section 559.115. Other provisions of the law to the contrary notwithstanding, any offender who has been found guilty of a felony other than a dangerous felony as defined in section 556.061 and is committed to the department of corrections shall be required to serve the following minimum prison terms:

(1) If the offender has one previous prison commitment to the department of corrections for a felony offense, the minimum prison term which the offender must serve shall be forty percent of his or her sentence or until the offender attains seventy years of age, and has served at least thirty percent of the sentence imposed, whichever occurs first;

(2) If the offender has two previous prison commitments to the department of corrections for felonies unrelated to the present offense, the minimum prison term which the offender must serve shall be fifty percent of his or her sentence or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first;

(3) If the offender has three or more previous prison commitments to the department of corrections for felonies unrelated to the present offense, the minimum prison term which the offender must serve shall be eighty percent of his or her sentence or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first.

[3. Other provisions of the law to the contrary notwithstanding, any offender who has been found guilty of a dangerous felony as defined in section 556.061 and is committed to the department of corrections shall be required to serve a minimum prison term of eighty-five percent of the sentence imposed by the court or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first.]

4. For the purpose of determining the minimum prison term to be served, the following calculations shall apply:

(1) A sentence of life shall be calculated to be thirty years;

(2) Any sentence either alone or in the aggregate with other consecutive sentences for offenses committed at or near the same time which is over seventy-five years shall be calculated to be seventy-five years.

5. For purposes of this section, the term "minimum prison term" shall mean time required to be served by the offender before he or she is eligible for parole, conditional release or other early release by the department of corrections.

6. (1) A sentencing advisory commission is hereby created to consist of eleven members. One member shall be appointed by the speaker of the house. One member shall be appointed by the president pro tem of the senate. One member shall be the director of the department of corrections. Six members shall be appointed by and serve at the pleasure of the governor from among the following: the public defender commission; private citizens; a private member of *the* Missouri Bar; the board of probation and parole; and a prosecutor. Two members shall be appointed by the supreme court, one from a metropolitan area and one from a rural area. All members shall be appointed to a four-year term. All members of the sentencing commission appointed prior to August 28, 1994, shall continue to serve on the sentencing advisory commission at the pleasure of the governor.

(2) The commission shall study sentencing practices in the circuit courts throughout the state for the purpose of determining whether and to what extent disparities exist among the various circuit courts with respect to the length of sentences imposed and the use of probation for offenders convicted of the same or similar offenses and with similar criminal histories. The commission shall also study and examine whether and to what extent sentencing disparity among economic and social classes exists in relation to the sentence of death and If so, *the* reasons therefor, If sentences are comparable to other states, If the length of the sentence is appropriate, and the rate of rehabilitation based on sentence. It shall compile statistics, examine cases, draw conclusions, and perform other duties relevant to the research and investigation of disparities in death penalty sentencing among economic and social classes.

(3) The commission shall study alternative sentences, prison work programs, work release, home-based incarceration, probation and parole options, and any other programs and report the feasibility of these options in Missouri.

(4) The governor shall select a chairperson who shall call meetings of the commission as required or permitted pursuant to the purpose of the sentencing commission.

(5) The members of the commission shall not receive compensation for their duties on the commission, but shall be reimbursed for actual and necessary expenses incurred in the performance of these duties and for which they are not reimbursed by reason of their other paid positions.

(6) The circuit and associate circuit courts of this state, the office of the state courts administrator, the department of public safety, and the department of corrections shall cooperate with the commission by providing information or access to information needed by the commission. The office of the state court administrator will provide needed staffing resources.

7. Courts shall retain discretion to lower or exceed the sentence recommended by the commission as otherwise allowable by law, and to order restorative justice methods, when applicable.

8. If the imposition or execution of a sentence is suspended, the court may order any or all of the following restorative justice methods, or any other method that the court finds just or appropriate:

(1) Restitution to any victim or a statutorily created fund for costs incurred as a result of the offender's actions;

(2) Offender treatment programs;

(3) Mandatory community service;

(4) Work release programs in local facilities; and

(5) Community-based residential and nonresidential programs.

9. The provisions of this section shall apply only to offenses occurring on or after August 28, 2003.

10. Pursuant to subdivision (1) of subsection 8 of this section, the court may order the assessment and payment of a designated amount of restitution to a county law enforcement restitution fund established by the county commission pursuant to section 50.565. Such contribution shall not exceed three hundred dollars for any charged offense. Any restitution moneys deposited into the county law enforcement restitution fund pursuant to this section shall only be expended pursuant to the provisions of section 50.565.

11. A judge may order payment to a restitution fund only If such fund had been created by ordinance or resolution of a county of the state of Missouri prior to sentencing. A judge shall not have any direct supervisory authority or administrative control over any fund to which the judge is ordering a person to make payment. 12. A person who falls to make a payment to a county law enforcement restitution fund may not have his or her probation revoked solely for failing to make such payment unless the judge, after evidentiary hearing, makes a	finding supported by a preponderance of the evidence that the person either willfully refused to make the payment or that the person willfully, intentionally, and purposefully failed to make sufficient bona fide efforts to acquire the resources to pay. 13. Nothing in this section shall be construed to allow the sentencing advisory commission to issue recommended sentences in specific cases pending in the courts of this state.

The new subsection: 558.019.3 will read as follows:

3. Other provisions of the law to the contrary notwithstanding, any offender who has more than once been found guilty of a dangerous felony as defined In section 556.061 and is committed to the department of corrections shall be required to serve a minimum prison term of eighty-five percent of the sentence imposed by the court or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first.:

(1) If the offender has one previous prison commitment to the department of corrections for a dangerous felony offense, the minimum prison term which the offender must serve shall be fifty percent of their sentence or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first. if the offender has maintained the best possible institutional score for the year prior to their scheduled parole hearing date, then parole shall be granted. If parole is denied, a hearing shall be scheduled every two years until the offender is paroled. The first-time conviction exception of this subsection shall be applicable to all dangerous felonies occurring on or after August 28, 1994.

RE: Petition approval request from Patricia Thomas regarding a proposed constitutional amendment to Article I, Section 29, version 6 (2018-310)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Patricia Thomas on November 22, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jay Ashcroft

NOTICE: You are advised that the proposed amendment to the constitution changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article I of the Missouri Constitution and Chapter 290, RSMo. The proposed amendment revises Article I of the Constitution by amending section 29.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by revising section 29, to read as follows:

Section 29. That employees shall have the right to organize and to bargain collectively through representatives of their own choosing. That employees shall have the freedom to get jobs and to keep their jobs without being forced to pay any fees to a union or join a union, such that, to obtain or keep a job, no person shall be forced to: (1) become, remain, or refrain from becoming a member of a union; or (2) pay any dues, fees, assessments, or other similar charges however denominated of any kind or amount to a union or third party in lieu thereof.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-310)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article I. (Received November 27, 2017)

Date

December 18, 2017

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. This initiative petition is deferred to OA (Office of Administration) for response.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated they have maintained a zero to unknown fiscal impact on labor issues. No known direct effects would stem from this, but it may have indirect effects on their department.

Officials from the **Office of Administration** this proposal amends Section 29 of the MO Constitution by prohibiting employers from requiring employees from becoming, remaining or refraining from becoming a member of a labor organization or paying union dues, as a condition of employment. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish

the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would result in no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of St. Joseph** indicated this initiative petition will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

Officials from **University of Central Missouri** indicated there is no fiscal impact for their university.

Officials from **Missouri State University** indicated no fiscal impact for their university.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St.**

Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Northwest Missouri State University, Southeast Missouri State University, and **Truman State University**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

NOTICE: You are advised that the proposed amendment to the constitution changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article I of the Missouri Constitution and Chapter 290, RSMo. The proposed amendment revises Article I of the Constitution by amending section 8.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by revising section 8, to read as follows:

Section 8. That no law shall be passed impairing the freedom of speech, no matter by what means communicated: that every person shall be free to say, write or publish, or otherwise communicate whatever he will on any subject, being responsible for all abuses of that liberty; and that no person shall be forced to pay any fee to a union or join a union in order to gain or keep a job; and that in all suits and prosecutions for libel or slander the truth thereof may be given in evidence; and in suits and prosecutions for libel the jury, under the direction of the court, shall determine the law and the facts.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. This initiative petition is deferred to OA (Office of Administration) for response.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated they have maintained a zero to unknown fiscal impact on labor issues. No known direct effects would stem from this, but it may have indirect effects on their department.

Officials from the **Office of Administration** this proposal amends Section 8 of the MO Constitution by protecting workers from being forced to join a union or pay union fees as a condition of employment or continued employment. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there

were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would result in no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of St. Joseph** indicated this initiative petition will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

Officials from **University of Central Missouri** indicated there is no fiscal impact for their university.

Officials from **Missouri State University** indicated no fiscal impact for their university.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State**

University, Northwest Missouri State University, Southeast Missouri State University, and **Truman State University**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

RE: Petition approval request from Patricia Thomas regarding a proposed constitutional amendment to Article I, Section 8, version 4 (2018-308)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Patricia Thomas on November 22, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: You are advised that the proposed amendment to the constitution changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article I of the Missouri Constitution and Chapter 290, RSMo. The proposed amendment revises Article I of the Constitution by amending section 8.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by revising section 8, to read as follows:

Section 8. That no law shall be passed impairing the freedom of speech, no matter by what means communicated: that every person shall be free to say, write or publish, or otherwise communicate whatever he will on any subject, being responsible for all abuses of that liberty; and that every worker shall be free to keep or find a job without being forced, as a condition, to pay any fee to a union or join a union; and that in all suits and prosecutions for libel or slander the truth thereof may be given in evidence; and in suits and prosecutions for libel the jury, under the direction of the court, shall determine the law and the facts.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-308)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article I. (Received November 27, 2017)

Date

December 18, 2017

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. This initiative petition is deferred to OA (Office of Administration) for response.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated they have maintained a zero to unknown fiscal impact on labor issues. No known direct effects would stem from this, but it may have indirect effects on their department.

Officials from the **Office of Administration** this proposal amends Section 8 of the MO Constitution by protecting workers from being forced to join a union or pay union fees as a condition of employment or continued employment. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there

were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would result in no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of St. Joseph** indicated this initiative petition will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

Officials from **University of Central Missouri** indicated there is no fiscal impact for their university.

Officials from **Missouri State University** indicated no fiscal impact for their university.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State**

University, Northwest Missouri State University, Southeast Missouri State University, and **Truman State University**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

NOTICE: You are advised that the proposed amendment to the constitution changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article I of the Missouri Constitution and Chapter 290, RSMo. The proposed amendment revises Article I of the Constitution by amending section 8.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by revising section 8, to read as follows:

Section 8. That no law shall be passed impairing the freedom of speech, no matter by what means communicated: that every person shall be free to say, write or publish, or otherwise communicate whatever he will on any subject, being responsible for all abuses of that liberty; and that in all suits and prosecutions for libel or slander the truth thereof may be given in evidence; and in suits and prosecutions for libel the jury, under the direction of the court, shall determine the law and the facts. <u>That the freedom of speech shall protect the right of every worker to keep or find a job without being forced, as a condition, to pay any fee to a union or join a union.</u>

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-307)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article I. (Received November 27, 2017)

Date

December 18, 2017

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. This initiative petition is deferred to OA (Office of Administration) for response.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated they have maintained a zero to unknown fiscal impact on labor issues. No known direct effects would stem from this, but it may have indirect effects on their department.

Officials from the **Office of Administration** this proposal amends Section 8 of the MO Constitution by stating that freedom of speech protects workers from being forced to join a union or pay union fees as a condition of employment or continued employment. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish

the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would result in no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of St. Joseph** indicated this initiative petition will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

Officials from **University of Central Missouri** indicated there is no fiscal impact for their university.

Officials from **Missouri State University** indicated no fiscal impact for their university.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St.**

Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Northwest Missouri State University, Southeast Missouri State University, and **Truman State University**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

RE: Petition approval request from Patricia Thomas regarding a proposed constitutional amendment to Article I, Section 8, version 2 (2018-306)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Patricia Thomas on November 22, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: You are advised that the proposed amendment to the constitution changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article I of the Missouri Constitution and Chapter 290, RSMo. The proposed amendment revises Article I of the Constitution by amending section 8.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by revising section 8, to read as follows:

Section 8. That no law shall be passed impairing the freedom of speech, no matter by what means communicated: that every person shall be free to say, write or publish, or otherwise communicate whatever he will on any subject, being responsible for all abuses of that liberty; and that in all suits and prosecutions for libel or slander the truth thereof may be given in evidence; and in suits and prosecutions for libel the jury, under the direction of the court, shall determine the law and the facts. <u>That the freedom of speech shall protect every worker from being forced to join a union or pay a fee to a union (or to a third-party in lieu thereof) as a condition of employment or continued employment.</u>

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-306)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article I. (Received November 27, 2017)

Date

December 18, 2017

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. This initiative petition is deferred to OA (Office of Administration) for response.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated they have maintained a zero to unknown fiscal impact on labor issues. No known direct effects would stem from this, but it may have indirect effects on their department.

Officials from the **Office of Administration** indicated this proposal amends Section 8 of the MO Constitution by stating that freedom of speech protects workers from being forced to join a union or pay union fees as a condition of employment or continued employment. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish

the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would result in no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of St. Joseph** indicated this initiative petition will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

Officials from **University of Central Missouri** indicated there is no fiscal impact for their university.

Officials from **Missouri State University** indicated no fiscal impact for their university.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St.**

Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Northwest Missouri State University, Southeast Missouri State University, and **Truman State University**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

NOTICE: You are advised that the proposed amendment to the constitution changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article I of the Missouri Constitution and Chapter 290, RSMo. The proposed amendment revises Article I of the Constitution by amending section 29.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by revising section 29, to read as follows:

Section 29. That employees shall have the right to organize and to bargain collectively through representatives of their own choosing. That every employee shall have the freedom to work without being forced to pay any fees to a union or join a union, such that, to get or keep a job, no person shall be forced to: (1) become, remain, or refrain from becoming a member of a union; or (2) pay any dues, fees, assessments, or other similar charges however denominated of any kind or amount to a union or third party in lieu thereof.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-305)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article I. (Received November 27, 2017)

Date

December 18, 2017

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. This initiative petition is deferred to OA (Office of Administration) for response.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated they have maintained a zero to unknown fiscal impact on labor issues. No known direct effects would stem from this, but it may have indirect effects on their department.

Officials from the **Office of Administration** indicated this proposal amends Section 29 of the Missouri Constitution by prohibiting employers from requiring employees from becoming, remaining or refraining from becoming a member of a labor organization or paying union dues, as a condition of employment. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there

were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would result in no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of St. Joseph** indicated this initiative petition will have no fiscal impact on their city.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

Officials from **University of Central Missouri** indicated there is no fiscal impact for their university.

Officials from **Missouri State University** indicated no fiscal impact for their university.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State**

University, Northwest Missouri State University, Southeast Missouri State University, and **Truman State University**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

RE: Petition approval request from Patricia Thomas regarding a proposed constitutional amendment to Article I (2018-304)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Patricia Thomas on November 9, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: You are advised that the proposed amendment to the constitution changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article I of the Missouri Constitution and Chapter 290, RSMo. The proposed amendment revises Article I of the Constitution by amending section 29.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by revising section 29, to read as follows:

Section 29. That employees shall have the right to organize and to bargain collectively through representatives of their own choosing. That every employee shall have the freedom to work without being forced to pay any fees to a union or join a union as a condition of employment, such that no person shall be required as a condition of employment or continued employment to: (1) become, remain, or refrain from becoming a member of a labor organization; or (2) pay any dues, fees, assessments, or other similar charges however denominated of any kind or amount to a labor organization or third party in lieu thereof.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-304)

Subject

Initiative petition from Patricia Thomas regarding a proposed constitutional amendment to Article I. (Received November 13, 2017)

Date

December 1, 2017

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Boards of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated they defer to the Office of Administration for response to this fiscal note request.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated unknown fiscal impact to their department/MHTC (Missouri Highways and Transportation Commission). No known direct effects would stem from this, but it may have indirect effects on their department.

Officials from the **Office of Administration** indicated this proposal amends Section 29 of the Missouri Constitution by prohibiting employers from requiring employees from becoming, remaining or refraining from becoming a member of a labor organization or paying union dues, as a condition of employment. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact to their office.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish

the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined there would be no significant financial impact on their university.

Officials from **University of Central Missouri** indicated this proposal carries no fiscal impact as bargaining unit dues and fees are 100% the responsibility of the employees and the members of the organization. Their university does not make a fiscal contribution in any format to the bargaining unit, or any other union that may come up on campus. To do anything else would have a potential ethical implication - and at minimum a perception implication.

Officials from **Missouri State University** indicated no fiscal impact for their university.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape**

Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Northwest Missouri State University, Southeast Missouri State University, and **Truman State University**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

RE: Petition approval request from Patricia Thomas regarding a proposed constitutional amendment to Article I (2018-303)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Patricia Thomas on November 2, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

This measure amends the Missouri Constitution by adding section 54 to Article IV. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105.1, 105.1108.1, 105.1112.1, 195.0010.1, 196.0100.1, 263.0250.1, 577.0024.1, 579.0015.1, 579.0020.1, 579.0030.1, 579.0055.1, 579.0065.1, 579.0068.1, and 579.0105.1.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

One new section is adopted to be known as Article IV, Section 54, and to read as follows:

1. Cannabis shall immediately be removed from the Missouri list of controlled substances and shall no longer be listed among Missouri's drug schedules.

2. Definitions: cannabis and cannabis hemp refer to Cannabis, Marijuana, Cannabis Sativa, Cannabis Indica, Cannabis Ruderalis or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.
   a) Medical cannabis refers to physician recommended use.
   b) Personal use refers to any use not recommended by physician.
   c) Cannabis accessories means any equipment, products or materials of any kind that are used or intended for use planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into or onto the human body.
   d) Establishment refers to a cannabis cultivating facility, a cannabis manufacturing facility or retail store or other entity that cultivates, prepares, manufactures, packages, transports, or sells cannabis products or accessories.
   e) Minor refers to anyone under the age 18.

3. Cannabis or its products shall not be sold to anyone under the age 18. Anyone under the age of 18 shall have access to cannabis through physician recommendation or consent from parent/legal guardian.
   a) No minor shall be criminally prosecuted for possession of cannabis or its products.

4. The following acts are not lawful and shall not be an offense under Missouri law
   a) Possession of cannabis for personal or medical use.
   b) Cultivating cannabis for personal or medical use, to obey zoning restrictions.
   c) Cultivating, harvesting, processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for commercial purposes, provided the person has current applicable licenses to run a business in Missouri.
   d) Providing cannabis, cannabis accessories and products for sale to consumers. Any product to be sold to public must be tested for purity and weight.
   e) Leasing or otherwise allowing the use of property owned, occupied or controlled by any person, corporation or other entity for any of the activities conducted lawfully in accordance with paragraphs (a) through (e) of this section.
   f) The possession of cannabis is not to be the sole reason for issuing a D.U.I. (Driving Under The Influence), arrest or fines when operating a motor vehicle.

5. Patient rights: Cannabis shall be available to all patients regardless of age, without taxation when physician recommended.

6. All prisoners that have been incarcerated for non-violent cannabis related crimes shall be released within 30 days, unless time remains on the sentence for another dissimilar offense.
   a) Within 60 days of passage of this act, the attorney general's office shall develop and make available to the public a legal document ordering the immediate expungement of all cannabis related non-violent civil and criminal records in Missouri, to be distributed to all circuit courts within the state.

7. No state funds shall be used to enforce federal laws which are no longer illegal in the state of Missouri.
   a) Any person who willfully impedes the lawful exercise of these provisions is guilty of a class A misdemeanor.

8. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirements, licensing fee that is discriminant, prohibitive, or in any way contrary to that which is relative to any other commercial or agriculture farmer, manufacturer, processor or distributor.

9. Pursuant to the ninth and tenth amendments to the Constitution of the United States, the people of Missouri hereby repudiate and challenge federal cannabis prohibitions that conflict with this act.

10. All provisions of this section are self-executing and severable and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance or resolution.

11. The dictates of this Initiative shall be implemented no later than April 20th following the election that placed this initiative before the people.

If this form is followed substantially and the requirements of section 116.050 and section 116.080 are met, it shall be sufficient, disregarding clerical and merely technical errors

New statute 558.002.1 continued has 2 different fine amounts for same offence, for persons convicted of C or D felony is either $5000 or at the top of first page beginning of statute states $10,000. Also the fine amount for corporation for a misdemeanor is just 10,000, but that is for every type the old statute had different fine amounts for different misdemeanor of A,B,C. this is unconstitutional no equal protection of the law which is a violation of the XIV of united states constitution.

The updated 560.011 is not the only Missouri statute that this558.002 replaced as it replaced 560.011,560.016 and 560.021. 560.016 and 560.021 on http://revisor.mo.gov/main/OneChapter.aspx?chapter=560 states that they are (Repealed L. 2014 S.B. 491) (1/1/2017). The www.moga.mo.gov not working since July of 2017.

[Missouri statute 558.002. Fines for felonies. — 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of an offense may be sentenced to pay a fine which does not exceed:

(1) For a class C, D, or E felony, ten thousand dollars;

(2) For a class A misdemeanor, two thousand dollars;

(3) For a class B misdemeanor, one thousand dollars;

(4) For a class C misdemeanor, seven hundred fifty dollars;

(5) For a class D misdemeanor, five hundred dollars;

(6) For an infraction, four hundred dollars;] or

(7) If the person has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the person's gain from the commission of the offense.

[2. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for any offense defined outside this code for which no specific corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, which does not exceed:

(1) For a felony, twenty thousand dollars;

(2) For a misdemeanor, ten thousand dollars;

(3) For an infraction, one thousand dollars;] or

(4) If the corporation has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the corporation's gain from the commission of the offense.

3. As used in this section the term "gain" means the amount of money or the value of property derived from the commission of the offense. The amount of money or value of property returned to the victim of the offense or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

Missouri statute 558.002 because each fine amount has increased Violates the United States Constitutional **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed,** nor cruel and unusual punishments inflicted. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law**; nor deny to any person within its jurisdiction the equal protection of the laws. **It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. Section 10. That no person shall be deprived of life, liberty or property without due process of law.**

Missouri Revised Statutes

Fines for felonies.

558.002. 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of an offense may be sentenced to pay a fine which does not exceed

(1) For a class C, D, or E felony, ten thousand dollars;

(2) For a class A misdemeanor, two thousand dollars;

(3) For a class B misdemeanor, one thousand dollars;

(4) For a class C misdemeanor, seven hundred fifty dollars;

(5) For a class D misdemeanor, five hundred dollars;

(6) For an infraction, four hundred dollars; or

(7) If the person has gained money or property through the commission of the offense, to pay an amount fixed by the court, not exceeding double the amount of the person's gain from the commission of the offense.

2. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for any offense defined outside this code for which no specific corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, which does not exceed

(1) For a felony, twenty thousand dollars;

(2) For a misdemeanor, ten thousand dollars;

(3) For an infraction, one thousand dollars; or

(4) If the corporation has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the corporation's gain from the commission of the offense.

3. As used in this section, the term "gain" means the amount of money or the value of property derived from the commission of the offense. The amount of money or value of property returned to the victim of the offense or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain, the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

560.016. Fines for misdemeanors and infractions. — 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of a misdemeanor or infraction may be sentenced to pay a fine which does not exceed

(1) For a class A misdemeanor, one thousand dollars;

(2) For a class B misdemeanor, five hundred dollars;

(3) For a class C misdemeanor, three hundred dollars;

(4) For an infraction, two hundred dollars.

2. In lieu of a fine imposed under subsection 1, a person who has been convicted of a misdemeanor or infraction through which he derived "gain" as defined in section 560.011, may be sentenced to a fine which does not exceed double the amount of gain from the commission of the offense. An individual offender may be fined not more than twenty thousand dollars under this provision.

(L. 1977 S.B. 60)

Effective 1-1-79

560.021. Fines for corporations. — 1. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for any offense defined outside this code for which no special corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, not exceeding:

(1) Ten thousand dollars, when the conviction is of a felony;

(2) Five thousand dollars, when the conviction is of a class A misdemeanor;

(3) Two thousand dollars, when the conviction is of a class B misdemeanor;

(4) One thousand dollars, when the conviction is of a class C misdemeanor;

(5) Five hundred dollars, when the conviction is of an infraction;

(6) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

2. In the case of an offense defined outside this code, if a special fine for a corporation is expressly specified in the statute that defines the offense, the fine fixed by the court shall be

(1) An amount within the limits specified in the statute that defines the offense; or

(2) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Brian Hagg regarding a proposed statutory amendment to Chapter 116 (2018-300)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Brian Hagg on October 26, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Chapter 560

FINES

Sec.
560.011 Fines for felonies.
560.016 Fines for misdemeanors and infractions.
560.021 Fines for corporations.
560.026 Imposition of fines.
560.031 Response to nonpayment.
560.036 Revocation of a fine.

Cross Reference
Infractions, limitations on amount of fines, RSMo 560.016

560.011. Fines for felonies. — 1. A person who has been convicted of a class C or D felony may be sentenced

(1) To pay a fine which does not exceed five thousand dollars; or

(2) If the offender has gained money or property through the commission of the crime, to pay an amount, fixed by the court, not exceeding double the amount of the offender's gain from the commission of the crime. An individual offender may be fined not more than twenty thousand dollars under this provision.

2. As used in this section the term **"gain"** means the amount of money or the value of property derived from the commission of the crime. The amount of money or value of property returned to the victim of the crime or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

3. The provisions of this section shall not apply to corporations.

(L. 1977 S.B. 60)

Effective 1-1-79

560.016. Fines for misdemeanors and infractions. — 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of a misdemeanor or infraction may be sentenced to pay a fine which does not exceed:

(1) For a class A misdemeanor, one thousand dollars;

(2) For a class B misdemeanor, five hundred dollars;

(3) For a class C misdemeanor, three hundred dollars;

(4) For an infraction, two hundred dollars.

2. In lieu of a fine imposed under subsection 1, a person who has been convicted of a misdemeanor or infraction through which he derived "gain" as defined in section 560.011, may be sentenced to a fine which does not exceed double the amount of gain from the commission of the offense. An individual offender may be fined not more than twenty thousand dollars under this provision.

(L. 1977 S.B. 60)

Effective 1-1-79

560.021. Fines for corporations. — 1. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for an offense defined outside this code for which no special corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, not exceeding:

(1) Ten thousand dollars, when the conviction is of a felony;

(2) Five thousand dollars, when the conviction is of a class A misdemeanor;

(3) Two thousand dollars, when the conviction is of a class B misdemeanor;

(4) One thousand dollars, when the conviction is of a class C misdemeanor;

(5) Five hundred dollars, when the conviction is of an infraction;

(6) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

2. In the case of an offense defined outside this code, if a special fine for a corporation is expressly specified in the statute that defines the offense, the fine fixed by the court shall be

(1) An amount within the limits specified in the statute that defines the offense; or

(2) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

(L. 1977 S.B. 60)

Effective 1-1-79

560.026. Imposition of fines. — mining the amount and the method o a fine, the court shall, insofar as practic tion the fine to the burden that paymen in view of the financial resources of a The court shall not sentence an offer fine in any amount which will preve making restitution or reparation to the offense.

2. When any other disposition is a statute, the court shall not sentence a to pay a fine only unless, having r nature and circumstances of the offe history and character of the offende opinion that the fine alone will su protection of the public.

3. The court shall not sentence a to pay a fine in addition to any oth authorized by section 557.011, RSM

(1) He has derived a pecuniary g offense; or

(2) The court is of the opinion uniquely adapted to deterrence of offense involved or to the correc defendant.

4. When an offender is sentenc fine, the court may provide for the pa made within a specified period of specified installments. If no such made a part of the sentence, the f payable forthwith.

5. When an offender is sentenc fine, the court shall not impose at th an alternative sentence to be served that the fine is not paid. The resp court to nonpayment shall be deter after the fine has not been paid, as section 560.031.

(L. 1977 S.B. 60)

Effective 1-1-79

560.031. Response to nonpayr When an offender sentenced to pay a to the payment of the fine or in any ins court upon motion of the prosecuting upon its own motion may require h cause why he should not be imprisonec ment. The court may issue a warrant summons for his appearance.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RECEIVED
OCT 13 2017
STATE AUDITORS OFFICE

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 147, version 4 (2018-299)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on October 13, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Joshua D. Hawley

Be it enacted by the people of the state of Missouri:

The annual franchise tax of Chapter 147.RSMo will be amended to be re-instated as follows with the revenue to be distributed to the Missouri Road Fund, to the higher education fund and to school districts with a 12% or more poverty level as directed by this amendment:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section until the tax year of 2019.

(6) For the tax year 2019, the rate shall be two percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly estimated payments will be due on April 15th of 2019.

(7) Half of the revenue of the annual franchise tax will go into the Missouri State Road Fund.

(8) Three quarters of the remaining revenue of the annual franchise tax will be to provide funds for the school districts with a 12% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed to these schools with a 12% or more poverty level. No Missouri revenue will go to non-public schools. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain as specified in Chapter 163. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(9) One quarter of the remaining revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

2. Sections 147.010 to 147.120 shall not apply to corporations not organized for profit, nor to corporations organized pursuant to the provisions of chapter 349, nor to express companies, which now pay an annual tax on their gross receipts in this state, nor to insurance companies, which are subject to an annual tax on their premium receipts in this state, nor to state, district, county, town and farmers' mutual companies now organized or that may be hereafter organized pursuant to any of the laws of this state, organized for the sole purpose of writing fire, lightning, windstorm, tornado, cyclone, hail and plate glass and mutual automobile insurance and for the purpose of paying any loss incurred by any member by assessment, nor to any mutual insurance corporation not having shares, nor to a company or association organized to transact business of life or accident insurance on the assessment plan for the purpose of mutual protection and benefit to its members and the payment of stipulated sums of moneys to the family, heirs, executors, administrators or assigns of the deceased member, nor to foreign life, fire, accident, surety, liability, steam boiler, tornado, health, or other kind of insurance company of whatever nature coming within the provisions of section 147.050 and doing business in this state, nor to savings and loan associations and domestic and foreign regulated investment companies as defined by Section 170 of the Act of Congress commonly known as the Revenue Act of 1942, nor to electric and telephone corporations organized pursuant to chapter 351 and chapter 392 prior to January 1, 1980, which have been declared tax-exempt organizations pursuant to Section 501(c) of the Internal Revenue Code of 1986, nor for taxable years beginning after December 31, 1986, to banking institutions subject to the annual franchise tax imposed by sections 148.010 to 148.110; but bank deposits shall be considered as funds of the individual depositor left for safekeeping and shall not be considered in computing the amount of tax collectible pursuant to the provisions of sections 147.010 to 147.120.

3. A corporation's taxable year for purposes of sections 147.010 to 147.120 shall be its taxable year as provided in section 143.271.

4. A corporation's transitional year for the purposes of sections 147.010 to 147.120 shall be its taxable year which includes parts of each of the years 1979 and 1980.

5. The franchise tax payable for a corporation's transitional year shall be computed by multiplying the amount otherwise due for that year by a fraction, the numerator of which is the number of months between January 1, 1980, and the end of the taxable year and the denominator of which is twelve. The franchise tax payable, if a corporation's taxable year is changed as provided in section 143.271, shall be similarly computed pursuant to regulations prescribed by the director of revenue.

6. All franchise reports and franchise taxes shall be returned to the director of revenue. All checks and drafts remitted for payment of franchise taxes shall be made payable to the director of revenue.

7. Pursuant to section 32.057, the director of revenue shall maintain the confidentiality of all franchise tax reports returned to the director.

8. The director of the department of revenue shall honor all existing agreements between taxpayers and the director of the department of revenue.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-299)

Subject

Initiative petition from Gerald Peterson regarding a proposed amendment to Chapter 147 of the Revised Statutes of Missouri. (Received October 13, 2017)

Date

November 2, 2017

Description

This proposal would amend Chapter 147 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb

the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated other than the potential impact on the revenue stream of state and local governments (which their department has no means to calculate), this proposal does not impact their department.

Officials from the **Department of Higher Education** indicated this initiative petition would reinstate the annual franchise tax, one-eighth of which would go to their department. The first $48 million would be earmarked for the University of Missouri – Kansas City to construct a Downtown Campus for the Arts, and future funding would be added to MDHE's budget "to spend as needed with an emphasis on increasing full time and tenured professors."

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. Increased operating costs to all state funds would total $157,691 for fiscal year 2019, $94,218 for fiscal year 2020, and $94,990 for fiscal year 2021. Of these costs, $79,812 are initial and one-time costs in fiscal year 2019 for equipment and changes to the current computerized system. These costs will be offset by additional revenues of $9,021,516,453 each year for fiscal years 2019 through 2021.

The legislation requires corporations organized pursuant to chapter 351 or other law of the state to pay an annual franchise tax beginning in tax year 2019.

The legislation creates a positive impact on Total State Revenue. The legislation increases state revenues.

Section 147.010

Beginning in tax year 2019, the legislation requires corporations to pay an annual franchise tax of two percent of its outstanding shares and surplus with a threshold amount of $10.0 million. The legislation dedicates one-half of the tax to the Missouri State Road Fund. The legislation allocates three-quarters and one-quarter of the remaining revenue to school districts with a 12% or more poverty level and the Department of Higher Education, respectively. This legislation prohibits the use of the revenue by non-public schools within elementary and secondary education.

Administrative Impact:
To implement this legislation the Department requires forms changes and programming.

Business Tax:
Business Tax requires one (1) Revenue Processing Technician I (Range 10, Step L) for every 2,600 pieces of additional correspondence and one (1) Revenue Processing Technician I (Range 10, Step L) for every 7,800 of additional errors generated.

Expenditure by Category Personnel by Position	FTEs	Annual Salary	FY 2019	FY 2020
RPT I (Range 10, Step L)	2	$27,185	$45,308	$54,914

Integrated Tax System:
If passed by voters, the Integrated Tax System incurs additional costs of $65,520 to implement the provisions of this legislation.

Comments:

Their department would like to make sure of the intended start date of this legislation because of the provision in the legislation referring to the first estimated tax payment. A calendar year 2019 franchise return would be for the period of January 1, 2019 to December 31, 2019 and would be due April 15, 2019 (assuming that date does not fall on a holiday or weekend).

Estimated payments for income tax are due prior to the due date of the return in quarterly installments. So estimated payments for a calendar year 2015 filer would be due April, June, September and December of calendar year 2015. Since taxpayers pay franchise tax ahead, the first installments under this legislation would presumably be due April 15, 2018. Estimated payments are not required for franchise, but their department requests clarification of the intended begin date of the proposed tax rate increase.

Subsection 1(6)
Franchise tax is paid ahead, so the tax year 2019 franchise return will be due the 15th day of the fourth month following the beginning of the taxable year.

There is no provision in Chapter 147 that requires estimated payments on franchise taxes. Suggest removing this statement.

Subsection 1(7)
Franchise tax returns are filed throughout the year. Their department assumes that one-half of the franchise tax revenues will be transferred to the Missouri State Road Fund monthly.

Subsection 1(8)
Same comment as in Subsection 1(7), but three-quarters of the one-half will be transferred to a dedicated fund.

The petition does not set up the fund; nor provide authorization for anyone to administer the funds and distribute the money as needed. Since this fund is for schools, their department suggests Department of Higher Education maintain the fund and be responsible for the distribution to the school districts as their department has no way of knowing which school districts have a 12% or more poverty level.

Subsection 1(9)
They assume the one-quarter of the remaining revenue will be deposited into a fund for Department of Higher Education to administer. They assume the Department of Higher Education is responsible for tracking the $48 to finance the UMKC arts campus.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated they defer to the Department of Revenue for potential fiscal impact.

Officials from the **Office of Administration** indicated this proposal amends Section 147.010, RSMo, to enact a two-percent franchise tax. One-half of the proceeds will be deposited in the Missouri State Road Fund. Three-fourths of the remaining one-half will go to a dedicated fund to distribute to schools with 12% or more poverty level. One-fourth of the remaining one-half will provide revenue for the Department of Higher Education. The first $48 million of the Higher Education funding will go to help finance construction of a downtown arts campus for the University of Missouri – Kansas City with the remainder to be spent as needed with an emphasis on increasing full-time and tenured professors. This language specifies that the tax revenue will not replace the Missouri budget for elementary and secondary education or for the Department of Higher Education. It also specifies that the Department of Higher Education Budget will remain at least equal to a percent of the total budget from general revenue in future years as during 2015.

The money for use by elementary and secondary education is to be deposited into an unspecified dedicated fund. In addition, Section 147.010.1(8), RSMo, states, “No Missouri revenue will go to non-public schools”. B&P (Budget and Planning) defers to DESE and DHE for the impact of this provision.

Based on franchise tax collections in CY (calendar year) 15, the last year a franchise tax was in place, gross collections were $29.9M. At a tax rate of 0.0067%, B&P estimates that total estimates of corporations with at least $10M in assets was $446.67B. At a tax rate of 2%, this proposal would generate approximately $8.93B in new revenues once fully implemented in FY20. While the franchise tax is an annual tax, historically payments have lagged the annual due date by as much as 18 months. Therefore, B&P estimates that this proposal would increase revenues by $5.54B in FY19 and $8.93B in FY20 and thereafter.

The distribution of the tax revenue is shown below:

Fund	% deposited	FY19	FY20
State Road Fund	50.0%	$2,770,000,000	$4,466,500,000
Unspecified Dedicated Fund (for school districts with at least 12% poverty level)	37.5%	$2,077,500,000	$3,349,875,000
Unspecified Dedicated Fund (for DHE)	12.5%	$692,500,000	$1,116,625,000

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated as written, they would anticipate a negative impact to the budget. The amount of impact is zero to unknown since the amount of potential shortfall is unknown. Additionally, the Elected Officials and General Assembly budget would require funds to be appropriated to cover the potential shortfall.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated if this initiative petition is approved by voters and the obligations created thereby are met by the General Assembly, then there would be no fiscal impact upon their office. If this initiative petition is approved by voters, but the obligations created thereby are not met by the General Assembly, then the potential impact upon their office is virtually unlimited, and could conceivably result in the cessation of their office's operations. There is no stated limit regarding what portion of their office's budget may be used to make up for any shortfall. Further, if their office is unable to pay and employ staff, then it would be unable to perform its essential functions, such as investing the state's funds (by which Missouri derived approximately $29,600,000 in investment income in FY 2017), processing state payments ($27,300,000,000 in FY 2017), and administering Missourians' unclaimed property ($44,300,000 paid on 166,000 accounts in FY 2017), which would result in a severe, generalized impact upon the citizens of this state.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson**

County, Jasper County, St. Charles County, St. Louis County, Taney County, the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate initial and one-time costs of approximately $80,000, annual costs of approximately $95,000, and annual revenues of approximately $9 billion. Local governmental entities expect no costs or savings.

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 147, version 3 (2018-298)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on October 13, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

The annual franchise tax of Chapter 147.RSMo will be amended to be re-instated as follows with the revenue to be distributed to the Missouri Road Fund, to the higher education fund and to school districts with a 12% or more poverty level as directed by this amendment:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section until the tax year of 2019.

(6) For the tax year 2019, the rate shall be one percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly estimated payments will be due on April 15th of 2019.

(7) Half of the revenue of the annual franchise tax will go into the Missouri State Road Fund.

(8) Three quarters of the remaining revenue of the annual franchise tax will be to provide funds for the school districts with a 12% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed to these schools with a 12% or more poverty level. No Missouri revenue will go to non-public schools. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain as specified in Chapter 163. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(9) One quarter of the remaining revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

2. Sections 147.010 to 147.120 shall not apply to corporations not organized for profit, nor to corporations organized pursuant to the provisions of chapter 349, nor to express companies, which now pay an annual tax on their gross receipts in this state, nor to insurance companies, which are subject to an annual tax on their premium receipts in this state, nor to state, district, county, town and farmers' mutual companies now organized or that may be hereafter organized pursuant to any of the laws of this state, organized for the sole purpose of writing fire, lightning, windstorm, tornado, cyclone, hail and plate glass and mutual automobile insurance and for the purpose of paying any loss incurred by any member by assessment, nor to any mutual insurance corporation not having shares, nor to a company or association organized to transact business of life or accident insurance on the assessment plan for the purpose of mutual protection and benefit to its members and the payment of stipulated sums of moneys to the family, heirs, executors, administrators or assigns of the deceased member, nor to foreign life, fire, accident, surety, liability, steam boiler, tornado, health, or other kind of insurance company of whatever nature coming within the provisions of section 147.050 and doing business in this state, nor to savings and loan associations and domestic and foreign regulated investment companies as defined by Section 170 of the Act of Congress commonly known as the Revenue Act of 1942, nor to electric and telephone corporations organized pursuant to chapter 351 and chapter 392 prior to January 1, 1980, which have been declared tax-exempt organizations pursuant to Section 501(c) of the Internal Revenue Code of 1986, nor for taxable years beginning after December 31, 1986, to banking institutions subject to the annual franchise tax imposed by sections 148.010 to 148.110; but bank deposits shall be considered as funds of the individual depositor left for safekeeping and shall not be considered in computing the amount of tax collectible pursuant to the provisions of sections 147.010 to 147.120.

3. A corporation's taxable year for purposes of sections 147.010 to 147.120 shall be its taxable year as provided in section 143.271.

4. A corporation's transitional year for the purposes of sections 147.010 to 147.120 shall be its taxable year which includes parts of each of the years 1979 and 1980.

5. The franchise tax payable for a corporation's transitional year shall be computed by multiplying the amount otherwise due for that year by a fraction, the numerator of which is the number of months between January 1, 1980, and the end of the taxable year and the denominator of which is twelve. The franchise tax payable, if a corporation's taxable year is changed as provided in section 143.271, shall be similarly computed pursuant to regulations prescribed by the director of revenue.

6. All franchise reports and franchise taxes shall be returned to the director of revenue. All checks and drafts remitted for payment of franchise taxes shall be made payable to the director of revenue.

7. Pursuant to section 32.057, the director of revenue shall maintain the confidentiality of all franchise tax reports returned to the director.

8. The director of the department of revenue shall honor all existing agreements between taxpayers and the director of the department of revenue.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-298)

Subject

Initiative petition from Gerald Peterson regarding a proposed amendment to Chapter 147 of the Revised Statutes of Missouri. (Received October 13, 2017)

Date

November 2, 2017

Description

This proposal would amend Chapter 147 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb

the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated other than the potential impact on the revenue stream of state and local governments (which their department has no means to calculate), this proposal does not impact their department.

Officials from the **Department of Higher Education** indicated this initiative petition would reinstate the annual franchise tax, one-eighth of which would go to their department. The first $48 million would be earmarked for the University of Missouri – Kansas City to construct a Downtown Campus for the Arts, and future funding would be added to MDHE's budget "to spend as needed with an emphasis on increasing full time and tenured professors."

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. Increased operating costs to all state funds would total $157,691 for fiscal year 2019, $94,218 for fiscal year 2020, and $94,990 for fiscal year 2021. Of these costs, $79,812 are initial and one-time costs in fiscal year 2019 for equipment and changes to the current computerized system. These costs will be offset by additional revenues of $4,510,758,226 each year for fiscal years 2019 through 2021.

The legislation requires corporations organized pursuant to chapter 351 or other law of the state to pay an annual franchise tax beginning in tax year 2019.

The legislation creates a positive impact on Total State Revenue. The legislation increases state revenues.

Section 147.010

Beginning in tax year 2019, the legislation requires corporations to pay an annual franchise tax of one percent of its outstanding shares and surplus with a threshold amount of $10.0 million. The legislation dedicates one-half of the tax to the Missouri State Road Fund. The legislation allocates three-quarters and one-quarter of the remaining revenue to school districts with a 12% or more poverty level and the Department of Higher Education, respectively. This legislation prohibits the use of the revenue by non-public schools within elementary and secondary education.

Administrative Impact:
To implement this legislation the Department requires forms changes and programming.

Business Tax:
Business Tax requires one (1) Revenue Processing Technician I (Range 10, Step L) for every 2,600 pieces of additional correspondence and one (1) Revenue Processing Technician I (Range 10, Step L) for every 7,800 of additional errors generated.

Expenditure by Category Personnel by Position	FTEs	Annual Salary	FY 2019	FY 2020
RPT I (Range 10, Step L)	2	$27,185	$45,308	$54,914

Integrated Tax System:
If passed by voters, the Integrated Tax System incurs additional costs of $65,520 to implement the provisions of this legislation.

Comments:

Their department would like to make sure of the intended start date of this legislation because of the provision in the legislation referring to the first estimated tax payment. A calendar year 2019 franchise return would be for the period of January 1, 2019 to December 31, 2019 and would be due April 15, 2019 (assuming that date does not fall on a holiday or weekend).

Estimated payments for income tax are due prior to the due date of the return in quarterly installments. So estimated payments for a calendar year 2015 filer would be due April, June, September and December of calendar year 2015. Since taxpayers pay franchise tax ahead, the first installments under this legislation would presumably be due April 15, 2018. Estimated payments are not required for franchise, but their department requests clarification of the intended begin date of the proposed tax rate increase.

Subsection 1(6)
Franchise tax is paid ahead, so the tax year 2019 franchise return will be due the 15th day of the fourth month following the beginning of the taxable year.

There is no provision in Chapter 147 that requires estimated payments on franchise taxes. Suggest removing this statement.

Subsection 1(7)
Franchise tax returns are filed throughout the year. Their department assumes that one-half of the franchise tax revenues will be transferred to the Missouri State Road Fund monthly.

Subsection 1(8)
Same comment as in Subsection 1(7), but three-quarters of the one-half will be transferred to a dedicated fund.

The petition does not set up the fund; nor provide authorization for anyone to administer the funds and distribute the money as needed. Since this fund is for schools, their department suggests Department of Higher Education maintain the fund and be responsible for the distribution to the school districts as their department has no way of knowing which school districts have a 12% or more poverty level.

Subsection 1(9)
They assume the one-quarter of the remaining revenue will be deposited into a fund for Department of Higher Education to administer. They assume the Department of Higher Education is responsible for tracking the $48 to finance the UMKC arts campus.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated they defer to the Department of Revenue for potential fiscal impact.

Officials from the **Office of Administration** indicated this proposal amends Section 147.010, RSMo, to enact a one-percent franchise tax. One-half of the proceeds will be deposited in the Missouri State Road Fund. Three-fourths of the remaining one-half will go to a dedicated fund to distribute to schools with 12% or more poverty level. One-fourth of the remaining one-half will provide revenue for the Department of Higher Education. The first $48 million of the Higher Education funding will go to help finance construction of a downtown arts campus for the University of Missouri – Kansas City with the remainder to be spent as needed with an emphasis on increasing full-time and tenured professors. This language specifies that the tax revenue will not replace the Missouri budget for elementary and secondary education or for the Department of Higher Education. It also specifies that the Department of Higher Education Budget will remain at least equal to a percent of the total budget from general revenue in future years as during 2015.

The money for use by elementary and secondary education is to be deposited into an unspecified dedicated fund. In addition, Section 147.010.1(8), RSMo, states, “No Missouri revenue will go to non-public schools”. B&P (Budget and Planning) defers to DESE and DHE for the impact of this provision.

Based on franchise tax collections in CY (calendar year) 15, the last year a franchise tax was in place, gross collections were $29.9M. At a tax rate of 0.0067%, B&P estimates that total estimates of corporations with at least $10M in assets was $446.67B. At a tax rate of 1%, this proposal would generate approximately $4.47B in new revenues once fully implemented in FY20. While the franchise tax is an annual tax, historically payments have lagged the annual due date by as much as 18 months. Therefore, B&P estimates that this proposal would increase revenues by $2.77B in FY19 and $4.47B in FY20 and thereafter.

The distribution of the tax revenue is shown below:

Fund	% deposited	FY19	FY20
State Road Fund	50.0%	$1,385,000,000	$2,233,500,000
Unspecified Dedicated Fund (for school districts with at least 12% poverty level)	37.5%	$1,038,750,000	$1,675,125,000
Unspecified Dedicated Fund (for DHE)	12.5%	$346,250,000	$558,375,000

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated as written, they would anticipate a negative impact to the budget. The amount of impact is zero to unknown since the amount of potential shortfall is unknown. Additionally, the Elected Officials and General Assembly budget would require funds to be appropriated to cover the potential shortfall.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri

Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated if this initiative petition is approved by voters and the obligations created thereby are met by the General Assembly, then there would be no fiscal impact upon their office. If this initiative petition is approved by voters, but the obligations created thereby are not met by the General Assembly, then the potential impact upon their office is virtually unlimited, and could conceivably result in the cessation of their office's operations. There is no stated limit regarding what portion of their office's budget may be used to make up for any shortfall. Further, if their office is unable to pay and employ staff, then it would be unable to perform its essential functions, such as investing the state's funds (by which Missouri derived approximately $29,600,000 in investment income in FY 2017), processing state payments ($27,300,000,000 in FY 2017), and administering Missourians' unclaimed property ($44,300,000 paid on 166,000 accounts in FY 2017), which would result in a severe, generalized impact upon the citizens of this state.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of**

Joplin, the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate initial and one-time costs of approximately $80,000, annual costs of approximately $95,000, and annual revenues of approximately $4.5 billion. Local governmental entities expect no costs or savings.

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 147, version 2 (2018-297)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on October 13, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

The annual franchise tax of Chapter 147.RSMo will be amended to be re-instated as follows with the revenue to be distributed to the Missouri Road Fund, to the higher education fund and to school districts with a 12% or more poverty level as directed by this amendment:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section until the tax year of 2019.

(6) For the tax year 2019, the rate shall be two percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly estimated payments will be due on April 15th of 2019.

(7) Half of the revenue of the annual franchise tax will go into the Missouri State Road Fund.

(8) Three quarters of the remaining revenue of the annual franchise tax will be to provide funds for the school districts with a 12% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed to these schools with a 12% or more poverty level. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain as specified in Chapter 163. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(9) One quarter of the remaining revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

2. Sections 147.010 to 147.120 shall not apply to corporations not organized for profit, nor to corporations organized pursuant to the provisions of chapter 349, nor to express companies, which now pay an annual tax on their gross receipts in this state, nor to insurance companies, which are subject to an annual tax on their premium receipts in this state, nor to state, district, county, town and farmers' mutual companies now organized or that may be hereafter organized pursuant to any of the laws of this state, organized for the sole purpose of writing fire, lightning, windstorm, tornado, cyclone, hail and plate glass and mutual automobile insurance and for the purpose of paying any loss incurred by any member by assessment, nor to any mutual insurance corporation not having shares, nor to a company or association organized to transact business of life or accident insurance on the assessment plan for the purpose of mutual protection and benefit to its members and the payment of stipulated sums of moneys to the family, heirs, executors, administrators or assigns of the deceased member, nor to foreign life, fire, accident, surety, liability, steam boiler, tornado, health, or other kind of insurance company of whatever nature coming within the provisions of section 147.050 and doing business in this state, nor to savings and loan associations and domestic and foreign regulated investment companies as defined by Section 170 of the Act of Congress commonly known as the Revenue Act of 1942, nor to electric and telephone corporations organized pursuant to chapter 351 and chapter 392 prior to January 1, 1980, which have been declared tax-exempt organizations pursuant to Section 501(c) of the Internal Revenue Code of 1986, nor for taxable years beginning after December 31, 1986, to banking institutions subject to the annual franchise tax imposed by sections 148.010 to 148.110; but bank deposits shall be considered as funds of the individual depositor left for safekeeping and shall not be considered in computing the amount of tax collectible pursuant to the provisions of sections 147.010 to 147.120.

3. A corporation's taxable year for purposes of sections 147.010 to 147.120 shall be its taxable year as provided in section 143.271.

4. A corporation's transitional year for the purposes of sections 147.010 to 147.120 shall be its taxable year which includes parts of each of the years 1979 and 1980.

5. The franchise tax payable for a corporation's transitional year shall be computed by multiplying the amount otherwise due for that year by a fraction, the numerator of which is the number of months between January 1, 1980, and the end of the taxable year and the denominator of which is twelve. The franchise tax payable, if a corporation's taxable year is changed as provided in section 143.271, shall be similarly computed pursuant to regulations prescribed by the director of revenue.

6. All franchise reports and franchise taxes shall be returned to the director of revenue. All checks and drafts remitted for payment of franchise taxes shall be made payable to the director of revenue.

7. Pursuant to section 32.057, the director of revenue shall maintain the confidentiality of all franchise tax reports returned to the director.

8. The director of the department of revenue shall honor all existing agreements between taxpayers and the director of the department of revenue.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-297)

Subject

Initiative petition from Gerald Peterson regarding a proposed amendment to Chapter 147 of the Revised Statutes of Missouri. (Received October 13, 2017)

Date

November 2, 2017

Description

This proposal would amend Chapter 147 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb

the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated other than the potential impact on the revenue stream of state and local governments (which their department has no means to calculate), this proposal does not impact their department.

Officials from the **Department of Higher Education** indicated this initiative petition would reinstate the annual franchise tax, one-eighth of which would go to their department. The first $48 million would be earmarked for the University of Missouri – Kansas City to construct a Downtown Campus for the Arts, and future funding would be added to MDHE's budget "to spend as needed with an emphasis on increasing full time and tenured professors."

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. Increased operating costs to all state funds would total $157,691 for fiscal year 2019, $94,218 for fiscal year 2020, and $94,990 for fiscal year 2021. Of these costs, $79,812 are initial and one-time costs in fiscal year 2019 for equipment and changes to the current computerized system. These costs will be offset by additional revenues of $9,021,516,453 each year for fiscal years 2019 through 2021.

The legislation requires corporations organized pursuant to chapter 351 or other law of the state to pay an annual franchise tax beginning in tax year 2019.

The legislation creates a positive impact on Total State Revenue.

The legislation increases state revenues.

Section 147.010

Beginning in tax year 2019, the legislation requires corporations to pay an annual franchise tax of two percent of its outstanding shares and surplus with a threshold amount of $10.0 million. The legislation dedicates one-half of the tax to the Missouri State Road Fund. The legislation allocates three-quarters and one-quarter of the remaining revenue to school districts with a 12% or more poverty level and the Department of Higher Education, respectively.

Administrative Impact:
To implement this legislation the Department requires forms changes and programming.

Business Tax:
Business Tax requires one (1) Revenue Processing Technician I (Range 10, Step L) for every 2,600 pieces of additional correspondence and one (1) Revenue Processing Technician I (Range 10, Step L) for every 7,800 of additional errors generated.

Expenditure by Category Personnel by Position	FTEs	Annual Salary	FY 2019	FY 2020
RPT I (Range 10, Step L)	2	$27,185	$45,308	$54,914

Integrated Tax System:
If passed by voters, the Integrated Tax System incurs additional costs of $65,520 to implement the provisions of this legislation.

Comments:

Their department would like to make sure of the intended start date of this legislation because of the provision in the legislation referring to the first estimated tax payment. A calendar year 2019 franchise return would be for the period of January 1, 2019 to December 31, 2019 and would be due April 15, 2019 (assuming that date does not fall on a holiday or weekend).

Estimated payments for income tax are due prior to the due date of the return in quarterly installments. So estimated payments for a calendar year 2015 filer would be due April, June, September and December of calendar year 2015. Since taxpayers pay franchise tax ahead, the first installments under this legislation would presumably be due April 15, 2018. Estimated payments are not required for franchise, but their department requests clarification of the intended begin date of the proposed tax rate increase.

Subsection 1(6)
Franchise tax is paid ahead, so the tax year 2019 franchise return will be due the 15th day of the fourth month following the beginning of the taxable year.

There is no provision in Chapter 147 that requires estimated payments on franchise taxes. Suggest removing this statement.

Subsection 1(7)
Franchise tax returns are filed throughout the year. Their department assumes that one-half of the franchise tax revenues will be transferred to the Missouri State Road Fund monthly.

Subsection 1(8)
Same comment as in Subsection 1(7), but three-quarters of the one-half will be transferred to a dedicated fund.

The petition does not set up the fund; nor provide authorization for anyone to administer the funds and distribute the money as needed. Since this fund is for schools, their department suggests Department of Higher Education maintain the fund and be responsible for the distribution to the school districts as their department has no way of knowing which school districts have a 12% or more poverty level.

Subsection 1(9)
They assume the one-quarter of the remaining revenue will be deposited into a fund for Department of Higher Education to administer. They assume the Department of Higher Education is responsible for tracking the $48 to finance the UMKC arts campus.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated they defer to the Department of Revenue for potential fiscal impact.

Officials from the **Office of Administration** indicated this proposal amends Section 147.010, RSMo, to enact a two-percent franchise tax. One-half of the proceeds will be deposited in the Missouri State Road Fund. Three-fourths of the remaining one-half will go to a dedicated fund to distribute to schools with 12% or more poverty level. One-fourth of the remaining one-half will provide revenue for the Department of Higher Education. The first $48 million of the Higher Education funding will go to help finance construction of a downtown arts campus for the University of Missouri – Kansas City with the remainder to be spent as needed with an emphasis on increasing full-time and tenured professors. This language specifies that the tax revenue will not replace the Missouri budget for elementary and secondary education or for the Department of Higher Education. It also specifies that the Department of Higher Education Budget will remain at least equal to a percent of the total budget from general revenue in future years as during 2015.

Based on franchise tax collections in CY (calendar year) 15, the last year a franchise tax was in place, gross collections were $29.9M. At a tax rate of 0.0067%, B&P (Budget and Planning) estimates that total estimates of corporations with at least $10M in assets was $446.67B. At a tax rate of 2%, this proposal would generate approximately $8.93B in new revenues once fully implemented in FY20. While the franchise tax is an annual tax, historically payments have lagged the annual due date by as much as 18 months. Therefore, B&P estimates that this proposal would increase revenues by $5.54B in FY19 and $8.93B in FY20 and thereafter.

The distribution of the tax revenue is shown below:

Fund	% deposited	FY19	FY20
State Road Fund	50.0%	$2,770,000,000	$4,466,500,000
Unspecified Dedicated Fund (for school districts with at least 12% poverty level)	37.5%	$2,077,500,000	$3,349,875,000
Unspecified Dedicated Fund (for DHE)	12.5%	$692,500,000	$1,116,625,000

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated as written, they would anticipate a negative impact to the budget. The amount of impact is zero to unknown since the amount of potential shortfall is unknown. Additionally, the Elected Officials and General Assembly budget would require funds to be appropriated to cover the potential shortfall.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri

Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated if this initiative petition is approved by voters and the obligations created thereby are met by the General Assembly, then there would be no fiscal impact upon their office. If this initiative petition is approved by voters, but the obligations created thereby are not met by the General Assembly, then the potential impact upon their office is virtually unlimited, and could conceivably result in the cessation of their office's operations. There is no stated limit regarding what portion of their office's budget may be used to make up for any shortfall. Further, if their office is unable to pay and employ staff, then it would be unable to perform its essential functions, such as investing the state's funds (by which Missouri derived approximately $29,600,000 in investment income in FY 2017), processing state payments ($27,300,000,000 in FY 2017), and administering Missourians' unclaimed property ($44,300,000 paid on 166,000 accounts in FY 2017), which would result in a severe, generalized impact upon the citizens of this state.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of**

Joplin, the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate initial and one-time costs of approximately $80,000, annual costs of approximately $95,000, and annual revenues of approximately $9 billion. Local governmental entities expect no costs or savings.

JOHN R. ASHCROFT

STATE AUDITORS OFFICE

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 147, version 1 (2018-296)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on October 13, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

The annual franchise tax of Chapter 147.RSMo will be amended to be re-instated as follows with the revenue to be distributed to the Missouri Road Fund, to the higher education fund and to school districts with a 12% or more poverty level as directed by this amendment:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section until the tax year of 2019.

(6) For the tax year 2019, the rate shall be one percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly estimated payments will be due on April 15th of 2019.

(7) Half of the revenue of the annual franchise tax will go into the Missouri State Road Fund.

(8) Three quarters of the remaining revenue of the annual franchise tax will be to provide funds for the school districts with a 12% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed to these schools with a 12% or more poverty level. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain as specified in Chapter 163. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(9) One quarter of the remaining revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

2. Sections 147.010 to 147.120 shall not apply to corporations not organized for profit, nor to corporations organized pursuant to the provisions of chapter 349, nor to express companies, which now pay an annual tax on their gross receipts in this state, nor to insurance companies, which are subject to an annual tax on their premium receipts in this state, nor to state, district, county, town and farmers' mutual companies now organized or that may be hereafter organized pursuant to any of the laws of this state, organized for the sole purpose of writing fire, lightning, windstorm, tornado, cyclone, hail and plate glass and mutual automobile insurance and for the purpose of paying any loss incurred by any member by assessment, nor to any mutual insurance corporation not having shares, nor to a company or association organized to transact business of life or accident insurance on the assessment plan for the purpose of mutual protection and benefit to its members and the payment of stipulated sums of moneys to the family, heirs, executors, administrators or assigns of the deceased member, nor to foreign life, fire, accident, surety, liability, steam boiler, tornado, health, or other kind of insurance company of whatever nature coming within the provisions of section 147.050 and doing business in this state, nor to savings and loan associations and domestic and foreign regulated investment companies as defined by Section 170 of the Act of Congress commonly known as the Revenue Act of 1942, nor to electric and telephone corporations organized pursuant to chapter 351 and chapter 392 prior to January 1, 1980, which have been declared tax-exempt organizations pursuant to Section 501(c) of the Internal Revenue Code of 1986, nor for taxable years beginning after December 31, 1986, to banking institutions subject to the annual franchise tax imposed by sections 148.010 to 148.110; but bank deposits shall be considered as funds of the individual depositor left for safekeeping and shall not be considered in computing the amount of tax collectible pursuant to the provisions of sections 147.010 to 147.120.

3. A corporation's taxable year for purposes of sections 147.010 to 147.120 shall be its taxable year as provided in section 143.271.

4. A corporation's transitional year for the purposes of sections 147.010 to 147.120 shall be its taxable year which includes parts of each of the years 1979 and 1980.

5. The franchise tax payable for a corporation's transitional year shall be computed by multiplying the amount otherwise due for that year by a fraction, the numerator of which is the number of months between January 1, 1980, and the end of the taxable year and the denominator of which is twelve. The franchise tax payable, if a corporation's taxable year is changed as provided in section 143.271, shall be similarly computed pursuant to regulations prescribed by the director of revenue.

6. All franchise reports and franchise taxes shall be returned to the director of revenue. All checks and drafts remitted for payment of franchise taxes shall be made payable to the director of revenue.

7. Pursuant to section 32.057, the director of revenue shall maintain the confidentiality of all franchise tax reports returned to the director.

8. The director of the department of revenue shall honor all existing agreements between taxpayers and the director of the department of revenue.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-296)

Subject

Initiative petition from Gerald Peterson regarding a proposed amendment to Chapter 147 of the Revised Statutes of Missouri. (Received October 13, 2017)

Date

November 2, 2017

Description

This proposal would amend Chapter 147 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb

the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated other than the potential impact on the revenue stream of state and local governments (which their department has no means to calculate), this proposal does not impact their department.

Officials from the **Department of Higher Education** indicated this initiative petition would reinstate the annual franchise tax, one-eighth of which would go to their department. The first $48 million would be earmarked for the University of Missouri – Kansas City to construct a Downtown Campus for the Arts, and future funding would be added to MDHE's budget "to spend as needed with an emphasis on increasing full time and tenured professors."

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition will have a fiscal impact on their department. Increased operating costs to all state funds would total $157,691 for fiscal year 2019, $94,218 for fiscal year 2020, and $94,990 for fiscal year 2021. Of these costs, $79,812 are initial and one-time costs in fiscal year 2019 for equipment and changes to the current computerized system. These costs will be offset by additional revenues of $4,510,758,226 each year for fiscal years 2019 through 2021.

The legislation requires corporations organized pursuant to chapter 351 or other law of the state to pay an annual franchise tax beginning in tax year 2019.

The legislation creates a positive impact on Total State Revenue. The legislation increases state revenues.

Section 147.010

Beginning in tax year 2019, the legislation requires corporations to pay an annual franchise tax of one percent of its outstanding shares and surplus with a threshold amount of $10.0 million. The legislation dedicates one-half of the tax to the Missouri State Road Fund. The legislation allocates three-quarters and one-quarter of the remaining revenue to school districts with a 12% or more poverty level and the Department of Higher Education, respectively.

Administrative Impact:
To implement this legislation the Department requires forms changes and programming.

Business Tax:
Business Tax requires one (1) Revenue Processing Technician I (Range 10, Step L) for every 2,600 pieces of additional correspondence and one (1) Revenue Processing Technician I (Range 10, Step L) for every 7,800 of additional errors generated.

Expenditure by Category Personnel by Position	FTEs	Annual Salary	FY 2019	FY 2020
RPT I (Range 10, Step L)	2	$27,185	$45,308	$54,914

Integrated Tax System:
If passed by voters, the Integrated Tax System incurs additional costs of $65,520 to implement the provisions of this legislation.

Comments:

Their department would like to make sure of the intended start date of this legislation because of the provision in the legislation referring to the first estimated tax payment. A calendar year 2019 franchise return would be for the period of January 1, 2019 to December 31, 2019 and would be due April 15, 2019 (assuming that date does not fall on a holiday or weekend).

Estimated payments for income tax are due prior to the due date of the return in quarterly installments. So estimated payments for a calendar year 2015 filer would be due April, June, September and December of calendar year 2015. Since taxpayers pay franchise tax ahead, the first installments under this legislation would presumably be due April 15, 2018. Estimated payments are not required for franchise, but their department requests clarification of the intended begin date of the proposed tax rate increase.

Subsection 1(6)
Franchise tax is paid ahead, so the tax year 2019 franchise return will be due the 15th day of the fourth month following the beginning of the taxable year.

There is no provision in Chapter 147 that requires estimated payments on franchise taxes. Suggest removing this statement.

Subsection 1(7)
Franchise tax returns are filed throughout the year. Their department assumes that one-half of the franchise tax revenues will be transferred to the Missouri State Road Fund monthly.

Subsection 1(8)
Same comment as in Subsection 1(7), but three-quarters of the one-half will be transferred to a dedicated fund.

The petition does not set up the fund; nor provide authorization for anyone to administer the funds and distribute the money as needed. Since this fund is for schools, their department suggests Department of Higher Education maintain the fund and be responsible for the distribution to the school districts as their department has no way of knowing which school districts have a 12% or more poverty level.

Subsection 1(9)
They assume the one-quarter of the remaining revenue will be deposited into a fund for Department of Higher Education to administer. They assume the Department of Higher Education is responsible for tracking the $48 to finance the UMKC arts campus.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated they defer to the Department of Revenue for potential fiscal impact.

Officials from the **Office of Administration** indicated this proposal amends Section 147.010, RSMo, to enact a one-percent franchise tax. One-half of the proceeds will be deposited in the Missouri State Road Fund. Three-fourths of the remaining one-half will go to a dedicated fund to distribute to schools with 12% or more poverty level. One-fourth of the remaining one-half will provide revenue for the Department of Higher Education. The first $48 million of the Higher Education funding will go to help finance construction of a downtown arts campus for the University of Missouri – Kansas City with the remainder to be spent as needed with an emphasis on increasing full-time and tenured professors. This language specifies that the tax revenue will not replace the Missouri budget for elementary and secondary education or for the Department of Higher Education. It also specifies that the Department of Higher Education Budget will remain at least equal to a percent of the total budget from general revenue in future years as during 2015.

Based on franchise tax collections in CY (calendar year) 15, the last year a franchise tax was in place, gross collections were $29.9M. At a tax rate of 0.0067%, B&P (Budget and Planning) estimates that total estimates of corporations with at least $10M in assets was $446.67B. At a tax rate of 1%, this proposal would generate approximately $4.47B in new revenues once fully implemented in FY20. While the franchise tax is an annual tax, historically payments have lagged the annual due date by as much as 18 months. Therefore, B&P estimates that this proposal would increase revenues by $2.77B in FY19 and $4.47B in FY20 and thereafter.

The distribution of the tax revenue is shown below:

Fund	% deposited	FY19	FY20
State Road Fund	50.0%	$1,385,000,000	$2,233,500,000
Unspecified Dedicated Fund (for school districts with at least 12% poverty level)	37.5%	$1,038,750,000	$1,675,125,000
Unspecified Dedicated Fund (for DHE)	12.5%	$346,250,000	$558,375,000

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated as written, they would anticipate a negative impact to the budget. The amount of impact is zero to unknown since the amount of potential shortfall is unknown. Additionally, the Elected Officials and General Assembly budget would require funds to be appropriated to cover the potential shortfall.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an

estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated if this initiative petition is approved by voters and the obligations created thereby are met by the General Assembly, then there would be no fiscal impact upon their office. If this initiative petition is approved by voters, but the obligations created thereby are not met by the General Assembly, then the potential impact upon their office is virtually unlimited, and could conceivably result in the cessation of their office's operations. There is no stated limit regarding what portion of their office's budget may be used to make up for any shortfall. Further, if their office is unable to pay and employ staff, then it would be unable to perform its essential functions, such as investing the state's funds (by which Missouri derived approximately $29,600,000 in investment income in FY 2017), processing state payments ($27,300,000,000 in FY 2017), and administering Missourians' unclaimed property ($44,300,000 paid on 166,000 accounts in FY 2017), which would result in a severe, generalized impact upon the citizens of this state.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate initial and one-time costs of approximately $80,000, annual costs of approximately $95,000, and annual revenues of approximately $4.5 billion. Local governmental entities expect no costs or savings.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 115 (2018-295)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on October 13, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

*Chapter **115.135**, RSMo, is amended to provide automatic voter registration. Chapter 115.427. 1 will be amended to reflect changes in Chapter **115.135**, RSMo:*

115.135. 1. Any person who is qualified to vote, or who shall become qualified to vote on or before the day of election, shall be entitled to register in the jurisdiction within which he or she resides. In order to vote in any election for which registration is required, a person must be registered to vote in the jurisdiction of his or her residence no later than 5:00 p.m., or the normal closing time of any public building where the registration is being held if such time is later than 5:00 p.m., on the fourth Wednesday prior to the election, unless the voter is an interstate former resident, an intrastate new resident, a new resident, or a covered voter, as defined in section 115.275. Except as provided in subsection 4 of this section, in no case shall registration for an election extend beyond 10:00 p.m. on the fourth Wednesday prior to the election. Any person registering after such date shall be eligible to vote in subsequent elections.

2. A person applying to register with an election authority or a deputy registration official shall identify himself or herself by presenting a copy of a birth certificate, a Native American tribal document, other proof of United States citizenship, a valid Missouri drivers license or other form of personal identification at the time of registration.

3. Except as provided in federal law or federal elections and in section 115.277, no person shall be entitled to vote if the person has not registered to vote in the jurisdiction of his or her residence prior to the deadline to register to vote.

4. A covered voter as defined in section 115.275 who has been discharged from military service, has returned from a military deployment or activation, or has separated from employment outside the territorial limits of the United States after the deadline to register to vote, and who is otherwise qualified to register to vote, may register to vote in an election in person before the election authority until 5:00 p.m. on the Friday before such election. Such persons shall produce sufficient documentation showing evidence of qualifying for late registration pursuant to this section.

5. Registration at the division of motor vehicles.

(a) Every person applying at the division of motor vehicles for a driver's license or a renewal of the license, or personal identification document issued by the division of motor vehicles, and who is or may be by the next general election qualified to vote, shall be afforded the opportunity to register to vote, or if previously registered, be afforded the opportunity to change their address for voting purposes.

(b) The application to register to vote must be offered simultaneously with the application for the driver's license or renewal of it or application for a personal identification document. Division of motor vehicles employees must provide to applicants for driver's licenses, license renewal, or personal identification documents the same level of assistance and instruction with respect to the application to register to vote as is provided with respect to the application for driver's licenses, renewal of the license, or personal identification documents. The applicant shall be afforded the opportunity to decline to register to vote by failing to sign the voter registration form. If previously registered, the applicant shall be afforded the opportunity to change their address for voting purposes.

In order to protect the privacy of those who do not wish to register to vote for any reason, the failure of an applicant for a driver's license or renewal of it or a personal identification document to sign the voter registration form register to vote may not be used for any purposes other than to determine the person's voter registration status.

(c) The voter registration application shall contain the registrant's name, residence address, mailing address if different from residence address, date of birth, and registrant's signature and date of affixation of signature, and may include any other information, certifications, and declarations, including those made under the penalty of perjury, that may be required by the state board in order to administer a single and unified system of voter registration in accordance with applicable state and federal laws which shall enable duly registered voters to vote in all elections in their respective voting districts including, elections for federal officers. Declarations will include signature on a form provided by the division of motor vehicles stating under penalty of law that they are a US citizen. "Certifications may include utility bills, bank statements, rent receipts or other equivalent items to show proof of address. Applications for voter registration only will not be required to present a birth certificate or photo ID. Certifications showing place of residences are all that will be necssary. If there are doubts of citizenship, then 115.135.5 will be followed with the state utilizing 115.135.5. The department of motor vehicles or agent may not question citizenship from applicant. Any doubts will be sent to the state board of elections for a follow up investigation. The voter registration application must also include, in print identical to that used in the attestation portion of the form, the following:

(i) The penalties provided by law for submitting a false voter registration;

(ii) A statement that, if the applicant declines to register to vote, his or her decision will remain confidential and be used only for voter registration purposes; and

(iii) A statement that, if the applicant does register to vote, information regarding the office or branch of the division of motor vehicles to which the application was submitted will remain confidential, to be used only for voter registration purposes.

It shall be the responsibility of the division of motor vehicles to print and to have available at all times a sufficient number of voter registration forms and declaration of citizenship in order to carry out the provisions of this section. If the division of motor vehicles or agents fail to have the required forms, the state or its agent will personally delivery and complete the forms at the applicant's place of residence.

(d) The completed voter registration application shall be transmitted by the division of motor vehicles or agent to the central voter registration system mandated not later than the next business day after the date of acceptance by the division of motor vehicles. Transmission shall be made by electronic means as prescribed by the secretary of state, and shall be in an electronic form compatible with the voter registration system maintained by the secretary of state. For each registration electronically transmitted, a hard copy will be provided to the appropriate local board of canvassers.

(e) Any person who has fully and correctly completed an application to register to vote at the division of motor vehicles is presumed to be registered as of the date of the acceptance of the registration by the division of motor vehicles. The division of motor vehicles shall not transmit the voter registration of any applicant, who fails to certify by a declaration that they are a citizen of the United States.

(f) The state board of elections shall have the authority to adopt regulations to implement and administer the provisions of this section, including all registrations taken at the division of motor vehicles.

(g)

(1) In accordance with Section 7 of the Federal National Voter Registration Act of 5 1993, other applicable state government agencies that the secretary verifies already collect documents that would provide proof of eligibility, including age, citizenship and residence address, may follow the procedures for automatic voter registration enumerated for the division of motor vehicles as described in subsections (b) through (d) of this section.

(2) Any additional agencies that are designated for automatic registration must follow the rules and protocols established in this section for the division of motor vehicles providing a declaration of citizenship.

(3) Registration for voter registration at a division of motor vehicles without application for driver's license or ID and only for for voter registration does not require a photo. The same rules are for other applicable state government agencies. There will be no charge for the voter registration.

(4) Voter ID cards will be sent to all registered voters in an envelope marked "Do not Forward" for each election. This card will be the only ID needed to vote without any need for other identification. Receipt of this card at the voters' place of residence shall be considered proof of eligibility to vote.

(h) Effective date. The provisions of this section shall take effect thirty (30) days after the administrator of the division of motor vehicles certifies in writing to the general assembly that the Missouri motor vehicle licensing system computer system is capable of meeting the requirements set forth in this section, which references the provisions of the Federal National Voter Registration Act of 1993. The administrator of the division of motor vehicles shall consult with the secretary prior to making this determination about the computer system. All changes will be made to have in place six months before the Nov., 2020 elections.

6. Verification of Citizen Status-If the state or any voting regulatory body doubts the citizenship status of the voter applicant and is unable to verify citizenship and identity via the State Verification and Exchange System (SVES) interface with the Social Security Administration, it is then the responsibility of the applicant/recipient to provide the required verification as follows:

A. CITIZENSHIP –1. FIRST LEVEL (PRIMARY DOCUMENTATION). The following forms of documentation qualify as both proof of citizenship and identity:

(a) A U.S. Passport

• Passport does not have to be currently valid to be accepted as proof of citizenship

• Passports issued with a limitation are not considered evidence of U.S. citizenship but is considered proof of identity.

(b) A Certificate of Naturalization (Forms N-550 or N-570)

(c) A Certificate of U.S. Citizenship (Form N-560 or N-561)

(d) Applicants and recipients born outside of the United States who were not U.S. citizens at birth, must submit First Level documentation as evidence of U.S. citizenship.

(e) If the applicant/recipient does not possess any of the above forms of documentation, then documentation of both the individual's citizenship (preferably from the Secondary tier of documentation) and identity is necessary.

B. SECOND LEVEL (SECONDARY)

(a) If documentation from the First Level (Primary Documentation) of citizenship is not available, the applicant/recipient must submit both a document from one of the lower levels of citizenship documentation as well as a document from the list of acceptable forms of identity documentation.

(b). Secondary level documentation includes:

i. A U.S. Birth Certificate

ii. A Certification of Birth Issued by the Department of State (Form DS-1350)

iii. A Report of Birth Abroad of a U.S. Citizen (Form FS-240)

iv. A Certification of Birth Issued by the Department of State (Form FS-545 or DS-1350)
v. A U.S. Citizens I.D. Card (Form I-197 or prior version I-179)

vi. An American Indian Card, I-872 issued by the Department of Homeland Security with the classification code "KIC" issued to identify U.S citizen members of the Texas Band of Kickapoos living near the U.S./Mexican border

vii. Final Adoption Decree showing the child's name and U.S. birthplace

viii. Evidence of Civil Service employment by the U.S. government before June 1976

iv. An official military record of service showing a U.S. place of birth

x. A Northern Mariana Identification Card, I-873 (issued by the INS to a collectively naturalized citizen of the United States who was born in the Northern Mariana Islands before November 4,1986)

115.427. 1. Persons seeking to vote in a public election shall establish their identity and eligibility to vote at the polling place by presenting their voter ID card they received in the mail for the current election or a form of personal identification to election officials. If the voter has the voter ID card, no other form of identification will be needed. No form of personal identification other than the forms listed in this section shall be accepted to establish a voter's qualifications to vote if they do not have their voter ID card. Forms of personal identification that satisfy the requirements of this section are any one of the following:

(1) Nonexpired Missouri driver's license;

(2) Nonexpired or nonexpiring Missouri nondriver's license;

(3) A document that satisfies all of the following requirements:

(a) The document contains the name of the individual to whom the document was issued, and the name substantially conforms to the most recent signature in the individual's voter registration record;

(b) The document shows a photograph of the individual;

(c) The document includes an expiration date, and the document is not expired, or, if expired, the document expired after the date of the most recent general election; and

(d) The document was issued by the United States or the state of Missouri; or

(4) Any identification containing a photograph of the individual which is issued by the Missouri National Guard, the United States Armed Forces, or the United States Department of Veteran Affairs to a member or former member of the Missouri National Guard or the United States Armed Forces and that is not expired or does not have an expiration date.

2. (1) An individual who appears at a polling place without a form of personal identification described in subsection 1 of this section and who is otherwise qualified to vote at that polling place may execute a statement, under penalty of perjury, averring that the individual is the person listed in the precinct register; averring that the individual does not possess a form of personal identification described in subsection 1 of this section; acknowledging that the individual is eligible to receive a Missouri nondriver's license free of charge if desiring it in order to vote; and acknowledging that the

individual is required to present a form of personal identification, as described in subsection 1 of this section, in order to vote. Such statement shall be executed and sworn to before the election official receiving the statement. Upon executing such statement, the individual may cast a regular ballot, provided such individual presents one of the following forms of identification:

(a) Identification issued by the state of Missouri, an agency of the state, or a local election authority of the state;

(b) Identification issued by the United States government or agency thereof;

(c) Identification issued by an institution of higher education, including a university, college, vocational and technical school, located within the state of Missouri;

(d) A copy of a current utility bill, bank statement, government check, paycheck, or other government document that contains the name and address of the individual;

(e) Other identification approved by the secretary of state under rules promulgated pursuant to this section.

(2) For any individual who appears at a polling place without a form of personal identification described in subsection 1 of this section and who is otherwise qualified to vote at that polling place, the election authority may take a picture of such individual and keep it as part of that individual's voter registration file at the election authority.

(3) Any individual who chooses not to execute the statement described in subdivision (1) of this subsection may cast a provisional ballot. Such provisional ballot shall be counted, provided that it meets the requirements of subsection 4 of this section.

(4) For the purposes of this section, the term "election official" shall include any person working under the authority of the election authority.

3. The statement to be used for voting under subdivision (1) of subsection 2 of this section shall be substantially in the following form:

"State of .....

County of .....

I do solemnly swear (or affirm) that my name is .....; that I reside at .....; that I am the person listed in the precinct register under this name and at this address; and that, under penalty of perjury, I do not possess a form of personal identification approved for voting. As a person who does not possess a form of personal identification approved for voting, I acknowledge that I am eligible to receive free of charge a Missouri nondriver's license at any fee office if desiring it in order to vote. I furthermore acknowledge that I am required to present a form of personal identification, as prescribed by law, in order to vote.

I understand that knowingly providing false information is a violation of law and subjects me to possible criminal prosecution.

.....

Signature of voter

Subscribed and affirmed before me this ..... day of ....., 20....

.....

Signature of election official"

4. A voter shall be allowed to cast a provisional ballot under section 115.430 even if the election judges cannot establish the voter's identity under this section. The election judges shall make a notation on the provisional ballot envelope to indicate that the voter's identity was not verified. The provisional ballot cast by such voter shall not be counted unless:

(1) (a) The voter returns to the polling place during the uniform polling hours established by section 115.407 and provides a form of personal identification that allows the election judges to verify the voter's identity as provided in subsection 1 of this section; or

(b) The election authority verifies the identity of the individual by comparing that individual's signature to the signature on file with the election authority and determines that the individual was eligible to cast a ballot at the polling place where the ballot was cast; and

(2) The provisional ballot otherwise qualifies to be counted under section 115.430.

5. The secretary of state shall provide advance notice of the personal identification requirements of subsection 1 of this section in a manner calculated to inform the public generally of the requirement for forms of personal identification as provided in this section. Such advance notice shall include, at a minimum, the use of advertisements and public service announcements in print, broadcast television, radio, and cable television media, as well as the posting of information on the opening pages of the official state internet websites of the secretary of state and governor.

6. (1) Notwithstanding the provisions of section 136.055 and section 302.181 to the contrary, the state and all fee offices shall provide one nondriver's license at no cost to any otherwise qualified voter who does not already possess such identification and who desires the identification in order to vote.

(2) This state and its agencies shall provide one copy of each of the following, free of charge, if needed by an individual seeking to obtain a form of personal identification described in subsection 1 of this section in order to vote:

(a) A birth certificate;

(b) A marriage license or certificate;

(c) A divorce decree;

(d) A certificate of decree of adoption;

(e) A court order changing the person's name;

(f) A Social Security card reflecting an updated name; and

(g) Naturalization papers or other documents from the United States Department of State proving citizenship.

Any individual seeking one of the above documents in order to obtain a form of personal identification described in subsection 1 of this section in order to vote may request the secretary of state to facilitate the acquisition of such documents. The secretary of state shall pay any fee or fees charged by another state or its agencies, or any court of competent jurisdiction in this state or any other state, or the federal government or its agencies, in order to obtain any of the above documents from such state or the federal government.

(3) All costs associated with the implementation of this section shall be reimbursed from the general revenue of this state by an appropriation for that purpose. If there is not a sufficient appropriation of state funds, then the personal identification requirements of subsection 1 of this section shall not be enforced.

(4) Any applicant who requests a nondriver's license for the purpose of voting shall not be required to pay a fee if the applicant executes a statement, under penalty of perjury, averring that the applicant does not have any other form of personal identification that meets the requirements of this section. The state of Missouri shall pay the legally required fees for any such applicant. The director of the department of revenue shall design a statement to be used for this purpose. The total cost associated with nondriver's license photo identification under this subsection shall be borne by the state of Missouri from funds appropriated to the department of revenue for that specific purpose. The department of revenue and a local election authority may enter into a contract that allows the local election authority to assist the department in issuing nondriver's license photo identifications.

7. The director of the department of revenue shall, by January first of each year, prepare and deliver to each member of the general assembly a report documenting the number of individuals who have requested and received a nondriver's license photo identification for the purposes of voting under this section. The report shall also include the number of persons requesting a nondriver's license for purposes of voting under this section, but not receiving such license, and the reason for the denial of the nondriver's license.

8. The precinct register shall serve as the voter identification certificate. The following form shall be printed at the top of each page of the precinct register:

VOTER'S IDENTIFICATION CERTIFICATE

Warning: It is against the law for anyone to vote, or attempt to vote, without having a lawful right to vote.

PRECINCT

WARD OR TOWNSHIP .....

GENERAL (SPECIAL, PRIMARY) ELECTION

Held ....., 20....

Date

I hereby certify that I am qualified to vote at this election by signing my name and verifying my address by signing my initials next to my address.

9. The secretary of state shall promulgate rules to effectuate the provisions of this section.

10. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2002, shall be invalid and void.

11. If any voter is unable to sign his name at the appropriate place on the certificate or computer printout, an election judge shall print the name and address of the voter in the appropriate place on the precinct register, the voter shall make his mark in lieu of signature, and the voter's mark shall be witnessed by the signature of an election judge.

12. This section shall become effective only upon the passage and approval by the voters of a constitutional amendment submitted to them by the general assembly regarding the authorization of photo identification requirements for elections by general law. If such constitutional amendment is approved by the voters, this section shall become effective June 1, 2017.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-295)

Subject

Initiative petition from Gerald Peterson regarding a proposed amendment to Chapter 115 of the Revised Statutes of Missouri. (Received October 13, 2017)

Date

November 2, 2017

Description

This proposal would amend Chapter 115 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Kay Brown, Christian County Clerk provided information for this proposal to the State Auditor's office.

Rick Watson, Henry County Clerk provided information for this proposal to the State Auditor's office.

Gary Emerson, Lawrence County Clerk provided information for this proposal to the State Auditor's office.

Stan Whitehurst, Webster County Clerk provided information for this proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will result in increased operating cost of $16,275 in fiscal year 2019. This proposal will affect the Secretary of State, county election authorities, and the Office of Administration - ITSD.

§115.135.5

The proposed legislation would require the division of motor vehicles or agent to transmit the completed voter registration application to the central voter registration system mandated no later than the next business day after the date of acceptance by the division of motor vehicles.

Their department assumes they will provide a regularly scheduled file of all driver license, nondriver license and permit applicants who meet the minimum age criteria and who, based on application data entered, have submitted documents verifying United States citizenship. This file would include applicants who responded that they are currently registered, applicants that are not registered and do not want to register, and applicants who completed the voter registration application at the time of license or permit application.

Their department would be required to:

- Coordinate with the Secretary of State to develop requirements for the data and signature file specifications and file submission schedule;
- OA-ITSD must develop a data pull process for defining records for submission to Secretary of State;
- OA-ITSD must develop a secure process for tying the required signature file to the data file for submission to the Secretary of State;
- Test the file generation and transfer process to ensure all required data elements and signatures transmit correctly; and
- Develop website information to link inquirers to the Secretary of State for information regarding the new automatic voter registration and provisions for declining automatic voter registration.

Technical errors:

§115.135.5(c)

This section has the following technical errors:

- "If the division of motor vehicles or agents fail to have the required forms, the state or its agent will personally **delivery…"** This sentence should read, "If the division of motor vehicles or agents fail to have the required forms, the state or its agent will personally **deliver…";** and

- **“**Certifications showing place of residences are all that will be **necssary**.” This sentence should read, “Certifications showing place of residences are all that will be **necessary**.”

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated they defer to the Department of Revenue for fiscal impact.

Officials from the **Office of Administration** indicated this proposal amends Sections 115.135 and 115.427, RSMo, to allow people applying for or renewing a driver's license to register to vote or change their address for voting purposes. If the Division of Motor Vehicles (MV) employee has doubts on citizenship, those registrations will be sent to the state board of elections for a follow-up investigation. MV must print and have available voter registration forms and declaration of citizenship. MV must electronically send the completed forms (in a format compatible with the SOS’s voter registration system) the next business day to the central voter registration system. For each electronic submission, a hard copy will be provided to the appropriate local board of canvassers. All changes must be in place six months before the November 2020 elections.

In addition, other applicable state agencies that would provide proof of eligibility, including age, citizenship, and residence address, will follow the procedures for automatic voter registration. There will be no charge for voter registration. Voter ID cards will be sent to all registered voters for each election. It is not clear who will mail these Voter ID cards for each election but for the purposes of this response, Budget and Planning assumes it would be the Department of Revenue's responsibility. Any additional agencies designated for automatic registration must follow these same rules.

There would appear to be personnel and programming costs associated with this proposal. Budget and Planning defers to the Department of Revenue for those costs.

This should not impact the Office of Administration.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact to their office.

Officials from the **Secretary of State's office** indicated this petition requires completed voter registration applications to be transmitted electronically to their office in a format compatible to their voter registration system. To coordinate the DMV's system with the Missouri Centralized Voter Registration system would require a one-time expense of up to $1,000,000 for programming resources. Depending on the timeline of implementation, this cost may be incurred in either FY19 or FY20.

FY19 or 20: GR $1,000,000

Many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated

appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this initiative petition would have no fiscal impact upon their office.

Officials from **Adair Coun**ty indicated the cost to their county, for postage only, would be approximately $6,500 per election. There would also be supply costs as well as staff hours to be considered.

Officials from **Cole Coun**ty indicated it would be an unnecessary burden, financially and labor intensive if this petition would pass. If they are required to send out a new voter ID card before every Election it would cost their county $90,000 for year 2018, having three Elections.

Officials from **Greene Coun**ty indicated that due to the ambiguity of the details, lack of specifics as to implementation and incongruent direction within the language of this proposition, it is not feasible to determine with any degree of specificity if there are any estimated costs or savings to report from their county for this petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **Metropolitan Community College** indicated no fiscal impact for their college.

Officials from the **University of Missouri** indicated this response is provided on behalf of the University of Missouri System. As outlined in the draft, there is no significant measurable fiscal impact on their university.

Officials from the **Platte County Board of Elections** indicated they anticipate a cost of $23,300 per election from the purchase and mailing of voter identification cards.

Kay Brown, Christian County Clerk provided information for this proposal to the State Auditor's office. For their county, the cost would be approximately $ 25,000.00 prior to each election. This cost does not reflect the additional staffing needed to process all the return mail. For the 2018 Election year the cost would be approximately $ 75,000.00 and does not include the extra cost for additional staffing to process the mail. Who would be responsible to pay the cost of this mailing? Now the Photo Id Law requires all voters have a Missouri picture identification provided by the Missouri Department of Revenue. So this voter card no longer has the importance it once held as the preferred form of identification to be used at the polls. This would be an extremely costly process and a waste of taxpayer dollars.

Rick Watson, Henry County Clerk provided information for this proposal to the State Auditor's office. County officials estimate that it would cost $8,000 per election, to send out voter verification cards, prior to each election.

Gary Emerson, Lawrence County Clerk provided information for this proposal to the State Auditor's office. The proposed changes to Chapter 115 in this petition will cost the county approximately $12,000 per election. This would result in a $36,000 to $48,000 increase in the costs of election in their county each year.

Stan Whitehurst, Webster County Clerk provided information for this proposal to the State Auditor's office. In the county, county officials estimate this proposal would cost in excess of $12,000 for every election. Due to variation in the number of elections each year, the annual cost could range from $24,000 to $60,000 per year.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Boone County, Callaway County, Cass County, Clay County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no savings from this proposal. State governmental entities estimate one-time costs of up to $1 million. Local election authorities are estimated to have additional costs ranging from $6,500 to $30,000 per election.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Brian Hagg regarding a proposed statutory amendment to Chapters 218, 544 & 557 (2018-294)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Brian Hagg on October 11, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

RECEIVED
OCT 11 2017
MO. SECRETARY OF STATE

Initiative petition for law or constitutional amendment, form—clerical and technical errors to be disregarded, penalties for false signature.—The following shall be substantially the form of each page of each petition for any law or amendment to the Constitution of the state of Missouri proposed by the initiative: County ..... Page No. ..... It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

INITIATIVE PETITION To the Honorable ....., Secretary of State for the state of Missouri: We, the undersigned, registered voters of the state of Missouri and ..... County (or city of St. Louis), respectfully order that the following proposed law (or amendment to the constitution) shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the ..... day of ....., ..., and each for himself or herself says: I have personally signed this petition, I am a registered voter of the state of Missouri and ..... County (or city of St. Louis), my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

(Official Ballot title) ..... CIRCULATOR'S AFFIDAVIT STATE OF MISSOURI, COUNTY OF ..... I, ..., being first duly sworn.

NAME SIGNED	DATE	REGISTERED VOTING ADDRESS	ZIP CODE	CONGR. DIST.	NAME Printed

signed this page of the foregoing petition, and each of them signed his or her name thereto in my presence, I believe that each has stated his or her name, registered voting address and city, town or village correctly, and that each signer is a registered voter of the state of Missouri and ..... County. FURTHERMORE, I HEREBY SWEAR OR AFFIRM UNDER PENALTY OF PERJURY THAT ALL STATEMENTS MADE BY ME ARE TRUE AND CORRECT AND THAT I HAVE NEVER BEEN CONVICTED OF, FOUND GUILTY OF, OR PLED GUILTY TO ANY OFFENSE INVOLVING FORGERY. I am at least 18 years of age. I do .... do not .... (check one) expect to be paid for circulating this petition. If paid, list the payer .... Signature of Affiant (Person obtaining signatures) ..... (Printed Name of Affiant) ..... Address of Affiant Subscribed and sworn to before me this ..... day of ....., A.D. .... Signature of Notary ..... Address of Notary Notary Public (Seal) My commission expires ..... If this form is followed substantially and the requirements of section 116.050 and section 116.080 are met, it shall be sufficient, disregarding clerical and merely technical errors.

Effective 01 Jan 2017, see footnote, highlighted 12 Chapter 217

Title XIII CORRECTIONAL AND PENAL INSTITUTIONS

217.541. House arrest program, department to establish and regulate – limited release, when – offenders to fund program – arrest warrant may be issued by probation or parole officer, when. – 1. The department shall by rule establish a program of house arrest. The director or his designee may extend the limits of confinement of offenders serving sentences for class D or E felonies who have one year or less remaining prior to release on parole, conditional release, or discharge to participate in the house arrest program.

2. The offender referred to the house arrest program shall remain in the custody of the department and shall be subject to rules and regulations of the department pertaining to offenders of the department until released on parole or conditional release by the state board of probation and parole.

3. The department shall require the offender to participate in work or educational or vocational programs and other activities that may be necessary to the supervision and treatment of the offender.

4. An offender released to house arrest shall be authorized to leave his place of residence only for the purpose and time necessary to participate in the program and activities authorized in subsection 3 of this section.

5. The board of probation and parole shall supervise every offender released to the house arrest program and shall verify compliance with the requirements of this section and such other rules and regulations that the department shall promulgate and may do so by remote electronic surveillance. If any probation/parole officer has probable cause to believe that an offender under house arrest has violated a condition of the house arrest agreement, the probation/parole officer may issue a warrant for the arrest of the offender. The probation/parole officer may effect the arrest or may deputize any officer with the power of arrest to do so by giving the officer a copy of the warrant which shall outline the circumstances of the alleged violation. The warrant delivered with the offender by the arresting officer to the official in charge of any jail or other detention facility to which the offender is brought shall be sufficient legal authority for detaining the offender. An offender arrested under this section shall remain in custody or incarcerated without consideration of bail. The director or his designee, upon recommendation of the probation and parole officer, may direct the return of any offender from house arrest to a correctional facility of the department for reclassification.

6. Each offender who is released to house arrest shall pay a percentage of his wages, established by department rules, to a maximum of the per capita cost of the house arrest program. The money received from the offender shall be deposited in the inmate fund and shall be expended to support the house arrest program.

(L. 1987 S.B. 39 § 1, A.L. 1989 H.B. 408, A.L. 1990 H.B. 974, A.L. 2014 S.B. 491)

Missouri Statute 217.542 Failure to return to house arrest, felony. (1/1/2017)

Effective 01 Jan 2017, see footnote, highlighted 4 Chapter 217

Title XIII CORRECTIONAL AND PENAL INSTITUTIONS

217.542. Failure to return to house arrest, felony. — 1. An offender of the department released to the house arrest program commits the crime of failure to return to house arrest if he or she purposely fails to return to his or her place of residence or activity authorized by subsection 3 of section 217.541 when he or she is required to do so.

2. Failure to return to house arrest is a class E felony.

(L. 1987 S.B. 39 § 2, A.L. 1989 H.B. 408, A.L. 2014 S.B. 491)

217.543 House arrest authorized for certain prisoners — jailer to establish program — remote electronic surveillance allowed — percentage of prisoner's wage to pay cost — violation penalty — (St. Louis City). (1/1/2017)

Effective 01 Jan 2017, see footnote, highlighted 10 Chapter 217

Title XIII CORRECTIONAL AND PENAL INSTITUTIONS

217.543. House arrest authorized for certain prisoners — jailer to establish program — remote electronic surveillance allowed — percentage of prisoner's wage to pay cost — violation penalty — (St. Louis City). — 1. The jailer of any city not within a county having custody of pretrial detainees or persons serving sentences for violation of state or local laws may establish a program of house arrest consistent with the provisions of this section.

2. Such jailer shall by rule establish a program of house arrest. Such jailer may extend the limits of confinement for pretrial detainees or persons serving sentences for violation of state or local laws.

3. The inmate or detainee shall remain an inmate of such jailer and shall be subject to the rules and regulations of the house arrest program.

4. Such jailer shall require the inmate or detainee to participate in work or educational or vocational programs and other activities that may be necessary to the supervision and treatment of the inmate or detainee.

5. An inmate or detainee released to house arrest shall be authorized to leave his or her place of residence only for the purpose and time necessary to participate in the programs and activities authorized.

6. Such jailer shall supervise every inmate or detainee released to the house arrest program and shall verify compliance with the requirements set forth for each person so released and such other rules and regulations that such jailer shall promulgate, and may do so by remote electronic surveillance. Such jailer may direct to any peace officer the return of any inmate or detainee from house arrest for violation of the conditions of release.

7. Each inmate or detainee who is released on house arrest shall pay a percentage of his or her wages to cover the costs of house arrest, such amount to be established by the jailer.

8. An inmate released to the house arrest program pursuant to this section commits the crime of escape from custody if such inmate purposely fails to return to his or her place of residence or activity as established by the jailer when he or she is required to do so. Escape from custody is a class E felony.

(L. 1991 H.B. 566, A.L. 2014 S.B. 491)

Title XXXVIII CRIMES AND PUNISHMENT; PEACE OFFICERS AND PUBLIC DEFENDERS
Chapter 557 General Sentencing Provisions
Missouri Statute 557.011 Authorized dispositions. (8/28/2013

Title XXXVIII CRIMES AND PUNISHMENT; PEACE OFFICERS AND PUBLIC DEFENDERS

557.011. Authorized dispositions. – 1. Every person found guilty of an offense shall be dealt with by the court in accordance with the provisions of this chapter, except that for offenses defined outside this code and not repealed, the term of imprisonment or the fine that may be imposed is that provided in the statute defining the offense; however, the conditional release term of any sentence of a term of years shall be determined as provided in subsection 4 of section 558.011.

2. Whenever any person has been found guilty of a felony or a misdemeanor the court shall make one or more of the following dispositions of the offender in any appropriate combination. The court may:

(1) Sentence the person to a term of imprisonment as authorized by chapter 558;

(2) Sentence the person to pay a fine as authorized by chapter 560;

(3) Suspend the imposition of sentence, with or without placing the person on probation;

(4) Pronounce sentence and suspend its execution, placing the person on probation;

(5) Impose a period of detention as a condition of probation, as authorized by section 559.026.

3. Whenever any person has been found guilty of an infraction, the court shall make one or more of the following dispositions of the offender in any appropriate combination. The court may:

(1) Sentence the person to pay a fine as authorized by chapter 560;

(2) Suspend the imposition of sentence, with or without placing the person on probation;

(3) Pronounce sentence and suspend its execution, placing the person on probation.

4. Whenever any organization has been found guilty of an offense, the court shall make one or more of the following dispositions of the organization in any appropriate combination. The court may:

(1) Sentence the organization to pay a fine as authorized by chapter 560;

(2) Suspend the imposition of sentence, with or without placing the organization on probation;

(3) Pronounce sentence and suspend its execution, placing the organization on probation;

(4) Impose any special sentence or sanction authorized by law.

5. This chapter shall not be construed to deprive the court of any authority conferred by law to decree a forfeiture of property, suspend or cancel a license, remove a person from office, or impose any other civil penalty. An appropriate order exercising such authority may be included as part of any sentence.

6. In the event a sentence of confinement is ordered executed, a court may order that an individual serve all or any portion of such sentence on electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest. If the judge finds the person unable to afford the costs associated with electronic monitoring, the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay the costs of such monitoring. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay from the general revenue of the county the costs of such electronic monitoring, the judge shall not order that the person be placed on house arrest with electronic monitoring.

[Missouri Statute **217.541. House arrest program**, department to establish and regulate — limited release, when — offenders to fund program — arrest warrant may be issued by probation or parole officer, when. — 1. **The department shall by rule establish a program of house arrest. The director or his designee may extend the limits of confinement of offenders serving sentences for class D or E felonies who have one year or less remaining prior to release on parole, conditional release, or discharge to participate in the house arrest program**.

2. The offender referred to the house arrest program shall remain in the custody of the department and shall be subject to rules and regulations of the department pertaining to offenders of the department until released on parole or conditional release by the state board of probation and parole.

3. The department shall require the offender to participate in work or educational or vocational programs and other activities that may be necessary to the supervision and treatment of the offender.

4. An offender released to house arrest shall be authorized to leave his place of residence only for the purpose and time necessary to participate in the program and activities authorized in subsection 3 of this section.

5. The board of probation and parole shall supervise every offender released to the house arrest program and shall verify compliance with the requirements of this section and such other rules and regulations that the department shall promulgate and may do so by remote electronic surveillance. If any probation/parole officer has probable cause to believe that an offender under house arrest has violated a condition of the house arrest agreement, the probation/parole officer may issue a warrant for the arrest of the offender. The probation/parole officer may effect the arrest or may deputize any officer with the power of arrest to do so by giving the officer a copy of the warrant which shall outline the circumstances of the alleged violation. The warrant delivered with the offender by the arresting officer to the official in charge of any jail or other detention facility to which the offender is brought shall be sufficient legal authority for detaining the offender. An offender arrested under this section shall remain in custody or incarcerated without consideration of bail. The director or his designee, upon recommendation of the probation and parole officer, may direct the return of any offender from house arrest to a correctional facility of the department for reclassification.

6. **Each offender who is released to house arrest shall pay a percentage of his wages, established by department rules, to a maximum of the per capita cost of the house arrest program. The money received from the offender shall be deposited in the inmate fund and shall be expended to support the house arrest program.]**

[Missouri Statute **217.542. Failure to return to house arrest, felony. — 1. An offender of the department released to the house arrest program commits the crime of failure to return to house arrest if he or she purposely fails to return to his or her place of residence or activity authorized by subsection 3 of section 217.541 when he or she is required to do so. 2. Failure to return to house arrest is a class E felony.]**

[Missouri Statute **217.543. House arrest authorized for certain prisoners — jailer to establish program — remote electronic surveillance allowed — percentage of prisoner's wage to pay cost — violation penalty — (St. Louis City). — 1. The jailer of any city not within a county having custody of pretrial detainees or persons serving sentences for violation of state or local laws may establish a program of house arrest consistent with the provisions of this section.**

2. Such jailer shall by rule establish a program of house arrest. Such jailer may extend the limits of confinement for pretrial detainees or persons serving sentences for violation of state or local laws.

3. The inmate or detainee shall remain an inmate of such jailer and shall be subject to the rules and regulations of the house arrest program.

4. Such jailer shall require the inmate or detainee to participate in work or educational or vocational programs and other activities that may be necessary to the supervision and treatment of the inmate or detainee.

5. An inmate or detainee released to house arrest shall be authorized to leave his or her place of residence only for the purpose and time necessary to participate in the programs and activities authorized.

6. Such jailer shall supervise every inmate or detainee released to the house arrest program and shall verify compliance with the requirements set forth for each person so released and such other rules and regulations that such jailer shall promulgate, and may do so by remote electronic surveillance. Such jailer may direct to any peace officer the return of any inmate or detainee from house arrest for violation of the conditions of release.

7. Each inmate or detainee who is released on house arrest shall pay a percentage of his or her wages to cover the costs of house arrest, such amount to be established by the jailer.

8. An inmate released to the house arrest program pursuant to this section commits the crime of escape from custody if such inmate purposely fails to return to his or her place of residence or activity as established by the jailer when he or she is required to do so. Escape from custody is a class E felony.]

Missouri Statute **557.011. Authorized dispositions. — 1. Every person found guilty of an offense shall be dealt with by the court in accordance with the provisions of this chapter,** except that for offenses defined outside this code and not repealed, **the term of imprisonment or the fine that may be imposed is that provided in the statute defining the offense**; however, the conditional release term of any sentence of a term of years shall be determined as provided in subsection 4 of section 558.011.

2. Whenever any person has been found guilty of a felony or a misdemeanor the court shall make one or more of the following dispositions of the offender in any appropriate combination. The court may:

(1) Sentence the person to a term of imprisonment as authorized by chapter 558;

(2) Sentence the person to pay a fine as authorized by chapter [560;] 558.002 RSMo unlawful & unconstitutional another INITIATIVE PETITION.

(3) Suspend the imposition of sentence, with or without placing the person on probation;

(4) Pronounce sentence and suspend its execution, placing the person on probation;

(5) Impose a period of detention as a condition of probation, as authorized by section [559.026.] unlawful & unconstitutional another INITIATIVE PETITION.

3. Whenever any person has been found guilty of an infraction, the court shall make one or more of the following dispositions of the offender in any appropriate combination. The court may:

(1) Sentence the person to pay a fine as authorized by chapter [560]; 558.002 RSMo unlawful & unconstitutional another INITIATIVE PETITION.

(2) Suspend the imposition of sentence, with or without placing the person on probation;

(3) Pronounce sentence and suspend its execution, placing the person on probation.

4. Whenever any organization has been found guilty of an offense, the court shall make one or more of the following dispositions of the organization in any appropriate combination. The court may:

(1) Sentence the organization to pay a fine as authorized by chapter [560]; 558.002 RSMo unlawful & unconstitutional another INITIATIVE PETITION.

(2) Suspend the imposition of sentence, with or without placing the organization on probation;

(3) Pronounce sentence and suspend its execution, placing the organization on probation;

(4) Impose any special sentence or sanction authorized by law.

5. This chapter shall not be construed to deprive the court of any authority conferred by law to decree a forfeiture of property, suspend or cancel a license, remove a person from office, or impose any other civil penalty. An appropriate order exercising such authority may be included as part of any sentence.

[6. **In the event a sentence of confinement is ordered executed, a court may order that an individual serve all or any portion of such sentence on electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest.** If the judge finds the person unable to afford the costs associated with electronic monitoring, the judge may order that the person be placed **on house arrest with electronic monitoring if the county commission agrees to pay the costs of such monitoring.** If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay from the general revenue of the county the costs of such electronic monitoring, **the judge shall not order that the person be placed on house arrest with electronic monitoring.]**

Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay.**

Violates the United States Constitutional **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed,** nor cruel and unusual punishments inflicted. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.**

Here is where the violation of due process rights and equal protection under the law for persons charged with a bailable offence, are treated the same as persons found guilty in Missouri Statute 544.455 as stated below…

[Missouri Statute **544.455. Release of person charged, when — conditions which may be imposed. — 1. Any person charged with a bailable offense, at his or her appearance before an associate circuit judge or judge may be ordered released pending trial, appeal, or other stage of the proceedings against him on his personal recognizance, unless the associate circuit judge or judge determines, in the exercise of his discretion, that such a release will not reasonably assure the appearance of the person as required. When such a determination is made, the associate circuit judge or judge may either in lieu of or in addition to the above methods of release, impose any or any combination of the following conditions of release which will reasonably assure the appearance of the person for trial:**

(1) Place the person in the custody of a designated person or organization agreeing to supervise him;

(2) Place restriction on the travel, association, or place of abode of the person during the period of release;

(3) Require the execution of a bail bond with sufficient solvent sureties, or the deposit of cash in lieu thereof;

(4) Require the person to report regularly to some officer of the court, or peace officer, in such manner as the associate circuit judge or judge directs;

(5) Require the execution of a bond in a given sum and the deposit in the registry of the court of ten percent, or such lesser percent as the judge directs, of the sum in cash or negotiable bonds of the United States or of the state of Missouri or any political subdivision thereof;

(6) **Place the person on house arrest with electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest.** If the judge finds the person unable to afford the costs associated with electronic monitoring, **the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay from the general revenue of the county the costs of such monitoring**. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay the costs of such electronic monitoring, **the judge shall not order that the person be placed on house arrest with electronic monitoring;**

(7) Impose any other condition deemed reasonably necessary to assure appearance as required, including a condition requiring that the person return to custody after specified hours.

2. In determining which conditions of release will reasonably assure appearance, the associate circuit judge or judge shall, on the basis of available information, take into account the nature and circumstances of the offense charged, the weight of the evidence against the accused, the accused's family ties, employment, financial resources, character and mental condition, the length of his residence in the community, his record of convictions, and his record of appearance at court proceedings or flight to avoid prosecution or failure to appear at court proceedings.

3. An associate circuit judge or judge authorizing the release of a person under this section shall issue an appropriate order containing a statement of the conditions imposed, if

any, shall inform such person of the penalties applicable to violations of the conditions of his release and shall advise him that a warrant for his arrest will be issued immediately upon any such violation.

4. A person for whom conditions of release are imposed and who after twenty-four hours from the time of the release hearing continues to be detained as a result of his inability to meet the conditions of release, shall, upon application, be entitled to have the condition reviewed by the associate circuit judge or judge who imposed them. The motion shall be determined promptly.

5. An associate circuit judge or judge ordering the release of a person on any condition specified in this section may at any time amend his order to impose additional or different conditions of release; except that, if the imposition of such additional or different conditions results in the detention of the person as a result of his inability to meet such conditions or in the release of the person on a condition requiring him to return to custody after specified hours, the provisions of subsection 4 of this section shall apply.

6. Information stated in, or offered in connection with, any order entered pursuant to this section need not conform to the rules pertaining to the admissibility of evidence in a court of law.

7. Nothing contained in this section shall be construed to prevent the disposition of any case or class of cases by forfeiture of collateral security where such disposition is authorized by the court.

8. Persons charged with violations of municipal ordinances may be released by a municipal judge or other judge who hears and determines municipal ordinance violation cases of the municipality involved under the same conditions and in the same manner as provided in this section for release by an associate circuit judge.

9. A circuit court may adopt a local rule authorizing the pretrial release on electronic monitoring pursuant to subdivision (6) of subsection 1 of this section in lieu of incarceration of individuals charged with offenses specifically identified therein.]
A.L. 2011 H.B. 111, A.L. 2013 H.B. 215 merged with H.B. 374 & 434 merged with S.B. 327)

Missouri Statute **544.455 did not have house arrest with electronic monitoring; tell the above House and Senate bills passed in 2013.** Missouri Statute 544.455. **does not state who is in charge of house arrest persons nor where the money from house arrest with electronic monitoring; goes to. Somehow the money from Missouri Statute 544.455 from house arrest with electronic monitoring goes to private bail/bond companies, NO statement in the statute. It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Section 15. That the people shall be secure in their persons, papers, homes, effects, and electronic communications and data, from unreasonable searches and seizures; and no warrant to**

search any place, or seize any person or thing, or access electronic data or communication, shall issue without describing the place to be searched, or the person or thing to be seized, or the data or communication to be accessed, as nearly as may be; nor without probable cause, supported by written oath or affirmation. Section 19. That no person shall be compelled to testify against himself in a criminal cause, nor shall any person be put again in jeopardy of life or liberty for the same offense,...

It violates The United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment V No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; **nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law;** nor shall private property be taken for public use, without just compensation. **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.**

Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

Missouri Statute 544.455 Release of person charged, when — conditions which may be imposed. (8/28/2013)

Effective 28 Aug 2013, highlighted 5 Chapter 544

Title XXXVII CRIMINAL PROCEDURE

544.455. Release of person charged, when – conditions which may be imposed. – 1. Any person charged with a bailable offense, at his or her appearance before an associate circuit judge or judge may be ordered released pending trial, appeal, or other stage of the proceedings against him on his personal recognizance, unless the associate circuit judge or judge determines, in the exercise of his discretion, that such a release will not reasonably assure the appearance of the person as required. When such a determination is made, the associate circuit judge or judge may either in lieu of or in addition to the above methods of release, impose any or any combination of the following conditions of release which will reasonably assure the appearance of the person for trial:

(1) Place the person in the custody of a designated person or organization agreeing to supervise him;

(2) Place restriction on the travel, association, or place of abode of the person during the period of release;

(3) Require the execution of a bail bond with sufficient solvent sureties, or the deposit of cash in lieu thereof;

(4) Require the person to report regularly to some officer of the court, or peace officer, in such manner as the associate circuit judge or judge directs;

(5) Require the execution of a bond in a given sum and the deposit in the registry of the court of ten percent, or such lesser percent as the judge directs, of the sum in cash or negotiable bonds of the United States or of the state of Missouri or any political subdivision thereof;

(6) Place the person on house arrest with electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest. If the judge finds the person unable to afford the costs associated with electronic monitoring, the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay from the general revenue of the county the costs of such monitoring. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay the costs of such electronic monitoring, the judge shall not order that the person be placed on house arrest with electronic monitoring;

(7) Impose any other condition deemed reasonably necessary to assure appearance as required, including a condition requiring that the person return to custody after specified hours.

2. In determining which conditions of release will reasonably assure appearance, the associate circuit judge or judge shall, on the basis of available information, take into account the nature and circumstances of the offense charged, the weight of the evidence against the accused, the accused's family ties, employment, financial resources, character and mental condition,

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Brian Hagg regarding a proposed statutory amendment to Chapters 558 and 559 (2018-293)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Brian Hagg on October 11, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Address of Notary Notary Public (Seal) My commission expires ..... If this form is followed substantially and the requirements of section 116.050 and section 116.080 are met, it shall be sufficient, disregarding clerical and merely technical errors

Missouri Statute **559.026 Detention condition of probation.** Detention condition of probation. — Except in infraction cases, when probation is granted, the court, in addition to conditions imposed pursuant to section 559.021, may require as a condition of probation that the offender submit to a period of detention up to forty-eight hours after the determination by a probation or parole officer that the offender violated a condition of continued probation or parole in an appropriate institution at whatever time or intervals within the period of probation, consecutive or nonconsecutive, the court shall designate, or the board of probation and parole shall direct. **[**Any person placed on probation in a county of the first class or second class or in any city with a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, **even though he was not convicted and sentenced to a jail or workhouse.]**(1) In misdemeanor cases, the period of detention under this section shall **not exceed the shorter of thirty days [or the maximum term of imprisonment authorized for the misdemeanor by chapter 558.]** [(2) **In felony cases, the period of detention under this section shall not exceed one hundred twenty days.]** (3) If probation is revoked and a term of imprisonment is served by reason thereof, the time spent in a jail, half-way house, honor center, workhouse or other institution as a detention condition of probation shall be credited against the prison or jail term served for the offense in connection with which the detention condition was imposed.

Missouri Statute **558.011. Sentence of imprisonment, terms — conditional release. —** 1. The authorized terms of imprisonment, including both prison and conditional release terms, are: (1) For a class A felony, a term of years not less than ten years and not to exceed thirty years, or life imprisonment;(2) For a class B felony, a term of years not less than five years and not to exceed fifteen years;(3) For a class C felony, a term of years not less than three years and not to exceed ten years; (4) For a class D felony, a term of years not to exceed seven years;(5) For a class E felony, a term of years not to exceed four years; **(6) For a class A misdemeanor, a term not to exceed one year; (7) For a class B misdemeanor, a term not to exceed six months; (8) For a class C misdemeanor, a term not to exceed fifteen days…**Not the whole Missouri Statute its Screen printed on the next page.

In the Last paragraph of 559.026the first, second class city or a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, **even though he was not convicted and sentenced to a jail or workhouse. How can someone not convicted & sentenced be placed in detention? Was not convicted & and sentenced to a jail or workhouse. Then Missouri Statute 559.012 Did not take place so points (1) and (2) is the reason probation is given. So what probation is the not convicted on that they get detention?** Missouri Statute 559.012. **Eligible for probation, when. — The court may place a person on probation for a specific period upon conviction of any offense or upon suspending imposition of sentence** if, having regard to the nature and circumstances of the offense and to the history and character of the defendant, the court is of the opinion that: (1) Institutional confinement of the defendant is not necessary for the protection of the public; and (2) The defendant is in need of guidance, training or other assistance which, in his or her case, can be effectively administered through probation supervision.

Missouri Statute 559.026 Detention condition of probation is unconstitutional the above lines show not convicted and sentenced to a jail or workhouse. It violates the Missouri Constitution Bill of Rights Article I Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Violates the United States Constitutional **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted**. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.**
Point 1 of Missouri Statute 559.26 Detention condition of probation Any person placed on probation in a county of the first class or second class or in any city with a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, **even though he was not convicted and sentenced to a jail or workhouse. (1) In misdemeanor cases, the period of detention under this section shall not exceed the shorter of thirty days or the maximum term of imprisonment authorized for the misdemeanor by chapter 558, the Statute give a misdemeanor offender more imprisonment than a Felony offender.**

Missouri Statute 559.026 Detention condition of probation is unconstitutional the above lines shown. Because it gives a misdemeanor on probation more Detention than a felony. It violates the Missouri Constitution Bill of Rights Article I Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Violates the United States Constitutional **Amendment VIII** Excessive bail shall not be required, nor excessive fines imposed, **nor cruel and unusual punishments inflicted**. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law**; nor deny to any person within its jurisdiction the equal protection of the laws.

This statute also treats each felony offender the same when 558.011 has different classes of felony offences. Each class should have a different time period for detention condition of probation.

Title XXXVIII CRIMES AND PUNISHMENT; PEACE OFFICERS AND PUBLIC DEFENDERS

559.026. Detention condition of probation. — Except in infraction cases, when probation is granted, the court, in addition to conditions imposed pursuant to section 559.021, may require as a condition of probation that the offender submit to a period of detention up to forty-eight hours after the determination by a probation or parole officer that the offender violated a condition of continued probation or parole in an appropriate institution at whatever time or intervals within the period of probation, consecutive or nonconsecutive, the court shall designate, or the board of probation and parole shall direct. Any person placed on probation in a county of the first class or second class or in any city with a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, even though he was not convicted and sentenced to a jail or workhouse.

(1) In misdemeanor cases, the period of detention under this section shall not exceed the shorter of thirty days or the maximum term of imprisonment authorized for the misdemeanor by chapter 558.

(2) In felony cases, the period of detention under this section shall not exceed one hundred twenty days.

(3) If probation is revoked and a term of imprisonment is served by reason thereof, the time spent in a jail, half-way house, honor center, workhouse or other institution as a detention condition of probation shall be credited against the prison or jail term served for the offense in connection with which the detention condition was imposed.

Title XXXVIII CRIMES AND PUNISHMENT; PEACE OFFICERS AND PUBLIC DEFENDERS

558.011. Sentence of imprisonment, terms — conditional release. — 1. The authorized terms of imprisonment, including both prison and conditional release terms, are:

(1) For a class A felony, a term of years not less than ten years and not to exceed thirty years, or life imprisonment;

(2) For a class B felony, a term of years not less than five years and not to exceed fifteen years;

(3) For a class C felony, a term of years not less than three years and not to exceed ten years;

(4) For a class D felony, a term of years not to exceed seven years;

(5) For a class E felony, a term of years not to exceed four years;

(6) For a class A misdemeanor, a term not to exceed one year;

(7) For a class B misdemeanor, a term not to exceed six months;

(8) For a class C misdemeanor, a term not to exceed fifteen days.

2. In cases of class D and E felonies, the court shall have discretion to imprison for a special term not to exceed one year in the county jail or other authorized penal institution, and the place of confinement shall be fixed by the court. If the court imposes a sentence of imprisonment for a term longer than one year upon a person convicted of a class D or E felony, it shall commit the person to the custody of the department of corrections.

3. (1) When a regular sentence of imprisonment for a felony is imposed, the court shall commit the person to the custody of the department of corrections for the term imposed under section 557.036, or until released under procedures established elsewhere by law.

(2) A sentence of imprisonment for a misdemeanor shall be for a definite term and the court shall commit the person to the county jail or other authorized penal institution for the term of his or her sentence or until released under procedure established elsewhere by law.

4. (1) Except as otherwise provided, a sentence of imprisonment for a term of years for felonies other than dangerous felonies as defined in section 556.061, and other than sentences of imprisonment which involve the individual's fourth or subsequent remand to the department of corrections shall consist of a prison term and a conditional release term. The conditional

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Brian Hagg regarding a proposed statutory amendment to Chapter 558 (2018-292)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Brian Hagg on October 10, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely.

John R. Ashcroft

cc: Hon. Joshua D. Hawley

signed this page of the foregoing petition, and each of them signed his or her name thereto in my presence, I believe that each has stated his or her name, registered voting address and city, town or village correctly, and that each signer is a registered voter of the state of Missouri and ..... County. FURTHERMORE, I HEREBY SWEAR OR AFFIRM UNDER PENALTY OF PERJURY THAT ALL STATEMENTS MADE BY ME ARE TRUE AND CORRECT AND THAT I HAVE NEVER BEEN CONVICTED OF, FOUND GUILTY OF, OR PLED GUILTY TO ANY OFFENSE INVOLVING FORGERY. I am at least 18 years of age. I do .... do not .... (check one) expect to be paid for circulating this petition. If paid, list the payer .... Signature of Affiant (Person obtaining signatures) ..... (Printed Name of Affiant) ..... Address of Affiant Subscribed and sworn to before me this ..... day of ....., A.D. .... Signature of Notary ..... Address of Notary Notary Public (Seal) My commission expires ..... If this form is followed substantially and the requirements of section 116.050 and section 116.080 are met, it shall be sufficient, disregarding clerical and merely technical errors

New Missouri statute 558.002.1 continued has 2 different fine amounts for same offence, for persons convicted of C or D felony is either $5000 or at the top of first page beginning of statute states $10,000. Also the fine amount for corporation for a misdemeanor is just 10,000, but that is for every type the old statute had different fine amounts for different misdemeanor of A,B,C which is shown by the screen prints below of the New Missouri statute 558.002.1 this is unconstitutional no equal protection of the law which is a violation of the XIV Amendment of United States Constitution.

The 560.011 is not the only Missouri statute that this558.002 replaced as it replaced 560.011, 560.016 and 560.021. For the Old Missouri statutes that are repealed 560.011, 560.016 and 560.021 on http://revisor.mo.gov/main/OneChapter.aspx?chapter=560 states that they are (Repealed L. 2014 S.B. 491) (1/1/2017). The www.moga.mo.gov not working since July of 2017.

[Missouri statute 558.002. Fines for felonies. — 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of an offense may be sentenced to pay a fine which does not exceed:

(1) For a class C, D, or E felony, ten thousand dollars;

(2) For a class A misdemeanor, two thousand dollars;

(3) For a class B misdemeanor, one thousand dollars;

(4) For a class C misdemeanor, seven hundred fifty dollars;

(5) For a class D misdemeanor, five hundred dollars;

(6) For an infraction, four hundred dollars;] or

(7) If the person has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the person's gain from the commission of the offense.

[2. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for any offense defined outside this code for which no specific corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, which does not exceed:

(1) For a felony, twenty thousand dollars;

(2) For a misdemeanor, ten thousand dollars;

(3) For an infraction, one thousand dollars;] or

(4) If the corporation has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the corporation's gain from the commission of the offense.

3. As used in this section the term "gain" means the amount of money or the value of property derived from the commission of the offense. The amount of money or value of property returned to the victim of the offense or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

Missouri statute 558.002 because each fine amount has increased Violates the United States Constitutional **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed,** nor cruel and unusual punishments inflicted. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law**; nor deny to any person within its jurisdiction the equal protection of the laws. **It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. Section 10. That no person shall be deprived of life, liberty or property without due process of law.**

Fines for felonies.

558.002. 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of an offense may be sentenced to pay a fine which does not exceed

(1) For a class C, D, or E felony, ten thousand dollars;

(2) For a class A misdemeanor, two thousand dollars;

(3) For a class B misdemeanor, one thousand dollars;

(4) For a class C misdemeanor, seven hundred fifty dollars;

(5) For a class D misdemeanor, five hundred dollars;

(6) For an infraction, four hundred dollars; or

(7) If the person has gained money or property through the commission of the offense, to pay an amount fixed by the court, not exceeding double the amount of the person's gain from the commission of the offense.

2. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for any offense defined outside this code for which no specific corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, which does not exceed

(1) For a felony, twenty thousand dollars;

(2) For a misdemeanor, ten thousand dollars;

(3) For an infraction, one thousand dollars; or

(4) If the corporation has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the corporation's gain from the commission of the offense.

3. As used in this section, the term "gain" means the amount of money or the value of property derived from the commission of the offense. The amount of money or value of property returned to the victim of the offense or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain, the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

560.011 Fines for felonies.
560.016 Fines for misdemeanors and infractions.
560.021 Fines for corporations.

Cross Reference

Imprisonment, limitation on payment of fines, RSMo 560.026

560.011. Fines for felonies. — 1. A person who has been convicted of a class C or D felony may be sentenced

(1) To pay a fine which does not exceed five thousand dollars; or

(2) If the offender has gained money or property through the commission of the crime, to pay an amount, fixed by the court, not exceeding double the amount of the offender's gain from the commission of the crime. An individual offender may be fined not more than twenty thousand dollars under this provision.

2. As used in this section the term "gain" means the amount of money or the value of property derived from the commission of the crime. The amount of money or value of property returned to the victim of the crime or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain, the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

3. The provisions of this section shall not apply to corporations.

(L. 1977 S.B. 60)

Historical Note

560.016. Fines for misdemeanors and infractions. — 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of a misdemeanor or infraction may be sentenced to pay a fine which does not exceed

(1) For a class A misdemeanor, one thousand dollars;

(2) For a class B misdemeanor, five hundred dollars;

(3) For a class C misdemeanor, three hundred dollars;

(4) For an infraction, two hundred dollars.

2. In lieu of a fine imposed under subsection 1, a person who has been convicted of a misdemeanor or infraction through which he derived "gain" as defined in section 560.011, may be sentenced to a fine which does not exceed double the amount of gain from the commission of the offense. An individual offender may be fined not more than twenty thousand dollars under this provision.

(L. 1977 S.B. 60)

Historical Note

560.021. Fines for corporations. — 1. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for an offense defined outside this code for which no special corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, not exceeding

(1) Ten thousand dollars, when the conviction is of a felony;

(2) Five thousand dollars, when the conviction is of a class A misdemeanor;

(3) Two thousand dollars, when the conviction is of a class B misdemeanor;

(4) One thousand dollars, when the conviction is of a class C misdemeanor;

(5) Five hundred dollars, when the conviction is of an infraction;

(6) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

2. In the case of an offense defined outside this code, if a special fine for a corporation is expressly specified in the statute that defines the offense, the fine fixed by the court shall be

(1) An amount within the limits specified in the statute that defines the offense; or

(2) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

RE: Petition approval request from Brian Hagg regarding a proposed statutory amendment to Chapter 374 (2018-291)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Brian Hagg on October 5, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Chapter 374 Department of Insurance, Financial Institutions and Professional Registration 374.695 to 374.755 REGULATION OF BAIL BOND AGENTS & 374.783 to 374.789 SURETY RECOVERY AGENTS how some Missouri statutes are broken by what is listed in 374.695 to 374.789, and related statutes which have broken the Missouri Constitution Bill of Rights Article I and The United States Constitution.

Missouri Statute 374.700. Definitions. — As used in sections 374.695 to 374.789, the following terms shall mean: (1) **"Bail bond agent"**, a surety agent or an agent of a property bail bondsman who is duly licensed pursuant to the provisions of sections 374.695 to 374.789, is employed by and is working under the authority of a licensed general bail bond agent:...(3) **"Department"**, the department of insurance, financial institutions and professional registration of the state of Missouri:(4) **"Director"**, the director of the department of insurance, financial institutions and professional registration:(5) **"General bail bond agent"**, a surety agent or a property bail bondsman, as defined in sections 374.700 to 374.775, who is licensed in accordance with sections 374.700 to 374.775 and who devotes at least fifty percent of his working time to the bail bond business in this state; **(6) "Insurer", any surety insurance company which is qualified by the department to transact surety business in Missouri;(7) "Licensee", a bail bond agent or a general bail bond agent;** (8) "Property bail bondsman", a person who pledges United States currency, United States postal money orders or cashier's checks or other property as security for a bail bond in connection with a judicial proceeding, and who receives or is promised therefor money or other things of value: (9) "Surety bail bond agent", any person appointed by an insurer by power of attorney to execute or countersign bail bonds in connection with judicial proceedings, and who receives or is promised money or other things of value therefor:(10) **"Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement, excluding a bail bond agent or general bail bond agent;**
(11) "Taking a bail" or "take bail", the acceptance by a person authorized to take bail of the undertaking of a sufficient surety for the appearance of the defendant according to the terms of the undertaking or that the surety will pay to the court the sum specified. Taking of bail or take bail does not include the fixing of the amount of bail and no person other than a competent court shall fix the amount of bail.

Points (6) "Insurer" & ;(7) "Licensee", a bail bond agent or a general bail bond agent; are private citizens who think they have more power than the Missouri statutes, Missouri Constitution & the United States Constitution. Who pay fee not to exceed one hundred fifty dollars, as Missouri Statute 374.710. States issue a two-year license for the bail bond agent or general bail bond agent.

Missouri Statute 374.710. License required for bail bond agents, application, qualifications — exceptions. 3. In addition to the twenty-four hours of initial basic training to become a bail bond agent or general bail bond agent, there shall be eight hours of biennial continuing education for all bail bond agents and general bail bond agents to maintain their state license. **The director shall determine said appropriate areas of instruction for said biennial continuing education.** The director shall determine which institutions, organizations, associations, and individuals shall be eligible to provide the initial basic training and the biennial continuing education instruction. The department may allow state institutions, organizations, associations,

or individuals to provide courses for the initial basic training and the biennial continuing education training. The cost shall not exceed two hundred dollars for the initial basic training and one hundred fifty dollars for biennial continuing education.
4. Upon completion of said basic training or biennial continuing education and the licensee meeting the other requirements as provided under sections 374.695 to 374.789, the director shall issue a two-year license for the bail bond agent or general bail bond agent for a fee not to exceed one hundred fifty dollars.

Missouri Statute 374.717. Prohibited acts. — No insurer or licensee, court, or law enforcement officer shall: (4) Accept anything of value from a principal except the premium and expenses incurred, provided that the licensee shall be permitted to accept collateral security or other indemnity from the principal in accordance with the provisions of section 374.719.
Missouri Statute 374.719. Collateral security accepted, when — receipt required — used to reimburse costs, when — records to be retained. — 1. A licensee may accept collateral security from the principal in a fiduciary capacity, which collateral shall be returned upon final termination of liability on the bond. When a licensee accepts collateral, the licensee shall provide a prenumbered written receipt, which shall include a detailed account of the collateral received by the licensee.

Missouri Statute 374.757. Notification by agent of intention to apprehend — local law enforcement may accompany agent — violations, penalties. —[1. Any agent licensed by sections 374.695 to 374.775 who intends to apprehend any person in this state shall inform law enforcement authorities in the city or county in which such agent intends such apprehension, before attempting such apprehension. Such agent shall present to the local law enforcement authorities a certified copy of the bond and all other appropriate paperwork identifying the principal and the person to be apprehended. Local law enforcement may accompany the agent]. Failure of any agent to whom this section applies to comply with the provisions of this section shall be a class A misdemeanor for the first violation and a class E felony for subsequent violations; and shall also be a violation of section 374.755 and may in addition be punished pursuant to that section. [2. The surety recovery agent shall inform the local law enforcement in the county or city where such agent is planning to enter a residence. Such agent shall have a certified copy of the bond and all appropriate paperwork to identify the principal. Local law enforcement, when notified, may accompany the surety recovery agent to that location to keep the peace if an active warrant is effective for a felony or misdemeanor. If a warrant is not active, the local law enforcement officers may accompany the surety recovery agent to such location]. Failure to report to the local law enforcement agency is a class A misdemeanor. For any subsequent violations, failure to report to the local law enforcement agency is a class E felony.
374.700point (10) states surety recovery agent can't.
[**Missouri Statute** 374.783. Surety recovery agents, license required — director to license, powers. — 1. No person shall hold himself or herself out as being a surety recovery agent in this state, unless such person is licensed in accordance with the provisions of sections 374.783 to 374.789. **Licensed bail bond agents and general bail bond agents may perform fugitive recovery without being licensed as a surety recovery agent.** 2. **The director shall have authority to license all surety recovery agents in this state. The director shall have control and supervision over the licensing of such agents and the enforcement of the terms and**

provisions of sections 374.783 to 374.789. 3. The director shall have the power to: (1) Set and determine the amount of the fees authorized and required pursuant to sections 374.783 to 374.789. The fees shall be set at a level sufficient to produce revenue which shall not substantially exceed the cost and expense of administering sections 374.783 to 374.789. However, such fees shall not exceed one hundred fifty dollars for a two-year license; and (2) Determine the sufficient qualifications of applicants for a license. 4. The director shall license for a period of two years all surety recovery agents in this state who meet the requirements of sections 374.783 to 374.789.]

So Missouri Statute 374.783. the whole Missouri statute unconstitutional, Surety recovery agents, The Last sentence of point 1 Licensed bail bond agents and general bail bond agents may perform fugitive recovery without being licensed as a surety recovery agent. Unconstitutional not law enforcement

Missouri Statute 374.789. Prohibited acts. — 1. A person is guilty of a class E felony if he or she does not hold a valid surety recovery agent license or a bail bond license and commits any of the following acts:(1) Holds himself or herself out to be a licensed surety recovery agent within this state:(2) Claims that he or she can render surety recovery agent services; or (3) Engages in fugitive recovery in this state.2. Any person who engages in fugitive recovery in this state and wrongfully causes damage to any person or property, including, but not limited to, unlawful apprehension, unlawful detainment, or assault, shall be liable for such damages and may be liable for punitive damages. **Just because Missouri Statutes 374.710Point (10), 374.757, 374.783 the bail bond agent or general bail bond agent. Think they have the same power as a police office, then The surety recovery agent have to be person licensed in accordance with the provisions of sections 374.783-374.789, then in 374.700 point (10) Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive, So in 374.757 2. surety recovery agent shall inform the local law enforcement in the county or city where such agent is planning to enter a residence. So this can't happen because of the above statement of 374.700(10), a surety recovery agent can somehow have a warrant as stated in 374.757 2. & Local law enforcement may accompany.**

So What is the purpose of Missouri Statutes 374.789 Prohibited acts if they are licensed somehow they can arrest people if they have a warrant if you're a surety recovery agent so what is the need for a criminal justice education to be a policeman or law enforcement agent since you let bail bond agent, general bail bond & surety recovery agent act as law enforcement agents with just 24 hours of training and 150 dollars they are License as stated in 374.710. So the Director of Department of Insurance, Financial Institutions and Professional Registration has his own bail bond agent, general bail bond & surety recovery agent act as law enforcement agents

374.700 point (10) "Surety recovery agent", & 374.757 2. surety recovery agent contradict each other.

In 374.789 Prohibited acts 2. wrongfully causes damage to any person or property, including, but not limited to, unlawful apprehension, unlawful detainment, or assault, shall be liable for such damages and may be liable for punitive damages. **It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to**

give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design.
Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Section 15. That the people shall be secure in their persons, papers, homes, effects, and electronic communications and data, from unreasonable searches and seizures; and no warrant to search any place, or seize any person or thing, or access electronic data or communication, shall issue without describing the place to be searched, or the person or thing to be seized, or the data or communication to be accessed, as nearly as may be; nor without probable cause, supported by written oath or affirmation. Section 19. That no person shall be compelled to testify against himself in a criminal cause, nor shall any person be put again in jeopardy of life or liberty for the same offense,...

It violates The United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.
Amendment V No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; **nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law;** nor shall private property be taken for public use, without just compensation. **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.**
Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

Missouri Statute 374.755. Complaint by department, procedure — grounds — disciplinary action — alternate procedure — additional remedy **(4) Obtaining or attempting to obtain any compensation as a member of the profession licensed by sections 374.695 to 374.775 by means of fraud, deception or misrepresentation; (6) Violation of any provision of or any obligation imposed by the laws of this state, department of insurance, financial institutions and professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules or regulations, or subpoenas;**

Violations have taken place taking of money from people who are gps/electronic monitored no were in the chapter of 374 does it state taking of money for gps/electronic

monitored which a lot of people have been put on in Missouri for just being charged for a crime, and nonconvicted are paying a excessive fines imposed, which violates United States Constitution Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

Also says Missouri Statute 374.755. Complaint by department. procedure — grounds — disciplinary action — alternate procedure — additional remedy

[2. After the filing of such complaint, the proceedings shall be conducted in accordance with the provisions of chapter 621. Upon a finding by the administrative hearing commission that one or more of the causes stated in subsection 1 of this section have been met, the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.]

[3. In lieu of filing a complaint at the administrative hearing commission, the director and the bail bond agent or general bail bond agent may enter into an agreement for a monetary or other penalty pursuant to section 374.280.]

4. In addition to any other remedies available, the director may issue a cease and desist order or may seek an injunction in a court of competent jurisdiction pursuant to the provisions of section 374.046 whenever it appears that any person is acting as a bail bond agent or general bail bond agent without a license or violating any other provisions of sections 374.695 to 374.789.

Violations have taken place and somehow filing of such complaint the provisions of chapter 621. Upon a finding by the administrative hearing commission the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.

Missouri Statute 374.280. Civil penalty or forfeiture ordered when. how enforced. — 1. The director may. after a hearing under section 374.046. order a civil penalty or forfeiture payable to the state of Missouri authorized by section 374.049. which penalty or forfeiture. if unpaid within ten days. may be recovered by a civil action brought by and in the name of the director under section 374.048. The civil action may be brought in the county which has venue of an action against the person. partnership or corporation under other provisions of law. The director may also suspend or revoke the license or certificate of authority of such person for any willful violation.

2. Nothing contained in this section shall be construed to prohibit the director and any person subject to an investigation. examination. or other proceeding from agreeing to a voluntary forfeiture of the sum mentioned herein without civil proceedings being instituted. Any sum so agreed upon shall be paid into the school fund as provided by law for other fines and penalties.

An amended part to Missouri statute 374.280 that any wrong doing found by the administrative hearing commission and civil court ruling should also be paid to the victim of said crime which is Missouri Statute 374.755 (4) Obtaining or attempting to obtain any compensation as a member of the profession licensed by sections 374.695 to 374.775 by means of fraud. deception or misrepresentation;.

In Missouri Statute 374.280 2. in last sentence how is"Any sum so agreed upon shall be paid into the school fund as provided by law for other fines and penalties". What law tells them to paid into the school fund? So why is this statute trying to tell the director to just act with civil penalty and civil action or agreed sum to be paid into the school fund? when State statutes are broken the rest of the public is ticketed or arrested, put in jail, and put through the criminal justice system.

So how does the director not tell the Attorney General of Missouri, a state or local law enforcement that the law has been broken and should issue a warrant for arrest not take place, where is equal protection under the law for the person or people who had their constitutional protected rights taken from them which are in Missouri Constitution Bill of Rights Article I Section 2., Section 10., Section 14., Section 15., Section 19. and The United States Constitution Amendment IV, Amendment V, Amendment VIII, Amendment XIV Section 1., Amendment I.

Missouri Statute 621.015. Administrative hearing commission, number of commissioners — qualifications, appointment, terms, compensation. — The "Administrative Hearing Commission" is assigned to the office of administration. It shall consist of no more than five commissioners. The commissioners shall be appointed by the governor with the advice and consent of the senate. The term of each commissioner shall be for six years and until his successor is appointed, qualified and sworn. The commissioners shall be attorneys at law admitted to practice before the supreme court of Missouri, but shall not practice law during their term of office. Each commissioner shall receive annual compensation of fifty-one thousand dollars plus any salary adjustment provided pursuant to section 105.005. Each commissioner shall also be entitled to actual and necessary expenses in the performance of his duties. The office of the administrative hearing commission shall be located in the City of Jefferson and it may employ necessary clerical assistance, compensation and expenses of the commissioners to be paid from appropriations made for that purpose.

Missouri Statute 621.110. Commission's findings and recommendations — hearing by agency on disciplinary action. — Upon a finding in any cause charged by the complaint for which **the license may be suspended or revoked as provided in the statutes and regulations relating to the profession or vocation of the licensee** and within one hundred twenty days of the date the case became ready for decision, the commission shall deliver or transmit by mail to the agency which issued the license the record and a transcript of the proceedings before the commission together with the commission's findings of fact and conclusions of law. [**The commission may make recommendations as to appropriate disciplinary action but any such recommendations shall not be binding upon the agency**].... Statute continues. **So how can the commission's findings of fact and conclusions of law, even as provided in the Missouri statutes, Missouri Constitution and the United States Constitution. Not be binding upon the agency, which is just about this 374 bail/bondsman companies. The two parts of 621.110 contradict each other.**

With the above proof of what house arrest and electronic monitoring is as listed in the Missouri Statutes, and the proof that bail/bond companies pay $150 for a license from Department of Insurance, Financial Institutions and Professional Registration. For nonconvicted the illegally electronic monitor by private bail/bond companies which are listed in statute 374.700.1., Which have violated the Missouri Statute 374.717 Prohibited acts. — No insurer or licensee, court, or law enforcement officer shall: (4) Accept anything of value from a principal except the premium and expenses incurred, broke this missouri statue forcing nonconvicted to pay illegally electronic monitor fine. Missouri Statute 374.755.number (4) and (6), (4) Obtaining or attempting to obtain any compensation as a member of the profession licensed by sections 374.695 to 374.775 by means of fraud, deception or misrepresentation; (6) Violation of any provision of or any obligation imposed by the laws of this state, department of insurance, financial institutions and

professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules or regulations, or subpoenas; broke (4) of this missouri statue forcing nonconvicted to pay illegally electronic monitor fine, deception and misrepresentation nonconvicted illegally electronic monitor/GPS tracking and (6) laws of the state 374.717, 374.755(4), 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, nonconvicted illegally electronic monitor/GPS tracking and Broken the laws of the Missouri Constitution Bill of Rights Article I Section 2., Section 10., Section 15. and broken the laws as stated in Constitution of the United States Amendment I, Amendment IV, Amendment V, Amendment VII, Amendment VIII, Amendment XIV.

Missouri Statute 374.764. Alleged violations and complaints, procedure. — 1. The director shall examine and inquire into all alleged violations or complaints filed with the department of insurance, financial institutions and professional registration of the bail bond law of the state, and inquire into and investigate the bail bond business transacted in the state by any bail bond agent, general bail bond agent, or surety recovery agent. An amended part to Missouri statute 374.764 1. Shall also include That the Attorney General shall investigate all alleged violations and Missouri Statute 621.015. Administrative hearing commission findings in Missouri Statute 621.110. Commission's findings and recommendations. And any violation of the law should also go through the judicial process as stated in Missouri Constitution Bill of Rights Article I Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay.

[2. The director or any of his or her duly appointed agents may compel the attendance before him or her, and may examine, under oath, the directors, officers, bail bond agents, general bail bond agents, surety recovery agents, employees, or any other person in reference to the condition, affairs, management of the bail bond or surety recovery business, or any matters relating thereto. He or she may administer oaths or affirmations and shall have power to summon and compel the attendance of witnesses and to require and compel the production of records, books, papers, contracts, or other documents if necessary.]

[3. The director may make and conduct the investigation in person or the director may appoint one or more persons to make and conduct the investigation. If made by a person other than the director, the person duly appointed by the director shall have the same powers as granted to the director pursuant to this section. A certificate of appointment under the official seal of the director shall be sufficient authority and evidence thereof for the person to act. For the purpose of making the investigations, or having the same made, the director may employ the necessary clerical, actuarial, and other assistance.] **In Missouri Statute 374.764 2. Can act as a judge now and as stated compel the attendance before him or her, and may examine, under oath, He or she may administer oaths or affirmations and shall have power to summon and compel the attendance of witnesses and to require and compel the production of records, books, papers, contracts, or other documents if necessary. So he does this in his office not in a courtroom? In 3. If director appoints people they just need A certificate of appointment under the official seal of the director shall be sufficient authority and evidence thereof for the person to act. Each of these appointed people can act as judge and any law enforcement**

agent and require & compel any other person in reference to the condition, affairs, management of the bail bond or surety recovery business, or any matters relating thereto.

Missouri Statute 374.764. Alleged violations and complaints, procedure. **it violates the United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated,** and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment V No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; **nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law;** nor shall private property be taken for public use, without just compensation. **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances. Amendment VI In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the state and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense. Amendment VII In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise reexamined in any court of the United States, than according to the rules of the common law. Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.**

[Missouri Statute 374.785. License issued, when — reciprocity — apprehension of defendant, permitted where — fee. 1. The director shall issue a license for a period of two years to any surety recovery agent who is licensed in another jurisdiction and who:

(1) Has no violations, suspensions, or revocations of a license to engage in fugitive recovery in any jurisdiction; and

(2) Is licensed in a jurisdiction whose requirements are substantially equal to or greater than the requirements for a surety recovery agent license in Missouri at the time the applicant applies for a license.

2. Any surety recovery agent who is licensed in another state shall also be subject to the same training requirements as in-state surety recovery agents prescribe to under section 374.784.

3. For the purpose of surrender of the defendant, a surety recovery agent may apprehend the defendant anywhere within the state of Missouri before or after the forfeiture of the undertaking without personal liability for false imprisonment or may empower any surety recovery agent to

make apprehension by providing written authority endorsed on a certified copy of the undertaking and paying the lawful fees.

4. Every applicant for a license pursuant to this section, upon making application and showing the necessary qualifications as provided in this section, shall be required to pay the same fee as required of resident applicants. Within the limits provided in this section, the director may negotiate reciprocal compacts with licensing entities of other states for the admission of licensed surety recovery agents from Missouri in other states.] **Missouri Statue 374.785. 3. For the purpose of surrender of the defendant, a surety recovery agent may apprehend the defendant anywhere within the state of Missouri before or after the forfeiture of the undertaking without personal liability for false imprisonment or may empower any surety recovery agent to make apprehension by providing written authority endorsed on a certified copy of the undertaking and paying the lawful fees. This violates another Missouri Statute 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement, excluding a bail bond agent or general bail bond agent; so if a Missouri statute is violated a law is violated so are more Missouri Constitutional rights and United States Constitutional rights, the last sentence in374.785 3. Paying what lawful fees the only fees in 374.700 those (8),(9) and (11)** (8) "Property bail bondsman", **a person who pledges United States currency, United States postal money orders or cashier's checks or other property as security** for a bail bond in connection with a judicial proceeding, and who receives or is **promised therefor money or other things of value;** (9) "Surety bail bond agent", any person appointed by an insurer by power of attorney to execute or countersign bail bonds in connection with judicial proceedings, **and who receives or is promised money or other things of value therefor;**(11) "Taking a bail" or "take bail", the acceptance by a person authorized to **take bail of the undertaking of a sufficient surety** for the appearance of the defendant according to the terms of the undertaking **or that the surety will pay to the court the sum specified.**

Missouri Statute 374.787. Complaint procedure. — 1. The director [may] cause a complaint to be filed with the administrative hearing commission as provided by chapter 621 against any surety recovery agent [or any person who has failed to renew] or has surrendered his or her license for any one or any combination of the following causes:

(1) Violation of any provisions of, or any obligations imposed by, the laws of this state, the department of insurance, financial institutions and professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules, or regulations; (4) Obtaining or attempting to obtain any compensation as a surety recovery agent by means of fraud, deception, or misrepresentation; (6) Incompetence, misconduct, gross negligence, fraud, or misrepresentation in the performance of the functions or duties of a surety recovery agent;

2. After the filing of the complaint, the proceedings shall be conducted in accordance with the provisions of chapter 621. Upon a finding by the administrative hearing commission that one or more of the causes stated in subsection 1 of this section have been met, the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.

[3. In lieu of filing a complaint] with the administrative hearing commission, the director and the surety recovery agent may enter into an agreement for a monetary or other penalty pursuant to section 374.280.

Violations have taken place taking of money from people who are gps/electronic monitored no were in the chapter of 374 does it state taking of money for gps/electronic monitored which a lot of people have been put on in Missouri for just being charged for a crime, and nonconvicted are paying a excessive fines imposed, which violates United States Constitution Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

[**Missouri Statute** 374.788. Apprehension standards for breach of surety agreement or absconding. — 1. A bail bond agent having probable grounds to believe a subject free on his or her bond has failed to appear as directed by a court, has breached the terms of the subject's surety agreement, or has taken a substantial step toward absconding may utilize all lawful means to apprehend the subject. To surrender a subject to a court, a licensed bail bond or surety recovery agent having probable grounds to believe the subject is free on his or her bond may:

(1) Detain the subject in a lawful manner, for a reasonable time, provided that in the event travel from another state is involved, the detention period may include reasonable travel time not to exceed seventy-two hours:

(2) Transport a subject in a lawful manner from state to state and county to county to a place of authorized surrender: and

(3) Enter upon private or public property in a lawful manner to execute apprehension of a subject.

2. A surety recovery agent who apprehends a subject pursuant to the provisions of subsection 1 of this section shall surrender custody of the subject to the court of jurisdiction.

3. When a surety recovery agent is in the process of performing fugitive recovery, a photographic identification card shall be prominently displayed on his or her person.] **Missouri Statute** 374.788 **Is in violation of another Missouri Statute 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement. and Missouri Statute 374.785 number 3., 374.788 has broken the Missouri statute 374.700(10) and Missouri Statute 374.789. Prohibited acts. 2. each stated hereafter Missouri Statute 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement. Missouri Statute 374.789. Prohibited acts. 2. Any person who engages in fugitive recovery in this state and wrongfully causes damage to any person or property, including, but not limited to, unlawful apprehension, unlawful detainment, or assault, shall be liable for such damages and may be liable for punitive damages. It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Section 15. That the people shall be secure in their persons, papers,**

homes, effects, and electronic communications and data, from unreasonable searches and seizures; and no warrant to search any place, or seize any person or thing, or access electronic data or communication, shall issue without describing the place to be searched, or the person or thing to be seized, or the data or communication to be accessed, as nearly as may be; nor without probable cause, supported by written oath or affirmation. It violates The United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue. but upon probable cause. supported by oath or affirmation. and particularly describing the place to be searched. and the persons or things to be seized.

Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted. Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

[Missouri statute 374.786. Renewal. procedure. 374.786. Renewal. procedure. — 1. Every person licensed pursuant to sections 374.783 to 374.789 shall. before the license renewal date. apply to the director for renewal for the ensuing licensing period. The application shall be made on a form furnished to the applicant and shall state the applicant's full name. the applicant's business address. the address at which the applicant resides. the date the applicant first received a license. and the applicant's surety recovery agent identification number. if any.

2. A renewal form shall be mailed to each person licensed in this state at the person's last known address. The failure to mail the renewal form or the failure of a person to receive it does not relieve any person of the duty to be licensed and to pay the license fee required nor exempt such person from the penalties provided for failure to be licensed.

3. Each applicant for renewal shall accompany such application with a renewal fee to be paid to the department for the licensing period for which renewal is sought.

4. The director may refuse to renew any license required pursuant to sections 374.783 to 374.789 for any one or any combination of causes stated in section 374.787. The director shall notify the applicant in writing of the reasons for refusal to renew and shall advise the applicant of his or her right to file a complaint with the administrative hearing commission as provided by chapter 621.]

The above Missouri Statutes with the brackets are unlawful as defined by Missouri statutes and unconstitutional by the Missouri constitution and The United States Constitution.

No were in chapter 374.695 to 374.789 does in state gps/electronic monitoring, nor paying fine for gps/electronic monitoring.

WORKERS' COMPENSATION RESIDUAL MARKET REPORT

TITLE XXIX BUSINESS AND FINANCIAL INSTITUTIONS

374.700. Definitions. — As used in sections 374.695 to 374.789, the following terms shall mean:

(1) **"Bail bond agent"**, a surety agent or an agent of a property bail bondsman who is duly licensed pursuant to the provisions of sections 374.695 to 374.789 and is employed by and is working under the authority of a licensed general bail bond agent;

(2) **"Bail bond or appearance bond"**, a bond for a specified monetary amount which is executed by the defendant and a qualified licensee pursuant to sections 374.695 to 374.789 and which is issued to a court or authorized officer as security for the subsequent court appearance of the defendant upon the defendant's release from actual custody pending the appearance;

(3) **"Department"**, the department of insurance, financial institutions and professional registration of the state of Missouri;

(4) **"Director"**, the director of the department of insurance, financial institutions and professional registration;

(5) **"General bail bond agent"**, a surety agent or a property bail bondsman, as defined in sections 374.700 to 374.775, who is licensed in accordance with sections 374.700 to 374.775 and who devotes at least fifty percent of his working time to the bail bond business in this state;

(6) **"Insurer"**, any surety insurance company which is qualified by the department to transact surety business in Missouri;

(7) **"Licensee"**, a bail bond agent or a general bail bond agent;

(8) **"Property bail bondsman"**, a person who pledges United States currency, United States postal money orders or cashier's checks or other property as security for a bail bond in connection with any judicial proceeding and who receives or is promised therefor money or other things of value;

(9) **"Surety bail bond agent"**, any person appointed by an insurer by power of attorney to execute or countersign bail bonds in connection with judicial proceedings and to be reimbursed or to procure money or other things of value therefor;

(10) **"Surety recovery agent"**, a person who performs the duties of a recovery peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement, excluding a bail bond agent or general bail bond agent;

(11) **"Taking a bail"** or **"take bail"**, the acceptance by a person authorized to take bail of the undertaking of a criminal surety for the appearance of the defendant according to the terms of the undertaking or that the surety will pay to the court the sum specified. Taking of bail or "to bail" does not include the fixing of the amount of bail and no person other than a competent court shall fix the amount of bail.

(L. 1983 S.B. 363 § 1, A.L. 2001 S.B. 267, A.L. 2004 S.B. 1122)

TITLE XXIX BUSINESS AND FINANCIAL INSTITUTIONS

374.710. License required for bail bond agents, application, qualifications — exceptions. — 1. Except as otherwise provided in sections 374.695 to 374.775, no person or other entity shall practice as a bail bond agent or general bail bond agent, as defined in section 374.700, in Missouri unless and until the department has issued to him or her a license, to be renewed every two years as hereinafter provided, to practice as a bail bond agent or general bail bond agent.

2. An applicant for a bail bond and general bail bond agent license shall submit with the application proof that he or she has received twenty-four hours of initial basic training in areas of instruction in subjects determined by the director deemed appropriate to professionals in the bail bond profession. Bail bond agents and general bail bond agents who are licensed at the date which this act becomes law shall be exempt from such twenty-four hours of initial basic training.

3. In addition to the twenty-four hours of initial basic training to become a bail bond agent or general bail bond agent, there shall be eight hours of biennial continuing education for all bail bond agents and general bail bond agents to maintain their state license. The director shall determine said appropriate areas of instruction for said biennial continuing education. The director shall determine which institutions, organizations, associations, and individuals shall be eligible to provide the initial basic training and the biennial continuing education instruction. The department may allow state institutions, organizations, associations, or individuals to provide courses for the initial basic training and the biennial continuing education training. The cost shall not exceed two hundred dollars for the initial basic training and one hundred fifty dollars for biennial continuing education.

4. Upon completion of said basic training or biennial continuing education and the licensee meeting the other requirements as provided under sections 374.695 to 374.789, the director shall issue a two-year license for the bail bond agent or general bail bond agent for a fee not to exceed one hundred fifty dollars.

5. Nothing in sections 374.695 to 374.775 shall be construed to prohibit any person from posting or otherwise providing a bail bond in connection with any legal proceeding, provided that such person receives no fee, remuneration or consideration therefor.

(L. 1983 S.B. 363 § 1, A.L. 1995 S.B. 3, A.L. 2004 S.B. 1122)

Effective 1-01-05

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.717. Prohibited acts. — No insurer or licensee, court, or law enforcement officer shall:

(1) Pay a fee or rebate or give or promise anything of value in order to secure a settlement, compromise, remission, or reduction of the amount of any bail bond to:

(a) A jailer, police officer, peace officer, committing judge, or any other person who has power to arrest or to hold in custody any person; or

(b) Any public official or public employee.

(2) Pay a fee or rebate or give anything of value to an attorney in bail bond matters, except in defense of any action on a bond.

(3) Pay a fee or rebate or give anything of value to the principal or anyone on the principal's behalf.

(4) Accept anything of value from a principal except the premium and expenses incurred, provided that the licensee shall be permitted to accept collateral security or other indemnity from the principal in accordance with the provisions of section 374.719

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.719. Collateral security accepted, when — receipt required — used to reimburse costs, when — records to be retained. — 1. A licensee may accept collateral security from the principal in a fiduciary capacity, which collateral shall be returned upon final termination of liability on the bond. When a licensee accepts collateral, the licensee shall provide a prenumbered written receipt, which shall include a detailed account of the collateral received by the licensee. The acceptance of collateral security by a bail bond agent shall be reported to the general bail bond agent.

2. The collateral security required by the licensee shall be reasonable in relation to the amount of the bond.

3. If a failure to appear, absconding or attempting to abscond, or a judgment of forfeiture on the bond has occurred, the collateral security may be used to reimburse the licensee for any costs and expenses incurred associated with the forfeiture.

4. The general bail bond agent shall retain records of the acceptance, return, or judgment of forfeiture resulting in the use of the collateral to reimburse the licensee for a period of three years.

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.757. Notification by agent of intention to apprehend — local law enforcement may accompany agent — violations, penalties. — 1. Any agent licensed by sections 374.695 to 374.775 who intends to apprehend any person in this state shall inform law enforcement authorities in the city or county in which such agent intends such apprehension, before attempting such apprehension. Such agent shall present to the local law enforcement authorities a certified copy of the bond and all other appropriate paperwork identifying the principal and the person to be apprehended. Local law enforcement may accompany the agent. Failure of any agent to whom this section applies to comply with the provisions of this section shall be a class A misdemeanor for the first violation and a class E felony for subsequent violations, and shall also be a violation of section 374.755 and may in addition be punished pursuant to that section.

2. The surety recovery agent shall inform the local law enforcement in the county or city where such agent is planning to enter a residence. Such agent shall have a certified copy of the bond and all appropriate paperwork to identify the principal. Local law enforcement, when notified, may accompany the surety recovery agent to that location to keep the peace if an active warrant is effective for a felony or misdemeanor. If a warrant is not active, the local law enforcement officers may accompany the surety recovery agent to such location. Failure to report to the local law enforcement agency is a class A misdemeanor. For any subsequent violations, failure to report to the local law enforcement agency is a class E felony.

(L. 2001 S.B. 267, A.L. 2004 S.B. 1122, A.L. 2014 S.B. 491)

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.783. Surety recovery agents, license required — director to license, powers. — 1. No person shall hold himself or herself out as being a surety recovery agent in this state, unless such person is licensed in accordance with the provisions of sections 374.783 to 374.789. Licensed bail bond agents and general bail bond agents may perform fugitive recovery without being licensed as a surety recovery agent.

2. The director shall have authority to license all surety recovery agents in this state. The director shall have control and supervision over the licensing of such agents and the enforcement of the terms and provisions of sections 374.783 to 374.789.

3. The director shall have the power to:

(1) Set and determine the amount of the fees authorized and required pursuant to sections 374.783 to 374.789. The fees shall be set at a level sufficient to produce revenue which shall not substantially exceed the cost and expense of administering sections 374.783 to 374.789. However, such fees shall not exceed one hundred fifty dollars for a two-year license; and

(2) Determine the sufficient qualifications of applicants for a license.

4. The director shall license for a period of two years all surety recovery agents in this state who meet the requirements of sections 374.783 to 374.789.

(L. 2004 S.B. 1122)

End of effective 28 Aug 2004

Effective 28 Aug 2007 Chapter 374

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.280. Civil penalty or forfeiture ordered when, how enforced. — 1. The director may, after a hearing under section 374.046, order a civil penalty or forfeiture payable to the state of Missouri authorized by section 374.049, which penalty or forfeiture, if unpaid within ten days, may be recovered by a civil action brought by and in the name of the director under section 374.048. The civil action may be brought in the county which has venue of an action against the person, partnership or corporation under other provisions of law. The director may also suspend or revoke the license or certificate of authority of such person for any willful violation.

2. Nothing contained in this section shall be construed to prohibit the director and any person subject to an investigation, examination, or other proceeding from agreeing to a voluntary forfeiture of the sum mentioned herein without civil proceedings being instituted. Any sum so agreed upon shall be paid into the school fund as provided by law for other fines and penalties.

(L. 1967 p. 516, A.L. 1993 H.B. 709, A.L. 2007 S.B. 160)

(1982) Legislature did not expressly provide private cause of actions for violation of section 379.118, although director of division of insurance may suspend or revoke license of an insurer for any willful violation of chapter 374. Shqeir v. Equifax, Inc. (Mo. banc) 636 S.W.2d 944.

Title XL ADDITIONAL EXECUTIVE DEPARTMENTS

621.015. Administrative hearing commission, number of commissioners — qualifications, appointment, terms, compensation. — The "Administrative Hearing Commission" is assigned to the office of administration. It shall consist of no more than five commissioners. The commissioners shall be appointed by the governor with the advice and consent of the senate. The term of each commissioner shall be for six years and until his successor is appointed, qualified and sworn. The commissioners shall be attorneys at law admitted to practice before the supreme court of Missouri, but shall not practice law during their term of office. Each commissioner shall receive annual compensation of fifty-one thousand dollars plus any salary adjustment provided pursuant to section 105.005. Each commissioner shall also be entitled to actual and necessary expenses in the performance of his duties. The office of the administrative hearing commission shall be located in the City of Jefferson and it may employ necessary clerical assistance, compensation and expenses of the commissioners to be paid from appropriations made for that purpose.

(L. 1965 p. 277 § 1, A.L. 1977 H.B. 841, A.L. 1978 S.B. 661, A.L. 1984 S.B. 528, A.L. 1986 S.B. 426, A.L. 2005 H.B. 824, A.L. 2010 H.B. 1868)

Revisor's note: Salary adjustment index is printed, as required by § 105.005, in Appendix E.

621.110. Commission's findings and recommendations — hearing by agency on disciplinary action. — Upon a finding in any cause charged by the complaint for which the license may be suspended or revoked as provided in the statutes and regulations relating to the profession or vocation of the licensee and within one hundred twenty days of the date the case became ready for decision, the commission shall deliver or transmit by mail to the agency which issued the license the record and a transcript of the proceedings before the commission together with the commission's findings of fact and conclusions of law. The commission may make recommendations as to appropriate disciplinary action but any such recommendations shall not be binding upon the agency. A copy of the findings of fact, conclusions of law and the commission's recommendations, if any, shall be delivered or transmitted by mail to the licensee if the licensee's whereabouts are known, and to any attorney who represented the licensee. Within thirty days after receipt of the record of the proceedings before the commission and the findings of fact, conclusions of law, and recommendations, if any, of the commission, the agency shall set the matter for hearing upon the issue of appropriate disciplinary action and shall notify the licensee of the time and place of the hearing; provided that such hearing may be waived by consent of the agency and licensee where the commission has made recommendations as to appropriate disciplinary action. In case of such waiver by the agency and licensee, the recommendations of the commission shall become the order of the agency. The licensee may appear at said hearing and be represented by counsel. The agency may receive evidence relevant to said issue from the licensee or any other source. After such hearing, the agency may order any disciplinary measure it deems appropriate and which is authorized by law. In any case where the commission fails to find any cause charged in the complaint for which the licensee may be suspended or revoked, the commission shall dismiss the complaint and so notify all parties.

(L. 1965 p. 277 § 5, A.L. 1978 S.B. 661, A.L. 2005 S.B. 75, A.L. 2011 H.B. 215)

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.764. Alleged violations and complaints, procedure. — 1. The director shall examine and inquire into all alleged violations or complaints filed with the department of insurance, financial institutions and professional registration of the bail bond law of the state, and inquire into and investigate the bail bond business transacted in the state by any bail bond agent, general bail bond agent, or surety recovery agent.

2. The director or any of his or her duly appointed agents may compel the attendance before him or her, and may examine, under oath, the directors, officers, bail bond agents, general bail bond agents, surety recovery agents, employees, or any other person in reference to the condition, affairs, management of the bail bond or surety recovery business, or any matters relating thereto. He or she may administer oaths or affirmations and shall have power to summon and compel the attendance of witnesses and to require and compel the production of records, books, papers, contracts, or other documents if necessary.

3. The director may make and conduct the investigation in person or the director may appoint one or more persons to make and conduct the investigation. If made by a person other than the director, the person duly appointed by the director shall have the same powers as granted to the director pursuant to this section. A certificate of appointment under the official seal of the director shall be sufficient authority and evidence thereof for the person to act. For the purpose of making the investigations, or having the same made, the director may employ the necessary clerical, actuarial, and other assistance.

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.785. License issued, when — reciprocity — apprehension of defendant, permitted where — fee. — 1. The director shall issue a license for a period of two years to any surety recovery agent who is licensed in another jurisdiction and who:

(1) Has no violations, suspensions, or revocations of a license to engage in fugitive recovery in any jurisdiction, and

(2) Is licensed in a jurisdiction whose requirements are substantially equal to or greater than the requirements for a surety recovery agent license in Missouri at the time the applicant applies for a license.

2. Any surety recovery agent who is licensed in another state shall also be subject to the same training requirements as in-state surety recovery agents prescribe to under section 374.784.

3. For the purpose of surrender of the defendant, a surety recovery agent may apprehend the defendant anywhere within the state of Missouri before or after the forfeiture of the undertaking without personal liability for false imprisonment or may empower any surety recovery agent to make apprehension by providing written authority endorsed on a certified copy of the undertaking and paying the lawful fees.

4. Every applicant for a license pursuant to this section, upon making application and showing the necessary qualifications as provided in this section, shall be required to pay the same fee as required of resident applicants. Within the limits provided in this section, the director may negotiate reciprocal compacts with licensing entities of other states for the admission of licensed surety recovery agents from Missouri in other states.

Chapter 374

374.787. **Complaint procedure.** — 1. The director may cause a complaint to be filed with the administrative hearing commission as provided by chapter 621 against any surety recovery agent or any person who has failed to renew or has surrendered his or her license for any one or any combination of the following causes:

(1) Violation of any provisions of or any obligations imposed by the laws of this state, the department of insurance, financial institutions and professional registration rules and regulations or aiding or abetting other persons to violate such laws, orders, rules or regulations;

(2) Final adjudication or a plea of guilty or nolo contendere in a criminal prosecution under state or federal law for a felony or a crime involving moral turpitude, whether or not a sentence is imposed;

(3) Using fraud, deception, misrepresentation or bribery in securing a license or in obtaining permission to take any examination required by sections 374.785 to 374.790;

(4) Obtaining or attempting to obtain any compensation as a surety recovery agent by means of fraud, deception, or misrepresentation;

(5) Acting as a surety recovery agent or aiding or abetting another in acting as a surety recovery agent without a license;

(6) Incompetence, misconduct, gross negligence, fraud, or misrepresentation in the performance of the functions or duties of a surety recovery agent;

(7) Having a license revoked or suspended that was issued by another state.

2. After the filing of the complaint, the proceedings shall be conducted in accordance with the provisions of chapter 621. Upon a finding by the administrative hearing commission that one or more of the causes stated in subsection 1 of this section have been met, the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.

3. In lieu of filing a complaint with the administrative hearing commission, the director and the surety recovery agent may enter into an agreement for a monetary or other penalty pursuant to section 374.280.

4. In addition to any other remedies available, the director may issue a cease and desist order or may seek an injunction in a court of law pursuant to section 374.046 whenever it appears that any person is acting as a surety recovery agent without a license.

(L. 2014 S.B. 1122)

Effective 1st Jan. 2015

374.788. Apprehension standards for breach of surety agreement or absconding. — 1. A bail bond agent having probable grounds to believe a subject free on his or her bond has failed to appear as directed by a court, has breached the terms of the subject's surety agreement, or has taken a substantial step toward absconding may utilize all lawful means to apprehend the subject. To surrender a subject to a court, a licensed bail bond or surety recovery agent having probable grounds to believe the subject is free on his or her bond may:

(1) Detain the subject in a lawful manner, for a reasonable time, provided that in the event travel from another state is involved, the detention period may include reasonable travel time not to exceed seventy-two hours;

(2) Transport a subject in a lawful manner from state to state and county to county to a place of authorized surrender; and

(3) Enter upon private or public property in a lawful manner to execute apprehension of a subject.

2. A surety recovery agent who apprehends a subject pursuant to the provisions of subsection 1 of this section shall surrender custody of the subject to the court of jurisdiction.

3. When a surety recovery agent is in the process of performing fugitive recovery, a photographic identification card shall be prominently displayed on his or her person.

374.786. Renewal, procedure. — 1. Every person licensed pursuant to sections 374.783 to 374.789 shall, before the license renewal date, apply to the director for renewal for the ensuing licensing period. The application shall be made on a form furnished to the applicant and shall state the applicant's full name, the applicant's business address, the address at which the applicant resides, the date the applicant first received a license, and the applicant's surety recovery agent identification number, if any.

2. A renewal form shall be mailed to each person licensed in this state at the person's last known address. The failure to mail the renewal form or the failure of a person to receive it does not relieve any person of the duty to be licensed and to pay the license fee required nor exempt such person from the penalties provided for failure to be licensed.

3. Each applicant for renewal shall accompany such application with a renewal fee to be paid to the department for the licensing period for which renewal is sought.

4. The director may refuse to renew any license required pursuant to sections 374.783 to 374.789 for any one or any combination of causes stated in section 374.787. The director shall notify the applicant in writing of the reasons for refusal to renew and shall advise the applicant of his or her right to file a complaint with the administrative hearing commission as provided by chapter 621.

RE: Petition approval request from Aron Worthan-Lomax regarding a proposed constitutional amendment to Article V (2018-290)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Aron Worthan-Lomax on October 5, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the State of Missouri that the Constitution be amended

Article V of the Constitution is revised by amending Section 19, 25(a)(b)(c)(d)(e)(f)(g) to read as follows:

Terms of judges.

Section 19. Judges of the supreme court shall be elected for terms of eight years, the court of appeals shall be for a term of six years, judges of the circuit courts for terms of four years, and associate circuit judges for terms of four years. This section shall not be construed to deprive any member of the general assembly of the right to introduce any bill, except that any bill introduced by a member of the general assembly and passes by the general assembly that alters, amends, or repeal section 19 proposed through the initiative and subsequently approved by the voters shall not take effect unless and until it is also approved by the voters.

Election of judges.

Section 25(a). Judges of the supreme court, the court of appeals, or in the office of circuit or associate circuit shall be elected. All election of judges shall be had at the general state elections, except when the general assembly shall order a special election. Any appointment of judges shall take effect when approved by a majority of the votes casted thereon, and not otherwise. This section shall not be construed to deprive any member of the general assembly of the right to introduce any bill, except that any bill introduced by a member of the general assembly and passes by the general assembly that alters, amends, or repeal section 25(a) proposed through the initiative and subsequently approved by the voters shall not take effect unless and until it is also approved by the voters.

Adoption of plan in other circuits--petitions and elections--form of petition ballots.
Section 25(b). Shall be replaced.

Tenure of judges--declaration of candidacy.

Section 25(c)(1). Each judge elected pursuant to the provisions of sections 25(a) shall hold office for a term ending December thirty-first. Any unelected judge holding office at the time, by which the provisions of sections 25(a) become applicable to his office, shall, unless removed for cause, remain in office for a term not to exceed nine months. Any qualified attorney may file in the office of the secretary of state a declaration of candidacy for election pursuant to the provisions of sections 25(a) If a declaration is filed, his name shall be submitted at the next said election or special election to the voters eligible to vote within the state if the office is that of judge of the supreme court, or within the geographic jurisdiction limit of the district where he serves if his office is that of a judge of the court of appeals, or within the circuit if his office is that of circuit judge, or within the county if his office is that of associate circuit judge.
This section shall become section 25(b)

Certification of names upon declaration--law applicable to elections.

Section 25(c)(2). Whenever a declaration of candidacy for election is filed the secretary of state shall not less than thirty days before the election certify the name to the clerks of the county courts, and to the boards of election commissioners in counties or cities having such boards, or to such other officials as may hereafter be provided by law, of all counties and cities wherein the question of such office is to be submitted to the voters, and, until legislation shall be expressly provided otherwise therefor, the judicial ballots required by this section shall be prepared, printed, published and distributed, and the election upon the question of such office shall be conducted and the votes counted, canvassed, returned, certified and proclaimed by such public officials in such manner as is now provided by the statutory law.
This section shall become section 25(c)

Nonpartisan judicial commissions--number, qualifications, selection and terms of members--majority rule--reimbursement of expenses--rules of supreme court.
Section 25(d). Shall be replaced.

Payment of expenses.
Section 25(e). Shall be replaced.

Prohibition of political activity by judges.

Section 25(f). No judge of any court in this state, elected in office in the manner prescribed in sections 25(a) shall directly or indirectly make any contribution to or hold any office in a political party or organization, or take part in any political campaign.
This section shall become section 25(d)

Self-enforceability.

Section 25(g). All of the provisions of sections 25 shall be self-enforcing except those as to which action by the general assembly may be required.
This section shall become section 25(e)

Section (f)-(g) shall be deleted.

Terms of judges.

Section 19. Judges of the supreme court shall be elected for terms of eight years, the court of appeals shall be for a term of six years, judges of the circuit courts for terms of four years, and associate circuit judges for terms of four years. This section shall not be construed to deprive any member of the general assembly of the right to introduce any bill, except that any bill introduced by a member of the general assembly and passes by the general assembly that alters, amends, or repeal section 19 proposed through the initiative and subsequently approved by the voters shall not take effect unless and until it is also approved by the voters.

Election of judges.

Section 25(a). Judges of the supreme court, the court of appeals, or in the office of circuit or associate circuit shall be elected. All election of judges shall be had at the general state elections, except when the general assembly shall order a special election. Any appointment of judges shall take effect when approved by a majority of the votes casted thereon, and not otherwise. This section shall not be construed to deprive any member of the general assembly of the right to introduce any bill, except that any bill introduced by a member of the general assembly and passes by the general assembly that alters, amends, or repeal section 25(a) proposed through the initiative and subsequently approved by the voters shall not take effect unless and until it is also approved by the voters.

Tenure of judges--declaration of candidacy.

Section 25(c)(1). Each judge elected pursuant to the provisions of sections 25(a) shall hold office for a term ending December thirty-first. Any unelected judge holding office at the time, by which the provisions of sections 25(a) become applicable to his office, shall, unless removed for cause, remain in office for a term not to exceed nine months. Any qualified attorney may file in the office of the secretary of state a declaration of candidacy for election pursuant to the provisions of sections 25(a) If a declaration is filed, his name shall be submitted at the next said election or special election to the voters eligible to vote within the state if the office is that of judge of the supreme court, or within the geographic jurisdiction limit of the district where he serves if his office is that of a judge of the court of appeals, or within the circuit if his office is that of circuit judge, or within the county if his office is that of associate circuit judge.

Certification of names upon declaration--law applicable to elections.

Section 25(c). Whenever a declaration of candidacy for election is filed the secretary of state shall not less than thirty days before the election certify the name to the clerks of the county courts, and to the boards of election commissioners in counties or cities having such boards, or to such other officials as may hereafter be provided by law, of all counties and cities wherein the question of such office is to be submitted to the voters, and, until legislation shall be expressly provided otherwise therefor, the judicial ballots required by this section shall be prepared, printed, published and distributed, and the election upon the question of such office shall be conducted and the votes counted, canvassed, returned, certified and proclaimed by such public officials in such manner as is now provided by the statutory law.

Prohibition of political activity by judges.

Section 25(d). No judge of any court in this state, elected in office in the manner prescribed in sections 25(a) shall directly or indirectly make any contribution to or hold any office in a political party or organization, or take part in any political campaign.

Self-enforceability.

Section 25(e). All of the provisions of sections 25 shall be self-enforcing except those as to which action by the general assembly may be required.

Section (f) and (g). **Shall be deleted.**

RE: Petition approval request from Aron Worthan-Loux regarding a proposed constitutional amendment to Chapter V (2018-289)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Aron Worthan-Loux on October 4, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

217.543 House arrest authorized for certain prisoners — jailer to establish program — remote electronic surveillance allowed — percentage of prisoner's wage to pay cost — violation penalty — (St. Louis City). (1/1/2017)

Missouri Statute 217.541 House arrest program, department to establish and regulate — limited release, when — offenders to fund program — arrest warrant may be issued by probation or parole officer, when.

Title XIII CORRECTIONAL AND PENAL INSTITUTIONS

217.541. House arrest program, department to establish and regulate – limited release, when – offenders to fund program – arrest warrant may be issued by probation or parole officer, when. – 1. The department shall by rule establish a program of house arrest. The director or his designee may extend the limits of confinement of offenders serving sentences for class D or E felonies who have one year or less remaining prior to release on parole, conditional release, or discharge to participate in the house arrest program.

2. The offender referred to the house arrest program shall remain in the custody of the department and shall be subject to rules and regulations of the department pertaining to offenders of the department until released on parole or conditional release by the state board of probation and parole.

3. The department shall require the offender to participate in work or educational or vocational programs and other activities that may be necessary to the supervision and treatment of the offender.

4. An offender released to house arrest shall be authorized to leave his place of residence only for the purpose and time necessary to participate in the program and activities authorized in subsection 3 of this section.

5. The board of probation and parole shall supervise every offender released to the house arrest program and shall verify compliance with the requirements of this section and such other rules and regulations that the department shall promulgate and may do so by remote electronic surveillance. If any probation/parole officer has probable cause to believe that an offender under house arrest has violated a condition of the house arrest agreement, the probation/parole officer may issue a warrant for the arrest of the offender. The probation/parole officer may effect the arrest or may deputize any officer with the power of arrest to do so by giving the officer a copy of the warrant which shall outline the circumstances of the alleged violation. The warrant delivered with the offender by the arresting officer to the official in charge of any jail or other detention facility to which the offender is brought shall be sufficient legal authority for detaining the offender. An offender arrested under this section shall remain in custody or incarcerated without consideration of bail. The director or his designee, upon recommendation of the probation and parole officer, may direct the return of any offender from house arrest to a correctional facility of the department for reclassification.

6. Each offender who is released to house arrest shall pay a percentage of his wages, established by department rules, to a maximum of the per capita cost of the house arrest program. The money received from the offender shall be deposited in the inmate fund and shall be expended to support the house arrest program.

217.543 House arrest authorized for certain prisoners — jailer to establish program — remote electronic surveillance allowed — percentage of prisoner's wage to pay cost — violation penalty — (St. Louis City). (1/1/2017)

Effective 01 Jan 2017, see footnote, highlighted 10 Chapter 217

Title XIII CORRECTIONAL AND PENAL INSTITUTIONS

217.543. House arrest **authorized for certain prisoners — jailer to establish program — remote electronic surveillance allowed — percentage of prisoner's wage to pay cost — violation penalty — (St. Louis City).** — 1. The jailer of any city not within a county having custody of pretrial detainees or persons serving sentences for violation of state or local laws may establish a program of house arrest consistent with the provisions of this section.

2. Such jailer shall by rule establish a program of house arrest. Such jailer may extend the limits of confinement for pretrial detainees or persons serving sentences for violation of state or local laws.

3. The inmate or detainee shall remain an inmate of such jailer and shall be subject to the rules and regulations of the house arrest program.

4. Such jailer shall require the inmate or detainee to participate in work or educational or vocational programs and other activities that may be necessary to the supervision and treatment of the inmate or detainee.

5. An inmate or detainee released to house arrest shall be authorized to leave his or her place of residence only for the purpose and time necessary to participate in the programs and activities authorized.

6. Such jailer shall supervise every inmate or detainee released to the house arrest program and shall verify compliance with the requirements set forth for each person so released and such other rules and regulations that such jailer shall promulgate, and may do so by remote electronic surveillance. Such jailer may direct to any peace officer the return of any inmate or detainee from house arrest for violation of the conditions of release.

7. Each inmate or detainee who is released on house arrest shall pay a percentage of his or her wages to cover the costs of house arrest, such amount to be established by the jailer.

8. An inmate released to the house arrest program pursuant to this section commits the crime of escape from custody if such inmate purposely fails to return to his or her place of residence or activity as established by the jailer when he or she is required to do so. Escape from custody is a class E felony.

(L. 1991 H.B. 566, A.L. 2014 S.B. 491)

Title XXXVIII CRIMES AND PUNISHMENT; PEACE OFFICERS AND PUBLIC DEFENDERS
Chapter 557 General Sentencing Provisions
Missouri Statute 557.011 Authorized dispositions. (8/28/2013

557.011. Authorized dispositions. – 1. Every person found guilty of an offense shall be dealt with by the court in accordance with the provisions of this chapter, except that for offenses defined outside this code and not repealed, the term of imprisonment or the fine that may be imposed is that provided in the statute defining the offense; however, the conditional release term of any sentence of a term of years shall be determined as provided in subsection 4 of section 558.011.

2. Whenever any person has been found guilty of a felony or a misdemeanor the court shall make one or more of the following dispositions of the offender in any appropriate combination. The court may:

(1) Sentence the person to a term of imprisonment as authorized by chapter 558;

(2) Sentence the person to pay a fine as authorized by chapter 560;

(3) Suspend the imposition of sentence, with or without placing the person on probation;

(4) Pronounce sentence and suspend its execution, placing the person on probation;

(5) Impose a period of detention as a condition of probation, as authorized by section 559.026.

3. Whenever any person has been found guilty of an infraction, the court shall make one or more of the following dispositions of the offender in any appropriate combination. The court may:

(1) Sentence the person to pay a fine as authorized by chapter 560;

(2) Suspend the imposition of sentence, with or without placing the person on probation;

(3) Pronounce sentence and suspend its execution, placing the person on probation.

4. Whenever any organization has been found guilty of an offense, the court shall make one or more of the following dispositions of the organization in any appropriate combination. The court may:

(1) Sentence the organization to pay a fine as authorized by chapter 560;

(2) Suspend the imposition of sentence, with or without placing the organization on probation;

(3) Pronounce sentence and suspend its execution, placing the organization on probation;

(4) Impose any special sentence or sanction authorized by law.

5. This chapter shall not be construed to deprive the court of any authority conferred by law to decree a forfeiture of property, suspend or cancel a license, remove a person from office, or impose any other civil penalty. An appropriate order exercising such authority may be included as part of any sentence.

6. In the event a sentence of confinement is ordered executed, a court may order that an individual serve all or any portion of such sentence on electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest. If the judge finds the person unable to afford the costs associated with electronic monitoring, the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay the costs of such monitoring. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay from the general revenue of the county the costs of such electronic monitoring, the judge shall not order that the person be placed on house arrest with electronic monitoring.

[Missouri Statute **217.541. A.L. 2011 H.B. 111, A.L. 2013 H.B. 215 merged with H.B. 374 & 434 merged with S.B. 327)

Missouri Statute **217.541, 217.542, 217.543, did not have a court or jury as the statutes say who is in charge of house arrest and electronic monitoring, which came about in 2014 with S.B. 491,** Missouri Statute **557.011 on house arrest with electronic monitoring tell 2013 A.L. 2011 H.B. 111, A.L. 2013 H.B. 215 merged with H.B. 374 & 434 merged with S.B. 327) It**

violates the Missouri Constitution Bill of Rights Article I Section 10 That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay.
Violates the United States Constitutional **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed,** nor cruel and unusual punishments inflicted. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law**; nor deny to any person within its jurisdiction the equal protection of the laws.

Here is where the violation of due process rights and equal protection under the law for persons charged with a bailable offence, are treated the same as persons found guilty in Missouri Statute 544.455 as stated below…

Ch. 544 Arrest, Examination, Commitment and Bail
[Missouri Statute **544.455. Release of person charged, when — conditions which may be imposed. — 1. Any person charged with a bailable offense, at his or her appearance before an associate circuit judge or judge may be ordered released pending trial, appeal, or other stage of the proceedings against him on his personal recognizance, unless the associate circuit judge or judge determines, in the exercise of his discretion, that such a release will not reasonably assure the appearance of the person as required. When such a determination is made, the associate circuit judge or judge may either in lieu of or in addition to the above methods of release, impose any or any combination of the following conditions of release which will reasonably assure the appearance of the person for trial:**
(6) **Place the person on house arrest with electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest**. If the judge finds the person unable to afford the costs associated with electronic monitoring, **the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay from the general revenue of the county the costs of such monitoring**. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay the costs of such electronic monitoring, **the judge shall not order that the person be placed on house arrest with electronic monitoring;**
(7) Impose any other condition deemed reasonably necessary to assure appearance as required, including a condition requiring that the person return to custody after specified hours.
2. In determining which conditions of release will reasonably assure appearance, the associate circuit judge or judge shall, on the basis of available information, take into account the nature and circumstances of the offense charged, the weight of the evidence

against the accused, the accused's family ties, employment, financial resources, character and mental condition, the length of his residence in the community, his record of convictions, and his record of appearance at court proceedings or flight to avoid prosecution or failure to appear at court proceedings.

3. An associate circuit judge or judge authorizing the release of a person under this section shall issue an appropriate order containing a statement of the conditions imposed, if any, shall inform such person of the penalties applicable to violations of the conditions of his release and shall advise him that a warrant for his arrest will be issued immediately upon any such violation.

4. A person for whom conditions of release are imposed and who after twenty-four hours from the time of the release hearing continues to be detained as a result of his inability to meet the conditions of release, shall, upon application, be entitled to have the condition reviewed by the associate circuit judge or judge who imposed them. The motion shall be determined promptly.

5. An associate circuit judge or judge ordering the release of a person on any condition specified in this section may at any time amend his order to impose additional or different conditions of release; except that, if the imposition of such additional or different conditions results in the detention of the person as a result of his inability to meet such conditions or in the release of the person on a condition requiring him to return to custody after specified hours, the provisions of subsection 4 of this section shall apply.

6. Information stated in, or offered in connection with, any order entered pursuant to this section need not conform to the rules pertaining to the admissibility of evidence in a court of law.

7. Nothing contained in this section shall be construed to prevent the disposition of any case or class of cases by forfeiture of collateral security where such disposition is authorized by the court.

8. Persons charged with violations of municipal ordinances may be released by a municipal judge or other judge who hears and determines municipal ordinance violation cases of the municipality involved under the same conditions and in the same manner as provided in this section for release by an associate circuit judge.

9. A circuit court may adopt a local rule authorizing the pretrial release on electronic monitoring pursuant to subdivision (6) of subsection 1 of this section in lieu of incarceration of individuals charged with offenses specifically identified therein.]
A.L. 2011 H.B. 111, A.L. 2013 H.B. 215 merged with H.B. 374 & 434 merged with S.B. 327) Missouri Statute **544.455 did not have house arrest with electronic monitoring; tell the above House and Senate bills passed in 2013.** Missouri Statute 544.455**. does not state who is in charge of house arrest persons nor where the money from house arrest with electronic monitoring; goes to. Somehow the money from Missouri Statute 544.455 from house arrest with electronic monitoring goes to private bail/bond companies, NO statement in the statute. It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. Section 10. That no person shall be deprived of life, liberty or property**

without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Section 15. That the people shall be secure in their persons, papers, homes, effects, and electronic communications and data, from unreasonable searches and seizures; and no warrant to search any place, or seize any person or thing, or access electronic data or communication, shall issue without describing the place to be searched, or the person or thing to be seized, or the data or communication to be accessed, as nearly as may be; nor without probable cause, supported by written oath or affirmation. Section 19. That no person shall be compelled to testify against himself in a criminal cause, nor shall any person be put again in jeopardy of life or liberty for the same offense,…

It violates The United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment V No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; **nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law;** nor shall private property be taken for public use, without just compensation. **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.**

Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

Missouri Statute 544.455 Release of person charged, when — conditions which may be imposed. (8/28/2013)

Effective 28 Aug 2013, highlighted 5 Chapter 544

Title XXXVII CRIMINAL PROCEDURE

544.455. Release of person charged, when – conditions which may be imposed. – 1. Any person charged with a bailable offense, at his or her appearance before an associate circuit judge or judge may be ordered released pending trial, appeal, or other stage of the proceedings against him on his personal recognizance, unless the associate circuit judge or judge determines, in the exercise of his discretion, that such a release will not reasonably assure the appearance of the person as required. When such a determination is made, the associate circuit judge or judge may either in lieu of or in addition to the above methods of release, impose any or any combination of the following conditions of release which will reasonably assure the appearance of the person for trial:

(1) Place the person in the custody of a designated person or organization agreeing to supervise him;

(2) Place restriction on the travel, association, or place of abode of the person during the period of release;

(3) Require the execution of a bail bond with sufficient solvent sureties, or the deposit of cash in lieu thereof;

(4) Require the person to report regularly to some officer of the court, or peace officer, in such manner as the associate circuit judge or judge directs;

(5) Require the execution of a bond in a given sum and the deposit in the registry of the court of ten percent, or such lesser percent as the judge directs, of the sum in cash or negotiable bonds of the United States or of the state of Missouri or any political subdivision thereof;

(6) Place the person on house arrest with electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest. If the judge finds the person unable to afford the costs associated with electronic monitoring, the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay from the general revenue of the county the costs of such monitoring. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay the costs of such electronic monitoring, the judge shall not order that the person be placed on house arrest with electronic monitoring;

(7) Impose any other condition deemed reasonably necessary to assure appearance as required, including a condition requiring that the person return to custody after specified hours.

2. In determining which conditions of release will reasonably assure appearance, the associate circuit judge or judge shall, on the basis of available information, take into account the nature and circumstances of the offense charged, the weight of the evidence against the accused, the accused's family ties, employment, financial resources, character and mental condition,

(7) Impose any other condition deemed reasonably necessary to assure appearance as required, including a condition requiring that the person return to custody after specified hours.

2. In determining which conditions of release will reasonably assure appearance, the associate circuit judge or judge shall, on the basis of available information, take into account the nature and circumstances of the offense charged, the weight of the evidence against the accused, the accused's family ties, employment, financial resources, character and mental condition, the length of his residence in the community, his record of convictions, and his record of appearance at court proceedings or flight to avoid prosecution or failure to appear at court proceedings.

3. An associate circuit judge or judge authorizing the release of a person under this section shall issue an appropriate order containing a statement of the conditions imposed, if any, shall inform such person of the penalties applicable to violations of the conditions of his release and shall advise him that a warrant for his arrest will be issued immediately upon any such violation.

4. A person for whom conditions of release are imposed and who after twenty-four hours from the time of the release hearing continues to be detained as a result of his inability to meet the conditions of release, shall, upon application, be entitled to have the condition reviewed by the associate circuit judge or judge who imposed them. The motion shall be determined promptly.

5. An associate circuit judge or judge ordering the release of a person on any condition specified in this section may at any time amend his order to impose additional or different conditions of release; except that, if the imposition of such additional or different conditions results in the detention of the person as a result of his inability to meet such conditions or in the release of the person on a condition requiring him to return to custody after specified hours, the provisions of subsection 4 of this section shall apply.

6. Information stated in, or offered in connection with, any order entered pursuant to this section need not conform to the rules pertaining to the admissibility of evidence in a court of law.

7. Nothing contained in this section shall be construed to prevent the disposition of any case or class of cases by forfeiture of collateral security where such disposition is authorized by the court.

8. Persons charged with violations of municipal ordinances may be released by a municipal judge or other judge who hears and determines municipal ordinance violation cases of the municipality involved under the same conditions and in the same manner as provided in this section for release by an associate circuit judge.

9. A circuit court may adopt a local rule authorizing the pretrial release on electronic monitoring pursuant to subdivision (6) of subsection 1 of this section in lieu of incarceration of individuals charged with offenses specifically identified therein.

(L. 1972 H.B. 1160, A.L. 1978 H.B. 1634, A.L. 2011 H.B. 111, A.L. 2013 H.B. 215 merged with H.B. 374 & 434 merged with S.B. 327)

(1976) Provisions as to issuance of an appropriate order containing a statement of the conditions imposed and warning of consequences of failure to appear do not apply to persons released under the provisions of § 544.665. State v. Adams (A.), 532 S.W.2d 524.

RE: Petition approval request from Brian Hagg regarding a proposed statutory amendment to Chapters 558 and 559 (2018-287)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Brian Hagg on September 29, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

signed this page of the foregoing petition, and each of them signed his or her name thereto in my presence, I believe that each has stated his or her name, registered voting address and city, town or village correctly, and that each signer is a registered voter of the state of Missouri and ..... County. FURTHERMORE, I HEREBY SWEAR OR AFFIRM UNDER PENALTY OF PERJURY THAT ALL STATEMENTS MADE BY ME ARE TRUE AND CORRECT AND THAT I HAVE NEVER BEEN CONVICTED OF, FOUND GUILTY OF, OR PLED GUILTY TO ANY OFFENSE INVOLVING FORGERY. I am at least 18 years of age. I do .... do not .... (check one) expect to be paid for circulating this petition. If paid, list the payer .... Signature of Affiant (Person obtaining signatures) ..... (Printed Name of Affiant) ..... Address of Affiant Subscribed and sworn to before me this ..... day of ....., A.D. .... Signature of Notary ..... Address of Notary Notary Public (Seal) My commission expires ..... If this form is followed substantially and the requirements of section 116.050 and section 116.080 are met, it shall be sufficient, disregarding clerical and merely technical errors

Missouri Statute **559.026 Detention condition of probation. [**Any person placed on probation in a county of the first class or second class or in any city with a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, **even though he was not convicted and sentenced to a jail or workhouse.**(1) In misdemeanor cases, the period of detention under this section shall **not exceed the shorter of thirty days or the maximum term of imprisonment authorized for the misdemeanor by chapter 558.** (2) **In felony cases, the period of detention under this section shall not exceed one hundred twenty days]**....Not the Whole Missouri Statute its Screen printed on the next page.

Missouri Statute **558.011. Sentence of imprisonment, terms — conditional release. —** 1. The authorized terms of imprisonment, including both prison and conditional release terms, are: (1) For a class A felony, a term of years not less than ten years and not to exceed thirty years, or life imprisonment;(2) For a class B felony, a term of years not less than five years and not to exceed fifteen years;(3) For a class C felony, a term of years not less than three years and not to exceed ten years; (4) For a class D felony, a term of years not to exceed seven years;(5) For a class E felony, a term of years not to exceed four years; **(6) For a class A misdemeanor, a term not to exceed one year; (7) For a class B misdemeanor, a term not to exceed six months; (8) For a class C misdemeanor, a term not to exceed fifteen days...**Not the whole Missouri Statute its Screen printed on the next page.

In the Last paragraph of 559.026the first, second class city or a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, **even though he was not convicted and sentenced to a jail or workhouse. How can someone not convicted & sentenced be placed in detention? Was not convicted & and sentenced to a jail or workhouse. Then Missouri Statute 559.012 Did not take place so points (1) and (2) is the reason probation is given. So what probation is the not convicted on that they get detention?** Missouri Statute 559.012. **Eligible for probation, when. — The court may place a person on probation for a specific period upon conviction of any offense or upon suspending imposition of sentence** if, having regard to the nature and circumstances of the offense and to the history and character of the defendant, the court is of the opinion that: (1) Institutional confinement of the defendant is not necessary for the protection of the public; and (2) The defendant is in need of guidance, training or other assistance which, in his or her case, can be effectively administered through probation supervision.
Missouri Statute 559.026 Detention condition of probation is unconstitutional the above lines show not convicted and sentenced to a jail or workhouse. It violates the Missouri Constitution Bill of Rights Article I Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Violates the United States Constitutional **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed,** nor cruel and unusual punishments inflicted. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life,**

liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.
Point 1 of Missouri Statute 559.26 Detention condition of probation Any person placed on probation in a county of the first class or second class or in any city with a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, **even though he was not convicted and sentenced to a jail or workhouse. (1) In misdemeanor cases, the period of detention under this section shall not exceed the shorter of thirty days or the maximum term of imprisonment authorized for the misdemeanor by chapter 558, the Statute give a misdemeanor offender more imprisonment than a Felony offender.**

Missouri Statute 559.026 Detention condition of probation is unconstitutional the above lines shown. Because it gives a misdemeanor on probation more Detention than a felony. It violates the Missouri Constitution Bill of Rights Article I Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Violates the United States Constitutional **Amendment VIII** Excessive bail shall not be required, nor excessive fines imposed**, nor cruel and unusual punishments inflicted**. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law**; nor deny to any person within its jurisdiction the equal protection of the laws.

This statute also treats each felony offender the same when 558.011 has different classes of felony offences. Each class should have a different time period for detention condition of probation.

Title XXXVIII CRIMES AND PUNISHMENT; PEACE OFFICERS AND PUBLIC DEFENDERS

558.011. Sentence of imprisonment, terms — conditional release. — 1. The authorized terms of imprisonment, including both prison and conditional release terms, are:

(1) For a class A felony, a term of years not less than ten years and not to exceed thirty years, or life imprisonment;

(2) For a class B felony, a term of years not less than five years and not to exceed fifteen years;

(3) For a class C felony, a term of years not less than three years and not to exceed ten years;

(4) For a class D felony, a term of years not to exceed seven years;

(5) For a class E felony, a term of years not to exceed four years;

(6) For a class A misdemeanor, a term not to exceed one year;

(7) For a class B misdemeanor, a term not to exceed six months;

(8) For a class C misdemeanor, a term not to exceed fifteen days.

2. In cases of class D and E felonies, the court shall have discretion to imprison for a special term not to exceed one year in the county jail or other authorized penal institution, and the place of confinement shall be fixed by the court. If the court imposes a sentence of imprisonment for a term longer than one year upon a person convicted of a class D or E felony, it shall commit the person to the custody of the department of corrections.

3. (1) When a regular sentence of imprisonment for a felony is imposed, the court shall commit the person to the custody of the department of corrections for the term imposed under section 557.036, or until released under procedures established elsewhere by law.

(2) A sentence of imprisonment for a misdemeanor shall be for a definite term and the court shall commit the person to the county jail or other authorized penal institution for the term of his or her sentence or until released under procedure established elsewhere by law.

4. (1) Except as otherwise provided, a sentence of imprisonment for a term of years for felonies other than dangerous felonies as defined in section 556.061, and other than sentences of imprisonment which involve the individual's fourth or subsequent remand to the department of corrections shall consist of a prison term and a conditional release term. The conditional

New statute 558.002.1 continued has 2 different fine amounts for same offence, for persons convicted of C or D felony is either $5000 or at the top of first page beginning of statute states $10,000. Also the fine amount for corporation for a misdemeanor is just 10,000, but that is for every type the old statute had different fine amounts for different misdemeanor of A,B,C. this is unconstitutional no equal protection of the law which is a violation of the XIV of united states constitution.

The updated 560.011 is not the only Missouri statute that this558.002 replaced as it replaced 560.011,560.016 and 560.021. 560.016 and 560.021 on http://revisor.mo.gov/main/OneChapter.aspx?chapter=560 states that they are (Repealed L. 2014 S.B. 491) (1/1/2017). The www.moga.mo.gov not working since July of 2017.

[Missouri statute 558.002. Fines for felonies. — 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of an offense may be sentenced to pay a fine which does not exceed:

(1) For a class C, D, or E felony, ten thousand dollars;

(2) For a class A misdemeanor, two thousand dollars;

(3) For a class B misdemeanor, one thousand dollars;

(4) For a class C misdemeanor, seven hundred fifty dollars;

(5) For a class D misdemeanor, five hundred dollars;

(6) For an infraction, four hundred dollars;] or

(7) If the person has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the person's gain from the commission of the offense.

[2. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for any offense defined outside this code for which no specific corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, which does not exceed:

(1) For a felony, twenty thousand dollars;

(2) For a misdemeanor, ten thousand dollars;

(3) For an infraction, one thousand dollars;] or

(4) If the corporation has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the corporation's gain from the commission of the offense.

3. As used in this section the term "gain" means the amount of money or the value of property derived from the commission of the offense. The amount of money or value of property returned to the victim of the offense or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

Missouri statute 558.002 because each fine amount has increased Violates the United States Constitutional **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed,** nor cruel and unusual punishments inflicted. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law**; nor deny to any person within its jurisdiction the equal protection of the laws. **It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. Section 10. That no person shall be deprived of life, liberty or property without due process of law.**

Chapter 558
Imprisonment

‹ 558.047	Section 558.002.1	558.004 ›

August 28, 2016

Fines for felonies.

558.002. 1. Except as otherwise provided for an offense outside this code, A person who has been convicted of an offense may be sentenced to pay a fine which does not exceed

(1) For a class C, D, or E felony, ten thousand dollars;

(2) For a class A misdemeanor, two thousand dollars;

(3) For a class B misdemeanor, one thousand dollars;

(4) For a class C misdemeanor, seven hundred fifty dollars;

(5) For a class D misdemeanor, five hundred dollars;

(6) For an infraction, four hundred dollars; or

(7) If the person has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the person's gain from the commission of the offense.

2. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for any offense defined outside this code for which no specific corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, which does not exceed

(1) For a felony, twenty thousand dollars;

(2) For a misdemeanor, ten thousand dollars;

(3) For an infraction, one thousand dollars; or

(4) If the corporation has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the corporation's gain from the commission of the offense.

3. As used in this section, the term "gain" means the amount of money or the value of property derived from the commission of the offense. The amount of money or value of property returned to the victim of the offense or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain, the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

FINES
Cross References
§60.011. Fines for felonies. — 1. A person who has been convicted of a class C or D felony may be sentenced
(1) To pay a fine which does not exceed five thousand dollars, or
(2) If the offender has gained money or property through the commission of the crime, to pay an amount, fixed by the court, not exceeding double the amount of the offender's gain from the commission of the crime. An individual offender may be fined not more than twenty thousand dollars under this provision.
2. As used in this section the term "gain" means the amount of money or the value of property derived from the commission of the crime. The amount of money or value of property returned to the victims of the crime or seized by or surrendered to lawful authority prior to the time sentence is imposed shall be deducted from the fine. When the court imposes a fine based on gain the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.
3. The provisions of this section shall not apply to corporations.
§60.016. Fines for misdemeanors and infractions. — 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of a misdemeanor or infraction may be sentenced to pay a fine which does not exceed
(1) For a class A misdemeanor, one thousand dollars;
(2) For a class B misdemeanor, five hundred dollars;
(3) For a class C misdemeanor, three hundred dollars;
(4) For an infraction, two hundred dollars.
2. In lieu of a fine imposed under subsection 1, a person who has been convicted of a misdemeanor or infraction through which he derived "gain" as defined in section 560.011, may be sentenced to a fine which does not exceed double the amount of gain from the commission of the offense. An individual offender may be fined not more than twenty thousand dollars under this provision.
§60.021. Fines for corporations. — 1. A sentence to pay a fine when imposed on a corporation for an offense defined in this code or for any offense defined outside this code for which no special corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, not exceeding
(1) Ten thousand dollars, when the conviction is of a felony;
(2) Five thousand dollars, when the conviction is of a class A misdemeanor;
(3) Two thousand dollars, when the conviction is of a class B misdemeanor;
(4) One thousand dollars, when the conviction is of a class C misdemeanor;
(5) Five hundred dollars, when the conviction is of an infraction.
(6) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.
2. In the case of an offense defined outside this code, if a special fine for a corporation is expressly specified in the statute that defines the offense, the fine fixed by the court shall be
(1) An amount within the limits specified in the statute that defines the offense; or
(2) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

JOHN R. ASHCROFT
SECRETARY OF STATE
STATE OF MISSOURI

JAMES C. KIRKPATRICK
STATE INFORMATION CENTER
(573) 751-4936

ELECTIONS DIVISION
(573) 751-2301

September 26, 2017

RECEIVED
SEP 26 2017
STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 115 (2018-285)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on September 26, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Joshua D. Hawley

Be it enacted by the General Assembly of the State of Missouri:

*Chapter **115.135**, RSMo, is amended to provide automatic voter registration. Chapter 115.427. 1. and 115.427. **1. RSMo, will be amended to reflect changes in Chapter **115.135**, RSMo:*

115.135. Persons entitled to register, when— identification required— military service, registration, when. — 1. Any person who is qualified to vote, or who shall become qualified to vote on or before the day of election, shall be entitled to register in the jurisdiction within which he or she resides. In order to vote in any election for which registration is required, a person must be registered to vote in the jurisdiction of his or her residence no later than 5:00 p.m., or the normal closing time of any public building where the registration is being held if such time is later than 5:00 p.m., on the fourth Wednesday prior to the election, unless the voter is an interstate former resident, an intrastate new resident, a new resident, or a covered voter, as defined in section 115.275. Except as provided in subsection 4 of this section, in no case shall registration for an election extend beyond 10:00 p.m. on the fourth Wednesday prior to the election. Any person registering after such date shall be eligible to vote in subsequent elections.

2. A person applying to register with an election authority or a deputy registration official shall identify himself or herself by presenting a copy of a birth certificate, a Native American tribal document, other proof of United States citizenship, a valid Missouri drivers license or other form of personal identification at the time of registration.

3. Except as provided in federal law or federal elections and in section 115.277, no person shall be entitled to vote if the person has not registered to vote in the jurisdiction of his or her residence prior to the deadline to register to vote.

4. A covered voter as defined in section 115.275 who has been discharged from military service, has returned from a military deployment or activation, or has separated from employment outside the territorial limits of the United States after the deadline to register to vote, and who is otherwise qualified to register to vote, may register to vote in an election in person before the election authority until 5:00 p.m. on the Friday before such election. Such persons shall produce sufficient documentation showing evidence of qualifying for late registration pursuant to this section.

5. Registration at the division of motor vehicles.

(a) Every person applying at the division of motor vehicles for a driver's license or a renewal of the license, or personal identification document issued by the division of motor vehicles, and who is or may be by the next general election qualified to vote, shall be afforded the opportunity to register to vote, or if previously registered, be afforded the opportunity to change their address for voting purposes.

(b) The application to register to vote must be offered simultaneously with the application for the driver's license or renewal of it or application for a personal identification document. Division of motor vehicles employees must provide to applicants for driver's licenses, license renewal, or personal identification documents the same level of assistance and instruction with respect to the application to register to vote as is provided with respect to the application for driver's licenses, renewal of the license, or personal identification documents. The applicant shall be afforded the opportunity to decline to register to vote by failing to sign the voter registration form. If previously registered, the applicant shall be afforded the opportunity to change their address for voting purposes.

In order to protect the privacy of those who do not wish to register to vote for any reason, the failure of an applicant for a driver's license or renewal of it or a personal identification document to sign the voter

registration form register to vote may not be used for any purposes other than to determine the person's voter registration status.

(c) The voter registration application shall contain the registrant's name, residence address, mailing address if different from residence address, date of birth, and registrant's signature and date of affixation of signature, and may include any other information, certifications, and declarations, including those made under the penalty of perjury, that may be required by the state board in order to administer a single and unified system of voter registration in accordance with applicable state and federal laws which shall enable duly registered voters to vote in all elections in their respective voting districts including, elections for federal officers. Declarations will include signature on a form provided by the division of motor vehicles stating under penalty of law that they are a US citizen. Certifications may include utility bills, bank statements, rent receipts or other equivalent items to show proof of address. Applications for voter registration only will not be required to present a birth certificate or photo ID. Certifications showing place of residences are all that will be necssary. If there are doubts of citizenship, then **115.135.5** will be followed with the state utilizing **115.135.5**. The department of motor vehicles or agent may not question citizenship from applicant. Any doubts will be sent to the state board of elections for a follow up investigation. The voter registration application must also include, in print identical to that used in the attestation portion of the form, the following:

(i) The penalties provided by law for submitting a false voter registration;

(ii) A statement that, if the applicant declines to register to vote, his or her decision will remain confidential and be used only for voter registration purposes; and

(iii) A statement that, if the applicant does register to vote, information regarding the office or branch of the division of motor vehicles to which the application was submitted will remain confidential, to be used only for voter registration purposes.

It shall be the responsibility of the division of motor vehicles to print and to have available at all times a sufficient number of voter registration forms and declaration of citizenship in order to carry out the provisions of this section. If the division of motor vehicles or agents fail to have the required forms, the state or its agent will personally delivery and complete the forms at the applicant's place of residence.

(d) The completed voter registration application shall be transmitted by the division of motor vehicles or agent to the central voter registration system mandated not later than the next business day after the date of acceptance by the division of motor vehicles. Transmission shall be made by electronic means as prescribed by the secretary of state, and shall be in an electronic form compatible with the voter registration system maintained by the secretary of state. For each registration electronically transmitted, a hard copy will be provided to the appropriate local board of canvassers.

(e) Any person who has fully and correctly completed an application to register to vote at the division of motor vehicles is presumed to be registered as of the date of the acceptance of the registration by the division of motor vehicles. The division of motor vehicles shall not transmit the voter registration of any applicant, who fails to certify by a declaration that they are a citizen of the United States.

(f) The state board of elections shall have the authority to adopt regulations to implement and administer the provisions of this section, including all registrations taken at the division of motor vehicles.

(g)

(1) In accordance with Section 7 of the Federal National Voter Registration Act of 5 1993, other applicable state government agencies that the secretary verifies already collect documents that would provide proof of eligibility, including age, citizenship and residence address, may follow the procedures for automatic voter registration enumerated for the division of motor vehicles as described in subsections (b) through (d) of this section.

(2) Any additional agencies that are designated for automatic registration must follow the rules and protocols established in this section for the division of motor vehicles providing a declaration of citizenship.

(3) Registration for voter registration at a division of motor vehicles without application for driver's license or ID and only for for voter registration does not require a photo. The same rules are for other applicable state government agencies. There will be no charge for the voter registration.

(4) Voter ID cards will be sent to all registered voters in an envelope marked "Do not Forward" for each election. This card will be the only ID needed to vote without any need for other identification. Receipt of this card at the voters' place of residence shall be considered proof of eligibility to vote.

(h) Effective date. The provisions of this section shall take effect thirty (30) days after the administrator of the division of motor vehicles certifies in writing to the general assembly that the Missouri motor vehicle licensing system computer system is capable of meeting the requirements set forth in this section, which references the provisions of the Federal National Voter Registration Act of 1993. The administrator of the division of motor vehicles shall consult with the secretary prior to making this determination about the computer system. All changes will be made to have in place six months before the Nov., 2020 elections.

6. Verification of Citizen Status-If the state or any voting regulatory body doubts the citizenship status of the voter applicant and is unable to verify citizenship and identity via the State Verification and Exchange System (SVES) interface with the Social Security Administration, it is then the responsibility of the applicant/recipient to provide the required verification as follows:

A. CITIZENSHIP –1. FIRST LEVEL (PRIMARY DOCUMENTATION). The following forms of documentation qualify as both proof of citizenship and identity:

(a) A U.S. Passport

• Passport does not have to be currently valid to be accepted as proof of citizenship

• Passports issued with a limitation are not considered evidence of U.S. citizenship but is considered proof of identity.

(b) A Certificate of Naturalization (Forms N-550 or N-570)

(c) A Certificate of U.S. Citizenship (Form N-560 or N-561)

(d) Applicants and recipients born outside of the United States who were not U.S. citizens at birth, must submit First Level documentation as evidence of U.S. citizenship.

(e) If the applicant/recipient does not possess any of the above forms of documentation, then documentation of both the individual's citizenship (preferably from the Secondary tier of documentation) and identity is necessary.

B. SECOND LEVEL (SECONDARY)

(a) If documentation from the First Level (Primary Documentation) of citizenship is not available, the applicant/recipient must submit both a document from one of the lower levels of citizenship documentation as well as a document from the list of acceptable forms of identity documentation.

(b). Secondary level documentation includes:

i. A U.S. Birth Certificate

ii. A Certification of Birth Issued by the Department of State (Form DS-1350)

iii. A Report of Birth Abroad of a U.S. Citizen (Form FS-240)

iv. A Certification of Birth Issued by the Department of State (Form FS-545 or DS-1350)
v. A U.S. Citizens I.D. Card (Form I-197 or prior version I-179)

vi. An American Indian Card, I-872 issued by the Department of Homeland Security with the classification code "KIC" issued to identify U.S citizen members of the Texas Band of Kickapoos living near the U.S./Mexican border

vii. Final Adoption Decree showing the child's name and U.S. birthplace

viii. Evidence of Civil Service employment by the U.S. government before June 1976

iv. An official military record of service showing a U.S. place of birth

x. A Northern Mariana Identification Card, I-873 (issued by the INS to a collectively naturalized citizen of the United States who was born in the Northern Mariana Islands before November 4,1986)

Personal identification, requirements--statement for voters without required personal identification, procedure--provisional ballot, when--form of statement--notice of requirements--report—precinct register requirements--mark in lieu of signature, when--contingent effective date.

115.427. 1. Persons seeking to vote in a public election shall establish their identity and eligibility to vote at the polling place by presenting their voter ID card they received in the mail for the current election or a form of personal identification to election officials. If the voter has the voter ID card, no other form of identification will be needed. No form of personal identification other than the forms listed in this section shall be accepted to establish a voter's qualifications to vote if they do not have their voter ID card. Forms of personal identification that satisfy the requirements of this section are any one of the following:

(1) Nonexpired Missouri driver's license;

(2) Nonexpired or nonexpiring Missouri nondriver's license;

(3) A document that satisfies all of the following requirements:

(a) The document contains the name of the individual to whom the document was issued, and the name substantially conforms to the most recent signature in the individual's voter registration record;

(b) The document shows a photograph of the individual;

(c) The document includes an expiration date, and the document is not expired, or, if expired, the document expired after the date of the most recent general election; and

(d) The document was issued by the United States or the state of Missouri; or

(4) Any identification containing a photograph of the individual which is issued by the Missouri National Guard, the United States Armed Forces, or the United States Department of Veteran Affairs to a member or former member of the Missouri National Guard or the United States Armed Forces and that is not expired or does not have an expiration date.

2. (1) An individual who appears at a polling place without a form of personal identification described in subsection 1 of this section and who is otherwise qualified to vote at that polling place may execute a statement, under penalty of perjury, averring that the individual is the person listed in the precinct register; averring that the individual does not possess a form of personal identification described in subsection 1 of this section; acknowledging that the individual is eligible to receive a Missouri nondriver's license free of charge if desiring it in order to vote; and acknowledging that the individual is required to present a form of personal identification, as described in subsection 1 of this section, in order to vote. Such statement shall be executed and sworn to before the election official receiving the statement. Upon executing such statement, the individual may cast a regular ballot, provided such individual presents one of the following forms of identification:

(a) Identification issued by the state of Missouri, an agency of the state, or a local election authority of the state;

(b) Identification issued by the United States government or agency thereof;

(c) Identification issued by an institution of higher education, including a university, college, vocational and technical school, located within the state of Missouri;

(d) A copy of a current utility bill, bank statement, government check, paycheck, or other government document that contains the name and address of the individual;

(e) Other identification approved by the secretary of state under rules promulgated pursuant to this section.

(2) For any individual who appears at a polling place without a form of personal identification described in subsection 1 of this section and who is otherwise qualified to vote at that polling place, the election authority may take a picture of such individual and keep it as part of that individual's voter registration file at the election authority.

(3) Any individual who chooses not to execute the statement described in subdivision (1) of this subsection may cast a provisional ballot. Such provisional ballot shall be counted, provided that it meets the requirements of subsection 4 of this section.

(4) For the purposes of this section, the term "election official" shall include any person working under the authority of the election authority.

3. The statement to be used for voting under subdivision (1) of subsection 2 of this section shall be substantially in the following form:

"State of .....

County of .....

I do solemnly swear (or affirm) that my name is .....; that I reside at .....; that I am the person listed in the precinct register under this name and at this address; and that, under penalty of perjury, I do not possess a form of personal identification approved for voting. As a person who does not possess a form of personal identification approved for voting, I acknowledge that I am eligible to receive free of charge a Missouri nondriver's license at any fee office if desiring it in order to vote. I furthermore acknowledge that I am required to present a form of personal identification, as prescribed by law, in order to vote.

I understand that knowingly providing false information is a violation of law and subjects me to possible criminal prosecution.

.....

Signature of voter

Subscribed and affirmed before me this ..... day of ....., 20....

.....

Signature of election official"

4. A voter shall be allowed to cast a provisional ballot under section 115.430 even if the election judges cannot establish the voter's identity under this section. The election judges shall make a notation on the provisional ballot envelope to indicate that the voter's identity was not verified. The provisional ballot cast by such voter shall not be counted unless:

(1) (a) The voter returns to the polling place during the uniform polling hours established by section 115.407 and provides a form of personal identification that allows the election judges to verify the voter's identity as provided in subsection 1 of this section; or

(b) The election authority verifies the identity of the individual by comparing that individual's signature to the signature on file with the election authority and determines that the individual was eligible to cast a ballot at the polling place where the ballot was cast; and

(2) The provisional ballot otherwise qualifies to be counted under section 115.430.

5. The secretary of state shall provide advance notice of the personal identification requirements of subsection 1 of this section in a manner calculated to inform the public generally of the requirement for forms of personal identification as provided in this section. Such advance notice shall include, at a minimum, the use of advertisements and public service announcements in print, broadcast television, radio, and cable television media, as well as the posting of information on the opening pages of the official state internet websites of the secretary of state and governor.

6. (1) Notwithstanding the provisions of section 136.055 and section 302.181 to the contrary, the state and all fee offices shall provide one nondriver's license at no cost to any otherwise qualified voter who does not already possess such identification and who desires the identification in order to vote.

(2) This state and its agencies shall provide one copy of each of the following, free of charge, if needed by an individual seeking to obtain a form of personal identification described in subsection 1 of this section in order to vote:

(a) A birth certificate;

(b) A marriage license or certificate;

(c) A divorce decree;

(d) A certificate of decree of adoption;

(e) A court order changing the person's name;

(f) A Social Security card reflecting an updated name; and

(g) Naturalization papers or other documents from the United States Department of State proving citizenship.

Any individual seeking one of the above documents in order to obtain a form of personal identification described in subsection 1 of this section in order to vote may request the secretary of state to facilitate the acquisition of such documents. The secretary of state shall pay any fee or fees charged by another state or its agencies, or any court of competent jurisdiction in this state or any other state, or the federal government or its agencies, in order to obtain any of the above documents from such state or the federal government.

(3) All costs associated with the implementation of this section shall be reimbursed from the general revenue of this state by an appropriation for that purpose. If there is not a sufficient appropriation of state funds, then the personal identification requirements of subsection 1 of this section shall not be enforced.

(4) Any applicant who requests a nondriver's license for the purpose of voting shall not be required to pay a fee if the applicant executes a statement, under penalty of perjury, averring that the applicant does not have any other form of personal identification that meets the requirements of this section. The state of Missouri shall pay the legally required fees for any such applicant. The director of the department of revenue shall design a statement to be used for this purpose. The total cost associated with nondriver's license photo identification under this subsection shall be borne by the state of Missouri from funds appropriated to the department of revenue for that specific purpose. The department of revenue and a local election authority may enter into a contract that allows the local election authority to assist the department in issuing nondriver's license photo identifications.

7. The director of the department of revenue shall, by January first of each year, prepare and deliver to each member of the general assembly a report documenting the number of individuals who have requested and received a nondriver's license photo identification for the purposes of voting under this section. The report shall also include the number of persons requesting a nondriver's license for purposes of voting under this section, but not receiving such license, and the reason for the denial of the nondriver's license.

8. The precinct register shall serve as the voter identification certificate. The following form shall be printed at the top of each page of the precinct register:

VOTER'S IDENTIFICATION CERTIFICATE

Warning: It is against the law for anyone to vote, or attempt to vote, without having a lawful right to vote.

PRECINCT

WARD OR TOWNSHIP .....

GENERAL (SPECIAL, PRIMARY) ELECTION

Held ....., 20....

Date

I hereby certify that I am qualified to vote at this election by signing my name and verifying my address by signing my initials next to my address.

9. The secretary of state shall promulgate rules to effectuate the provisions of this section.

10. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2002, shall be invalid and void.

11. If any voter is unable to sign his name at the appropriate place on the certificate or computer printout, an election judge shall print the name and address of the voter in the appropriate place on the precinct register, the voter shall make his mark in lieu of signature, and the voter's mark shall be witnessed by the signature of an election judge.

12. This section shall become effective only upon the passage and approval by the voters of a constitutional amendment submitted to them by the general assembly regarding the authorization of photo identification requirements for elections by general law. If such constitutional amendment is approved by the voters, this section shall become effective June 1, 2017.

(L. 1977 H.B. 101 § 11.045, A.L. 1983 S.B. 234, A.L. 1993 S.B. 31, A.L. 2002 S.B. 675, A.L. 2006 S.B. 1014 & 730, A.L. 2016 H.B. 1631 §§ 115.427 and B)

*Contingent effective date, see subsection 12 of this section. H.B. 1631 was vetoed July 7, 2016. The veto was overridden on September 14, 2016.

Voter to present form of personal identification, acceptable identification--notice of identification requirements and procedures--affidavit, provisional ballot--form—provisional ballot when identity not verified, counted when—advance notice--payment of fee not required, when, mobile processing system--report--voter identification certificate—rulemaking authority--mark in lieu of signature permitted, when—voters without identification, provisional ballot, procedures—affidavit form--effective and expiration dates.

115.427. **1. Before receiving a ballot, voters shall establish their identity and eligibility to vote at the polling place by presenting their voter ID card they received in the mail for the current election or a form of personal identification. If the voter has the voter ID card, no other form of identification will be needed. No form of personal identification other than the forms listed in this section shall be accepted to establish a voter's qualifications to vote if they do not have their voter ID card. "Personal identification" shall mean only one of the following:

(1) Nonexpired Missouri driver's license showing the name and a photograph or digital image of the individual; or

(2) Nonexpired or nonexpiring Missouri nondriver's license showing the name and a photographic or digital image of the individual; or

(3) A document that satisfies all of the following requirements:

(a) The document contains the name of the individual to whom the document was issued, and the name substantially conforms to the most recent signature in the individual's voter registration record;

(b) The document shows a photographic or digital image of the individual;

(c) The document includes an expiration date, and the document is not expired, or if expired, expired not before the date of the most recent general election; and

(d) The document was issued by the United States or the state of Missouri; or

(4) Any identification containing a photographic or digital image of the individual which is issued by the Missouri National Guard, the United States Armed Forces, or the United States Department of Veteran Affairs to a member or former member of the Missouri National Guard or the United States Armed Forces and that does not have an expiration date.

**2. The election authority shall post a clear and conspicuous notice at each polling place informing each voter who appears at the polling place without a form of personal identification that satisfies the requirements of subsection 1 of this section that the voter may return to the polling place with a proper form of personal identification and vote a regular ballot after election judges have verified the voter's identity and eligibility under subsection 1 of this section. In addition to such posting, the election judges may also inform such voters by written or oral communication of such information posted in the notice. Voters who return to the polling place during the uniform polling

hours established by section 115.407 with a current and valid form of personal identification shall be given priority in any voting lines.

**3. An individual who appears at a polling place without identification in the form described in subsection 1 of this section and who is otherwise qualified to vote at that polling place may execute an affidavit averring that the voter is the person listed in the precinct register and that the voter does not possess a form of identification specified in this section and is unable to obtain a current and valid form of personal identification because of:

(1) A physical or mental disability or handicap of the voter, if the voter is otherwise competent to vote under Missouri law; or

(2) A sincerely held religious belief against the forms of personal identification described in subsection 1 of this section; or

(3) The voter being born on or before January 1, 1941.

Upon executing such affidavit, the individual may cast a provisional ballot. Such provisional ballot shall be counted, provided the election authority verifies the identity of the individual by comparing that individual's signature to the signature on file with the election authority and determines that the individual was eligible to cast a ballot at the polling place where the ballot was cast.

**4. The affidavit to be used for voting under subsection 3 of this section shall be substantially in the following form:

"State of .....

County of .....

I do solemnly swear (or affirm) that my name is .....; that I reside at .....; and that I am the person listed in the precinct register under this name and at this address. I further swear (or affirm) that I am unable to obtain a current and valid form of personal identification because of:

[ ] A physical or mental disability or handicap; or

[ ] A sincerely held religious belief; or

[ ] My being born on or before January 1, 1941.

I understand that knowingly providing false information is a violation of law and subjects me to possible criminal prosecution.

.....

Signature of voter

Subscribed and affirmed before me this ..... day of ...., 20....

.....

Signature of election official"

**5. A voter shall be allowed to cast a provisional ballot under section 115.430 even if the election judges cannot establish the voter's identity under subsection 1 of this section. The election judges shall make a notation on the provisional ballot envelope to indicate that the voter's identity was not verified. The provisional ballot cast by such voter shall not be counted unless:

(1) The voter returns to the polling place during the uniform polling hours established by section 111.407and provides a form of personal identification that allows the election judges to verify the voter's identity as provided in subsection 1 of this section; and

(2) The provisional ballot otherwise qualifies to be counted under section 115.430.

6. The secretary of state shall provide advance notice of the personal identification requirements of subsection 1 of this section in a manner calculated to inform the public generally of the requirement for photographic personal identification as provided in this section. Such advance notice shall include, at a minimum, the use of advertisements and public service announcements in print, broadcast television, radio, and cable television media, as well as the posting of information on the opening pages of the official state internet websites of the secretary of state and governor.

7. The provisions of section 136.055 and section 302.181 notwithstanding, any applicant who requests a nondriver's license with a photograph or digital image for the purpose of voting shall not be required to pay a fee if the applicant executes an affidavit averring that the applicant does not have any other form of photographic personal identification that meets the requirements of subsection 1 of this section. The state of Missouri shall pay the legally required fees for any such applicant. The director shall design an affidavit to be used for this purpose. However, any disabled or elderly person otherwise competent to vote shall be issued a nondriver's license photo identification through a mobile processing system operated by the Missouri department of revenue upon request if the individual is physically unable to otherwise obtain a nondriver's license photo identification. The department of revenue shall make nondriver's license photo identifications available through its mobile processing system only at facilities licensed under chapter 198 and other public places accessible to and frequented by disabled and elderly persons. The department shall provide advance notice of the times and places when the mobile processing system will be available. At least nine mobile units housed under the office of administration shall remain available for dispatch upon the request of the department of revenue to fulfill the requirements of this section. The total cost associated with nondriver's license photo identification under this subsection shall be borne by the state of Missouri from funds appropriated to the department of revenue for that specific purpose. The department of revenue and a local election authority may enter into a contract that allows the local election authority to assist the department in issuing nondriver's license photo identifications.

**8. The director of the department of revenue shall, by January first of each year, prepare and deliver to each member of the general assembly a report documenting the number of individuals who have requested and received a nondriver's license photo identification for the purposes of voting under this section. The report shall also include the number of persons requesting a nondriver's license for purposes of voting under this section, but not receiving such license, and the reason for the denial of the nondriver's license.

**9. The precinct register shall serve as the voter identification certificate. The following form shall be printed at the top of each page of the precinct register:

VOTER'S IDENTIFICATION CERTIFICATE

Warning: It is against the law for anyone to vote, or attempt to vote, without having a lawful right to vote.

PRECINCT

WARD OR TOWNSHIP .....

GENERAL (SPECIAL, PRIMARY) ELECTION

Held ....., 20....

Date

I hereby certify that I am qualified to vote at this election by signing my name and verifying my address by signing my initials next to my address.

**10. The secretary of state shall promulgate rules to effectuate the provisions of this section.

**11. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2002, shall be invalid and void.

**12. If any voter is unable to sign his name at the appropriate place on the certificate or computer printout, an election judge shall print the name and address of the voter in the appropriate place on the precinct register, the voter shall make his mark in lieu of signature, and the voter's mark shall be witnessed by the signature of an election judge.

**13. For any election held on or before November 1, 2008, an individual who appears at a polling place without identification in the form described in subsection 1 of this section, and who is otherwise qualified to vote at that polling place, may cast a provisional ballot after:

(1) Executing an affidavit which is also signed by two supervising election judges, one from each major political party, who attest that they have personal knowledge of the identity of the voter, provided that the two supervising election judges who sign an affidavit under this subdivision shall not be involved or participate in the verification of the voter's eligibility by the election authority after the provisional ballot is cast; or

(2) (a) Executing an affidavit affirming his or her identity; and

(b) Presenting a form of identification from the following list:

a. Identification issued by the state of Missouri, an agency of the state, or a local election authority of the state;

b. Identification issued by the United States government or agency thereof;

c. Identification issued by an institution of higher education, including a university, college, vocational and technical school, located within the state of Missouri;

d. A copy of a current utility bill, bank statement, government check, paycheck, or other government document that contains the name and address of the voter; or

e. Driver's license or state identification card issued by another state.

Such provisional ballot shall be entitled to be counted, provided the election authority verifies the identity of the individual by comparing that individual's signature to the current signature on file with the election authority and determines that the individual was otherwise eligible to cast a ballot at the polling place where the ballot was cast.

**14. The affidavit to be used for voting under subsection 13 of this section shall be substantially in the following form:

"State of .....

County of .....

I do solemnly swear (or affirm) that my name is .....; that I reside at .....; and that I am the person listed in the precinct register under this name and at this address.

I understand that knowingly providing false information is a violation of law and subjects me to possible criminal prosecution.

.....

Signature of voter

Subscribed and affirmed before me this ..... day of ....., 20....

.....

Signature of Election Official".

***15. The provisions of subsections 1 to 5 and 8 to 14 of this section shall become effective August 28, 2006, and this subsection shall expire September 1, 2006.

(L. 1977 H.B. 101 § 11.045, A.L. 1983 S.B. 234*, A.L. 1993 S.B. 31, A.L. 2002 S.B. 675, A.L. 2006 S.B. 1014 & 730)

Effective 6-14-06

*This section was amended by H.B. 1631, 2016. Due to the contingent effective date contained in subsection 12 of this section, both versions of this section are printed here.

**Subsections 1 to 5 and 8 to 14 effective 8-28-06

***Subsection 15 expires 9-01-06

(2006) Photo ID requirement violates state equal protection clause and the guarantee of right of qualified and registered citizens to vote; requirement is not narrowly tailored to further compelling state interest in preventing voter fraud. Weinschenk v. State, 203 S.W.3d 201 (Mo.banc).

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 147, Version 2 (2018-284)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on September 25, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

The annual franchise tax of Chapter 147.RSMo will be amended to be re-instated as follows with the revenue to be distributed to the Missouri Road Fund, to the higher education fund and to school districts with a 12% or more poverty level as directed by this amendment:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section until the tax year of 2019.

(6) For the tax year 2019, the rate shall be two percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly estimated payments will be due on April 15th of 2019.

(7) Half of the revenue of the annual franchise tax will go into the Missouri State Road Fund.

(8) Three quarters of the remaining revenue of the annual franchise tax will be to provide funds for the school districts with a 12% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed to these schools with a 12% or more poverty level. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain as specified in Chapter 163. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(9) One quarter of the remaining revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

2. Sections 147.010 to 147.120 shall not apply to corporations not organized for profit, nor to corporations organized pursuant to the provisions of chapter 349, nor to express companies, which now pay an annual tax on their gross receipts in this state, nor to insurance companies, which are subject to an annual tax on their premium receipts in this state, nor to state, district, county, town and farmers' mutual companies now organized or that may be hereafter organized pursuant to any of the laws of this state, organized for the sole purpose of writing fire, lightning, windstorm, tornado, cyclone, hail and plate glass and mutual automobile insurance and for the purpose of paying any loss incurred by any member by assessment, nor to any mutual insurance corporation not having shares, nor to a company or association organized to transact business of life or accident insurance on the assessment plan for the purpose of mutual protection and benefit to its members and the payment of stipulated sums of moneys to the family, heirs, executors, administrators or assigns of the deceased member, nor to foreign life, fire, accident, surety, liability, steam boiler, tornado, health, or other kind of insurance company of whatever nature coming within the provisions of section 147.050 and doing business in this state, nor to savings and loan associations and domestic and foreign regulated investment companies as defined by Section 170 of the Act of Congress commonly known as the Revenue Act of 1942, nor to electric and telephone corporations organized pursuant to chapter 351 and chapter 392 prior to January 1, 1980, which have been declared tax-exempt organizations pursuant to Section 501(c) of the Internal Revenue Code of 1986, nor for taxable years beginning after December 31, 1986, to banking institutions subject to the annual franchise tax imposed by sections 148.010 to 148.110; but bank deposits shall be considered as funds of the individual depositor left for safekeeping and shall not be considered in computing the amount of tax collectible pursuant to the provisions of sections 147.010 to 147.120.

3. A corporation's taxable year for purposes of sections 147.010 to 147.120 shall be its taxable year as provided in section 143.271.

[4. A corporation's transitional year for the purposes of sections 147.010 to 147.120 shall be its taxable year which includes parts of each of the years 1979 and 1980.

5. The franchise tax payable for a corporation's transitional year shall be computed by multiplying the amount otherwise due for that year by a fraction, the numerator of which is the number of months between January 1, 1980, and the end of the taxable year and the denominator of which is twelve. The franchise tax payable, if a corporation's taxable year is changed as provided in section 143.271, shall be similarly computed pursuant to regulations prescribed by the director of revenue.]

6. All franchise reports and franchise taxes shall be returned to the director of revenue. All checks and drafts remitted for payment of franchise taxes shall be made payable to the director of revenue.

7. Pursuant to section 32.057, the director of revenue shall maintain the confidentiality of all franchise tax reports returned to the director.

8. The director of the department of revenue shall honor all existing agreements between taxpayers and the director of the department of revenue.

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 147, Version 1 (2018-283)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on September 25, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

The annual franchise tax of Chapter 147.RSMo will be amended to be re-instated as follows with the revenue to be distributed to the Missouri Road Fund, to the higher education fund and to school districts with a 12% or more poverty level as directed by this amendment:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section until the tax year of 2019.

(6) For the tax year 2019, the rate shall be two percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly estimated payments will be due on April 15th of 2019.

(7) Half of the revenue of the annual franchise tax will go into the Missouri State Road Fund.

(8) Three quarters of the remaining revenue of the annual franchise tax will be to provide funds for the school districts with a 12% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed to these schools with a 12% or more poverty level. No Missouri revenue will go to non-public schools. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain as specified in Chapter 163. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(9) One quarter of the remaining revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

2. Sections 147.010 to 147.120 shall not apply to corporations not organized for profit, nor to corporations organized pursuant to the provisions of chapter 349, nor to express companies, which now pay an annual tax on their gross receipts in this state, nor to insurance companies, which are subject to an annual tax on their premium receipts in this state, nor to state, district, county, town and farmers' mutual companies now organized or that may be hereafter organized pursuant to any of the laws of this state, organized for the sole purpose of writing fire, lightning, windstorm, tornado, cyclone, hail and plate glass and mutual automobile insurance and for the purpose of paying any loss incurred by any member by assessment, nor to any mutual insurance corporation not having shares, nor to a company or association organized to transact business of life or accident insurance on the assessment plan for the purpose of mutual protection and benefit to its members and the payment of stipulated sums of moneys to the family, heirs, executors, administrators or assigns of the deceased member, nor to foreign life, fire, accident, surety, liability, steam boiler, tornado, health, or other kind of insurance company of whatever nature coming within the provisions of section 147.050 and doing business in this state, nor to savings and loan associations and domestic and foreign regulated investment companies as defined by Section 170 of the Act of Congress commonly known as the Revenue Act of 1942, nor to electric and telephone corporations organized pursuant to chapter 351 and chapter 392 prior to January 1, 1980, which have been declared tax-exempt organizations pursuant to Section 501(c) of the Internal Revenue Code of 1986, nor for taxable years beginning after December 31, 1986, to banking institutions subject to the annual franchise tax imposed by sections 148.010 to 148.110; but bank deposits shall be considered as funds of the individual depositor left for safekeeping and shall not be considered in computing the amount of tax collectible pursuant to the provisions of sections 147.010 to 147.120.

3. A corporation's taxable year for purposes of sections 147.010 to 147.120 shall be its taxable year as provided in section 143.271.

[4. A corporation's transitional year for the purposes of sections 147.010 to 147.120 shall be its taxable year which includes parts of each of the years 1979 and 1980.

5. The franchise tax payable for a corporation's transitional year shall be computed by multiplying the amount otherwise due for that year by a fraction, the numerator of which is the number of months between January 1, 1980, and the end of the taxable year and the denominator of which is twelve. The franchise tax payable, if a corporation's taxable year is changed as provided in section 143.271, shall be similarly computed pursuant to regulations prescribed by the director of revenue.]

6. All franchise reports and franchise taxes shall be returned to the director of revenue. All checks and drafts remitted for payment of franchise taxes shall be made payable to the director of revenue.

7. Pursuant to section 32.057, the director of revenue shall maintain the confidentiality of all franchise tax reports returned to the director.

8. The director of the department of revenue shall honor all existing agreements between taxpayers and the director of the department of revenue.

RE: Petition approval request from Steven Reed regarding a proposed constitutional amendment to Article IV (2018-282)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Steven Reed on September 19, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Article I entitled Bill of Rights, is amended by adding one new section to be known as Section 36, to read as follows:

Section 36. All Missouri Career Center locations and all state funded operations that are open to the public will allow the People of Missouri to petition at their public entrances as allowed in the State and Federal Constitutions as a basic and fundamental right. The Career Centers are public forums were People discuss employment and jobs and inter act with others by use of computers.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-281)

Subject

Initiative petition from Steven Reed regarding a proposed constitutional amendment to Article I. (Received September 20, 2017)

Date

October 10, 2017

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact to their department or MHTC (Missouri Highways and Transportation Commission).

Officials from the **Office of Administration** indicated this proposal would expressly allow people to petition at the public entrances of all Missouri Career Center locations as allowed in the state and federal Constitutions. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly. Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary. Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of

their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition provides no fiscal impact.

Officials from the **University of Missouri** indicated on behalf of the Office of Academic Affairs, there is no significant measurable fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College,** and **St. Louis Community College.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings from this proposal.

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Article V entitled Judicial Department, is amended by adding one new section to be known as Section 32, to read as follows:

The Supreme Court allows certified paralegals or legal assistants certified by a credited college or university, without attending law school, to shadow and work alongside of an attorney at law for a period of three years. Thereafter, the person would be allowed to take a bar exam and if passed, demonstrating good moral character and financial responsibility per State Supreme Court rules, will be able to practice law in Missouri and will be accepted by the Supreme Court and the Appeals Courts and all Courts and Tribunals in the state and have the same basic rights to practice law and give legal advice to the People of the state.

RE: Petition approval request from Steven Reed regarding a proposed constitutional amendment to Article V, Version 1 (2018-279)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Steven Reed on September 19, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

MO SECRETARY OF STATE

Chapter 374 Department of Insurance, Financial Institutions and Professional Registration 374.695 to 374.755 REGULATION OF BAIL BOND AGENTS & 374.783 to 374.789 SURETY RECOVERY AGENTS how some Missouri statutes are broken by what is listed in 374.695 to 374.789, broken the Missouri Constitution Bill of Rights Article I and The United States Constitution.

Missouri Statute 374.700. Definitions. — As used in sections 374.695 to 374.789, the following terms shall mean: (1) **"Bail bond agent"**, a surety agent or an agent of a property bail bondsman who is duly licensed pursuant to the provisions of sections 374.695 to 374.789, is employed by and is working under the authority of a licensed general bail bond agent;...(3) **"Department"**, the department of insurance, financial institutions and professional registration of the state of Missouri;(4) **"Director"**, the director of the department of insurance, financial institutions and professional registration;(5) **"General bail bond agent"**, a surety agent or a property bail bondsman, as defined in sections 374.700 to 374.775, who is licensed in accordance with sections 374.700 to 374.775 and who devotes at least fifty percent of his working time to the bail bond business in this state; **(6) "Insurer", any surety insurance company which is qualified by the department to transact surety business in Missouri;(7) "Licensee", a bail bond agent or a general bail bond agent;** (8) "Property bail bondsman", a person who pledges United States currency, United States postal money orders or cashier's checks or other property as security for a bail bond in connection with a judicial proceeding, and who receives or is promised therefor money or other things of value; (9) "Surety bail bond agent", any person appointed by an insurer by power of attorney to execute or countersign bail bonds in connection with judicial proceedings, and who receives or is promised money or other things of value therefor;(10) **"Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement, excluding a bail bond agent or general bail bond agent;**
(11) "Taking a bail" or "take bail", the acceptance by a person authorized to take bail of the undertaking of a sufficient surety for the appearance of the defendant according to the terms of the undertaking or that the surety will pay to the court the sum specified. Taking of bail or take bail does not include the fixing of the amount of bail and no person other than a competent court shall fix the amount of bail.

Points (6) "Insurer" & ;(7) "Licensee", a bail bond agent or a general bail bond agent; are private citizens who think they have more power than the Missouri statutes, Missouri Constitution & the United States Constitution. Who pay fee not to exceed one hundred fifty dollars, as Missouri Statute 374.710. States issue a two-year license for the bail bond agent or general bail bond agent.

Missouri Statute 374.710. License required for bail bond agents, application, qualifications — exceptions. 3. In addition to the twenty-four hours of initial basic training to become a bail bond agent or general bail bond agent, there shall be eight hours of biennial continuing education for all bail bond agents and general bail bond agents to maintain their state license. **The director shall determine said appropriate areas of instruction for said biennial continuing education.** The director shall determine which institutions, organizations, associations, and individuals shall be eligible to provide the initial basic training and the biennial continuing education instruction. The department may allow state institutions, organizations, associations, or individuals to provide courses for the initial basic training and the biennial continuing

education training. The cost shall not exceed two hundred dollars for the initial basic training and one hundred fifty dollars for biennial continuing education.
4. Upon completion of said basic training or biennial continuing education and the licensee meeting the other requirements as provided under sections 374.695 to 374.789, the director shall issue a two-year license for the bail bond agent or general bail bond agent for a fee not to exceed one hundred fifty dollars.

Missouri Statute 374.717. Prohibited acts. — No insurer or licensee, court, or law enforcement officer shall: (4) Accept anything of value from a principal except the premium and expenses incurred, provided that the licensee shall be permitted to accept collateral security or other indemnity from the principal in accordance with the provisions of section 374.719.
Missouri Statute 374.719. Collateral security accepted, when — receipt required — used to reimburse costs, when — records to be retained. — 1. A licensee may accept collateral security from the principal in a fiduciary capacity, which collateral shall be returned upon final termination of liability on the bond. When a licensee accepts collateral, the licensee shall provide a prenumbered written receipt, which shall include a detailed account of the collateral received by the licensee.

Missouri Statute 374.757. Notification by agent of intention to apprehend — local law enforcement may accompany agent — violations, penalties. —[1. Any agent licensed by sections 374.695 to 374.775 who intends to apprehend any person in this state shall inform law enforcement authorities in the city or county in which such agent intends such apprehension, before attempting such apprehension. Such agent shall present to the local law enforcement authorities a certified copy of the bond and all other appropriate paperwork identifying the principal and the person to be apprehended. Local law enforcement may accompany the agent]. Failure of any agent to whom this section applies to comply with the provisions of this section shall be a class A misdemeanor for the first violation and a class E felony for subsequent violations; and shall also be a violation of section 374.755 and may in addition be punished pursuant to that section. [2. The surety recovery agent shall inform the local law enforcement in the county or city where such agent is planning to enter a residence. Such agent shall have a certified copy of the bond and all appropriate paperwork to identify the principal. Local law enforcement, when notified, may accompany the surety recovery agent to that location to keep the peace if an active warrant is effective for a felony or misdemeanor. If a warrant is not active, the local law enforcement officers may accompany the surety recovery agent to such location]. Failure to report to the local law enforcement agency is a class A misdemeanor. For any subsequent violations, failure to report to the local law enforcement agency is a class E felony.
374.700point (10) states surety recovery agent can't.
[Missouri Statute 374.783. Surety recovery agents, license required — director to license, powers. — 1. No person shall hold himself or herself out as being a surety recovery agent in this state, unless such person is licensed in accordance with the provisions of sections 374.783 to 374.789. **Licensed bail bond agents and general bail bond agents may perform fugitive recovery without being licensed as a surety recovery agent.** 2. **The director shall have authority to license all surety recovery agents in this state. The director shall have control and supervision over the licensing of such agents and the enforcement of the terms and provisions of sections 374.783 to 374.789.** 3. The director shall have the power to: (1) Set and

determine the amount of the fees authorized and required pursuant to sections 374.783 to 374.789. The fees shall be set at a level sufficient to produce revenue which shall not substantially exceed the cost and expense of administering sections 374.783 to 374.789. However, such fees shall not exceed one hundred fifty dollars for a two-year license; and (2) Determine the sufficient qualifications of applicants for a license. 4. The director shall license for a period of two years all surety recovery agents in this state who meet the requirements of sections 374.783 to 374.789.]

So Missouri Statute 374.783. the whole Missouri statute unconstitutional, Surety recovery agents, The Last sentence of point 1 Licensed bail bond agents and general bail bond agents may perform fugitive recovery without being licensed as a surety recovery agent. Unconstitutional not law enforcement

Missouri Statute 374.789. Prohibited acts. — 1. A person is guilty of a class E felony if he or she does not hold a valid surety recovery agent license or a bail bond license and commits any of the following acts:(1) Holds himself or herself out to be a licensed surety recovery agent within this state;(2) Claims that he or she can render surety recovery agent services; or (3) Engages in fugitive recovery in this state.2. Any person who engages in fugitive recovery in this state and wrongfully causes damage to any person or property, including, but not limited to, unlawful apprehension, unlawful detainment, or assault, shall be liable for such damages and may be liable for punitive damages. **Just because Missouri Statutes 374.710Point (10), 374.757, 374.783 the bail bond agent or general bail bond agent, Think they have the same power as a police office, then The surety recovery agent have to be person licensed in accordance with the provisions of sections 374.783-374.789, then in 374.700 point (10) Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive, So in 374.757 2. surety recovery agent shall inform the local law enforcement in the county or city where such agent is planning to enter a residence. So this can't happen because of the above statement of 374.700(10), a surety recovery agent can somehow have a warrant as stated in 374.757 2. & Local law enforcement may accompany.**

So What is the purpose of Missouri Statutes 374.789 Prohibited acts if they are licensed somehow they can arrest people if they have a warrant if you're a surety recovery agent so what is the need for a criminal justice education to be a policeman or law enforcement agent since you let bail bond agent, general bail bond & surety recovery agent act as law enforcement agents with just 24 hours of training and 150 dollars they are License as stated in 374.710. So the Director of Department of Insurance, Financial Institutions and Professional Registration has his own bail bond agent, general bail bond & surety recovery agent act as law enforcement agents

374.700 point (10) "Surety recovery agent", & 374.757 2. surety recovery agent contradict each other.

In 374.789 Prohibited acts 2. wrongfully causes damage to any person or property, including, but not limited to, unlawful apprehension, unlawful detainment, or assault, shall be liable for such damages and may be liable for punitive damages. **It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to**

give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design.
Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Section 15. That the people shall be secure in their persons, papers, homes, effects, and electronic communications and data, from unreasonable searches and seizures; and no warrant to search any place, or seize any person or thing, or access electronic data or communication, shall issue without describing the place to be searched, or the person or thing to be seized, or the data or communication to be accessed, as nearly as may be; nor without probable cause, supported by written oath or affirmation. Section 19. That no person shall be compelled to testify against himself in a criminal cause, nor shall any person be put again in jeopardy of life or liberty for the same offense,...

It violates The United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.
Amendment V No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; **nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law;** nor shall private property be taken for public use, without just compensation. **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.**
Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

Missouri Statute 374.755. Complaint by department, procedure — grounds — disciplinary action — alternate procedure — additional remedy **(4) Obtaining or attempting to obtain any compensation as a member of the profession licensed by sections 374.695 to 374.775 by means of fraud, deception or misrepresentation; (6) Violation of any provision of or any obligation imposed by the laws of this state, department of insurance, financial institutions and professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules or regulations, or subpoenas;**

Violations have taken place taking of money from people who are gps/electronic monitored no were in the chapter of 374 does it state taking of money for gps/electronic

monitored which a lot of people have been put on in Missouri for just being charged for a crime, and nonconvicted are paying a excessive fines imposed, which violates United States Constitution Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

Also says Missouri Statute 374.755. Complaint by department, procedure — grounds — disciplinary action — alternate procedure — additional remedy

[2. After the filing of such complaint, the proceedings shall be conducted in accordance with the provisions of chapter 621. Upon a finding by the administrative hearing commission that one or more of the causes stated in subsection 1 of this section have been met, the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.]

[3. In lieu of filing a complaint at the administrative hearing commission, the director and the bail bond agent or general bail bond agent may enter into an agreement for a monetary or other penalty pursuant to section 374.280.]

4. In addition to any other remedies available, the director may issue a cease and desist order or may seek an injunction in a court of competent jurisdiction pursuant to the provisions of section 374.046 whenever it appears that any person is acting as a bail bond agent or general bail bond agent without a license or violating any other provisions of sections 374.695 to 374.789.

Violations have taken place and somehow filing of such complaint the provisions of chapter 621. Upon a finding by the administrative hearing commission the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.

Missouri Statute 374.280. Civil penalty or forfeiture ordered when, how enforced. — 1. The director may, after a hearing under section 374.046, order a civil penalty or forfeiture payable to the state of Missouri authorized by section 374.049, which penalty or forfeiture, if unpaid within ten days, may be recovered by a civil action brought by and in the name of the director under section 374.048. The civil action may be brought in the county which has venue of an action against the person, partnership or corporation under other provisions of law. The director may also suspend or revoke the license or certificate of authority of such person for any willful violation.

2. Nothing contained in this section shall be construed to prohibit the director and any person subject to an investigation, examination, or other proceeding from agreeing to a voluntary forfeiture of the sum mentioned herein without civil proceedings being instituted. Any sum so agreed upon shall be paid into the school fund as provided by law for other fines and penalties.

An amended part to Missouri statute 374.280 that any wrong doing found by the administrative hearing commission and civil court ruling should also be paid to the victim of said crime which is Missouri Statute 374.755 (4) Obtaining or attempting to obtain any compensation as a member of the profession licensed by sections 374.695 to 374.775 by means of fraud, deception or misrepresentation;.

In Missouri Statute 374.280 2. in last sentence how is"Any sum so agreed upon shall be paid into the school fund as provided by law for other fines and penalties". What law tells them to paid into the school fund? So why is this statute trying to tell the director to just act with civil penalty and civil action or agreed sum to be paid into the school fund? when State statutes are broken the rest of the public is ticketed or arrested, put in jail, and put through the criminal justice system.

So how does the director not tell the Attorney General of Missouri, a state or local law enforcement that the law has been broken and should issue a warrant for arrest not take place, where is equal protection under the law for the person or people who had their constitutional protected rights taken from them which are in Missouri Constitution Bill of Rights Article I Section 2., Section 10., Section 14., Section 15., Section 19. and The United States Constitution Amendment IV, Amendment V, Amendment VIII, Amendment XIV Section 1., Amendment I.

Missouri Statute 621.015. Administrative hearing commission, number of commissioners — qualifications, appointment, terms, compensation. — The "Administrative Hearing Commission" is assigned to the office of administration. It shall consist of no more than five commissioners. The commissioners shall be appointed by the governor with the advice and consent of the senate. The term of each commissioner shall be for six years and until his successor is appointed, qualified and sworn. The commissioners shall be attorneys at law admitted to practice before the supreme court of Missouri, but shall not practice law during their term of office. Each commissioner shall receive annual compensation of fifty-one thousand dollars plus any salary adjustment provided pursuant to section 105.005. Each commissioner shall also be entitled to actual and necessary expenses in the performance of his duties. The office of the administrative hearing commission shall be located in the City of Jefferson and it may employ necessary clerical assistance, compensation and expenses of the commissioners to be paid from appropriations made for that purpose.

Missouri Statute 621.110. Commission's findings and recommendations — hearing by agency on disciplinary action. — Upon a finding in any cause charged by the complaint for which **the license may be suspended or revoked as provided in the statutes and regulations relating to the profession or vocation of the licensee** and within one hundred twenty days of the date the case became ready for decision, the commission shall deliver or transmit by mail to the agency which issued the license the record and a transcript of the proceedings before the commission together with the commission's findings of fact and conclusions of law. [**The commission may make recommendations as to appropriate disciplinary action but any such recommendations shall not be binding upon the agency**].... Statute continues. **So how can the commission's findings of fact and conclusions of law, even as provided in the Missouri statutes, Missouri Constitution and the United States Constitution. Not be binding upon the agency, which is just about this 374 bail/bondsman companies. The two parts of 621.110 contradict each other.**

With the above proof of what house arrest and electronic monitoring is as listed in the Missouri Statutes, and the proof that bail/bond companies pay $150 for a license from Department of Insurance, Financial Institutions and Professional Registration. For nonconvicted the illegally electronic monitor by private bail/bond companies which are listed in statute 374.700.1., Which have violated the Missouri Statute 374.717 Prohibited acts. — No insurer or licensee, court, or law enforcement officer shall: (4) Accept anything of value from a principal except the premium and expenses incurred, broke this missouri statue forcing nonconvicted to pay illegally electronic monitor fine. Missouri Statute 374.755.number (4) and (6), (4) Obtaining or attempting to obtain any compensation as a member of the profession licensed by sections 374.695 to 374.775 by means of fraud, deception or misrepresentation; (6) Violation of any provision of or any obligation imposed by the laws of this state, department of insurance, financial institutions and

professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules or regulations, or subpoenas; broke (4) of this missouri statue forcing nonconvicted to pay illegally electronic monitor fine, deception and misrepresentation nonconvicted illegally electronic monitor/GPS tracking and (6) laws of the state 374.717, 374.755(4), 374.700 (10) **"Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, nonconvicted illegally electronic monitor/GPS tracking and Broken the laws of the Missouri Constitution Bill of Rights Article I Section 2., Section 10., Section 15. and broken the laws as stated in Constitution of the United States Amendment I, Amendment IV, Amendment V, Amendment VII, Amendment VIII, Amendment XIV.**

Missouri Statute 374.764. Alleged violations and complaints, procedure. — 1. The director shall examine and inquire into all alleged violations or complaints filed with the department of insurance, financial institutions and professional registration of the bail bond law of the state, and inquire into and investigate the bail bond business transacted in the state by any bail bond agent, general bail bond agent, or surety recovery agent. An amended part to Missouri statute 374.764 1. Shall also include That the Attorney General shall investigate all alleged violations and Missouri Statute 621.015. Administrative hearing commission findings in Missouri Statute 621.110. Commission's findings and recommendations. And any violation of the law should also go through the judicial process as stated in Missouri Constitution Bill of Rights Article I Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay.

[2. The director or any of his or her duly appointed agents may compel the attendance before him or her, and may examine, under oath, the directors, officers, bail bond agents, general bail bond agents, surety recovery agents, employees, or any other person in reference to the condition, affairs, management of the bail bond or surety recovery business, or any matters relating thereto. He or she may administer oaths or affirmations and shall have power to summon and compel the attendance of witnesses and to require and compel the production of records, books, papers, contracts, or other documents if necessary.]

[3. The director may make and conduct the investigation in person or the director may appoint one or more persons to make and conduct the investigation. If made by a person other than the director, the person duly appointed by the director shall have the same powers as granted to the director pursuant to this section. A certificate of appointment under the official seal of the director shall be sufficient authority and evidence thereof for the person to act. For the purpose of making the investigations, or having the same made, the director may employ the necessary clerical, actuarial, and other assistance.] **In Missouri Statute 374.764 2. Can act as a judge now and as stated compel the attendance before him or her, and may examine, under oath, He or she may administer oaths or affirmations and shall have power to summon and compel the attendance of witnesses and to require and compel the production of records, books, papers, contracts, or other documents if necessary. So he does this in his office not in a courtroom? In 3. If director appoints people they just need A certificate of appointment under the official seal of the director shall be sufficient authority and evidence thereof for the person to act. Each of these appointed people can act as judge and any law enforcement**

agent and require & compel any other person in reference to the condition, affairs, management of the bail bond or surety recovery business, or any matters relating thereto.

Missouri Statute 374.764. Alleged violations and complaints, procedure. **it violates the United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated,** and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment V No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; **nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law;** nor shall private property be taken for public use, without just compensation. **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances. Amendment VI In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the state and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense. Amendment VII In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise reexamined in any court of the United States, than according to the rules of the common law. Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.**

[Missouri Statute 374.785. License issued, when — reciprocity — apprehension of defendant, permitted where — fee. 1. The director shall issue a license for a period of two years to any surety recovery agent who is licensed in another jurisdiction and who:

(1) Has no violations, suspensions, or revocations of a license to engage in fugitive recovery in any jurisdiction; and

(2) Is licensed in a jurisdiction whose requirements are substantially equal to or greater than the requirements for a surety recovery agent license in Missouri at the time the applicant applies for a license.

2. Any surety recovery agent who is licensed in another state shall also be subject to the same training requirements as in-state surety recovery agents prescribe to under section 374.784.

3. For the purpose of surrender of the defendant, a surety recovery agent may apprehend the defendant anywhere within the state of Missouri before or after the forfeiture of the undertaking without personal liability for false imprisonment or may empower any surety recovery agent to

make apprehension by providing written authority endorsed on a certified copy of the undertaking and paying the lawful fees.

4. Every applicant for a license pursuant to this section, upon making application and showing the necessary qualifications as provided in this section, shall be required to pay the same fee as required of resident applicants. Within the limits provided in this section, the director may negotiate reciprocal compacts with licensing entities of other states for the admission of licensed surety recovery agents from Missouri in other states.] **Missouri Statue 374.785. 3. For the purpose of surrender of the defendant, a surety recovery agent may apprehend the defendant anywhere within the state of Missouri before or after the forfeiture of the undertaking without personal liability for false imprisonment or may empower any surety recovery agent to make apprehension by providing written authority endorsed on a certified copy of the undertaking and paying the lawful fees. This violates another Missouri Statute 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement, excluding a bail bond agent or general bail bond agent; so if a Missouri statute is violated a law is violated so are more Missouri Constitutional rights and United States Constitutional rights, the last sentence in374.785 3. Paying what lawful fees the only fees in 374.700 those (8),(9) and (11)** (8) "Property bail bondsman", **a person who pledges United States currency, United States postal money orders or cashier's checks or other property as security** for a bail bond in connection with a judicial proceeding, and who receives or is **promised therefor money or other things of value;** (9) "Surety bail bond agent", any person appointed by an insurer by power of attorney to execute or countersign bail bonds in connection with judicial proceedings, **and who receives or is promised money or other things of value therefor;**(11) "Taking a bail" or "take bail", the acceptance by a person authorized to **take bail of the undertaking of a sufficient surety** for the appearance of the defendant according to the terms of the undertaking **or that the surety will pay to the court the sum specified.**

Missouri Statute 374.787. Complaint procedure. — 1. The director [may] cause a complaint to be filed with the administrative hearing commission as provided by chapter 621 against any surety recovery agent [or any person who has failed to renew] or has surrendered his or her license for any one or any combination of the following causes:

(1) Violation of any provisions of, or any obligations imposed by, the laws of this state, the department of insurance, financial institutions and professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules, or regulations; (4) Obtaining or attempting to obtain any compensation as a surety recovery agent by means of fraud, deception, or misrepresentation; (6) Incompetence, misconduct, gross negligence, fraud, or misrepresentation in the performance of the functions or duties of a surety recovery agent;

2. After the filing of the complaint, the proceedings shall be conducted in accordance with the provisions of chapter 621. Upon a finding by the administrative hearing commission that one or more of the causes stated in subsection 1 of this section have been met, the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.

[3. In lieu of filing a complaint] with the administrative hearing commission, the director and the surety recovery agent may enter into an agreement for a monetary or other penalty pursuant to section 374.280.

Violations have taken place taking of money from people who are gps/electronic monitored no were in the chapter of 374 does it state taking of money for gps/electronic monitored which a lot of people have been put on in Missouri for just being charged for a crime, and nonconvicted are paying a excessive fines imposed, which violates United States Constitution Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

[**Missouri Statute** 374.788. Apprehension standards for breach of surety agreement or absconding. — 1. A bail bond agent having probable grounds to believe a subject free on his or her bond has failed to appear as directed by a court, has breached the terms of the subject's surety agreement, or has taken a substantial step toward absconding may utilize all lawful means to apprehend the subject. To surrender a subject to a court, a licensed bail bond or surety recovery agent having probable grounds to believe the subject is free on his or her bond may:

(1) Detain the subject in a lawful manner, for a reasonable time, provided that in the event travel from another state is involved, the detention period may include reasonable travel time not to exceed seventy-two hours;

(2) Transport a subject in a lawful manner from state to state and county to county to a place of authorized surrender; and

(3) Enter upon private or public property in a lawful manner to execute apprehension of a subject.

2. A surety recovery agent who apprehends a subject pursuant to the provisions of subsection 1 of this section shall surrender custody of the subject to the court of jurisdiction.

3. When a surety recovery agent is in the process of performing fugitive recovery, a photographic identification card shall be prominently displayed on his or her person.] **Missouri Statute 374.788 Is in violation of another Missouri Statute 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement. and Missouri Statute 374.785 number 3., 374.788 has broken the Missouri statute 374.700(10) and Missouri Statute 374.789. Prohibited acts. 2. each stated hereafter Missouri Statute 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement. Missouri Statute 374.789. Prohibited acts. 2. Any person who engages in fugitive recovery in this state and wrongfully causes damage to any person or property, including, but not limited to, unlawful apprehension, unlawful detainment, or assault, shall be liable for such damages and may be liable for punitive damages. It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Section 15. That the people shall be secure in their persons, papers,**

homes, effects, and electronic communications and data, from unreasonable searches and seizures; and no warrant to search any place, or seize any person or thing, or access electronic data or communication, shall issue without describing the place to be searched, or the person or thing to be seized, or the data or communication to be accessed, as nearly as may be; nor without probable cause, supported by written oath or affirmation. It violates The United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted. Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

[**Missouri statute 374.786**. Renewal, procedure. 374.786. Renewal, procedure. — 1. Every person licensed pursuant to sections 374.783 to 374.789 shall, before the license renewal date, apply to the director for renewal for the ensuing licensing period. The application shall be made on a form furnished to the applicant and shall state the applicant's full name, the applicant's business address, the address at which the applicant resides, the date the applicant first received a license, and the applicant's surety recovery agent identification number, if any.

2. A renewal form shall be mailed to each person licensed in this state at the person's last known address. The failure to mail the renewal form or the failure of a person to receive it does not relieve any person of the duty to be licensed and to pay the license fee required nor exempt such person from the penalties provided for failure to be licensed.

3. Each applicant for renewal shall accompany such application with a renewal fee to be paid to the department for the licensing period for which renewal is sought.

4. The director may refuse to renew any license required pursuant to sections 374.783 to 374.789 for any one or any combination of causes stated in section 374.787. The director shall notify the applicant in writing of the reasons for refusal to renew and shall advise the applicant of his or her right to file a complaint with the administrative hearing commission as provided by chapter 621.]

The above Missouri Statutes with the brackets are unlawful as defined by Missouri statutes and unconstitutional by the Missouri constitution and The United States Constitution.

No were in chapter 374.695 to 374.789 does in state gps/electronic monitoring, nor paying fine for gps/electronic monitoring.

TITLE XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.700. Definitions. — As used in sections 374.695 to 374.789, the following terms shall mean:

(1) "Bail bond agent", a surety agent or an agent of a property bail bondsman who is duly licensed pursuant to the provisions of sections 374.695 to 374.789, is employed by and is working under the authority of a licensed general bail bond agent;

(2) "Bail bond or appearance bond", a bond for a specified monetary amount which is executed by the defendant and a qualified licensee pursuant to sections 374.695 to 374.789, and which is issued to a court or authorized officer as security for the subsequent court appearance of the defendant upon the defendant's release from actual custody pending the appearance;

(3) "Department", the department of insurance, financial institutions and professional registration of the state of Missouri;

(4) "Director", the director of the department of insurance, financial institutions and professional registration;

(5) "General bail bond agent", a surety agent or a property bail bondsman, as defined in sections 374.700 to 374.775, who is licensed in accordance with sections 374.700 to 374.775 and who devotes at least fifty percent of his working time to the bail bond business in this state;

(6) "Insurer", any surety insurance company which is qualified by the department to transact surety business in Missouri;

(7) "Licensee", a bail bond agent or a general bail bond agent;

(8) "Property bail bondsman", a person who pledges United States currency, United States postal money orders or cashier's checks or other property as security for a bail bond in connection with a judicial proceeding, and who receives or is promised therefor money or other things of value;

(9) "Surety bail bond agent", any person appointed by an insurer by power of attorney to execute or countersign bail bonds in connection with judicial proceedings, and who receives or is promised money or other things of value therefor;

(10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement, excluding a bail bond agent or general bail bond agent;

(11) "Taking a bail" or "take bail", the acceptance by a person authorized to take bail of the undertaking of a sufficient surety for the appearance of the defendant according to the terms of the undertaking or that the surety will pay to the court the sum specified. Taking of bail or take bail does not include the fixing of the amount of bail and no person other than a competent court shall fix the amount of bail.

(L. 1983 S.B. 363 § 1, A.L. 2001 S.B. 267, A.L. 2004 S.B. 1122)

TITLE XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.710. License required for bail bond agents, application, qualifications — exceptions. — 1. Except as otherwise provided in sections 374.695 to 374.775, no person or other entity shall practice as a bail bond agent or general bail bond agent, as defined in section 374.700, in Missouri unless and until the department has issued to him or her a license, to be renewed every two years as hereinafter provided, to practice as a bail bond agent or general bail bond agent.

2. An applicant for a bail bond and general bail bond agent license shall submit with the application proof that he or she has received twenty-four hours of initial basic training in areas of instruction in subjects determined by the director deemed appropriate to professionals in the bail bond profession. Bail bond agents and general bail bond agents who are licensed at the date which this act becomes law" shall be exempt from such twenty-four hours of initial basic training.

3. In addition to the twenty-four hours of initial basic training to become a bail bond agent or general bail bond agent, there shall be eight hours of biennial continuing education for all bail bond agents and general bail bond agents to maintain their state license. The director shall determine said appropriate areas of instruction for said biennial continuing education. The director shall determine which institutions, organizations, associations, and individuals shall be eligible to provide the initial basic training and the biennial continuing education instruction. The department may allow state institutions, organizations, associations, or individuals to provide courses for the initial basic training and the biennial continuing education training. The cost shall not exceed two hundred dollars for the initial basic training and one hundred fifty dollars for biennial continuing education.

4. Upon completion of said basic training or biennial continuing education and the licensee meeting the other requirements as provided under sections 374.695 to 374.789, the director shall issue a two-year license for the bail bond agent or general bail bond agent for a fee not to exceed one hundred fifty dollars.

5. Nothing in sections 374.695 to 374.775 shall be construed to prohibit any person from posting or otherwise providing a bail bond in connection with any legal proceeding, provided that such person receives no fee, remuneration or consideration therefor.

(L. 1983 S.B. 363 § 3, A.L. 1995 S.B. 3, A.L. 2004 S.B. 1122)

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.717. **Prohibited acts.** — No insurer or licensee, court, or law enforcement officer shall:

(1) Pay a fee or rebate or give or promise anything of value in order to secure a settlement, compromise, remission, or reduction of the amount of any bail bond to:

(a) A jailer, police officer, peace officer, committing judge, or any other person who has power to arrest or to hold in custody any person; or

(b) Any public official or public employee;

(2) Pay a fee or rebate or give anything of value to an attorney in bail bond matters, except in defense of any action on a bond;

(3) Pay a fee or rebate or give anything of value to the principal or anyone on the principal's behalf;

(4) Accept anything of value from a principal except the premium and expenses incurred, provided that the licensee shall be permitted to accept collateral security or other indemnity from the principal in accordance with the provisions of section 374.719.

374.719. **Collateral security accepted, when — receipt required — used to reimburse costs, when — records to be retained.** — 1. A licensee may accept collateral security from the principal in a fiduciary capacity, which collateral shall be returned upon final termination of liability on the bond. When a licensee accepts collateral, the licensee shall provide a prenumbered written receipt, which shall include a detailed account of the collateral received by the licensee. The acceptance of collateral security by a bail bond agent shall be reported to the general bail bond agent.

2. The collateral security required by the licensee shall be reasonable in relation to the amount of the bond.

3. If a failure to appear, absconding or attempting to abscond, or a judgment of forfeiture on the bond has occurred, the collateral security may be used to reimburse the licensee for any costs and expenses incurred associated with the forfeiture.

4. The general bail bond agent shall retain records of the acceptance, return, or judgment of forfeiture resulting in the use of the collateral to reimburse the licensee for a period of three years.

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.757. Notification by agent of intention to apprehend -- local law enforcement may accompany agent — violations, penalties. — 1. Any agent licensed by sections 374.695 to 374.775 who intends to apprehend any person in this state shall inform law enforcement authorities in the city or county in which such agent intends such apprehension, before attempting such apprehension. Such agent shall present to the local law enforcement authorities a certified copy of the bond and all other appropriate paperwork identifying the principal and the person to be apprehended. Local law enforcement may accompany the agent. Failure of any agent to whom this section applies to comply with the provisions of this section shall be a class A misdemeanor for the first violation and a class E felony for subsequent violations; and shall also be a violation of section 374.755 and may in addition be punished pursuant to that section.

2. The surety recovery agent shall inform the local law enforcement in the county or city where such agent is planning to enter a residence. Such agent shall have a certified copy of the bond and all appropriate paperwork to identify the principal. Local law enforcement, when notified, may accompany the surety recovery agent to that location to keep the peace if an active warrant is effective for a felony or misdemeanor. If a warrant is not active, the local law enforcement officers may accompany the surety recovery agent to such location. Failure to report to the local law enforcement agency is a class A misdemeanor. For any subsequent violations, failure to report to the local law enforcement agency is a class E felony.

(L. 2001 S.B. 267, A.L. 2004 S.B. 1122, A.L. 2014 S.B. 491)

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.783. Surety recovery agents, license required — director to license, powers. — 1. No person shall hold himself or herself out as being a surety recovery agent in this state, unless such person is licensed in accordance with the provisions of sections 374.783 to 374.789. Licensed bail bond agents and general bail bond agents may perform fugitive recovery without being licensed as a surety recovery agent.

2. The director shall have authority to license all surety recovery agents in this state. The director shall have control and supervision over the licensing of such agents and the enforcement of the terms and provisions of sections 374.783 to 374.789.

3. The director shall have the power to:

(1) Set and determine the amount of the fees authorized and required pursuant to sections 374.783 to 374.789. The fees shall be set at a level sufficient to produce revenue which shall not substantially exceed the cost and expense of administering sections 374.783 to 374.789. However, such fees shall not exceed one hundred fifty dollars for a two-year license; and

(2) Determine the sufficient qualifications of applicants for a license.

4. The director shall license for a period of two years all surety recovery agents in this state who meet the requirements of sections 374.783 to 374.789.

374.755. Complaint by department, procedure — grounds — disciplinary action — alternate procedure — additional remedy. — 1. The department may cause a complaint to be filed with the administrative hearing commission as provided by chapter 621 against any holder of any license required by sections 374.695 to 374.775 or any person who has failed to renew or has surrendered his or her license for any one or any combination of the following causes:

(1) Use of any controlled substance, as defined in chapter 195, or alcoholic beverage to an extent that such use impairs a person's ability to perform the work of the profession licensed under sections 374.695 to 374.775;

(2) Final adjudication or a plea of guilty or nolo contendere within the past fifteen years in a criminal prosecution under any state or federal law for a felony or a crime involving moral turpitude whether or not a sentence is imposed, prior to issuance of license date;

(3) Use of fraud, deception, misrepresentation or bribery in securing any license or in obtaining permission to take any examination required pursuant to sections 374.695 to 374.775;

(4) Obtaining or attempting to obtain any compensation as a member of the profession licensed by sections 374.695 to 374.775 by means of fraud, deception or misrepresentation;

(5) Misappropriation of the premium, collateral, or other things of value given to a bail bond agent or a general bail bond agent for the taking of bail, incompetency, misconduct, gross negligence, fraud, or misrepresentation in the performance of the functions or duties of the profession licensed or regulated by sections 374.695 to 374.775;

(6) Violation of any provision of or any obligation imposed by the laws of this state, department of insurance, financial institutions and professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules or regulations, or subpoenas;

(7) Transferring a license or permitting another person to use a license of the licensee;

(8) Disciplinary action against the holder of a license or other right to practice the profession regulated by sections 374.695 to 374.789 granted by another state, territory, federal agency or country upon grounds for which revocation or suspension is authorized in this state;

(9) Being finally adjudged insane or incompetent by a court of competent jurisdiction;

(10) Assisting or enabling any person to practice or offer to practice the profession licensed or regulated by sections 374.695 to 374.789 who is not currently licensed and eligible to practice pursuant to sections 374.695 to 374.789;

(11) Acting in the capacity of an attorney at a trial or hearing of a person for whom the attorney is acting as surety;

(12) Failing to provide a copy of the bail contract, surrendered written receipt for acceptance of money, or other collateral for the taking of bail to the principal, if requested by any person who is a party to the bail contract, or any person providing funds or collateral for bail on the principal's behalf.

2. After the filing of such complaint, the proceedings shall be conducted in accordance with the provisions of chapter 621. Upon a finding by the administrative hearing commission that one or more of the causes stated in subsection 1 of this section have been met, the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.

3. In lieu of filing a complaint at the administrative hearing commission, the director and the bail bond agent or general bail bond agent may enter into an agreement for a monetary or other penalty pursuant to section 374.280.

4. In addition to any other remedies available, the director may issue a cease and desist order or may seek an injunction in a court of competent jurisdiction pursuant to the provisions of section 374.046 whenever it appears that any person is acting as a bail bond agent or general bail bond agent without a license or violating any other provisions of sections 374.695 to 374.789.

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.280. Civil penalty or forfeiture ordered when, how enforced. — 1. The director may, after a hearing under section 374.046, order a civil penalty or forfeiture payable to the state of Missouri authorized by section 374.049, which penalty or forfeiture, if unpaid within ten days, may be recovered by a civil action brought by and in the name of the director under section 374.048. The civil action may be brought in the county which has venue of an action against the person, partnership or corporation under other provisions of law. The director may also suspend or revoke the license or certificate of authority of such person for any willful violation.

2. Nothing contained in this section shall be construed to prohibit the director and any person subject to an investigation, examination, or other proceeding from agreeing to a voluntary forfeiture of the sum mentioned herein without civil proceedings being instituted. Any sum so agreed upon shall be paid into the school fund as provided by law for other fines and penalties.

(L. 1967 p. 516, A.L. 1993 H.B. 709, A.L. 2007 S.B. 66)

(1982) Legislature did not expressly provide private cause of actions for violation of section 379.118, although director of division of insurance may suspend or revoke license of an insurer for any willful violation of chapter 374. Shqeir v. Equifax, Inc. (Mo. banc) 636 S.W.2d 944.

Title XL ADDITIONAL EXECUTIVE DEPARTMENTS

621.015. Administrative hearing commission, number of commissioners — qualifications, appointment, terms, compensation. — The "Administrative Hearing Commission" is assigned to the office of administration. It shall consist of no more than five commissioners. The commissioners shall be appointed by the governor with the advice and consent of the senate. The term of each commissioner shall be for six years and until his successor is appointed, qualified and sworn. The commissioners shall be attorneys at law admitted to practice before the supreme court of Missouri, but shall not practice law during their term of office. Each commissioner shall receive annual compensation of fifty-one thousand dollars plus any salary adjustment provided pursuant to section 105.005. Each commissioner shall also be entitled to actual and necessary expenses in the performance of his duties. The office of the administrative hearing commission shall be located in the City of Jefferson and it may employ necessary clerical assistance, compensation and expenses of the commissioners to be paid from appropriations made for that purpose.

(L. 1965 p. 277 § 1, A.L. 1977 H.B. 841, A.L. 1978 S.B. 661, A.L. 1984 S.B. 528, A.L. 1986 S.B. 426, A.L. 2005 H.B. 824, A.L. 2010 H.B. 1868)

Title XL ADDITIONAL EXECUTIVE DEPARTMENTS

621.110. Commission's findings and recommendations — hearing by agency on disciplinary action. — Upon a finding in any cause charged by the complaint for which the license may be suspended or revoked as provided in the statutes and regulations relating to the profession or vocation of the licensee and within one hundred twenty days of the date the case became ready for decision, the commission shall deliver or transmit by mail to the agency which issued the license the record and a transcript of the proceedings before the commission together with the commission's findings of fact and conclusions of law. The commission may make recommendations as to appropriate disciplinary action but any such recommendations shall not be binding upon the agency. A copy of the findings of fact, conclusions of law and the commission's recommendations, if any, shall be delivered or transmitted by mail to the licensee if the licensee's whereabouts are known, and to any attorney who represented the licensee. Within thirty days after receipt of the record of the proceedings before the commission and the findings of fact, conclusions of law, and recommendations, if any, of the commission, the agency shall set the matter for hearing upon the issue of appropriate disciplinary action and shall notify the licensee of the time and place of the hearing, provided that such hearing may be waived by consent of the agency and licensee where the commission has made recommendations as to appropriate disciplinary action. In case of such waiver by the agency and licensee, the recommendations of the commission shall become the order of the agency. The licensee may appear at said hearing and be represented by counsel. The agency may receive evidence relevant to said issue from the licensee or any other source. After such hearing the agency may order any disciplinary measure it deems appropriate and which is authorized by law. In any case where the commission fails to find any cause charged by the complaint for which the license may be suspended or revoked, the commission shall dismiss the complaint, and so notify all parties.

(L. 1965 p. 277 § 5, A.L. 1978 S.B. 661, A.L. 2006 S.B. 756, A.L. 2011 H.B. 265)

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

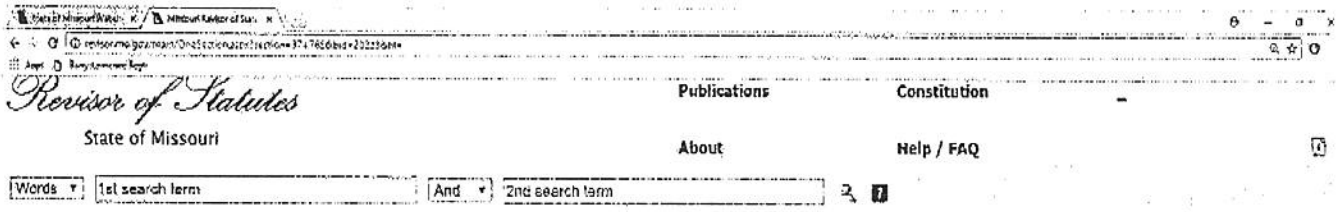
374.764. Alleged violations and complaints, procedure. — 1. The director shall examine and inquire into all alleged violations or complaints filed with the department of insurance, financial institutions and professional registration of the bail bond law of the state, and inquire into and investigate the bail bond business transacted in the state by any bail bond agent, general bail bond agent, or surety recovery agent.

2. The director or any of his or her duly appointed agents may compel the attendance before him or her, and may examine, under oath, the directors, officers, bail bond agents, general bail bond agents, surety recovery agents, employees, or any other person in reference to the condition, affairs, management of the bail bond or surety recovery business, or any matters relating thereto. He or she may administer oaths or affirmations and shall have power to summon and compel the attendance of witnesses and to require and compel the production of records, books, papers, contracts, or other documents if necessary.

3. The director may make and conduct the investigation in person or the director may appoint one or more persons to make and conduct the investigation. If made by a person other than the director, the person duly appointed by the director shall have the same powers as granted to the director pursuant to this section. A certificate of appointment under the official seal of the director shall be sufficient authority and evidence thereof for the person to act. For the purpose of making the investigations, or having the same made, the director may employ the necessary clerical, actuarial, and other assistance.

(L. 2004 S.B. 1122)

Effective 1-01-05



Effective 01 Jan 2005, see footnote Chapter 374

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.785. License issued, when — reciprocity — apprehension of defendant, permitted where — fee. — 1. The director shall issue a license for a period of two years to any surety recovery agent who is licensed in another jurisdiction and who:

(1) Has no violations, suspensions, or revocations of a license to engage in fugitive recovery in any jurisdiction; and

(2) Is licensed in a jurisdiction whose requirements are substantially equal to or greater than the requirements for a surety recovery agent license in Missouri at the time the applicant applies for a license.

2. Any surety recovery agent who is licensed in another state shall also be subject to the same training requirements as in-state surety recovery agents prescribe to under section 374.784.

3. For the purpose of surrender of the defendant, a surety recovery agent may apprehend the defendant anywhere within the state of Missouri before or after the forfeiture of the undertaking without personal liability for false imprisonment or may empower any surety recovery agent to make apprehension by providing written authority endorsed on a certified copy of the undertaking and paying the lawful fees.

4. Every applicant for a license pursuant to this section, upon making application and showing the necessary qualifications as provided in this section, shall be required to pay the same fee as required of resident applicants. Within the limits provided in this section, the director may negotiate reciprocal compacts with licensing entities of other states for the admission of licensed surety recovery agents from Missouri in other states.

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.787. Complaint procedure. — 1. The director may cause a complaint to be filed with the administrative hearing commission as provided by chapter 621 against any surety recovery agent or any person who has failed to renew or has surrendered his or her license for any one or any combination of the following causes:

(1) Violation of any provisions of, or any obligations imposed by, the laws of this state, the department of insurance, financial institutions and professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules, or regulations;

(2) Final adjudication or a plea of guilty or nolo contendere in a criminal prosecution under state or federal law for a felony or a crime involving moral turpitude, whether or not a sentence is imposed;

(3) Using fraud, deception, misrepresentation, or bribery in securing a license or in obtaining permission to take any examination required by sections 374.783 to 374.789;

(4) Obtaining or attempting to obtain any compensation as a surety recovery agent by means of fraud, deception, or misrepresentation;

(5) Acting as a surety recovery agent or aiding or abetting another in acting as a surety recovery agent without a license;

(6) Incompetence, misconduct, gross negligence, fraud, or misrepresentation in the performance of the functions or duties of a surety recovery agent;

(7) Having a license revoked or suspended that was issued by another state.

2. After the filing of the complaint, the proceedings shall be conducted in accordance with the provisions of chapter 621. Upon a finding by the administrative hearing commission that one or more of the causes stated in subsection 1 of this section have been met, the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.

3. In lieu of filing a complaint with the administrative hearing commission, the director and the surety recovery agent may enter into an agreement for a monetary or other penalty pursuant to section 374.280.

4. In addition to any other remedies available, the director may issue a cease and desist order or may seek an injunction in a court of law pursuant to section 374.046 whenever it appears that any person is acting as a surety recovery agent without a license.

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.788. Apprehension standards for breach of surety agreement or absconding. — 1. A bail bond agent having probable grounds to believe a subject free on his or her bond has failed to appear as directed by a court, has breached the terms of the subject's surety agreement, or has taken a substantial step toward absconding may utilize all lawful means to apprehend the subject. To surrender a subject to a court, a licensed bail bond or surety recovery agent having probable grounds to believe the subject is free on his or her bond may:

(1) Detain the subject in a lawful manner, for a reasonable time, provided that in the event travel from another state is involved, the detention period may include reasonable travel time not to exceed seventy-two hours;

(2) Transport a subject in a lawful manner from state to state and county to county to a place of authorized surrender; and

(3) Enter upon private or public property in a lawful manner to execute apprehension of a subject.

2. A surety recovery agent who apprehends a subject pursuant to the provisions of subsection 1 of this section shall surrender custody of the subject to the court of jurisdiction.

3. When a surety recovery agent is in the process of performing fugitive recovery, a photographic identification card shall be prominently displayed on his or her person.

Title XXIV BUSINESS AND FINANCIAL INSTITUTIONS

374.786. Renewal, procedure. — 1. Every person licensed pursuant to sections 374.783 to 374.789 shall, before the license renewal date, apply to the director for renewal for the ensuing licensing period. The application shall be made on a form furnished to the applicant and shall state the applicant's full name, the applicant's business address, the address at which the applicant resides, the date the applicant first received a license, and the applicant's surety recovery agent identification number, if any.

2. A renewal form shall be mailed to each person licensed in this state at the person's last known address. The failure to mail the renewal form or the failure of a person to receive it does not relieve any person of the duty to be licensed and to pay the license fee required nor exempt such person from the penalties provided for failure to be licensed.

3. Each applicant for renewal shall accompany such application with a renewal fee to be paid to the department for the licensing period for which renewal is sought.

4. The director may refuse to renew any license required pursuant to sections 374.783 to 374.789 for any one or any combination of causes stated in section 374.787. The director shall notify the applicant in writing of the reasons for refusal to renew and shall advise the applicant of his or her right to file a complaint with the administrative hearing commission as provided by chapter 621.

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 147 (2018-277)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on September 11, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people e of the state of Missouri

The annual franchise tax of Chapter 147.RSMo will be amended to be re-instated as follows with the revenue to be distributed to the Missouri Road Fund, to the higher education fund and to school districts with a 12% or more poverty level as directed by this amendment:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section until the tax year of 2019.

(6) For the tax year 2019, the rate shall be two percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly estimated payments will be due on April 15th of 2019.

(7) Half of the revenue of the annual franchise tax will go into the Missouri State Road Fund.

(8) Three quarters of the remaining revenue of the annual franchise tax will be to provide funds for the school districts with a 12% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed to these schools with a 12% or more poverty level. No Missouri revenue will go to non-public schools. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain as specified in Chapter 163. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(9) One quarter of the remaining revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

Title XIII CORRECTIONAL AND PENAL INSTITUTIONS

217.541. House arrest program, department to establish and regulate – limited release, when – offenders to fund program – arrest warrant may be issued by probation or parole officer, when. – 1. The department shall by rule establish a program of house arrest. The director or his designee may extend the limits of confinement of offenders serving sentences for class D or E felonies who have one year or less remaining prior to release on parole, conditional release, or discharge to participate in the house arrest program.

2. The offender referred to the house arrest program shall remain in the custody of the department and shall be subject to rules and regulations of the department pertaining to offenders of the department until released on parole or conditional release by the state board of probation and parole.

3. The department shall require the offender to participate in work or educational or vocational programs and other activities that may be necessary to the supervision and treatment of the offender.

4. An offender released to house arrest shall be authorized to leave his place of residence only for the purpose and time necessary to participate in the program and activities authorized in subsection 3 of this section.

5. The board of probation and parole shall supervise every offender released to the house arrest program and shall verify compliance with the requirements of this section and such other rules and regulations that the department shall promulgate and may do so by remote electronic surveillance. If any probation/parole officer has probable cause to believe that an offender under house arrest has violated a condition of the house arrest agreement, the probation/parole officer may issue a warrant for the arrest of the offender. The probation/parole officer may effect the arrest or may deputize any officer with the power of arrest to do so by giving the officer a copy of the warrant which shall outline the circumstances of the alleged violation. The warrant delivered with the offender by the arresting officer to the official in charge of any jail or other detention facility to which the offender is brought shall be sufficient legal authority for detaining the offender. An offender arrested under this section shall remain in custody or incarcerated without consideration of bail. The director or his designee, upon recommendation of the probation and parole officer, may direct the return of any offender from house arrest to a correctional facility of the department for reclassification.

6. Each offender who is released to house arrest shall pay a percentage of his wages, established by department rules, to a maximum of the per capita cost of the house arrest program. The money received from the offender shall be deposited in the inmate fund and shall be expended to support the house arrest program.

Title XIII CORRECTIONAL AND PENAL INSTITUTIONS

217.543. House arrest authorized for certain prisoners — jailer to establish program — remote electronic surveillance allowed — percentage of prisoner's wage to pay cost — violation penalty — (St. Louis City). — 1. The jailer of any city not within a county having custody of pretrial detainees or persons serving sentences for violation of state or local laws may establish a program of house arrest consistent with the provisions of this section.

2. Such jailer shall by rule establish a program of house arrest. Such jailer may extend the limits of confinement for pretrial detainees or persons serving sentences for violation of state or local laws.

3. The inmate or detainee shall remain an inmate of such jailer and shall be subject to the rules and regulations of the house arrest program.

4. Such jailer shall require the inmate or detainee to participate in work or educational or vocational programs and other activities that may be necessary to the supervision and treatment of the inmate or detainee.

5. An inmate or detainee released to house arrest shall be authorized to leave his or her place of residence only for the purpose and time necessary to participate in the programs and activities authorized.

6. Such jailer shall supervise every inmate or detainee released to the house arrest program and shall verify compliance with the requirements set forth for each person so released and such other rules and regulations that such jailer shall promulgate, and may do so by remote electronic surveillance. Such jailer may direct to any peace officer the return of any inmate or detainee from house arrest for violation of the conditions of release.

7. Each inmate or detainee who is released on house arrest shall pay a percentage of his or her wages to cover the costs of house arrest, such amount to be established by the jailer.

8. An inmate released to the house arrest program pursuant to this section commits the crime of escape from custody if such inmate purposely fails to return to his or her place of residence or activity as established by the jailer when he or she is required to do so. Escape from custody is a class E felony.

Title XXXVIII CRIMES AND PUNISHMENT; PEACE OFFICERS AND PUBLIC DEFENDERS

557.011. Authorized dispositions. – 1. Every person found guilty of an offense shall be dealt with by the court in accordance with the provisions of this chapter, except that for offenses defined outside this code and not repealed, the term of imprisonment or the fine that may be imposed is that provided in the statute defining the offense; however, the conditional release term of any sentence of a term of years shall be determined as provided in subsection 4 of section 558.011.

2. Whenever any person has been found guilty of a felony or a misdemeanor the court shall make one or more of the following dispositions of the offender in any appropriate combination. The court may:

(1) Sentence the person to a term of imprisonment as authorized by chapter 558;

(2) Sentence the person to pay a fine as authorized by chapter 560;

(3) Suspend the imposition of sentence, with or without placing the person on probation;

(4) Pronounce sentence and suspend its execution, placing the person on probation;

(5) Impose a period of detention as a condition of probation, as authorized by section 559.026.

3. Whenever any person has been found guilty of an infraction, the court shall make one or more of the following dispositions of the offender in any appropriate combination. The court may:

(1) Sentence the person to pay a fine as authorized by chapter 560;

(2) Suspend the imposition of sentence, with or without placing the person on probation;

(3) Pronounce sentence and suspend its execution, placing the person on probation.

4. Whenever any organization has been found guilty of an offense, the court shall make one or more of the following dispositions of the organization in any appropriate combination. The court may:

(1) Sentence the organization to pay a fine as authorized by chapter 560;

(2) Suspend the imposition of sentence, with or without placing the organization on probation;

(3) Pronounce sentence and suspend its execution, placing the organization on probation;

(4) Impose any special sentence or sanction authorized by law.

5. This chapter shall not be construed to deprive the court of any authority conferred by law to decree a forfeiture of property, suspend or cancel a license, remove a person from office, or impose any other civil penalty. An appropriate order exercising such authority may be included as part of any sentence.

6. In the event a sentence of confinement is ordered executed, a court may order that an individual serve all or any portion of such sentence on electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest. If the judge finds the person unable to afford the costs associated with electronic monitoring, the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay the costs of such monitoring. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay from the general revenue of the county the costs of such electronic monitoring, the judge shall not order that the person be placed on house arrest with electronic monitoring.

Missouri Statute **217.541. House arrest program**, department to establish and regulate — limited release, when — offenders to fund program — arrest warrant may be issued by probation or parole officer, when. — 1. **The department shall by rule establish a program of house arrest. Every person found guilty of an offense shall be dealt with by the court in accordance with the provisions of this chapter,** except that for offenses defined outside this code and not repealed, **the term of imprisonment or the fine that may be imposed is that provided in the statute defining the offense;** however, the conditional release term of any sentence of a term of years shall be determined as provided in subsection 4 of section 558.011.

2. (2.) 3. (1.) 4.(1).sentence the person to pay fines authorized by chapter 560. **Need to be changed.**

6. **In the event a sentence of confinement is ordered executed, a court may order that an individual serve all or any portion of such sentence on electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest.** If the judge finds the person unable to afford the costs associated with electronic monitoring, the judge may order that the person be placed **on house arrest with electronic monitoring if the county commission agrees to pay the costs of such monitoring.** If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay from the general revenue of the county the costs of such electronic monitoring, **the judge shall not order that the person be placed on house arrest with electronic monitoring.**

A.L. 2011 H.B. 111, A.L. 2013 H.B. 215 merged with H.B. 374 & 434 merged with S.B. 327)

Missouri Statute **217.541, 217.542, 217.543, did not have a court or jury as the statutes say who is in charge of house arrest and electronic monitoring, which came about in 2014 with S.B. 491,** Missouri Statute **557.011 on house arrest with electronic monitoring tell 2013 A.L. 2011 H.B. 111, A.L. 2013 H.B. 215 merged with H.B. 374 & 434 merged with S.B. 327) It violates the Missouri Constitution Bill of Rights Article I Section 10 That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts**

of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay.
Violates the United States Constitutional **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed,** nor cruel and unusual punishments inflicted. Also **Amendment XIVSection 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law**; nor deny to any person within its jurisdiction the equal protection of the laws.

Here is where the violation of due process rights and equal protection under the law for persons charged with a bailable offence, are treated the same as persons found guilty in Missouri Statute 544.455 as stated below…

Ch. 544 Arrest, Examination, Commitment and Bail
Missouri Statute **544.455. Release of person charged, when — conditions which may be imposed. — 1. Any person charged with a bailable offense, at his or her appearance before an associate circuit judge or judge may be ordered released pending trial, appeal, or other stage of the proceedings against him on his personal recognizance, unless the associate circuit judge or judge determines, in the exercise of his discretion, that such a release will not reasonably assure the appearance of the person as required. When such a determination is made, the associate circuit judge or judge may either in lieu of or in addition to the above methods of release, impose any or any combination of the following conditions of release which will reasonably assure the appearance of the person for trial:**
(6) **Place the person on house arrest with electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest.** If the judge finds the person unable to afford the costs associated with electronic monitoring, **the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay from the general revenue of the county the costs of such monitoring**. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay the costs of such electronic monitoring, **the judge shall not order that the person be placed on house arrest with electronic monitoring;**
A.L. 2011 H.B. 111, A.L. 2013 H.B. 215 merged with H.B. 374 & 434 merged with S.B. 327)
Missouri Statute **544.455 did not have house arrest with electronic monitoring; tell the above House and Senate bills passed in 2013.** Missouri Statute 544.455. **does not state who is in charge of house arrest persons nor where the money from house arrest with electronic monitoring; goes to. Somehow the money from Missouri Statute 544.455 from house arrest with electronic monitoring goes to private bail/bond companies, NO statement in the statute. It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all**

persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Section 15. That the people shall be secure in their persons, papers, homes, effects, and electronic communications and data, from unreasonable searches and seizures; and no warrant to search any place, or seize any person or thing, or access electronic data or communication, shall issue without describing the place to be searched, or the person or thing to be seized, or the data or communication to be accessed, as nearly as may be; nor without probable cause, supported by written oath or affirmation. Section 19. That no person shall be compelled to testify against himself in a criminal cause, nor shall any person be put again in jeopardy of life or liberty for the same offense,...

It violates The United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment V No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; **nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law;** nor shall private property be taken for public use, without just compensation. **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.**

Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

Title XXXVII CRIMINAL PROCEDURE

544.455. Release of person charged, when – conditions which may be imposed. – 1. Any person charged with a bailable offense, at his or her appearance before an associate circuit judge or judge may be ordered released pending trial, appeal, or other stage of the proceedings against him on his personal recognizance, unless the associate circuit judge or judge determines, in the exercise of his discretion, that such a release will not reasonably assure the appearance of the person as required. When such a determination is made, the associate circuit judge or judge may either in lieu of or in addition to the above methods of release, impose any or any combination of the following conditions of release which will reasonably assure the appearance of the person for trial:

(1) Place the person in the custody of a designated person or organization agreeing to supervise him;

(2) Place restriction on the travel, association, or place of abode of the person during the period of release;

(3) Require the execution of a bail bond with sufficient solvent sureties, or the deposit of cash in lieu thereof;

(4) Require the person to report regularly to some officer of the court, or peace officer, in such manner as the associate circuit judge or judge directs;

(5) Require the execution of a bond in a given sum and the deposit in the registry of the court of ten percent, or such lesser percent as the judge directs, of the sum in cash or negotiable bonds of the United States or of the state of Missouri or any political subdivision thereof;

(6) Place the person on house arrest with electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest. If the judge finds the person unable to afford the costs associated with electronic monitoring, the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay from the general revenue of the county the costs of such monitoring. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay the costs of such electronic monitoring, the judge shall not order that the person be placed on house arrest with electronic monitoring;

(7) Impose any other condition deemed reasonably necessary to assure appearance as required, including a condition requiring that the person return to custody after specified hours.

2. In determining which conditions of release will reasonably assure appearance, the associate circuit judge or judge shall, on the basis of available information, take into account the nature and circumstances of the offense charged, the weight of the evidence against the accused, the accused's family ties, employment, financial resources, character and mental condition,

State of Missouri Website X | Missouri Revisor of Stat X
revisor.mo.gov/main/OneSection.aspx?section=544.455&bid=28745&hl=

(7) Impose any other condition deemed reasonably necessary to assure appearance as required, including a condition requiring that the person return to custody after specified hours.

2. In determining which conditions of release will reasonably assure appearance, the associate circuit judge or judge shall, on the basis of available information, take into account the nature and circumstances of the offense charged, the weight of the evidence against the accused, the accused's family ties, employment, financial resources, character and mental condition, the length of his residence in the community, his record of convictions, and his record of appearance at court proceedings or flight to avoid prosecution or failure to appear at court proceedings.

3. An associate circuit judge or judge authorizing the release of a person under this section shall issue an appropriate order containing a statement of the conditions imposed, if any, shall inform such person of the penalties applicable to violations of the conditions of his release and shall advise him that a warrant for his arrest will be issued immediately upon any such violation.

4. A person for whom conditions of release are imposed and who after twenty-four hours from the time of the release hearing continues to be detained as a result of his inability to meet the conditions of release, shall, upon application, be entitled to have the condition reviewed by the associate circuit judge or judge who imposed them. The motion shall be determined promptly.

5. An associate circuit judge or judge ordering the release of a person on any condition specified in this section may at any time amend his order to impose additional or different conditions of release; except that, if the imposition of such additional or different conditions results in the detention of the person as a result of his inability to meet such conditions or in the release of the person on a condition requiring him to return to custody after specified hours, the provisions of subsection 4 of this section shall apply.

6. Information stated in, or offered in connection with, any order entered pursuant to this section need not conform to the rules pertaining to the admissibility of evidence in a court of law.

7. Nothing contained in this section shall be construed to prevent the disposition of any case or class of cases by forfeiture of collateral security where such disposition is authorized by the court.

8. Persons charged with violations of municipal ordinances may be released by a municipal judge or other judge who hears and determines municipal ordinance violation cases of the municipality involved under the same conditions and in the same manner as provided in this section for release by an associate circuit judge.

9. A circuit court may adopt a local rule authorizing the pretrial release on electronic monitoring pursuant to subdivision (6) of subsection 1 of this section in lieu of incarceration of individuals charged with offenses specifically identified therein.

(L. 1972 H.B. 1160, A.L. 1978 H.B. 1634, A.L. 2011 H.B. 111, A.L. 2013 H.B. 215 merged with H.B. 374 & 434 merged with S.B. 327)

(1976) Provisions as to issuance of an appropriate order containing a statement of the conditions imposed and warning of consequences of failure to appear do not apply to persons released under the provisions of § 544.665. State v. Adams (A.), 532 S.W.2d 524.

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 208 (2018-275)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on September 6, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Joshua D. Hawley

Be it enacted by the people of the state of Missouri:

To utilize the Federal Expanded Medicaid Program, Chapter 208.RSMo, is amended by adding thereto one new section, to be known as section 208.207, to read as follows:

208.207. 1. Beginning January 1, 2019, individuals age nineteen to sixty-four, who are not otherwise eligible for MO HealthNet services under this chapter, who qualify for MO HealthNet services under section 42 U.S.C. 1396a(a)(10()(A)(i)(VIII) and as set forth in 42 CFR 435.119, and who have income at or below one hundred thirty-three percent of the federal poverty level plus five percent of the applicable family size as determined under 42 U.S.C. 1396a(e)(14) and as set forth om 42 CFR 435.603, shall be eligible for medical assistance under Mo HealthNet and shall receive coverage for the health benefits service package.

2. For purposes of this section, "health benefits service package" shall mean, subject to federal approval, benefits covered by the MO HealthNet program as determined by the department of social services to meet the benchmark or benchmark-equivalent coverage requirement under 42 U.S.C. 1396a(k)(1).

3. The reimbursement rate to MO HealthNet providers for MO HealthNet services provided to individuals qualifying under the provisions of this section shall be comparable to commercial reimbursement payment levels with trend adjustment for comparable services. The rates shall be determined annually by the department of social services, and the department may develop such rates through a contracted actuary. The higher commercial comparable rates shall only apply for services provided to individuals qualifying under this section.

4. (1) The department of social services shall discontinue eligibility for persons who are eligible under subsection 1 of this section if:

(a) The federal medical assistance percentage established under 42 U.S.C. Section 1396d(y) or 1369d(z) is less than ninety percent as specified for 2020 each year thereafter or an amount determined by the MO HealthNet oversight committee to be necessary to maintain state budget solvency, whichever is lower; and

(b) The general assembly votes to discontinue eligibility for persons who are eligible under subsection 1 of this section. Prior to any vote under this paragraph, the MO HealthNet oversight committee and the department of social services shall provide the general assembly with information on the current and projected expenses incurred due to expanding eligibility to persons under subsection 1 of this section in relation to health-related savings and revenues and health outcomes of individuals and families receiving benefits under subsection 1 of this section.

(2) The department of social services shall inform persons eligible under subsection 1 of this section that their benefits may be reduced or eliminated if federal funding decreases of is eliminate.

5. The MO HealthNet oversite committee shall conduct research and investigate any potential health-related savings and revenues associated with expanding eligibility to persons under subsection 1 of this section. The committee shall investigate the federal matching rate below which the state could not maintain the expanded eligibility to persons under subsection 1 of this section. If the amount is determined to be greater than ninety percent, the committee shall report its findings to the general assembly for its consideration prior to any vote under paragraph (b) of subdivision (1) of subsection 4 of this section. In conducting its research and investigation, the committee shall also determine the feasibility of:

(1) Implementing capped cost sharing for persons eligible under subsection 1 of this section which may be reduced based on healthy behaviors of participants.

(2) Expanding Medicaid coverage for certain health care services that are currently financed by the state: and

(3) Enrolling persons under subsection 1 of this section in private health benefit plans.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-275)

Subject

Initiative petition from Gerald Peterson regarding a proposed amendment to Chapter 208 of the Revised Statutes of Missouri. (Received September 6, 2017)

Date

September 26, 2017

Description

This proposal would amend Chapter 208 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated they defer to the Department of Social Services to calculate the fiscal impact of the Missouri HealthNet expansion.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated they defer to the Department of Social Services for the fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated they defer to the Department of Social Services.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated this initiative petition will impact the budgets of the Department of Social Services, Department of Mental Health,

the Department of Corrections, and the Department of Health & Senior Services by proposing the expansion of Medicaid eligibility.

- Today, Missouri covers custodial parents below 19% of the federal poverty level (FPL), which for a family of four is currently $4,617 per year. In addition, non-custodial adults and childless adults without other qualifying criteria are not currently eligible for Medicaid in Missouri regardless of income.

- The Affordable Care Act allows states to expand health care coverage under the Medicaid program to non-elderly, non-Medicare, low-income adults up to 133% of the FPL. The same law includes a 5% disregard of income when determining eligibility for health care benefits; thus, adults with incomes up to 138% FPL will qualify. For a family of four in Missouri, this is currently income up to $33,534 per year.

The expansion of eligibility for Medicaid benefits under the proposed federal program could potentially include coverage for an estimated 250,000 additional Missourians. The costs for this expansion would be in excess of $2 billion per year. The expansion population state match would be at least 10%; however, that match is subject to change as federal law is amended. Depending on implementation requirements from CMS, there could be a potential of cost shift from state funds to federal funds.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office. Any expenses incurred by the 2 House members on the MO HealthNet Oversight Committee would be the responsibility of DOSS per Section 208.955.2, RSMo.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated they do not anticipate a fiscal impact to their medical plan.

Officials from the **Office of Administration** indicated the proposal would amend Chapter 208, RSMo to expand the MO HealthNet services. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and

regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. **The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs**. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. **Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.**

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7.8 million based on the cost of the 2016 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated because Kansas City bills for the transports made by its Fire Department's ambulance service this amendment might have a small positive fiscal impact on their city due to the increased number of people able to pay for such transports.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from **University of Central Missouri** indicated they are not a MO HealthNet provider or a hospital so no impact.

Officials from **Missouri State University** indicated no fiscal impact for their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from **Missouri Western State University** indicated this initiative petition will not have a fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia**, the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, University of Missouri, St. Louis Community College, Harris-Stowe State University, Lincoln University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Fiscal Note Summary

State government entities estimate additional costs in excess of $2 billion annually. Revenues from the federal government to offset these costs are estimated to be $1.8 billion annually, subject to changes in federal law. Local government entities expect no costs or savings.

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 147, version 2 (2018-274)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on September 6, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jay Ashcroft

Be it enacted by the people e of the state of Missouri

The annual franchise tax of Chapter 147.RSMo will be amended to be re-instated as follows with the revenue to be distributed to the Missouri Road Fund, to the higher education fund and to school districts with a 12% or more poverty level as directed by this amendment:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section until the tax year of 2019.

(6) For the tax year 2019, the rate shall be two percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly estimated payments will be due on April 15th of 2019.

(7) Half of the revenue of the annual franchise tax will go into the Missouri State Road Fund.

(8) Three quarters of the remaining revenue of the annual franchise tax will be to provide funds for the school districts with a 12% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed to these schools with a 12% or more poverty level. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain as specified in Chapter 163. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(9) One quarter of the remaining revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

Be it enacted by the people e of the state of Missouri

The annual franchise tax of Chapter 147.RSMo will be amended to be re-instated as follows with the revenue to be distributed to the Missouri Road Fund, to the higher education fund and to school districts with a 12% or more poverty level as directed by this amendment:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section.

(6) For the tax year 2019, the rate shall be two percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly estimated payments will be due on April 15th of 2019.

(7) Half of the revenue of the annual franchise tax will go into the Missouri State Road Fund.

(8) Three quarters of the remaining revenue of the annual franchise tax will be to provide funds for the school districts with a 12% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed to these schools with a 12% or more poverty level. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain as specified in Chapter 163. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(9) One quarter of the remaining revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. RE: Petition approval request from Brian Hagg regarding a proposed statutory amendment to Chapters 558 and 560 (2018-272)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Brian Hagg on September 1, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

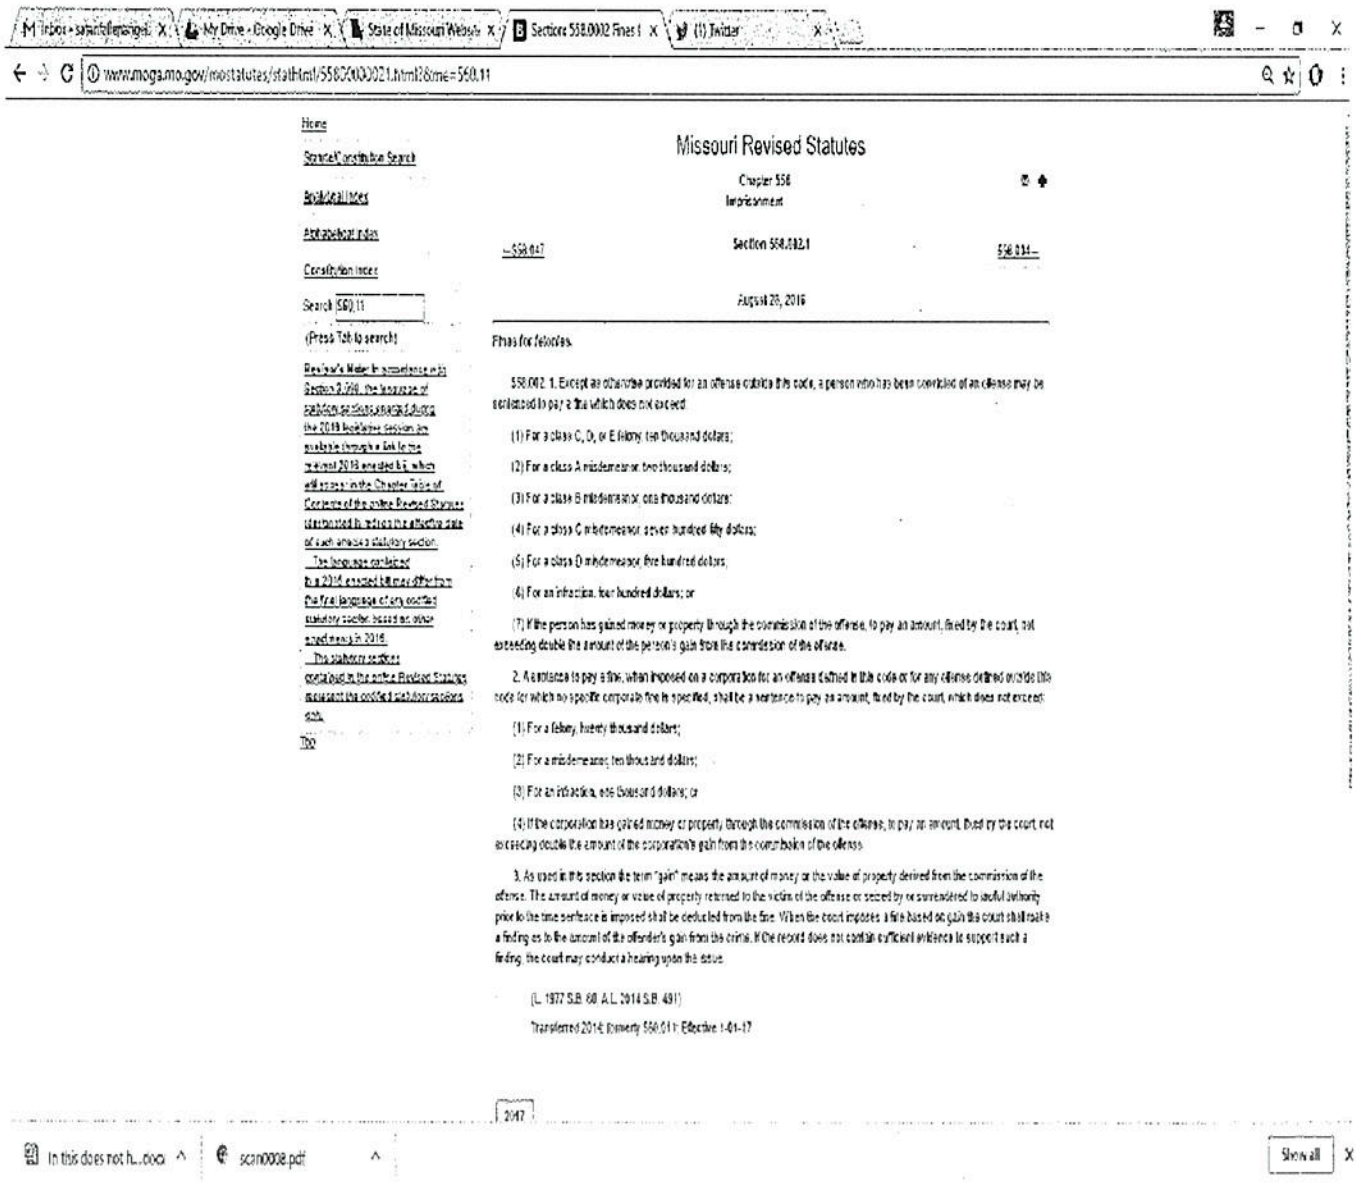
RECEIVED
SEP 01 2017
MO. SECRETARY OF STATE

New statute 558.002.1 continued has 2 different fine amounts for same offence, for persons convicted of C or D felony is either $5000 or at the top of first page beginning of statute states $10,000. Also the fine amount for corporation for a misdemeanor is just 10,000, but that is for every type the old statute had different fine amounts for different misdemeanor of A,B,C. this is unconstitutional no equal protection of the law which is a violation of the XIV of united states constitution.

The updated 560.011 is not the only Missouri statute that this558.002 replaced as it replaced 560.011,560.016 and 560.021. 560.016 and 560.021 on http://revisor.mo.gov/main/OneChapter.aspx?chapter=560 states that they are (Repealed L. 2014 S.B. 491) (1/1/2017). The www.moga.mo.gov not working since July of 2017.



Missouri Revised Statutes

Chapter 558
Imprisonment

558.047 Section 558.002.1 558.034

August 28, 2016

Fines for felonies.

558.002. 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of an offense may be sentenced to pay a fine which does not exceed:

(1) For a class C, D, or E felony, ten thousand dollars;

(2) For a class A misdemeanor, two thousand dollars;

(3) For a class B misdemeanor, one thousand dollars;

(4) For a class C misdemeanor, seven hundred fifty dollars;

(5) For a class D misdemeanor, five hundred dollars;

(6) For an infraction, four hundred dollars; or

(7) If the person has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the person's gain from the commission of the offense.

2. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for any offense defined outside this code for which no specific corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, which does not exceed:

(1) For a felony, twenty thousand dollars;

(2) For a misdemeanor, ten thousand dollars;

(3) For an infraction, one thousand dollars; or

(4) If the corporation has gained money or property through the commission of the offense, to pay an amount, fixed by the court, not exceeding double the amount of the corporation's gain from the commission of the offense.

3. As used in this section the term "gain" means the amount of money or the value of property derived from the commission of the offense. The amount of money or value of property returned to the victim of the offense or seized by or surrendered to lawful authority prior to the time a fine is imposed shall be deducted from the fine. When the court imposes a fine based on gain the court shall make a finding as to the amount of the offender's gain from the crime. If the record does not contain sufficient evidence to support such a finding, the court may conduct a hearing upon the issue.

(L. 1977 S.B. 60 A.L. 2014 S.B. 491)

Transferred 2014; (formerly 560.011); Effective 1-01-17

Effective 1-1-79

560.016. Fines for misdemeanors and infractions. — 1. Except as otherwise provided for an offense outside this code, a person who has been convicted of a misdemeanor or infraction may be sentenced to pay a fine which does not exceed

(1) For a class A misdemeanor, one thousand dollars;

(2) For a class B misdemeanor, five hundred dollars;

(3) For a class C misdemeanor, three hundred dollars;

(4) For an infraction, two hundred dollars.

2. In lieu of a fine imposed under subsection 1, a person who has been convicted of a misdemeanor or infraction through which he derived "gain" as defined in section 560.011, may be sentenced to a fine which does not exceed double the amount of gain from the commission of the offense. An individual offender may be fined not more than twenty thousand dollars under this provision.

(L. 1977 S.B. 60)

Effective 1-1-79

560.021. Fines for corporations. — 1. A sentence to pay a fine, when imposed on a corporation for an offense defined in this code or for an offense defined outside this code for which a special corporate fine is specified, shall be a sentence to pay an amount, fixed by the court, not exceeding

(1) Ten thousand dollars, when the conviction is of a felony;

(2) Five thousand dollars, when the conviction is of a class A misdemeanor;

(3) Two thousand dollars, when the conviction is of a class B misdemeanor;

(4) One thousand dollars, when the conviction is of a class C misdemeanor;

(5) Five hundred dollars, when the conviction is of an infraction;

(6) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

2. In the case of an offense defined outside this code, if a special fine for a corporation is expressly specified in the statute that defines the offense, the fine fixed by the court shall be

(1) An amount within the limits specified in the statute that defines the offense; or

(2) Any higher amount not exceeding double the amount of the corporation's gain from the commission of the offense, as determined under section 560.011.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Lowell Pearson regarding a proposed statutory amendment to Chapters 192, 195, 263 & 311 (2018-271)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Lowell Pearson on September 1, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the People of the state of Missouri:

Section A. Sections 192.005, 263.250, 311.610, 311.620, 311.630 and 311.660 RSMo, are amended and thirty-three new sections are enacted to be known as sections 195.018, 195.900, 195.903, 195.906, 195.909, 195.912, 195.915, 195.918, 195.921, 195.924, 195.927, 195.930, 195.933, 195.936, 195.939, 195.942, 195.945, 195.948,195.951, 195.954, 195.957, 195.960, 195.961, 195.963, 195.966, 195.969, 195.972, 195.975, 195.978, 195.981, 195.982, 195.984 and 195.985 to read as follows:

192.005. There is hereby created and established as a department of state government the "Department of Health and Senior Services". The department of health and senior services shall supervise and manage all public health functions and programs. The department shall be governed by the provisions of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo, unless otherwise provided in sections 192.005 to 192.014. The division of health of the department of social services, chapter 191, this chapter, and others, including, but not limited to, such agencies and functions as the state health planning and development agency, the crippled children's service*, chapter 201, the bureau and the program for the prevention of developmental disability, the hospital subsidy program, chapter 189, the state board of health, section 191.400, the student loan program, sections 191.500 to 191.550, the family practice residency program, the licensure and certification of hospitals, chapter 197, the Missouri chest hospital, sections 199.010 to 199.070**, are hereby transferred to the department of health and senior services by a type I transfer, and the state cancer center and cancer commission, chapter 200, is hereby transferred to the department of health and senior services by a type III transfer as such transfers are defined in section 1 of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo Supp. 1984. The provisions of section 1 of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo Supp. 1984, relating to the manner and procedures for transfers of state agencies shall apply to the transfers provided in this section. The division of health of the department of social services is abolished. The department of health and senior services shall have the duties and powers set forth in sections 195.900 to 195.985.

195.018. The provisions of section 195.017 shall not apply to any product used as authorized by sections 195.900 to 195.985.

195.900. 1. Sections 195.900 to 195.985 shall be known and may be cited as the "Missouri Patient Care Act".

2. (1) Sections 195.900 to 195.985 shall be deemed an exercise of the police powers of the state for the protection of the economic and social welfare and the health, peace, and morals of the people of this state.

(2) It shall be unlawful under state law to cultivate, manufacture, distribute, test, possess, or sell medical cannabis, except in compliance with the terms, conditions, limitations, and restrictions in sections 195.900 to 195.985.

(3) This section is intended to permit state-licensed physicians to certify that a patient has a qualifying medical condition and that the physician is treating or managing treatment of the

patient's qualifying medical condition in the course of a bona fide physician-patient relationship, after the physician has completed an assessment of the qualifying patient's medical history, reviewed relevant records related to the patient's qualifying medical condition, and conducted a physical examination.

(4) This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale, possession, and purchase of cannabis for medical use. This section is not intended to change current civil and criminal laws governing the use of cannabis for nonmedical purposes. The section does not allow for the public use of cannabis and driving under the influence of cannabis.

3. As used in sections 195.900 to 195.985, the following terms shall mean:

(1) "Adequate supply", 2.5 ounces of cannabis flower or its equivalent in cannabis concentrate or cannabis product during a period of fourteen days and that is derived solely from a licensed intrastate source. Subject to the rules of the department of health and senior services, a patient may apply for a waiver to possess more than 2.5 ounces for a fourteen-day period if a physician provides a substantial medical basis in a signed written statement asserting that, based on the patient's medical history and in the physician's professional judgment, 2.5 ounces is an insufficient adequate supply for a fourteen-day period to properly alleviate the patient's qualifying medical condition or symptoms associated with the qualifying medical condition. A qualifying patient may possess no more than a sixty-day supply of cannabis flower or its equivalent in cannabis concentrate or cannabis product.

(2) "Administer", the direct application of cannabis to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other cannabis-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming cannabis-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(3) "Cannabis", all parts of the plant genus Cannabis in any species or form thereof, including, but not limited to, Cannabis Sativa L., Cannabis Indica, Cannabis Americana, Cannabis Ruderalis, and Cannabis Gigantea, whether growing or not, the seeds thereof, the resin extracted from any part of the plant; and every compound, manufacture, derivative, mixture, or preparation of the plant, its seeds or resin. It does not include the mature stalks of the plant; fiber produced from the stalks; oil or cake made from the seeds of the plant; any other compound,

manufacture, salt, derivative, mixture, or preparation of the mature stalks except the resin extracted therefrom; fiber, oil, or cake; or the sterilized seed of the plant which is incapable of germination.

(4) "Cannabis plant monitoring system", an electronic seed-to-sale tracking system that includes, but is not limited to, testing and data collection established and maintained by the licensed medical cannabis cultivation and production facility and the medical cannabis center and available to the division for the purposes of documenting each cannabis plant and for monitoring plant development throughout the life cycle of a cannabis plant cultivated for the intended use by a qualifying patient from seed planting, cloning, or other method of propagation, to final packaging and sale to a qualifying patient.

(5) "Cannabis products", concentrated cannabis, cannabis extracts, and products that are infused with cannabis or an extract thereof and are intended for use or consumption. The term includes, without limitation, edible cannabis products, beverages, topical products, ointments, oils, and tinctures.

(6) "Caregiver", a natural person, other than the qualifying patient or the qualifying patient's physician, who is twenty-one years of age or older and has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the caregiver's application for an identification card under this section.

(7) "Department", the department of health and senior services.

(8) "Division", the division of alcohol and tobacco control within the department of public safety.

(9) "Entity", a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other entity.

(10) "Good cause", for purposes of refusing or denying a license renewal, reinstatement, or initial license issuance:

(a) The license applicant has violated, does not meet, or has failed to comply with any of the terms, conditions, or provisions of sections 195.900 to 195.985, any rules promulgated thereunder, or any supplemental local law, rules, or regulations;

(b) The licensee or applicant has failed to comply with any special terms or conditions that were placed on its license under an order of the state or local licensing authority; or

(c) The licensed premises have been operated in a manner that adversely affects the public health or welfare or the safety of the immediate neighborhood in which the establishment is located.

(11) "License", a license or registration under sections 195.900 to 195.985.

(12) "Licensed premises", the premises specified in an application for a license under sections 195.900 to 195.985, which are owned or in possession of the licensee and within which the licensee is authorized to cultivate, manufacture, distribute, test, possess, or sell medical cannabis in accordance with the provisions of sections 195.900 to 195.985.

(13) "Licensee", a person licensed or registered under sections 195.900 to 195.985.

(14) "Limited access area", a building, room, or other contiguous area upon the licensed premises where medical cannabis is grown, cultivated, stored, weighed, displayed, packaged, sold, or possessed for sale, under control of the licensee, with limited access to only those persons licensed by the division, and visitors and vendors as provided by rule. All areas of ingress or egress to limited access areas shall be clearly identified as such by a sign as designated by the division.

(15) "Local licensing authority", an authority designated by municipal or county charter or ordinance.

(16) "Medical cannabis", cannabis that is grown and sold under sections 195.900 to 195.985 for a purpose authorized under sections 195.900 to 195.985.

(17) "Medical cannabis center", a person licensed under sections 195.900 to 195.985 to operate a business as described in sections 195.900 to 195.985 that acquires, possesses, stores, delivers, transfer, transports, sells, supplies or dispenses cannabis, cannabis products, medical cannabis, paraphernalia or related supplies to registered qualifying patients or caregivers, or other licensed medical cannabis centers.

(18) "Medical cannabis cultivation and production facility", a person licensed under sections 195.900 to 195.985 to operate a business as described in section 195.954.

(19) "Medical cannabis-infused product", a product infused with medical cannabis that is intended for use or consumption other than by smoking, including, but not limited to edible cannabis products, beverages, topical products, ointments, oils, and tinctures or smokeless vaporizing devices. Such products, when manufactured or sold by a licensed medical cannabis center, shall not be considered a drug for the purposes of chapter 196.

(20) "Medical cannabis testing facility", an independent entity licensed, approved, and certified by the division pursuant to this act to analyze the safety and potency of cannabis and as otherwise provided under sections 195.900 to 195.985.

(21) "Medical use", the production, possession, distribution, transportation, or administration of cannabis or a cannabis-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(22) "Person", a natural person, partnership, association, company, corporation, limited liability company, or organization, or a manager, agent, owner, director, servant, officer, or employee thereof.

(23) "Premises", a distinct and definite location, which may include a building, a part of a building, a room, or any other definite contiguous area.

(24) "Qualifying medical condition", the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including, but not limited to, those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, post-traumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of cannabis could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis (ALS), inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(25) "Qualifying patient", a Missouri resident diagnosed with at least one qualifying medical condition.

(26) "Smokeless vaporizing device", a medical-grade vaporizer delivery device capable of administering the active ingredients of a metered dose of medical cannabis via inhalation without combustion by-products.

(27) "State licensing authority", the division of alcohol and tobacco control which is responsible for regulating and controlling the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in this state.

(28) "Written certification", a document dated and signed by a physician, stating:

(a) That the qualifying patient has a qualifying medical condition and specifying the qualifying medical condition the qualifying patient has; and

(b) That the physician is treating or managing treatment of the patient's qualifying medical condition.

195.903. 1. For the purpose of regulating and controlling the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in this state, the division of alcohol and tobacco control is hereby designated as the state licensing authority.

2. The state supervisor of the division may employ such officers and employees as may be determined to be necessary, with such officers and employees being part of the division. No moneys shall be appropriated to the division from the general revenue fund for the operation of sections 195.900 to 195.985, nor shall the division expend any general revenue fund moneys for the operation of sections 195.900 to 195.985. Notwithstanding any other provision of law, the division, the Commissioner of Administration, and the State Treasurer are authorized to receive and disburse funds from any source, public or private, as may assist the prompt implementation of this Act.

195.906. 1. The division shall:

(1) Grant or refuse state licenses for the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis as provided by law; suspend, fine, restrict, or revoke such licenses upon a violation of sections 195.900 to 195.985, or a rule promulgated under sections 195.900 to 195.985; and impose any penalty authorized by sections 195.900 to 195.985, or any rule promulgated under sections 195.900 to 195.985. The division may take any action with respect to a registration under sections 195.900 to 195.985 as it may with respect to a license under sections 195.900 to 195.985, in accordance with the procedures established under sections 195.900 to 195.985;

(2) Establish, revise, and amend rules and regulations as necessary to carry into effect the provisions of sections 195.900 to 195.985;

(3) Upon denial of a state license, provide written notice of the grounds for such denial of a state license to the applicant and to the local authority and the right of the applicant to a hearing before the administrative hearing commission under subsection 2 of section 195.924;

(4) Maintain the confidentiality of patient records, reports obtained from licensees showing the sales volume or quantity of medical cannabis sold, or any other records that are exempt from inspection under state law;

(5) Develop such forms, licenses, identification cards, and applications as are necessary in the discretion of the division for the administration of sections 195.900 to 195.985 or any of the rules promulgated under sections 195.900 to 195.985; and

(6) Prepare and submit an annual report accounting to the governor for the efficient discharge of all responsibilities assigned by law or directive to the state licensing authority.

2. (1) Rules promulgated under subdivision (2) of subsection 1 of this section shall include, but not be limited to, the following:

(a) Compliance with, enforcement, or violation of any provision of sections 195.900 to 195.985, or any rule issued under sections 195.900 to 195.985, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license issued under sections 195.900 to 195.985;

(b) Specifications of duties of officers and employees of the division;

(c) Instructions for local licensing authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the division;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed under sections 195.900 to 195.985, including a fingerprint-based criminal record check as may be required by the division prior to issuing a card;

(i) Identification of state licensees and their owners, officers, managers, and employees;

(j) Security requirements for any premises licensed under sections 195.900 to 195.985, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the division to properly administer and enforce the provisions of sections 195.900 to 195.985, including reporting requirements for changes, alterations, or modifications to the premises;

(k) Regulation of the storage of, warehouses for, and transportation of medical cannabis;

(l) Sanitary requirements for medical cannabis centers and medical cannabis cultivation and production facilities, including, but not limited to, sanitary requirements for the preparation of medical cannabis-infused products;

(m) The specification of acceptable forms of picture identification that a medical cannabis center may accept when verifying a sale;

(n) Labeling standards, including, but not limited to, the serving size of active THC per serving and total servings per package;

(o) Testing standards;

(p) Records to be kept by licensees and the required availability of the records;

(q) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(r) The reporting and transmittal of monthly sales tax payments by medical cannabis centers;

(s) Authorization for the department of revenue to have access to licensing information to ensure sales and income tax payment and effective administration of sections 195.900 to 195.985;

(t) Authorization for the division to impose administrative penalties and procedures of issuing, appealing, and creating a violation list and schedule of administrative penalties; and

(u) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of sections 195.900 to 195.985.

(2) The prompt implementation of this Missouri Patient Care Act is necessary to avoid immediate danger to the public health, safety and welfare. The division is authorized to use the emergency rulemaking procedures set out in section 536.025, and shall promulgate emergency rules by March 6, 2019, and also to file a notice of rulemaking as provided in section 536.025 by March 6, 2019.

(3) Nothing in sections 195.900 to 195.985 shall be construed as delegating to the division the power to fix prices for medical cannabis.

195.909. 1. A local licensing authority may issue only the following medical cannabis licenses upon payment of the fee and compliance with all local licensing requirements to be determined by the local licensing authority:

(1) A medical cannabis center license; and

(2) A medical cannabis cultivation and production facility license.

2. (1) A local licensing authority shall not issue a local license within a municipality or the unincorporated portion of a county unless the governing body of the municipality has adopted an ordinance or the governing body of the county has adopted a resolution containing specific standards for license issuance, or if no such ordinance or resolution is adopted prior to June 1, 2019, a local licensing authority shall consider the minimum licensing requirements of this section when issuing a license.

(2) In addition to all other standards applicable to the issuance of licenses under sections 195.900 to 195.985, the local governing body may adopt additional standards for the issuance of medical cannabis center or medical cannabis cultivation and production facility licenses consistent with the intent of sections 195.900 to 195.985 that may include, but not be limited to:

(a) Distance restrictions between premises for which local licenses are issued; and

(b) Any other requirements necessary to ensure the control of the premises and the ease of enforcement of the terms and conditions of the license.

3. Local governments may limit the use of land for operation of medical cannabis centers and medical cannabis cultivation and production facilities to specified areas as to time, place, and manner of such facilities. Local zoning approval shall be made by the governing body of the municipality if the premises are located in the municipality, or by the governing body of the county if the premises are located in the unincorporated portion of the county. The operation of sections 195.900 to 195.985 shall be statewide unless a municipality, county, or city, by a two-thirds majority of the registered voters voting at a regular election or special election called in accordance with state law, vote to prohibit the operation of medical cannabis centers and medical cannabis cultivation and production facilities in the municipality, county, or city.

4. An application for a license specified in subsection 1 of this section shall be filed with the appropriate local licensing authority on forms provided by the state licensing authority and shall contain such information as the state licensing authority may require and any forms as the local licensing authority may require. Each application shall be verified by the oath or affirmation of the persons prescribed by the state licensing authority.

5. An applicant shall file with the application for a local license, plans and specifications for the interior of the building if the building to be occupied is in existence at the time. If the building is not in existence, the applicant shall file a plot plan and a detailed sketch for the interior and submit an architect's drawing of the building to be constructed. In its discretion, the local or state licensing authority may impose additional requirements necessary for the approval of the application.

195.912. 1. Upon receipt of an application for a local license, except an application for renewal or for transfer of ownership, a local licensing authority shall schedule and hold a public hearing upon the application to be held not less than thirty days after the date of the application, but not more than ninety days from the date of the application. If the local licensing authority fails to hold a public hearing within such time lines, the application shall be considered

approved. If the local licensing authority schedules a hearing for a medical cannabis center application and/or a medical cannabis cultivation and production facility application, it shall post and publish public notice thereof not less than ten days prior to the hearing. The local licensing authority shall give public notice by the posting of a sign in a conspicuous place on the medical cannabis center premises and/or the medical cannabis cultivation and production facility premises for which application has been made and by publication in a newspaper of general circulation in the county in which the medical cannabis center premises and/or the medical cannabis cultivation and production premises are located.

2. Public notice given by posting shall include a sign of suitable material, not less than twenty-two inches wide and twenty-six inches high, composed of letters not less than one inch in height and stating the type of license applied for, the date of the hearing, the name and address of the applicant, and such other information as may be required to fully apprise the public of the nature of the application. The sign shall contain the names and addresses of the officers, directors, or manager of the facility to be licensed.

3. Public notice given by publication shall contain the same information as that required for signs.

4. If the building in which medical cannabis is to be cultivated, manufactured, distributed, possessed, or sold is in existence at the time of the application, a sign posted as required in subsections 1 and 2 of this section shall be placed so as to be conspicuous and plainly visible to the general public. If the building is not constructed at the time of the application, the applicant shall post a sign at the premises upon which the building is to be constructed in such a manner that the notice shall be conspicuous and plainly visible to the general public.

5. (1) A local licensing authority, or a license applicant with the authorization of the local licensing authority, may request that the state licensing authority conduct a concurrent review of a new license application prior to the local licensing authority's final approval of the license application. Local licensing authorities who permit concurrent review shall continue to independently review the applicant's license application.

(2) When conducting a concurrent application review, the state licensing authority may advise the local licensing authority of any items it finds that may result in the denial of the license application. Upon correction of the noted discrepancies if the correction is permitted by the state licensing authority, the state licensing authority shall notify the local licensing authority of its conditional approval of the license application subject to the final approval by the local licensing authority. The state licensing authority shall then issue the applicant's state license upon receiving evidence of final approval by the local licensing authority.

(3) All applications submitted for concurrent review shall be accompanied by all applicable state license and application fees. Any applications which are later denied or withdrawn may allow for a refund of license fees only. All application fees provided by an applicant shall be retained by the respective licensing authority.

195.915. 1. Not less than five days prior to the date of the public hearing authorized in section 195.912, the local licensing authority shall make known its findings, based on its investigation, in writing to the applicant and other parties of interest. The local licensing authority has authority to refuse to issue a license provided for in this section for good cause, subject to judicial review.

2. Before entering a decision approving or denying the application for a local license, the local licensing authority may consider, except where sections 195.900 to 195.985 specifically provides otherwise, the facts and evidence adduced as a result of its investigation, as well as any other facts pertinent to the type of license for which application has been made, including the number, type, and availability of medical cannabis outlets located in or near the premises under consideration, and any other pertinent matters affecting the qualifications of the applicant for the conduct of the type of business proposed. A local licensing authority may only issue a medical cannabis center license and a medical cannabis cultivation and production facility license upon payment of the fee and compliance with all local licensing authority.

3. Within thirty days after the public hearing or completion of the application investigation, a local licensing authority shall issue its decision approving or denying an application for local licensure. The decision shall be in writing and shall state the reasons for the decision. The local licensing authority shall send a copy of the decision by certified mail to the applicant at the address shown on the application.

4. After approval of an application, a local licensing authority shall not issue a local license until the building in which the business to be conducted is ready for occupancy with such furniture, fixtures, and equipment in place as are necessary to comply with the applicable provisions of sections 195.900 to 195.985, and then only after the local licensing authority has inspected the premises to determine that the applicant has complied with the architect's drawing and the plot plan and detailed sketch for the interior of the buildings submitted with the application.

5. After approval of an application for local licensure, the local licensing authority shall notify the state licensing authority of such approval, who shall investigate and either approve or disapprove the application for state licensure.

195.918. 1. (1) The division may restrict the number of licenses granted for medical cannabis cultivation and production facilities, provided, however, that number may not be limited to fewer than one license per every one hundred thousand inhabitants of the state of Missouri, according to the most recent census of the United States. Each facility in operation shall require a separate license but multiple licenses may be utilized in a premises. The license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. No more than three medical cannabis and production facility licenses shall be issued to any person under substantially common control, ownership, or management. At least one medical cannabis center license shall be issued for each medical cannabis cultivation and production facility license.

(2) The division may restrict the numbers of licenses granted for medical cannabis centers, provided, however, that number may not be limited to fewer than one license per every one hundred thousand inhabitants of the state of Missouri, according to the most recent census of the United States, except that, an applicant for a medical cannabis center license may be approved for an additional two medical cannabis center licenses in accordance with subdivision (3) of this subsection. Such additional medical cannabis center licenses shall not be counted toward the statewide limit for medical cannabis centers. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause.

(3) Licenses shall be geographically disbursed by the division, in consultation with the department of health and senior services, based on the demographics of the state and patient demand to ensure statewide access for patients. If more than the statewide limit for medical cannabis centers are necessary to provide sufficient patient access, a medical cannabis cultivation and production facility licensee may be approved for up to an additional two medical cannabis center licenses, subject to approval by the local licensing authority and the division.

2. Before the division of alcohol and tobacco control issues a state license to an applicant, the applicant shall procure and file with the division evidence of a good and sufficient bond in the amount of five thousand dollars with corporate surety thereon duly licensed to do business with the state, approved as to form by the state attorney general, and conditioned that the applicant shall report and pay all sales and use taxes due to the state, or for which the state is the collector or collecting agent, in a timely manner, as provided in law.

3. A corporate surety shall not be required to make payments to the state claiming under such bond until a final determination of failure to pay taxes due to the state has been made by the division or a court of competent jurisdiction.

4. All bonds required under this section shall be renewed at such time as the bondholder's license is renewed. The renewal may be accomplished through a continuation certificate issued by the surety.

195.921. 1. Applications for a state license under the provisions of sections 195.900 to 195.985 shall be made to the division on forms prepared and furnished by the division and shall set forth such information as the division may require to enable the division to determine whether a state license shall be granted. The information shall include the name and address of the applicant, the names and addresses of the officers, directors, or managers, and all other information deemed necessary by the division. Each application shall be verified by the oath or affirmation of such person or persons as the division may prescribe.

2. Within one hundred eighty days of the effective date of this section, the division shall make available to the public license application forms and application instructions for medical cannabis cultivation and production facilities, medical cannabis center facilities, and medical cannabis testing facilities. The division shall begin accepting license and certification applications no later than two hundred forty days after the effective date of this section.

Applications for licenses and certifications shall be approved or denied by the division no later than one hundred twenty days after their submission.

3. The division shall not issue a state license under this section until the local licensing authority has approved the application for a local license and issued a local license as provided for in sections 195.909 to 195.918.

4. Nothing in sections 195.900 to 195.985 shall preempt or otherwise impair the power of a local government to enact ordinances or resolutions concerning matters authorized to local governments.

195.924. 1. The division shall deny a state license if the premises on which the applicant proposes to conduct its business does not meet the requirements of sections 195.900 to 195.985.

2. If the division denies a state license under subsection 1 of this section, the applicant shall be entitled to a hearing before the administrative hearing commission. The division shall provide written notice of the grounds for denial of the state license to the applicant and to the local licensing authority at least fifteen days prior to the hearing.

195.927. 1. A license provided by sections 195.900 to 195.985 shall not be issued to or held by:

(1) A person until the annual fee has been paid;

(2) A person under twenty-one years of age;

(3) A person licensed under sections 195.900 to 195.985 who during a period of licensure or who at the time of application has failed to:

(a) Provide a surety bond, proof of assets, or file any tax return with a taxing agency;

(b) Avoid delinquency in the payment of any state income taxes, personal property taxes, municipal taxes, or real property taxes;

(c) Pay any judgments due to a government agency;

(d) Stay out of default on a government-issued student loan;

(e) Pay child support; or

(f) Remedy an outstanding delinquency for taxes owed, an outstanding delinquency for judgments owed to a government agency, or an outstanding delinquency for child support.
